To Our Friends and Patrons

I have pleasure in presenting you with this, my Thirtieth Annual Catalogue. For almost a lifetime I have been engaged in growing fruit trees and seed, and during the last few years, I have had the good fortune to have trees and plants at my disposal for the growing and shipping of my products. You may, therefore, rest assured you get well-grown, clean, fresh, and rooted nursery stock, when you order from me. The present season has been much better and more favorable for the growing of all kinds of trees and plants than the last few years, and I will be able to ship fine grades of clean, well rooted nursery stock.

I was one of the first to offer trees and plants direct to my customers and without the medium of agents. Cutting out the usual 50 per cent paid to agents, enabled me to make much lower prices and in the many years I have been in the business I have saved my customers thousands and thousands of dollars. My aim has always been to furnish first-class stock at lowest possible prices by eliminating all unnecessary expenses in growing and marketing same.

I thank you kindly for the most liberal patronage of the last season, and I assure one and all, that I appreciate it very much. Soliciting a continuance of it, I am, Yours for good fruit and plenty of it.

CARL SONDREGGER.

REFERENCES. My old customers know me. I refer all those who have never dealt with me, to Union State Bank, or Beatrice National Bank of this place, also Dunn & Co. and Bradstreet reports.

WHAT I AGREE TO DO

MY TREES ARE GUARANTEED TRUE TO NAME. I take all proper precaution to have my trees true to label, both in the propagating and packing department, knowing how perplexing it is to find that trees are not true to name when they come to bearing. Should any tree, though, from any fault of our own prove not true to label, I will, on proper proof, either replace double the number, or refund the price paid for such trees and 6 per cent compound interest. It is understood, though, that I will not be liable for a greater amount than above stated. Above guarantee to be good on all shipments of trees and plants made after December 1, 1914. This shows my utmost confidence that I am doing everything possible to send out stock true to name.

DISCLAIMER ON SHIPMENTS OF SEEDS. While I exercise the greatest diligence and care to have all my seeds true to label and of best quality, I wish it understood that I give no warranty, express or implied, as to the description, quality or productivity of any seeds I send out, and will not in any way be responsible for the growth of the crop. If the purchaser does not accept the goods on these terms, they are to be at once returned. Subject to above conditions I make sales at the very moderate prices at which I sell my goods. This disclaimer is used by all reputable seed houses.

PREPAYING FREIGHT. I prepaid freight (not express) on all railroads and on all foreign shipments to the United States border, on all orders for trees and plants (not seeds) amounting to $10.00 or more, provided the full amount of the order is in my hands before I make shipment. If you prefer to pay your trees by express, I will pay as much towards the express charges as the freight would amount to. You will have less annoyance and trouble if you pay freight in advance.

It also saves us a good deal of bookkeeping in a very busy season if the full amount is sent in with the order. Have your bank look up the German Nurseries and Seed House in Dunn's or Bradstreet's reports. You will find that we are responsible.

On seeds to bulk, unless to all foreign orders, I do not pay the freight unless by special arrangement. I might mention here, though, that after this freight rates out of Beatrice and to any point in Nebraska will average under 50 cents per pound, owing to a new tariff ordered by the Nebraska Railroad Commission. This should be quite an inducement to order your seeds and trees of me.

PARCEL POST

On pages 64, 65, 66 and 67, I give prices of all trees and plants that can go by parcel post, and at these prices I pay all postage. Please figure those prices when stock is wanted by parcel post, and do not order any other trees or other sizes not given on pages 64, 65, 66 and 67 to go by parcel post.

The difference in the prices by freight or express and by mail is a little more than just the postage, as it costs me a great deal more to put up trees for mail than in bales or boxes.

PRICES are given at the rate of one, ten, one hundred and one thousand. Five trees go at the rate per tree, but if you order trees at the rate per 100, and 500 trees at the rate per 1000. This means that you can take 50 apple trees of as many varieties, as you wish, and order them at the rate per 100, and the rest at the rate per 500 trees.

REMITTANCES should be made by Postal or Express Money Order, Bank Draft, Registered Letter, or I will take your personal check, if you prefer. Postal stamps in small amounts can be sent if necessary. A good many of these, though, reach me in bad condition, especially in damp weather.

CLUB ORDERS. If a number of neighbors order together, I will make each order separate, with the purchaser's name attached, and then pack all together in one box. Persons sending in club orders please state what they wish for their trouble and I will gladly send a reasonable amount of trees, plants or seeds, free, for their efforts in getting these orders.

CLAIMS. All claims for errors, shortage or anything else pertaining to your shipment, must be made promptly after receipt of goods. In writing to me about your shipment, please remember to give your order number, and full particulars. Human help is not infallible, and shipments, as well as mail matter, will miscarry, but please understand this: The complete satisfaction of my customers is my first wish, and I gladly rectify any and all errors on my part.
RAILROADS. I can ship from Beatrice direct over the Burlington (C. B. & Q. and B. & M.), the Union Pacific, and the Rock Island Systems. Also have splendid connections over all other lines at nearby terminals and connecting points.

EXPRESS COMPANIES. I have the Adams and the American Express Companies here. By these companies I am enabled to ship goods to any Express office in the United States, as well as to Canada and foreign countries. Rates are now much lower than formerly, and packages of 40 or 50 pounds go almost as cheaply by express as by freight and, of course, reach destination very much quicker.

TREES AND PLANTS FREE FROM INSECTS. My nurseries have been inspected by our State Entomologist, and are again inspected by an expert before shipping. You will get clean trees, free from any disease. There never has been any yellows or San Jose mite in our county, and I take every precaution possible to safeguard my customers. I also aim to comply with the laws regulating the traffic in trees and plants of all states, so my customers will have no trouble in getting the correct stamps on their packages. I will replace them, free of charge, as soon as I am notified.

QUALITY OF STOCK. My trees and plants are well and carefully raised, and grafting and budding are done by experienced workmen. I dig with the most modern tree diggers, and you get practically all the roots thereon on a tree. Nothing is left undone to insure well developed, straight trees, with good, even tops and without forks. You will find my trees graded to the sizes given in this catalogue, and you will get just what you ordered. My soil is especially adapted to the raising of first-class nursery stock, and my rather severe climate insures vigorous, hardy stock, that can stand the raw, cold winters and the hot, dry summers, if necessary. I can point to good orchards from my nurseries in the Dakotas, as well as in California, Missouri and New York. You make no mistake in purchasing your trees of me.

ABOUT MY PRICES. I know the professional tree agent is continually talking against me. He will tell you that my trees are no good; that because they are so much cheaper they are not budded or grafted right; he will insist that his varieties are the only ones that grow in your climate. He is naturally fighting hard to make a sale, as he is well aware that he cannot compete with my prices. He has hotel bills, livery bills and car fare to pay, in order to see his customers personally. This comes very high, and he must add these expenses to his prices, while I send you a catalogue at a cost of 15c each. This accounts for my low prices. I aim to send out only first-class trees and plants, and with plenty of roots. All inferior, crooked or injured trees are carefully graded out and burned, as I well know that poor trees are dear at any price. In this way I have built up a large business with a very small beginning, my stock having always been the best advertisement for my Nurseries. My trees, plants and seeds, the first-class ones are considered first, and then the price. Quality will be remembered long after the price has been forgotten.

GUARANTEED DELIVERY. I guarantee the safe arrival of all my shipments at destination. I will replace free of charge, any shipment lost or spoiled in transit, no matter whether goods go by freight, express or parcel post. You are not taking any risks. Trees and plants go by fast freight, and we seldom have any trouble, although we ship thousands of boxes as far East as New York and West to the Pacific States.

PACKING. In order to be able to handle my fast increasing trade, I have built a new packing house and cold storage shed for my purposes. It is 125 by 100 feet, and 20 feet high, containing 20,000 square feet of floor space. My trees are not exposed to the sun or wind while being stored and packed. I drive direct from the nursery ground into the storage rooms, where the stock is graded and bailed out into the sheds there. In almost all cases where shipments go by freight, I pack in paper-lined boxes. When trees go by express, I pack in bales. Packed in this way, trees cannot be damaged in transit. I guarantee that all trees and plants reach my customers in fresh, healthy condition, wherever they go.

I send trees to Alaska, New Zealand, South America and China. I made a shipment of trees to China about January 1st, consisting of over 500 fruit trees for a German nursery. They were put on the steamer from San Francisco, January 15th, but were mislaid by a transportation firm there. Since, I have received the following letter from Reedley, Calif.: "Probably the following news will interest you: When Missionary Rev. H. C. Bartell of China bought some trees or you last winter, they were lost a few weeks. Finally after much trouble and expense, I found them and forwarded them to China and they finally arrived at destination, and I have just received a letter from Rev. Bartell under date of May 22d, as follows: 'Trees finally arrived and, to our astonishment, the most of them are growing now.'"

"June 23, 1914." (Sig.) M. B. FAST, Reedley, Calif.

NEVADA CUSTOMERS. On orders for trees and plants amounting to $10.00 or more where I pay freight charges, I make an additional charge of 10 per cent for freight charges, as freight rates to Nevada points are much higher than to any other state.

INDEX. For quick reference see Index on last inside cover page.

PHOTOGRAPHS. I always like to have photographs of trees, shrubs, fruits or vegetables that came from my nursery. I offer $5.00 in cash for the best picture; $3.00 for the second best, and $2.00 for the third best. Here is something for the girls and boys with their cameras. Prizes will be paid Oct. 1, 1918.

Wünschen Sie einen deutschen Katalog bitte zu schreiben.

Parcels Post: If you wish trees or plants sent by Parcels Post or Mail, please figure Parcels Post prices as quoted on pages 64, 65, 66 and 67.

CATALOGUES I PUBLISH. GENERAL NURSERY AND SEED CATALOGUE, of which this is a copy, GERMAN CATALOGUE, same as above, but in the German Language. MARKET GARDENER'S WHOLESALE CATALOGUE, for the large and small truck farmers. FALL CATALOGUE, being illustrated, price list of Bulbs and Seeds for Fall planting.
FRUIT DEPARTMENT

APPLES

The most important fruit we have, should be largely planted, as good apples always find a ready market at good prices. The few fall and mostly winter varieties. In this way you will have apples almost the whole year, as some winter varieties will keep until May or June and the Early Harvest ripens again in July.

We give the best selection of varieties and you will find descriptions true, as near right as possible. All our trees have good caliper and are of the sizes given. None of the apples we offer are over two years old from bud or graft, are thrifty and well rooted. Prices of all varieties of Apple, except Delicious and Golden Winesap:

By Freight or Express.

| Per 1 Per 10 Per 100 Per 1000 |
|-------------------------------|-------------------|-----------------|-----------------|
|                               | $9.00             | $8.00           | $7.00           |
|                               | 10.00             | 9.00            | 8.00            |
|                               | 11.00             | 10.00           | 9.00            |

The 4-5 and 5-6 feet trees are well branched with good tops and strong caliper. The 3-4 feet are partly branched and whips; the 2-3 feet all straight whips. All are well rooted, as firm a lot of trees as I have ever offered.

WINTER VARIETIES

BEN DAVIS. Old variety, large, red stripes, good keeper, quality medium.

FRANZ. A new apple from Germany. The tree is entirely hardy, and has stood the test of the severe winters of 1888 and 1889 in Minnesota without being damaged in any way whatever, and has borne a crop of apples at least two years. It is a strong, vigorous grower, of symmetrical form, has smooth bark which never cracks, or becomes scabby, the fruit is borne in clusters, and the apples hang tightly on the tree, and it is seldom that one is blown off by the wind. The trees commenced to bear three years after transplanting, and have since borne a crop every year. When six years old, most of them bore over a bushel of sound apples. The fruit is medium to large in size, greenish with red, with white and tender meat, very thick skin, and ripens in Minnesota from the 20th to the end of September. It is a long keeper. Franz apple can only be bought of us.

Below are two very hardy varieties for the extreme North and Canada.

HIBERNAL. Origin, Russia, December. This variety represents what is probably the hardiest type of the Russian race; adopted by many prominent horticulturists here and abroad as a standard, beauty and keeping qualities leads me to believe that it is a very promising apple.

I think it is the prettiest apple I have ever seen, and to me it tastes somewhat like a Reinette, a variety of apple we raised in Switzerland. It is of fine flavor, texture and quality, keeps well in storage and does not get mealy. In this respect I find it better than Delicious. I personally recommend this apple to my customers. Try a few. I am sure you will be pleased with the results.

I get my stock of the Golden Winesap from The Fruit-Grower and Farmer, St. Joseph, Mo., who control the original tree.

Price: 3-5 ft., 90c each; 10 for $7.50, postpaid.

ARKANSAS BLACK. Large, rich dark red, fine flavor, best quality. Good keeper. Regular market variety.

BALDWIN. Large, bright red, crisp, juicy, rich. Very productive. Good Eastern variety; not planted much in the West.

BISMARK. The remarkable characteristic of this apple is, that of early fruitage, one-year grafts and two-year trees perfecting fine and handsome fruits. Tends on dwarf stocks growing in pots or tubs, makes fine decorative specimens. Fruit is large, handsome, yellow, shaded with red, tender, sub-acid, of medium quality, good for dessert or cooking. One of the best for market.

BLACK BEN DAVIS. Stronger, harder, better resister of drouth than the old Ben Davis. Fruit very handsome, large, solid dark red, long keeper and of best quality. One of the best for market.

INGRAM. Medium size, yellow, covered with red; sub-acid, brisk, pleasant. Tree quick grower; bears abundantly; not affected by dry weather or off-year conditions; fruit always needs thinning. Keeps till June.

JANET. Medium size, green, juicy, good flavor. Blooms late, good keeper.

JONATHAN. Best in regard to quality and flavor. Largely planted for commercial orchards. Red, bears young and constantly. One of the very best apples. Not hardy north of here.
TRUE DELICIOUS. Fruit is large, with the surface almost bested by a ruddy, bright, dark red, blending to golden yellow at the blossom end. In quality it is unsurpassed. A very sweet, sharp melting and withal delicious. In keeping quality it ranks with the best, coming out of storage in March and April. This tree is of the first class. Is very hardy. Delicious originated twenty years ago at Peru, Madison Co., Iowa, by the late Jesse Hiatt, and on this soil it is the only variety which bears annual crops of beautiful fruit. We advise all our customers in the Middle West to plant Delicious. You will never regret it. No better apple exists. Is no more an untried novelty, but has been largely planted in the Middle West and is a most desirable variety. Commercial orchardists plant them by the thousand.

Price of Delicious Apple;
By Freight or Express Per 1 Per 10 Per 100 Per 1000
2-3 ft., 2 yr. roots, 1 yr. top $0.10 $0.95 $ 9.00 $85.00
3-4 ft., 2 yr. roots, 1 yr. top .15 .10 12.00 115.00
4-5 ft., 2 yr. buds, well branched .25 .20 20.00 190.00
5-6 ft., 2 yr. from graft or bud, well branched .25 .20 25.00 240.00

MAMMOTH TWIG. Fruit large, dark red, firm, sub-acid and juicy; excellent quality and a long keeper. A very desirable variety.

MISSOURI PIPPIN. Bears young and hardy. Fair quality. Does well in western Kansas and western Nebraska.

MOLINE RED. Large, roundish, red. Flesh white, tender, mild, sub-acid. Very hardy and largely planted in Montana, Idaho and Wyoming. A good tree everywhere, and should be planted much more in Nebraska, as it is perfectly hardy here.

NORTHERN SPY. Large, bright red, extremely hardy. Very good quality. A very late bearer.

WEALTHY. A variety highly valued for its extreme hardness. At the Fair Nearly a thrifty grower and a good bearer. Fruit medium, roundish, skin smooth, mostly covered with dark red, flesh white, fine, grainy, juicy, sub-acid, good quality. Will keep till January. Extra sort and splendid dessert and cooking apple. This is one of the few most desirable varieties for Minnesota, Wisconsin, Iowa and Nebraska, as well as the Eastern and Middle States.

FAMEUSE (Snow). Fine dessert apple. Deep crimson, snowy white flesh. Hardy, but does not bear as young as some other varieties.

MAIDEN BLUSH. Good size, fine flavor, beautifully blushed, good bearer, a fine apple for home and market. September.

SUMMER VARIETIES
All early varieties bear well, but apples do not keep long. It is therefore not best to plant too many of these early trees.

EARLY HARVEST. Fruit medium size, greenish yellow, tender and juicy. First of July to early August.

RED JUNE. A little later than Early Harvest. Medium size, yellow and red, with red stripes, very good quality, good bearer. The best early apple. July to August.

RED JACQUIN. A variety of very hardy, bearing well. Fruit medium size, greenish yellow and red. Several varieties. A hardy variety. July to August.

YELLOW TRANSPARENT. One of the earliest apples. Fruit is medium large, smooth, transparent. Skin is clear white, turning pale yellow when ripe. Flesh white, fine, acrid, aromatic, and of splendid quality. Tree is vigorous, good bearer. Two-year-old trees frequently produce in all the western states, and should be planted in all cold climates. Succeeds well on thin soils. Ripens in early August. Its hardness, vigor and early bearing commend it.

NORTHERN GREENING. Extremely hardy and vigorous grower. Fruit large, greenish yellow when ripe. Good quality and a long keeper. Especially recommended for Northern states.

ROME BEAUTY. Not hardy in Nebraska, but a fine apple for the Southwest and Pacific countries. Fruit large, yellow with red. Good quality, a long keeper and largely planted for commercial orchards.

SPITZENBERG. Large, oblong, nearly covered with red. An old variety, good bearer, very hardy and profitable. Regular market variety.

STAYMAN'S WINESAP. An improved Winesap. The fruit is red, juicy, sub-acid, aromatic, fine quality and a long keeper.

WINESAP. Old favorite, vigorous grower, and hardy. Fruit bright red, sub-acid, good quality, long keeper.

WHITE WINTER PEARMAIN. Pale yellow, juicy, tender and of best flavor. Largely planted on the Pacific Coast.

YORK IMPERIAL. Should be largely planted. Fruit large, almost entirely red, tender, juicy, best quality and hardy in Nebraska.

YELLOW BELLFLOWER. Large, oblong; yellow, sometimes a blush in the sun; flesh firm, crisp, juicy, sub-acid; one of the standard varieties in California and should be extensively planted; tree a good grower, very productive; largely planted in the East.

WINTER BANANA. An excellent variety, which has stood the severest tests. Tree is hardy and will succeed in very cold climates, its wonderful productive qualities will bring quicker and larger returns than any other apple in the orchard. The fruit has a richness in flavor that cannot be described. Sur-passes in aromatic taste the choicest pear. Flavor very rich, spicy and aromatic. Flesh golden yellow, finely grained, firm and juicy. Tree a very strong grower and will grow to be of immense size, suitable for lawn or shade tree, the leaves being nearly double the size of other sorts. Plant freely in Nebraska.

FALL VARIETIES
(See prices, page 2)

AUTUMN STRAWBERRY. Good size and color, fair quality for table and market. Ripens in Sept.

RAMSEY'S SWEET. Rather large, dark red, productive, best sweet fall apple. September.

True Delicious
CRAB APPLES

Perfectly hardy everywhere. Good annual bearers. Excellent for cider, preserves and canning.

FLORENCE. Originated in Minnesota. Profuse bearer. Fruit large and of good quality.

HYSSOP. Medium size, crimson red with blue bloom. Fine quality, very showy. Should not be planted north of here. September to October.

MARSH. Handsome, showy, best quality and enormous bearer. One of the best.

WHITNEY NO. 20. A large crab, 1 1/2 to 2 inches in diameter. Skin smooth, glossy dark crimson, striped with red. Flesh firm, juicy, and flavor very pleasant. A fair dessert apple, and one of the best for cider and vinegar. Tree a great bearer and very hardy. Really deserves a place in every apple list. For the five most profitable varieties, add the Ben Davis or the Gano, and Stayman's. The seven most profitable varieties extend to include Wealthy and Grimes. The ten most profitable varieties, add Yellow Transparent, Benoni and Maidan Blush.

DWARF APPLES

These are budded on Doucln stock, which dwarfs the trees, same as Pear or Quince stock. They are perfectly hardy south of Nebraska and can be raised successfully north of here, if the ground around the trees is covered with straw or a few showings of dirt over winter. Dwarf apples bear fruit when two or three years old. They are especially adapted to plant in small yards or town lots, where the space is limited. They can be planted 10 x 10 feet. They also can be grown in tubs or barrels and will bear in a short time.

Dwarf Pear trees are budded on Quince stock. They never grow very large, therefore can be planted close together, about 12 by 12 feet is right. This makes them suitable for gardens and town lots. They will bear two or three years after being transplanted. If the ground is broken up around the tree in the late fall to protect the roots, they are perfectly hardy in Nebraska. Spraying with Bordeaux Mixture will keep the blight away. Try a few trees and you will be surprised how soon you will raise a crop of pears. We have the following varieties of Dwarf Pears:

Duchess, Keiffer, Clapp's Favorite, Seckel, Anjou, Bartlett

For description of these varieties see under standard pears.

For this vicinity I prefer Duchess and Seckel. Have had the best success with them.

WHAT OUR CUSTOMERS SAY

I will write you a few lines to let you know what I think of your nursery stock. I have built up a whole new place about five years ago, and have ordered stock from you every year since. In every tree and shrub that I planted on this place was ordered from you, and I am pleased to say that they are all doing fine and to prove what I say, I hereewith enclose another $10.00 order. Peter J. Gaul.

Apples from a 3-year-old Dwarf Yellow Transparent in my orchard.
This is one of the very best fruits we have. It far excels the apple in flavor. They should be planted 20 feet apart. It is advisable to plant several varieties in the same orchard as the trees will bear better. Tendency of the pear root is to grow straight down, therefore the holes should be dug deep (or, better yet, shoot the holes with dynamite), and refilled to prevent depth with loose earth. Spraying with Bordeaux Mixture prevents pear blight. Cut back the long shoots every year about half, and you will have no trouble in raising plenty of pears here in the West. Our list embraces the best varieties. Pears do well in a variety of soils, on clay-loam, sandy, gravelly and rich soil. The soil, however, must not be wet. They will thrive where apple or peach would starve, and will produce good fruit without much care or cultivation, yet it requires well any attention to care. Pears are always marketable at a good price.

Besides the above sizes we have Keiffer and Garber trees 5-7 feet, 1 inch and over caliper, and offer them at 45¢ each, 10 for $1.00, 100 for $30.00.

**ANJOU** (Beurre d’Anjou). A large, greenish pear, shaded with russet crimson. The flesh is highly flavored, rich and vinous, excellent quality. The tree is very productive, either dwarf or standard. Fruits are large and yellow, and we have no better variety. Keeps well until winter holidays, when it demands a high market price. A valuable and profitable sort that succeeds everywhere, is popular on all markets, and is one of the very good pears that has been neglected by orchardists. Ripens October.

**BARTLETT.** Fruit large, skin very thin, clear lemon yellow, with soft blush on sunny side. Flesh white, buttery, very juicy and highly flavored. The best summer pear in existence. Tree a strong grower, very fruitful and bears young, but requires good cultivation to bring fruit up to its highest excellence. Thrives in all parts of California. The most popular of pears, and highly esteemed for canning and shipping. Ripens August to September.

**JAPAN GOLDEN RUSSET.** Large, handsome, flat shaped fruit of golden russet color. An enormous bearer. Quality about the same as the Keiffer. Fine for cooking and for canning. Largely planted in Oklahoma and Texas. Very profitable market sort; keeps well in winter. Does well in Nebraska.

**CLAPP’S FAVORITE.** Tree a vigorous, upright, spreading grower, very hardy and productive. Fruit very large, of uniform size, pale yellow, flesh fine grained, juicy, buttery, melting, sweet and rich. One of the best for Nebraska. Ripens last of August. See illustration, page 6.

**FLEMISH BEAUTY.** Large, handsome, sweet and melting, pale yellow, covered with russet. Hardy, vigorous and good bearer. Ripens in September.

**KOONCE.** Medium size, yellow with carmine cheek, sweet and highly flavored. Tree vigorous, produces blight, a good bearer. Hardy. Ripens July to August.

**SECKEL.** (Sugar Pear). Small, but of highest flavor. Tree slow erect grower, healthy and hardy. Probably the best dessert pear on the market. Ripens September to Oct.

**WILDER.** Medium size, greenish yellow. Very good quality and profitable. Early August.

**ROSSNEY PEAR.** (See first cover page). Ripens at a time when good pears are in demand; two weeks after Bartlett. Possesses a delicious flavor, tender, sweet, juicy, and is very large and handsome. Creamy white skin with deep yellow blush. Tree is a vigorous grower (equal to the Keiffer), hardy both in wood and fruit bud and very productive. Combines excellent quality with large size, fine form, and superior shipping qualities. Originated near Salt Lake, Utah. I recommend this pear very highly.

By Freight or Express

Branch from a 4-year-old Dwarf Seckel Pear tree grown in my garden.
QUINCES

In Quinces we have a very desirable fruit. It is used a great deal for preserves and canning, especially with other fruits. A small part of quince will impart the quince flavor to three or four times as many apples. Quince syrup is very delicious, even excelling the finest maple syrup. The tree is easily transplanted and does well on any good soil on which corn grows well. It is hardy as far north as Nebraska. Plant trees as close as peach or plum. Under proper conditions and good culture the tree bears heavily and regularly and is a highly profitable crop.

CHAMPION. Fruit large, oval, rich and aromatic, fine flavor and long keeper.

RUSSIAN VARIETIES

ALEXANDER. Good size, oblong, yellow with red, sweet and delicate. Tree very hardy. Middle of July.

BUDD. Large, yellow, with red cheek, rich and slightly acid. Tree hardy and very prolific. July 1st to 10th.

SUPERB. A new variety from Kansas, very hardy, of the Russian type. The best flavored, most productive apricot yet produced. Medium size, light salmon color and excellent quality.

AMERICAN VARIETIES

EARLY GOLDEN. Fruit small, pale orange yellow with red cheek, very sweet. Tree hardy and productive. The best of the small fruited sorts. Ripens about July 1st.

RUSSIAN APRICOT SEEDLINGS

These are grown from seed of the Russian apricot, but are not budded or grafted. They bear good fruit, not very large, but well flavored and are very hardy, having borne fruit as far north as the middle of South Dakota. Very pretty, erect, ornamental tree, with dark glossy green leaves and pretty pink flowers.

Price: 2-3 ft., 10c each, 10 for 80c, 100 for $7.00.

WHAT MY CUSTOMERS SAY

My 160 apples and 160 Elberta peach I got of you are looking good and doing fine; all living, never lost one; and my last spring trees, the 25 quince and 10 German prune trees, all lived, and I even had a blossom on one of the quince trees. Yours truly, John Ice.

All the trees, plants and shrubs (order of over $300.00) with the exception of six tree roses, were approved of by Mr. Manby and he asked me to thank you for the nice stock. Yours truly,

Max Spiess, Arroyo Hondo, N. Mex.

Rising Star, Tex., March 31, 1915.

Your shipment came all O. K. and came just as we were in need of it; so thank you for your promptness. The ten Delicious apple trees I ordered from you are doing fine.

D. A. Hanson.
CHERRIES

This is one of the best fruits we have. The sour varieties are very hardy and will bear a full crop almost every year, commencing to bear when three years old. There is hardly a more profitable fruit tree than the cherry for the Western states. Sweet cherries need a very protected place in Nebraska, as they are not so hardy as sour kinds.

The cherry succeeds well on dry soils. Should not be planted in damp or swampy places. The cherry, being a very hardy tree, will thrive in the Northern states. Perhaps no other fruit crop brings larger or better returns, and it is strange that they are not more largely planted for commercial purposes. They will thrive under more careless cultivation than any other fruit, and even with the fruit they respond quickly to good care and should be cultivated at least until the trees commence to bear.

All our cherries are budded on Mahaleb stock, which does not sprout from the roots. The trees must not be planted too deep, about an inch deeper than they stood in the nursery. Plant about 16 x 16 feet. By heading the main leading branches back, the first few years, you will get low, bushy tops, which will come very handy in picking the fruit.

Prices of all varieties of Cherries, except Compass, Rocky Mountain and Cornell:

EARLY RICHMOND (English Plu Cherry). A well-known old standard variety. Tree is hardy, healthy, a tree grower, very productive and regular in bearing. Fruit red, of medium size, acid, rich and one of the best for canning. The most popular of the true Kentish cherries. Ripens in June.

ENGLISH MORELLO. Fruit large, very dark red, nearly black; tender, juicy, acid, rich, of good quality. Owing to its rich red color looks much better when canned than the Early Richmond. Tree dwarf, slender and spreading; bears young. Ripens July.

MAY DUKE. An old, well-known, excellent variety. One of the best and most dependable of the Duke class. Fruit large, dark red, juicy and rich; almost sweet. Tree is rather dwarf in habit, vigorous and productive. Ripens in June.

LATE DUKE. Large, light red, late and excellent. It ripens when most other cherries are gone and always brings a good price in the market. Ripens end of July.

MONTMORENCY. Large, red, rich, acid. Very hardy and productive. A cherry of the Richmond class, but larger and more solid. Strong, upright grower. Ripens ten days later than Early Richmond.

OSTHEIMER. Large, heart-shaped, nearly black when ripe; juicy and rich. Fine for dessert and cooking. Unsurpassed for market. Trees bloom late and bear fruit when quite young. One of the most productive of all cherries. Ripens middle of July.

Wragg. Originated in Iowa and has become very popular in the Northwest and Western states. Fruit is medium to large, dark red and of fine quality. Tree is very hardy, vigorous and productive, is of dwarfish growth, with spreading round head; not subject to disease. This is one of the few cherries of good commercial quality that is perfectly hardy. Ripens in July.

HEART OR SWEET VARIETIES

Bing. Very large dark brown, almost black; flesh firm, sweet, rich and delicious. On the Pacific coast, where this variety originated, it is considered one of the most profitable sorts.

BLACK TARTARIAN. Very large fruit of purplish-black color, flesh is mild and sweet, of superb quality. Tree is vigorous, upright grower and immensely bearer. A popular cherry and fine market sort. First of July.

Lambert. This very promising cherry is of the largest size, bright rich dark purplish-red color, turning almost jet black when ripe. Surface smooth, glossy, covered with minute russet dots. Flesh red dish with whitish veins; very firm and of unsurpassed quality. Stands well in the lead as a shipping variety. Tree healthy and rugged, strong grower, immensely bearer. Ripens ten days later than Napoleon Bigarreau.

YELLOW SPANISH (Bigarreau). Large, heart-shaped, pale yellow, with bright red cheek when exposed to the sun. Flesh firm, juicy and delicious. Very popular and a good market cherry. Tree vigorous and productive. Ripens late in June.

Sonderegger's Sweet. We can not furnish this variety this season. Will have a good stock of them next year.

WHAT MY CUSTOMERS SAY: Harrissburg, Col., Apr. 6, 1915. I got 60 fruit trees of you last spring; only lost one; all made a good growth; put out 10 Compass cherries about 2 feet high; they now have from 4 to 10 straight limbs from 2 to 4 feet long. Yours truly, Ed. King.
COMPASS CHERRY-PLUM

The almost phenomenal sale of Compass Cherry-Plum last spring, shows again how well this fruit is liked wherever known. Please compare our prices with those of the tree agents. We have made prices very reasonable, and besides you will be sure to get the true Compass.

Absolutely hardy everywhere. The cherry was originated at Springfield, Minn. It is a cross between the Sand Cherry and the Hesper Plum. Fruit nearly an inch in diameter, a bright red, sweet and juicy, and of very fine flavor. When young and green the fruits have the appearance of undeveloped plums, but as they mature they become round, like a cherry. This is somewhat elongated. The color of the fruit is bright red, when fully ripe, a dark wine shade. It looks more like a plum than a cherry. For canning and culinary purposes this fruit will surpass this fruit is unsurpassed. The original tree bore fruit the third year from the seed and has borne a full crop every year since. The tree is a regular and heavy bearer, and produces fruit the next year after setting out. Its early bearing is truly wonderful. This tree should be planted everywhere. It will do well from Texas to North Dakota. Especially would I advise my customers in western Nebraska, western Kansas and eastern Colorado to plant them largely. They will bear good crops of valuable fruit when other trees fail.

Note what some of our customers have to say in regard to Compass Cherry-Plums:

"The little Compass Cherry-Plum trees bore a good amount of fruit the second year although it was very dry here. The fruit is very good. I believe this will be the best cherry for this part of Texas and I will plant more of those trees."—C. S. Schmoker, Very Well, T. Ass.

"It may interest you to know that the Compass Cherry-Plum set out in December bloomed the following April and bore some fruit on the yearling trees no more than two feet high. The entire stock was first class and better than I have received from any other nursery."—J. G. Hovey, Eunice, N. M.

DeSoto, Iowa, October 9, 1914.

"Dear Sirs: The Compass Cherry-Plums I bought from you one year ago last spring, were loaded with fruit this summer. The black currants have made a great growth—had a few currants on, but the bushes are getting a great size."—J. Thompson.

ROCKY MOUNTAIN CHERRY

A native cherry of dwarfish habit, perfectly hardy everywhere in the Northwest and stands coldest winters without protection. Fruit about as large as Early Richmond, color dark brown to black. Somewhat astrigent to eat from the hand, but cooks well and makes fine preserves and jellies. Very early and an abundant bearer. Can be planted as close as currants. Very desirable in the Northwest, where better cherries cannot be grown. Ripens early in July, after other cherries are gone. Bush (it is not really a tree) is very ornamental and deserves a place in every yard.

CORNELL-CHERY (Corus Mascula)

A small tree or bush, very ornamental. Flowers which come very early are golden yellow, while the berries or cherries are red and edible, somewhat acid; fine for jellies. Well known in Germany, where it is largely cultivated for the fruit. Also used for hedges.

**Price:** 2-year-old bushy plants, 35c each, 10 for $3.00.

FIGS

These can be planted in the open in the Southern states. Should do well in most places in New Mexico, Texas and southern Oklahoma. In the Northern states it is best to plant them in tubs. In my own garden I have succeeded in wintering them by laying the trees down, and covering them with dirt and straw manure.

**CELESTIAL, OR CELESTE.** Medium size; pale violet, delicate bloom; sweet, dessert quality. Best for general planting. Celestial is successful much farther north than most other varieties; it is the hardiest of all figs. **Price:** 3-4 ft. trees, 35c each, 10 for $3.00.

PERSIMMON (Diospyrus Virginica)

A native of the Southern states, but will thrive and ripen its fruit as far north as the Great Lakes. The tree reaches a height of 20 to 30 feet. The fruit is not large, is to 1 inch in diameter, and must be fully ripe to become edible. A valuable ornamental tree. Will thrive on the poorest soil.

A great change is wrought in the fruit of this tree by the early frosts. Under their influence it becomes sweet, high flavored, rich and racy. Long after the others have fallen the branches are so heavily laden with plum-like fruits that the tree seems all aglow with the saffron pink tint of the fruit that is very ornamental.

PLUMS

Plums should be planted about 10 feet apart, and varieties should be mixed. Better plant four or five varieties than only one, as they will bear much better than when one variety is planted alone. The native varieties do well anywhere in the West. The foreign varieties are very hardy and will do well as far north as Minnesota and South Dakota. The plum prefers a rich and rather sandy or clayey loam soil, and, like all fruit trees, it will not thrive in cold, wet land. To one who is willing to give his orchard a reasonable amount of attention and cultivation, plum growing can be made highly profitable.

NATIVE VARIETIES

HAWKEYE. Large, light mottled red, superior quality, firm, carries well to market. Tree hardy, thrifty, annual bearer. September.

INKPA. Very fine perfectly hardy new plum. Introduced by Prof. Hansen. Plum red, with heavy blue bloom, firm flesh, good quality and rich fragrance. Skin somewhat thick but sweet. Fruit 1½ to 2 inches in diameter. When cooked the strong apricot flavor is brought out to perfection, entirely unlike any native plum. The female parent is a seedling of our wild Northwestern plum (Prunus Americana), the male parent is the large, firm fleshed fragrant apricot of China (Prunus Simoni), popular in the orchards of California. It bore a heavy crop when native plums were almost a total failure.

SURPRISE (Hortulanus). A variety introduced by Mr. Penning of Sleepy Eye, Minnesota, and is said by many to be the finest in quality of any of the cultivated varieties in the native Miner group, also the hardness of that type. Fruit large to very large, skin medium thick, tender, bright red, flesh pale yellow, mealy and of fine flavor, quality extra good. Season medium. Tree an upright, vigorous, and healthy grower; is everywhere reported very productive. A splendid variety for either home or commercial culture and should be found in every collection. The Surprise plum has given the very best satisfaction in the Western and Northwestern states.

DE SOTO. Medium size, oval, orange with bright red, flesh yellow, firm and good quality. Hardy and productive. Ripens September.

STODDARD. Fruit oblique oval, large, with little or no cavity, short and stout stem; color pinkish red over yellow, with very small white dots and bluish bloom over all; skin thick and therefore a good shipper; flesh yellow, fairly juicy and of good quality; stone medium, cling. Season medium early. Irwins (Iowa) says of it: "Largest on my grounds; comes

Compass Cherry-Plum, 3-year-old, in full bloom in my garden.

Into bearing very early; extremely productive; very fine quality. Tree is a vigorous, upright grower and has proved hardy.

WOLF. No Western native plum has been more generally commended than this. It is very productive, regular in bearing from Kansas to Minnesota, bearing perfectly hardy and has given good satisfaction whenever planted. Fruit good flavor and quality. Stone perfectly free. Season medium. Tree beautiful and symmetrical, inclined to over-bear.

WILD GOOSE. The first native plum to be generally planted. Fruit of medium size, bright, clear red, with blue bloom and very juicy. Ripens medium early. Tree healthy and spreading, blooms in large snow banks and is very ornamental. On account of earliness, productiveness and good shipping qualities it is a popular sort. July.

WYANT. Large, oblong, dark red, flesh firm, perfect freestone and excellent quality. Hardy anywhere. Good for market.

(Native Varieties Continued, Page 10)
PLUMS—NATIVE VARIETIES (Continued)

**SAPA.** Very fine, perfectly hardy new plum. Introduced by Prof. Hansen of South Dakota State College of Agriculture. Prof. Hansen's description: The female parent is one of our selected seedlings of the Western Sand Cherry (Prunus Besseae), favorite fruit of the Sioux Indians. The male parent, a large, purple-flushed Japanese plum originated by Luther Burbank and by him named the Sultan. Sultan is of the Satsuma type and is perhaps a cross with some other species. The Sapa fruited first in 1907 on a tree cut back very severely for bud sticks. The tree is plum-like in habit; one-year trees in nursery have many fruit buds; the glossy, dark purple skin, and the rich dark purple flesh of its Japanese sire. I had a good crop of Sapa plum on my farm this year, and they were fine.

**JAPANESE VARIETIES**
(Prices, see Page 9)

This type of plum is a strong grower, bears very young, from 2 to 3 years after transplanting. It is very productive, and the tree as a rule is very ornamental. They are not so hardy, though, as the native or European varieties. Here in Nebraska they seem to be about as hardy, or a little more so, than the peach. All the varieties we offer are Luther Burbank's productions. These varieties must not be planted in Northern states.

**ABUNDANCE.** Medium size, amber with red, juicy and sweet. A good market variety. Ripens in August.

**BURBANK.** When properly thinned, the fruit of this plum is very large—4 to 6 inches in circumference—nearly round, bright cherry red, making it very tempting in appearance. Its deep yellow flesh is sweet, meaty and quite firm, keeping and shipping finely. Tree vigorous and spreading; needs close pruning. Ripens late in August.

**RED JUNE.** The great early market variety. Medium to large, deep red, with beautiful bloom. Flesh lemon yellow, firm and of delightful quality. Ripens early August. A prize winner.

**SATSUMA.** A delicious plum for canning and a grand market sort. Fruit very large with deep red skin and flesh. Keeps two weeks after picking. A good bearer. September.

**WICKSON.** Very large and superb in every way. Bright cherry red and small pit. Flesh firm, sweet, tender and a good shipper and good bearer. September.

**EUROPEAN VARIETIES**
(Prices, see Page 9)

**BRADSHAW.** Very large, dark violet red. Flesh yellow, juicy, good quality. August.

**LOMBARD.** Medium size, oval, violet red, flesh yellow, juicy and pleasant. A great bearer, and very adaptable to light soils. The most popular and profitable plum under general cultivation. Ripens last of August.

**GERMAN PRUNER.** A valuable plum of fair quality for dessert, but most esteemed for drying and preserving. Large, long-oval, purple with a thick blue bloom, flesh firm, sweet and pleasant, separating from the stone. Moderate to vigorous in growth. September.

We have this year a German prune tree, bought of you, full of fine prunes, and everybody who sees the tree is admiring it, and wishes to know where we bought it. Nobody had an idea that such fine prunes could be raised here.

ROSEDA LE, IND.

Jos. Gertcher
BUDDED PEACHES

We give below a list of the hardest and choicest varieties, covering the season from July to the middle of October. Budded peaches always bring a good price, as they are much larger and finer in appearance and quality. They will bear just as often, yield as many bushels to the tree, live as long and stand as much cold as seedling peaches, while the fruit is much more valuable. Do not waste your labor and land by planting seedling trees. It doesn't pay and you will surely be disappointed.

Plant about 16x16 or 18x18 feet, in moderately rich soil. Before planting, cut all limbs back to inch, the main leader about half. Your peach trees will start to grow quicker and surer and will form a nice top. Keep the ground well cultivated. Peach trees are apt to make too much of a growth and get top heavy. To avoid this, prune them every year. Cut all dry wood out and shorten long leading branches.

We give the time of ripening here in Nebraska. South of here they would ripen earlier.

ALEXANDER EARLY. Clingstone. Medium size, almost red. Flesh white, tender, juicy. Middle of July.

BLOOD CLING. Cling. A variety of the red Indian peach; large, dark purplish red. Flesh also red, juicy and fine quality. September.

BOKARA NO. 3. Freestone. Was first raised from seed from Bokara, Asia, by the Iowa Agricultural College. It is the hardest peach I know. Has been in bearing for a number of years in Iowa, and it is claimed the fruit buds will survive 22 degrees below zero. Fruit is large, red with yellow cheek, skin tough, flesh of good quality. Prof. Budd says: "They are 30 per cent harder than any of the old varieties." Ripens the 10th of September. I can recommend this peach to all my customers in Nebraska, Iowa, Kansas and northern Illinois. You will not be disappointed.

CARMAN. Freestone. Very large, resembling Elberta in shape, creamy white with deep blush. Fine flavor, hardy and productive. August to September.

CHAMPION. (See illustration page 12). Fruit large, beautiful in appearance, flavor delicious, sweet, rich and juicy; skin creamy white with red cheeks; freestone. The peculiarity of this acquisition is its hardness. It stood a temperature of 18 degrees below zero in the winter of 1887-88, and produced an abundance in the following season, and again in 1890 produced a full crop when the peach crop was a universal failure. One of the best bearers in Nebraska. August.

CRAWFORD'S EARLY. Freestone. Highly esteemed for market. Fruit very large, oblong, yellow, with showy red cheek. Flesh red yellow, juicy and sweet. A good bearer. August.

CRAWFORD'S LATE. Freestone. Same as Early Crawford, but ripens in September.

ELBERTA. Freestone. The most popular peach in the market. Large, yellow and red, handsome. Flesh yellow, juicy and sweet. Ripens after Early Crawford.

FITZGERALD. Freestone. One of the best for the northern peach belt. Fruit large, brilliant color, yellow flesh. August.

HEATH CLING. Clingstone. Large and round; white with black spots, juicy and fine quality. Best peach for pickles. Oct.

KRUMMEL. Freestone. This is a large, round peach, rich golden yellow, blushed with carmine. Flesh yellow, tinted red at the pit, firm, rich, melting and sub-acid. Of good quality, a good keeper and shipper. Tree is hardy and healthy and a vigorous grower. Is largely planted in the East and South and on the Pacific coast and should be given a trial in the Middle West. Ripens late, at the Ohio Experimental Station about Oct. 5th. It is hardy, very productive and a moneymaker.

LEMON CLING. Clingstone. Pale yellow, lemon shaped, large. Flesh yellow and firm. October.

SALWAY. Freestone. A well known market variety. Large, yellow and red, juicy, fine. End of September.

BUDDED PEACHES—(Continued)

WONDERFUL. Large, golden yellow, overspread with carmine. Flesh yellow, highly flavored and rich. Very firm. Tree hardy. First of October.

YELLOW ST. JOHN. Freestone. Large, orange yellow, with red cheek; juicy, sweet and excellent Cling; firmness and texture of flesh and leaf not ripening until other Clings are practically harvested—makes a demand for this variety far beyond the supply. Early September.

MUIR. Large to very large, perfect freestone, flesh yellow, very dense, rich and sweet, pit small, fruit a good shipper and canner and peculiarly adapted to drying because of its exceptional sweetness and density of flesh. Has been more extensively planted than any other variety of freestone peach and the demand for it continues to be as active as ever. Last of July. Grown extensively in California.

PHILLIPS CLING. Fine, large, yellow, flesh firm, clear yellow to the pit which is very small. Preferred by canners to any other variety of Cling. Its firmness, fine texture of flesh and late season make it not ripening until other Clings are practically harvested—makes a demand for this variety far beyond the supply. Early September.

MUir and Phillips’s Cling are largely planted in California. We can assure our customers there, that our fruit will be fresh fruit from the growers or San Jose scale, and we guarantee that they will pass the California, Arizona or any other inspectors.

THE SAGE PEACH. (See first cover page.) Originated here in Beatrice; a chance seedling. The tree is a vigorous, healthy grower, very hardy, and an abundant bearer. The fruit is of good size, about the same as the Elberta, dark yellow with a deep crimson blush, making it very attractive. The flesh is yellow, very firm, juicy and of excellent quality, as good as the best. A perfect freestone. The main advantage over other peaches of the same class is the time of its ripening, which is last of September to forepart of October. At this time all regular canning peaches such as Crawford’s, Elberta, etc., are gone. The Sage Peach comes at a time when the weather is cool. No use for your lady to can peaches when the kitchen is so hot. Plant the Sage Peach and you may can them in cool weather. I have a limited stock, but make a very low price on same. Order early to be sure to get them. I know you will like the peach and the trees I offer this year.

My Sage Peach have made an exceptionally nice growth this year. They have good roots; fine bodies, and are well branched. As pretty peach trees as I have ever seen. We have no 2-3 feet sizes and only enough of the 5-7 feet for our Parcel Post trade.

PEACH SEEDLINGS
These are raised from seeds obtained at the canning factories, generally very much mixed as to varieties. 2 ft. high, 1 year, each 5c; 10 for 40c; 100 for $3.00.

WHAT MY CUSTOMER SAYS
Manchester, Md., Jan. 13, 1915, Dear Sirs: Please send me a catalogue, I would like to see your price of June budded peach trees. Those I got from you in 1913 had some peaches on in 1914. I have some which I bought in 1912 which have no 2-3 feet sizes and only enough of the 5-7 feet for our Parcel Post trade.

Casa Reina, Farm near Calistoga, Calif., Oct. 28, 1915, Order No. 630. Mayflowers, came today in good condition. They are splendid. We thank you for the extra ones to make up for those sent us some time ago, that did not come true to name. Yours truly,

HENRY STREMMEL.

FOUR BURLINGHAM Bovine Farm near Hot Springs, S. D., Jan. 12, 1915, Dear Sirs: Please send me a catalogue, I would like to see your price of June budded peach trees. Those I bought in 1913 had some peaches on in 1914. I got about a dozen of Yellow St. John. They were as nice as pictures and good. Yours truly,

FOUR BURLINGHAM BOVINE FARM.

John Saunders.
NECARTINES

The Nectarine is almost identical with the peach. Most botanists consider them the same species, the difference between the two being in the skin, the Nectarine having a smooth and the peach a downy surface. The fruit, however, is rather smaller and scarcely rich in flavor as the best peaches, but they have a very sprightly and delicious quality, and their exquisite wax-like appearance makes them highly popular as a dessert fruit. The Nectarine requires the same culture and management as the peach.

NEW WHITE. Large, skin greenish white, flesh white, tender, juicy, stone small and free, one of the best varieties for drying. Ripe in July and August.

BOSTON. Fruit large and handsome, deep yellow, with a bright blush and mottling of red, flesh yellow to the stone, very sweet, with a pleasant and peculiar flavor, freestone, hardy and productive. Ripens in September. Price of Nectarines: 3 to 5 feet, 35c each; 10 for $3.00; 100 for $28.00.

ALMONDS

These must not be planted in the Northern states, but should do well as far north as southern Oklahoma and New Mexico. Are largely planted in California and Arizona. I give here two of the very best varieties. Mr. Wickson in his book, "California Fruits," puts these two varieties at the head of the list.

1. X. L. "Tree a sturdy, rather upright grower with large leaves; nuts large, with, as a rule, single kernels; hulls easily. No bleaching necessary; shells soft but perfect; bears heavily and regularly."  

NE PLUS ULTRA. "Large and very long in shape; heavy and regular bearer; soft shell, hull free."

RUSSIAN MULBERRY

Introduced here by the Russian Mennonites. Tree very hardy, stood 40 degrees below zero and bore a crop of berries the next season. An annual and abundant bearer. The fruit is from white to pink and some black in color, and from very sweet to quite tart in taste. Canned with gooseberries or rhubarb they make a good sauce, relished by most everybody. Poultry raisers should plant largely of this tree near the poultry house or yard, as they will make a nice shade tree for the chickens, and the berries are much relished by the fowls, and are very healthful. Try it and you will be pleased, and your fowls more so. The wood is very valuable for fence posts, lasting 20 years in the ground. They also make a very pretty hedge if planted about 10 inches to one foot apart, and kept well pruned the first few years.

AMERICAN MULBERRY

The native varieties are not quite as hardy as the Russian kinds, but the fruit is larger, very juicy and of better quality. Should not be planted as far north as Nebraska.

DOWNING'S EVERBEARING. One of the most prolific varieties. Fruit very large, black, rich and sweet in flavor. Its long bearing season has made it a universal favorite. Ripens fruit during six to eight weeks.

HICKS. Fruit very large, sweet, good flavor. Well adapted for Oklahoma and Texas. Excellent variety.

NEW AMERICAN. Tree very vigorous and productive; surpassed by none. Continues in bearing a long time. Fruit 1½ inches long and nearly half an inch in diameter. Color, maroon or an intense blue-black at maturity; flesh juicy, rich and sugary. Ripens from the middle of June up to the middle of September.

Price: By freight or express: 4-5 ft. trees, 25¢ each; 10 for $2.25; 100 for $20.00.

ABUNDANCE. I believe this is the best of the large fruiting Mulberries. Fruit is long, glossy black and of excellent quality. Tree very productive, strong upright grower, is harder than the American varieties and can be grown farther North.

Price: 4-5 ft. trees, 25¢ each, 10 for $2.25, 100 for $22.00.

I pay freight on all orders amounting to $10.00 or more for Trees and Plants (not Seeds).
The past few years have witnessed a remarkable development in the planting of nut-bearing trees. Probably no branch of tree cultivation pays larger profits or is as well assured of a profitable market. The returns from established nut-bearing orchards, as well as numerous experiments, show conclusively that a successful nut culture may be made in America. Most farms contain land that would pay better planted in nut-bearing trees than in anything else; the nuts, in many cases, paying better than farm crops or fruits, while the trees are growing into valuable timber.

**SOBER’S PARAGON CHESTNUTS**

Make Your Farm Pay Letter

This is the most successful variety of Sweet Chestnuts cultivated in the United States. Emphatically, the culture of Sober Paragon Chestnuts pays, the market demand seems practically unlimited, and has been, so far, more than the quantity can be produced. The early crops—2,000 bushels—was taken by one commission merchant at a high price.

Six dollars per bushel is a fair average price for Sober Paragon Chestnuts, and the experience of other growers thoroughly accords with this. As the trees require so very little care or special attention, the cost of gathering and marketing is practically the entire expense.

The Sober Paragon Chestnut will thrive practically everywhere—East, West, North and South. It will withstand extremes of heat, cold and drought with less injury than most other trees.

The tree bears the second year after transplanting, a two-year-old tree often bears a few nuts in nursery row. It grows very fast, making branches of three to four feet in one season. The nuts are very large, often measuring 2½ inches or more across, while average nuts rarely measure less than 1½ inches. The burrs contain three or more broad, thick, handsome nuts. All of us are quite or less familiar with the larger late season nuts that are often sold, but we are too familiar with their astrangent, puckery flavor. **Sober Paragon Chestnuts are fully as mild and sweet as the native chestnut.**

Prof. Brackett, United States Pomologist, Washington, D.C., speaks of Sober Paragon as follows: “The Sober Paragon comes the nearest in quality to the native chestnut of any of the cultivated varieties that I have examined. It has large size, fine appearance and excellent flavor.” I recommend this tree for all of my customers as far north as Iowa and northern Nebraska and would advise a trial at least in Minnesota and the Dakotas. The trees transplant very easily, about the same as a peach or apple. Do not set out trees any deeper than they have stood in the nursery. The picture of a Paragon Chestnut tree was sent to us this fall. The tree was planted in the spring of 1913.

*Price of Sober Paragon Chestnuts: 5-6 ft., $1.25 each, 10 for $11. Too large for Parcel Post.*

**AMERICAN SWEET CHESTNUT.** The nuts of this tree form quite an item in our commerce. They are sweet and delicately flavored. This Chestnut is also a grand timber and ornamental shade tree, spreading in mid-summer, billowy masses of creamy, fragrant catkins above its large, deep green leaves, making a most beautiful specimen on the lawns of the finest farms in Nebraska. Chestnuts do well on medium thin and sandy land, requiring no pruning and little or no cultivation. The timber is durable and possesses a fine grain for oil finish.

*Prices: 3-4 ft. trees, each 30c, 10 for $2.75; 12-18 in. seedlings, 5c each; 10 for 45c; 100, $4.00.*

**JAPAN WALNUT (Siebold).** An illustration, page 15. If it produced no nuts it would be well worth cultivating for an ornamental tree. Grows with great vigor, surpassing all other nut trees, assuming a handsome form; needs no pruning; leaves of large size and a charming shade of green. Nuts are borne in clusters of 12 or 15 each at tips of previous season’s branches; they have a smooth shell, thinner than the English, but not so thick as the Black Walnut. Meat is sweet, of good quality, flavor like Butternut, but less oily. Tree commences bearing young; trees three to four years old produces nut in nursery row frequently producing nuts, perfectly hardy and worthy of extensive planting. One of the finest ornamental trees.

*Price of Japan Walnut: Per 1 Per 10 Per 100 12 to 18 in. seedlings, 1 year—$0.15 $1.20 $11.00 18 to 24 in. seedlings, 1 year—.25 .25 2.00 2-3 ft. seedlings, 2 years........... .30 .30 .30

**ENGLISH OR PERSIAN WALNUT.** A fine, lofty growing tree, with handy growing tree, with handsome crown, head; produces large crops of thin shell, delicious nuts that are always in demand at good prices. The fruit in green state is highly esteemed for pickling. Unlike the native walnuts, the nuts ripen on the tree and are gathered when ripe; the kernels may be easily removed after shelling, with little or no injury, by rolling the shell over a board or between the fingers. The orchards of California and the South are yielding handsome profits, and still the price of nuts in great quantities. Not hardy enough for general culture North. *Price: 12-18 inch seedlings, raised from best selected nuts, each 10c; 10 for 90c; 100 for $8.00.*
NUT TREES—(Continued)

FRANQUETTE OR PARIS WALNUT. Largely planted in California and Washington. It is quite large, of elongated oval, and very attractive; kernel full, fleshed and sweet. It buds out late in the spring. Best thin-shelled nut raised from seed. Hardier than the English Walnut, withstanding the cold winters of eastern France, where it originated. I offer seedlings from selected nuts, 12-18 in. 25c each; 10 for $1.70; 100 for $15.00. I have no grafted Franquette.

BUTTERNUT OR WHITE WALNUT. The nuts are large, long, oily and nutritious. The lofty, spreading tree is one of our finest natives, valued for its tropical appearance and beautiful wood, as well as for its nuts. Does well in Nebraska and as far north as Dakota.

BLACK WALNUT. A native of Nebraska. Of large size and majestic form, with beautiful foliage. Grows best on low ground, bears very freely. The most valuable of all trees for timber, which enters largely into the manufacture of furniture and cabinet work, and brings the very highest price in the market. Tree is a fairly rapid grower. Large, oily nuts are of fine flavor and always marketable at a fair price.

SHELLBARK HICKORY. In flavor and quality of kernel this is favorite; kernel full, fleshed and sweet. It buds out late in the spring. Best thin-shelled nut raised from seed. Hardier than the English Walnut, withstanding the cold winters of eastern France, where it originated. I offer seedlings from selected nuts, 12-18 in. 25c each; 10 for $1.75; 100 for $12.00. I have no grafted Franquette.

PECAN. The tree grows fast and bears well, producing large crops of thin-shelled nuts that are full kernelled and delicately flavored. In Southern states the pecans yield bears some profits. Not hardy here. Price: 18-24 in. seedlings, raised from best nuts, 15c each; 10 for $1.50; 100 for $15.

STUART PECAN. Grafted. This is a large, thin-shelled nut, of fine flavor, and the hardiest variety grown. Can be planted farther North than the common Pecans. As these are all grafted, they will all come true to name, while with seedlings this is not always the case. Price: 1½ to 2 ft. trees, $1.00 each; 10 for $8.50; 100 for $75.00.

FILBERT OR HAZELNUT. (Early Frauenendorf). One of the best European varieties. Nuts are large, smooth, well filled and of the finest quality. Bears when very young. A much better variety than the common American hazelnut, and fully as hardy. This forms a shrub 6 to 10 feet high, succeeding on almost all soils, preferably a damp location. One of the most profitable nuts to grow, bearing early and abundantly. Price: 18-24 inch trees, 25c each; 10 for $2.30; 100 for $20.00.

Japanese Walnut

COMMON HAZELNUT. This is the American variety that is hardy everywhere, but nuts are smaller, although of good quality. Price: 18-24 in., 100 each, 10 for $9.00.

JUNE BERRY

IMPROVED DWARF. Good substitute for the large swamp Buckleberry or Whortleberry, which it resembles in appearance and quality. Tree is hardy. Fruit borne in clusters, reddish purple in color, changing to bluish black. Fruits are mild, rich, acid; excellent as a dessert fruit or canned. Is extremely hardy, and endures the heat of summer without injury. In habit it is similar to the currant, the bushes attaining the same size. Desirable for ornamental purposes. Transplanted plants only, as division plants are rather difficult to get started. This year, I offer well rooted bushy plants, grown 2 years after transplanting. Price: 25c each; 10 for $2.

DWARF BLUE BERRY

(Vaccinium Penncyanicum.) A dwarf shrub, growing 8 to 15 inches high with very shiny leaves, and very productive. The berries are of good size, black, with a blue bloom, very sweet. This is the variety that is largely used for canning. Plant grows fine under cultivation, likes a sunny place and is perfectly hardy. Price: 15c each, 10 for $1.50, 100 for $11. We offer strong, well-rooted plants.

ELDER BERRY

Berries are highly esteemed for cooking and making cordials. In many parts of Europe they are grown for making wine; said to be of great value for medicinal purposes in case of stomach disorder. Bush ornamental, deserving of a place in every yard.

Price: 2½ feet high, each 15c, 10 for $1.50.

BUFFALO BERRY

The fruit of the Buffalo Berry resembles small currants; round, smooth, and glossy, beautiful red color. Berries ripe in July and literally cover branches; will hang on bush until nearly spring. Make excellent preserves, jellies and butter, also much used for pie and tarts and for making wine. The fruit is good everywhere, constant and prolific bearer, worth cultivating for ornamental purposes alone. Plant the Buffalo Berry for a winter berry, as they are a most delicious fruit from December to January. There are male and female plants. They should be planted about one male to four females. One plant alone will not bear fruit. Remember this when ordering.

Price: 2 to 3 feet, 25c each; 10 for $1.50, 100 for $17.00.
GRape ViNes

One of the best and healthiest fruits we have. Grows in most any kind of soil that is not wet. Any hillside will do for a vineyard. Those who have only a lot or two or a small garden, can plant them alongside a building or fence. They will take up very little room, and if properly taken care of, will bear an abundance of fruit almost every year. They make a splendid screen for unsightly buildings, or can be trained over walls and fences, repaying many times over with healthful and refreshing fruit their small cost and care. If the vines are put down on the ground in the fall and covered with a few shovels of dirt they will stand a severe climate, and some varieties can be raised as far north as South Dakota. Any good, dry soil of sufficient fertility to produce good farm crops is suitable for vineyard-planting, if the climate and exposure are favorable. Care should be taken to prune thoroughly each year, no more bearing canes should be left than can sustain a vigorous growth of new shoots. In a commercial way no fruit crop shows greater returns on the investment. On all markets grapes are very popular and command good prices. They should be planted more generally everywhere. In the open ground plant in rows 8 feet apart and 6 feet in the rows. We give below the best and hardest varieties for the West.

Dakota GraPe. Originated in Minnesota by Louis Suelter, who attained for the Northwest in grape-growing what P. M. Gideon accomplished by producing the Wealthy Apple. Berries of the Dakota are nearly as large as the Concord, are sweet and of fine flavor, making a good table grape. Also good for wine or unfermented grape juice. The Dakota ripens very early, in Minnesota generally from the 8th to 20th of August, according to the season. They are, therefore sure to ripen their fruit before frost, even in the Northern states. My object introducing this grape to my customers, principally, is its hardiness. It will stand Minnesota and South Dakota winters without covering after the first year from transplanting. If my customers will cover this grape the first winter with a few shovels of dirt, I will replace free of charge any of the vines that freeze out after that without any covering at all. This makes it a first-class grape for arbors, as it will not have to be laid down over winter. It is also a very strong grower, covering an arbor in a few years. You will be well pleased with the quality of this grape.

Price: 10c each; 10 for $1.00; 100 for $10.00.

Caco (CatAwa-BaConCord) GraPe

A Grand Novelty.

The most delicious of all grapes, whether hardy or ex- pensive. A perfectly hardy grape, that has been pronounced by America's most expert grower of Hothouse Grapes, to equal in high quality and melting texture, the finest vari- eties grown under glass. When one considers the price of the greenhouse product and realizes that the wonderful Caco can be grown in the back yard, almost without atten- tion, the force of the above statement is further increased. The appearance, the most beautiful of hardy grapes; berry large, wine-red, with abundant bloom. Bunch of good size, compact and of good form. Ripens ten days to two weeks in advance of Concord; so rich in sugar it is excellent in

Color.

flavor two weeks in advance of being fully ripe. Vine a very strong, vigorous grower, healthy and prolific. Fruit for past two years sold in open market by the crate at more than double the price of any other variety. Highly commended by prominent fruit-growers throughout the country, by clergymen, attorneys and laymen. Was awarded a medal by the American Institute at New York; the highest honor ever conferred on a variety of fruit by this time-honored institution. I cannot recommend the Caco too highly.

Price: Two-year No. 1 vines, strong and well rooted, 90c each. 10 for $5.50; 100 for $50.00.

ConCord. Black. The well-known, fine old variety, planted everywhere. Large, handsome bunches of large black berries, covered with a rich bloom. Skin tender but firm, therefore a good shipper, juicy, sweet. Hardy and productive. Two-year-old No. 1 Plants: Extra vines, very large and well rooted. As fine plants as are grown anywhere. Each, 1c; 10 for 65c; 100 for $4.50; 1000 for $45.00.

One-year-old No. 1 Plants: Strong and well rooted. Each, 6c; 10 for 50c; 100, $3.00; 1000, $25.

One-year-old No. 2 Plants: Good plants, with plenty of roots. Each, 5c; 10 for 50c; 100 for $1.50; 1000 for $15.00.

Agawam. Red. Bears well in Nebraska. Berries large, rich red color; skin thick, meaty, juicy and of rich peculiar aromatic flavor. A good bearer. Two-year-old No. 1 Plants: Each 10c; 10 for 80c; 100 for $7.00.

Two-year-old No. 1 Plants: Each 10c; 10 for 80c; 100 for $7.00.

Campbell's Early. Black. A new variety that cannot be too highly recommended. Of strong vigorous growth, very hardy, foliage perfectly healthy, very early and abundant bearer. The berries are large, nearly round, dark blue, skin thick and tough, making it a good shipper; flesh sweet, with slight aroma. The bunches are always large and beautiful. Will keep on or off the vines for several weeks, after fully ripened. An excellent dessert grape, and one of the best early market varieties. I do not know of a better grape for Nebraska. Two-year-old No. 1 Plants: Each 20c; 10 for $1.80; 100 for $17; 1000 for $150.

Worden (See Page 18)
GRAPE VINES (Continued)

CATAWBA. Red. Well-known wine grape. Bunches and berries large, of coppery red color, turning to purple when fully ripe. Best quality, a good bearer, and very profitable. Two-year-old No. 1 Plants: Each, 10c; 10 for 80c; 100 for $7; 1000 for $60.

CLINTON. Black. Bunches and berries small and compact. Berries juicy and quite acid. A good grape for dark red wine. Vine vigorous grower, productive and hardy. Very desirable as an arbor grape. Two-year-old No. 1 Plants: Each, 10c; 10 for 80c; 100 for $6.50.

ELVIRA. White. Bunches medium size, very compact. Berries small and sweet when fully ripe. A splendid wine grape. Hardy, vigorous grower and productive. September. Two-year-old No. 1 Plants: Each, 10c; 10 for 75c; 100 for $6.00.

GREEN MOUNTAIN. White. Originated in Vermont, at an altitude of 1,400 feet, where it ripens its fruit perfectly. Vine strong, vigorous and healthy, very hardy and a good bearer. Bunches long, compact, and well shouldered. Skin thin, very tender, sweet, with few seeds and excellent quality. Three weeks earlier than Concord. Is highly recommended as a sweet, fine table grape. Two-year-old No. 1 Plants: Each, 28c; 10 for $2.50; 100 for $22.00.

DELWARE. Red. One of the finest table grapes. Bunches not large, compact and well shouldered. Berries rather small, juicy and sweet, without any hard pulp; spicy flavor. Probably the best American grape, all things considered. Ripens early. Two-year-old No. 1 Plants: 13c each; 10 for $1.10; 100 for $8.50.

IVES. Black. Bunches and berries medium size. Sweet, pulpy, somewhat foxy. Color early, but does not fully mature until several weeks later. Highlty esteemed for red wine and a good market variety. Hardy, vigorous and healthy. Ripens medium late. Two-year-old No. 1 Plants: Each, 10c; 10 for 75c; 100 for $6.50.

THE LUCILE GRAPE. The coming Red market grape. The Lucile yields as much or more than Concord, Niagara or any other varieties. It ripens between Moore's Early and Worden, just in time to pack with Diamond and Worden, an excellent trio of our national colors—red, white and blue. The Lucile is sweet, and in quality compares favorably with that of Wyoming Red, which it resembles in color. But its crowning glory is in its size and compactness of its clusters, which resemble those of Diamond and Pocklington, but even larger. While it is an excellent market grape anywhere it is indispensable at the extreme North, where only early and extra hardy varieties succeed. The Lucile is a good shipper and never drops its berries, but where the season is long enough it gradually dries up into raisins on the vines. Price: Each, 30c; 10 for $2.75; 100, $55.

MOORE'S DIAMOND. White. A seedling of Concord, partaking of all its good qualities. Of a beautiful greenish white color, without any of the yellow spots to common in white grapes. Berries are large, sweet, and of as good quality as some of the more delicate varieties. It is as hardy as the Concord, a profuse bearer, and in all one of the best of the newer sorts. Ripens early, a few days before Concord. Very hardy. Two-year-old No. 1 Plants: Each, 10c; 10 for 85c; 100 for $7.00.

MOORE'S EARLY. Black with heavy blue bloom. Bunches of medium size, rarely shouldered. Berries large, round, of excellent quality. Desirable for market on account of its earliness. Berries larger than Concord, very much like it in flavor, and of same good quality. Vine a moderate grower, very healthy and hardy; foliage thick and leathery. Ripens so early as to be nearly out of the market before Concord is ripe. Well suited to Northern portions of the United States by its hardiness. Succeeds admirably in the South also. Ripens early and bears well. Two-year-old No. 1 Plants: Each, 12c; 10 for $1.80; 100 for $8.00.

NIAGARA. White. Home and market growers seem to agree that this is the most valuable of all white grapes. Its clusters are large and handsome, compactly filled with large berries having thin, but tough skin. When fully ripe they are a pale yellow, with a thin white bloom. The flesh is slightly pulpy, tender, sweet and delightful, with a flavor and aroma peculiarly its own, and agreeable to most tastes. Vine is remarkably vigorous and productive. Foliage thick and leathery. Succeeds well, both North and South, and is very largely planted by vineyardists and for home use. Ripens with Concord. Two-year-old No. 1 Plants: Each, 10c; 10 for 85c; 100 for $7.00.
GRAPE VINES—(Continued)

POCKLINGTON. Golden yellow. Bunch large, very compact. Berries very large, juicy, sweet, with very little pulp. Very hardy; even more so than Concord and produces large crops of fine quality. Two-year-old No. 1 Plants: 10c each; 10 for $1.00; 100 for $7.50.

SALEM. Red. Bunches large and compact. Berries large, round, copper red; firm, sweet, tender, with rich aromatic flavor. A splendid keeper and shipper, and best quality for both table and wine. Should be planted freely. Two-year-old No. 1 Plants: Each 10c; 10 for $0.85; 100 for $8.00.

WORDEN. Black. Bunch large, sometimes shouldered. compact; berries very large, skin thin. Superior to the Concord in the following points: It is better in quality, has a larger berry, a more compact and handsome cluster, and ripens five to ten days earlier. It fully equals Concord in vigor, health and productiveness. In berry it is about half the size of Moore's Early, but of better quality, more vigorous and productive, and ripens but little later. We recommend it strongly. It is perhaps not so good a shipper as Concord, but nevertheless a very good market sort. Two-year-old No. 1 Plants: Each, 12c; 10 for $1.00; 100 for $8.00.

WOODRUFF RED. A red grape that originated in Michigan. Bunch medium to large, short, compact; berry large, skin thick, of a beautiful bright red color; very handsome and attractive, making it a profitable market variety. Vine very vigorous, hardy, healthy and unusually productive. Fruit of good quality; somewhat foxy. Ripens with Concord. Two-year-old No. 1 Plants: Each, 15c; 10 for $1.30; 100 for $12.00.

GRAPE FRUIT HOUSE, BEATRICE, NEBRASKA

This class of grapes can be planted outdoors in California, Arizona, Texas and southern New Mexico. In the Northern states they can be raised in tubs or pots, or conservatories and greenhouses. The Black Hamburg is especially adapted for this purpose.

BLACK HAMBURG. Bunches very large, heavily shouldered; berries large, round; skin thick, coal black when fully ripe; flesh sweet and juicy. One of the best table grapes. An immense bearer. Price: 20c each; 10 for $1.50; 100 for $16.00.

MALAGA. Vine a strong grower and immensely productive, thriving in almost any soil; bunches very large, often weighing ten pounds; compact, shouldered; berries very large, oval, yellowish green; skin thick, fleshy. One of the best shipping grapes, commanding a good price in the Eastern markets every season; makes a second quality raisin. Price: 22c each; 10 for $2.00; 100 for $17.50.

THOMPSON'S SEEDLESS. (Sultana Blanche). Identical with the Seedless Sultanas of Asia Minor. Vine an enormous bearer and very rapid grower; bunches very large; berries large, greenish yellow; skin thin; much larger than the Sultana. This variety is attracting a great deal of attention, and it is preferred to the Sultana, having many qualities superior to it. The raisins are of a very superior quality, and are in good demand, a very early shipping grape, ripening in August. As a sherry grape much can be said in its favor. It is largely grown in California for a raisin grape. In the Northern states this grape can be grown in pots or tubs and will bear well. During winter keep in cool cellar. Grow and bear well in New Mexico, the South and Southwest. Price: Strong vines, well rooted, 20c each; 10 for $1.50; 100 for $15.00.

Moore's Diamond (See Page 17)

Vineyard of Mr. J. B. Angell, Artesia, N.M. Mr. Angell kindly sent us the photograph. The two children in the picture are his grandchildren, Forest Major Boyer and Anna Mary Boyer. Mr. Angell has made a grand success with Thompson Seedless Grape. The picture shows enormous productiveness of the Thompson Seedless.
GOOSEBERRIES

Should be planted in good, rich soil, and well manured once a year. They will do well on any variety of soil if well drained and fertile. Prune regularly and thoroughly, cutting out all dead wood and all surplus branches. Do not let the bushes grow too thick; the fruit will be larger and more plentiful. Plant in rows four to six feet apart and four feet apart in the rows. Gooseberries should be planted in every garden, no matter how small; they are hardy, rugged and easily grown, and the fruit is sought for by every housewife for culinary purposes and sells well in all markets.

OREGON CHAMPION. Berries very large, brownish red color, very sweet and fine for table use and pies. Bush a strong grower, healthy and not very thorny and a very prolific bearer. I recommend this variety to my customers, especially for large plantations. It will bring good returns. Best berry for the market. We have a large stock of this gooseberry this year, and can furnish them in large quantities. Sold more of this variety last year than of any other gooseberry.

Price: Two-year-old No. 1 Plants, 20c each; 10 for $1.70; 100 for $14.00.

HOUGHTON. An enormously productive and always reliable old variety. Of vigorous growth, slender and spreading, not subject to mildew. Fruit of medium size, smooth, pale red, tender and of good quality.

Price: Two-year-old Plants, 10c each; 10 for 80c; 100, $7.

DOWNING. A well-known American sort, which has given the best results everywhere. Large and handsome, pale green berry; of splendid quality for dessert and cooking. Bush vigorous, with strong, upright shoots, and exceedingly productive. An excellent sort for family use and suitable for market. This variety is seldom affected by mildew.

Price: Two-year-old Plants, 15c each; 10 for $1.20; 100 for $10.00.

INDUSTRY. The most planted in this country of any English sort, and is less subject to mildew. The bush is strong, upright and immensely productive. Berries are of largest size, dark red and of excellent quality, rich and agreeable. This variety should be pruned less than the other sorts, to secure the best results.

Price: Two-year-old Plants, 25c each; 10 for $2.00; 100 for $17.00.

PEARL. A very desirable American variety. Very hardy, entirely free from mildew, superior in size and quality, and more productive than Downing. We take pleasure in recommending it for small or extensive planting as one of the best berries of recent introduction. The large berries are pale green and of the finest quality, and valuable for home or market.

Price: Two-year-old Plants, 15c each; 10 for $1.20; 100 for $10.00.

TREE GOOSEBERRY

These I have always imported from Germany. Owing to the war, I am unable to get them this season. Hope to be able to furnish them next fall again.

WHAT MY CUSTOMERS SAY

Cheswold, Del.
The gooseberry bushes which I bought of you are bearing well and all of the different seeds purchased of you came up good. I am very well satisfied. Shall order more next spring.

EML HENGST.

Logan, N. M., May 1, 1915.
Have received the 20 Eldorado by parcel post in place of those sent me earlier in the spring; accept my thanks for them. I appreciate my dealings with you in the past and will do all I can in the future, as I find you are reliable and are willing to make errors right at all times. I remain as ever,

Yours Resp.,

FRED H. FRITZEN.

Pembine, Wis., Dec. 21, 1914.
Please send me your new catalog if it is ready. We owe much to you for getting a good start in several fruits, including Raspberries, of which we now raise thousands of quarts of excellent quality. We are still much interested in the Compass Cherry-Plum, which does fine here and is attracting considerable attention.

Very respectfully,

C. F. KENNISON, Prop. Lakeside Fruit Farm.
CURRANTS

Hardy, easily cultivated, standing neglect well, and liberally responding to cultivation and generous treatment; indispensable for table use, jellies, etc.; no garden is complete without them and large quantities are required for market. Set four feet apart in rich ground; cultivate well or mulch heavily; prune out old wood so that each remaining shoot will have room to grow. If the currant will appear, dust with hellebore. All 2-year-old.

PERFECTION. This grand new fruit was originated by Charles G. Hooker of New York, by crossing the Fay’s Prolific with the White Grape Currant, with the view of combining the large size and color of the Fay with the good quality and productiveness of the White Grape. The color is a bright red; size as large or larger than Fay, the clusters averaging longer. The Perfection has a long stem, making it easy to pick without crushing any of the berries. It is a great bearer. The berries are of rich, mild flavor, sub-acid, plenty of pulp, with few seeds. Less acid and of better quality than any other currant in cultivation. In my garden the Perfection is the best bearer, with largest berries; the sweetest currant I ever tasted, and the easiest I could pick. Anybody can pick a basket of Perfection as fast as or faster than cherries. If I should plant ten acres of currants for profit, I would plant Perfection only. My plants are true Perfection; all will have the seal of the introducer attached, so my customers are sure to get the true kind.

Price: Two-year-old No. 1 Plants, each 20c; 10 for $1.70; 100 for $15.00.

FAY’S PROLIFIC. Has fully sustained all the claims that were made for it by the originator when first introduced and it is the best red currant known. It has been widely planted and has given general satisfaction; fruit very large, bright red, and of excellent flavor, less acid than Cherry. It has a long stem, which admits rapid picking, and is enormously productive. One of the most valuable fruits of recent introduction. Comes into bearing early. One of the best market sorts, and equally valuable for home use. Price: Two-year-old No. 1 Plants, 10 each; 10 for 80c; 100 for $6.00.

POMONA. (Knight’s Improved.) Deserves prominence for its splendid market qualities. The fruit is of good size and flavor, bright red in color. Has long stems and hangs in fine condition long after ripening. This variety first attracted notice for its enormous productivity and quality. Has the greatest acreage yield on record. In one year fruit from six and one-half acres was sold for $3,400 per acre.

Price: Two-year-old No. 1 Plants, 10c each; 10 for 70c; 100 for $6.00.

LONDON MARKET. Red. Very popular variety in Michigan fruit sections. The fruit is of good size, dark red in color, with sprightly acid flavor. Bush is vigorous, upright, very strong grower. It begins ripening at an early age and is enormously productive. Valuable for the home garden and for commercial purposes.

Price: Two-year-old No. 1 Plants, 10c each; 10 for 70c; 100 for $6.00.

WILDER. One of the strongest growers and exceedingly productive. Clusters and berries very large; of attractive bright red color. Even when dead ripe. Quality excellent, with mild sub-acid flavor. Ripens early and remains bright and firm until quite late. Very profitable market sort. Bush vigorous and bright and vigorous. Few varieties equal the Wilder in productivity and vigor.

Price: Two-year-old No. 1 Plants, 10c each; 10 for 85c; 100 for $7.50.

BLACK CHAMPION. Very productive; large bunch and berry, excellent quality; strong grower. Leading black currant.

Price: Two-year-old No. 1 Plants, 10c each; 10 for 85c; 100 for $6.00.

CHERRY. Red. Bunches very large, sometimes measuring one-half inch in diameter. A strong grower and must have good cultivation to do well.

Price: Two-year-old No. 1 Plants, 10c each; 10 for 75c; 100 for $6.00.

RED DUTCH. An old variety, good size berries and clusters, very productive; very hardy. I still recommend this variety.

Price: Two-year-old No. 1 Plants, 10c each; 10 for 75c; 100 for $5.00.

WHITE GRAPE. The best white currant. The bunches are large and full, berries large, sweet, of a beautiful translucent white and of mild, superior quality; very fine for table. Bush grows quite vigorous, somewhat spreading, and produces large crops. A dependable and very popular variety.

Price: Two-year-old No. 1 Plants, 10c each; 10 for 80c; 100 for $7.50.

TREE CURRANTS. These I have always imported from Germany. Owing to the war, and unable to get them this season. Hope to be able to furnish them next fall again.

We got a little bill of trees from your house last spring and I wish to say, that we have never had better satisfaction with nursery stock; we are mentioning your firm to all our neighbors. Yours truly, J. S. JENK.
BLACKBERRIES

Blackberries require the same treatment as raspberries. They succeed well on any land suitable for corn or wheat, but amply repay high cultivation. Plant in rows six feet apart and three feet in the row. Pinch the canes back when they have reached about four feet in height, and cut down all the dead wood every year. Cultivate well and deep, or mulch heavily with straw.

A very small plot of ground planted to blackberries will produce more than enough luscious, healthful fruit to supply the average family.

My Blackberry Plants are now all raised from root cuttings, insuring strong, well rooted plants, much superior to sucker plants. Please bear this in mind when comparing my prices with those of other catalogues.

SONDERRERGER'S EARLIEST. This is a seedling found in an old orchard, where once there was a field of Snyder and Early Harvest blackberries, and was first noticed by Arthur Modgilin of Illinois, who is a prominent horticulturist and solicitor of small fruits. It has been grown and tested since 1911, but never were plants offered on the market. I find that this blackberry has more points of merit, than any other blackberry on the market.

First. They are fifteen days earlier than the Early Harvest, or any other blackberry and ten earlier than any dewberry; ripens before either black or red raspberries and before strawberries are all gone. It ripens in Illinois, May 30th.

Second. They are enormously productive, the vines are loaded with fruit to the tips of the canes, outyielding Snyder, LaGrange, Blowers or any other.

Third. They are very hardy, never have shown any signs of wilt, killing in the four years they have been tested. The season of ripening lasts about four weeks. The great value of this variety is its earliness, productiveness, size, quality, and hardiness of canes. It is unsurpassed by any other variety.

Sonderegger's Earliest is offered for the first time this season. I am making a very reasonable price and can furnish them in large quantities. First ears, well rooted plants. Price: 3c each; 10, $2.00; 100, $17.00; 1000, $15.00.

LaGRANGE. This berry is a Russian product, having been brought from that arctic country about fourteen years ago, and has been fruitedit by Mr. LaGrange in Vermillion County, Illinois, for the past twelve years, and in that time not received any injury from cold winters. I have the hardest berry yet produced; it grows on canes like Lawton or Snyder, but stems from the ground up, and each fruit stem has ample foliage, each cluster of berries having a leaf. The fruit ripens in the shade, which materially adds to its flavor. Other varieties mostly produce their fruit at the top of their canes, the berries are sun-scaled when the berries from the first bloom, are about two-thirds grown, there comes on a second crop of bloom as profuse as the first; in ripening one cannot tell when the blooms come from the first blooms end, and where fruits from the second blooms begin; keeping this rotation of blooming up until late in summer, remaining in bearing 50 to 60 days, and classified by some as an everlasting blackberry.

It is enormously productive, one-ninth of an acre yielding 571 quarts, Rev. J. R. Reasoner estimated 6,000 quarts per acre on ordinary land and cultivation. This picture shows one branch 2 feet long which contained 502 berries which created quite a wide amount of interest among the Fruit Growers. Association here at Mankanda, Illinois.

The LaGrange is free from any disked core and the berry melts in one's mouth, it is so delicious. The best, hardiest and largest berry yet produced, a single berry measuring 4½ inches in circumference. Prof. & A. Forbes says it is more free from disease than any blackberry he has ever seen. No one will make a mistake in planting LaGrange, either for home use or market.

Price: 13c each; 10 for $1.00; 100 for $8.00; 1000 for $60.00.

Price: Strong plants, 5c each; 10 for 40c; 100 for $2.50; 1000 for $20.

ELDORADO. Very vigorous grower and very hardy, enduring excessive winters without injury. Fruit large, borne in clusters. Quality unsurpassed and an excellent shipper. Price: Strong plants, 5c each; 10 for 40c; 100 for $2.50; 1000 for $20.

MANKANDA. His early, mammoth iron-clad blackberry originated in northwestern New York, where the mercury falls to from 15 to 25 degrees below zero, and has never been injured. Berries are sparkling throughout and remain black under all conditions and circumstances. In quality it is exceptionally sweet, rich, melting and luscious, being without core. As a shipper and keeper it is unsurpassed. The canes are of exceedingly strong, upright habit. Foliage large, abundant and entirely free from rust or blight. Its yield is simply enormous. One of the very best for Nebraska.

Price: Strong plants, each 8c; 10 for 50c; 100 for $2.50; 1000 for $20.

SNYDER. This is one of the best blackberries for market in the North; very hardy. The canes are vigorous and annually productive. The berries are medium in size, very sweet, juicy and of fine flavor. It also lacks the hard core of many varieties.

Price: Strong plants, each 8c; 10 for 30c; 100 for $2.00; 1000 for $16.00.

Sonderegger's Earliest

Two weeks earlier than Early Harvest
THE LOGAN BERRY

The Logan Berry is a hybrid between the raspberry and blackberry. The fruit is as large as the largest blackberry, and is produced in immense clusters. The color is clear, dark red. It partakes of the flavor of both the blackberry and the raspberry—mild, pleasant, vinous flavor, delicious and peculiar to this berry alone. Seeds small, soft and few. Berries very firm and carry well. Strong grower, enormous bearer. Ripens early, just after strawberries. Not hardy north of the 40th parallel. Do not plant them in Nebraska.

Price: 25c each; 10 for $2.25; 100 for $20.00.

HIMALAYA BERRY

We have sold this berry for a number of years, and in order to get the facts about this berry we have written to a large number of our customers in different states as to the success they had with this berry. Two-thirds of them are well pleased with the quality and productiveness—some say fruit is very good, but a shy bearer; a few answered, "no good."

As a result of my inquiries I recommend the Himalaya Berry anywhere south of here, and would advise my customers north of here to make a trial with a few plants. We sell the Michigan strain of Himalaya Berry only as the California strain is not hardy.

The vine is a vigorous grower, often making shoots of 20 to 30 feet in one season. Should be tied to stakes or trellises or can be used for arbors, same as grape vines. The large clusters of good sized berries ripen all summer. Berries have no core and flavor is sweet, of unusual richness and when fully ripe, very melting.

Price: Strong plants, 10c each; 10 for 50c; 100 for $7.50.

DEWBERIES

A variety of Blackberry that trails on the ground. In size and quality the fruit exceeds the Blackberry; very profuse bearer and reasonably hardy. Vines should be covered with straw or earth over winter in cold climates. The fruit of the Dewberry is highly prized as a market fruit, owing to its large size and quality.

LUCRETIA. One of the most widely planted of the Dewberries. It is a strong grower, and exceedingly productive. The fruit is large, luscious and handsome. Glossy, shining black, and ripens from the first to the middle of July, according to the locality.

Price: Strong transplanted plants, each 5c; 10 for 30c; 100 for $2.00; 1000 for $18.00.

AUSTIN. Berries very much larger than those of any other Dewberry or Blackberry. It requires no trellis or stakes. The fruit is jet black and of very superior quality and flavor. For productiveness it outrivals all Dewberries.

Price: 6c each; 10 for 45c; 100 for $4; 1000 for $30.

RED VARIETIES

HERBERT. Originated in Canada. Prof. W. T. Macoun of Ottawa describes it as follows: "A chance seedling, originating with R. B. Whyte, Ottawa, Canada, in 1887. One of 30 seedlings, probably of Clarke. A very strong grower, large and very productive. Fruit large to very large, obtusely conical, bright to rather deep red, drupe medium size, not crumbling; moderately firm, sweet and sub-acid, sprightly, juicy and of good flavor. Quality very good. Season begins a few days before Cuthbert. The best Red Raspberry tested here. It has all the good points required in a berry for local market, being hardy, vigorous, productive, with fruit of large size, and very good color and quality."

I find this Raspberry to be exceedingly hardy, of fine quality, one of the best Raspberries I have seen, and can recommend it to all my customers. Please note very low price for plants of my own growing.

Price: 100c each, 10 for 90c; 100 for $8.00; 1000, $60.
RASPBERRIES—(Continued)—RED VARIETIES

ST. REGIS EVERBEARING RED RASPBERRY. An excellent novelty. Bears very fine fruit the first year! That is what you get when you plant the St. Regis, the new everbearing variety. Moreover, the berries are not only raspberries but raspberries of the very highest grade—in size, in brilliant crimson color, in firmness, in flavor. The variety has been aptly termed "the early till late" variety, for it is the first red raspberry to give ripe fruit, while it continues to produce berries without let or hindrance until late October. St. Regis is easy of culture. Strong American blood and of ironclad hardihood. In addition to the brightest crimson color, and large size of the fruit, it is firm and rich in sugar that it will stand shipping 200 miles, arriving at market in first-class order. The berries are highly kept in perfect condition for several days after being gathered. Unlike any other raspberry, the St. Regis yields a crop of fruit the season it is planted. Plants of it planted in early April gave ripe berries on June 20th of the same year. For four weeks thereafter the berries were large and splendidly colored. Firm and full flavored to the very last. I have tried the St. Regis here at Beatrice. It is hardy here; bears well, and the berries are as described above. See my low price.

Price: 8c each; 10 for 75c; 100 for $6.00; 1000 for $40.00.

CARDINAL. Originated in Kansas. Vigorous, strong canes with red barked and very hardy wood. Exceedingly early, it bears its fruit long after others are through. Size is medium, with a pure, rich flavor. Season somewhat late and they hold on well. Does not root-sucker. Plants are propagated from the tips.

Price: 6c each; 10 for 50c; 100 for $2.50; 1000 for $30.00.

CUTHBERT. A strong growing, hardy variety, stands Northern winters well; berries very large, firm. Can be shipped long distances to market; flavor is sweet, rich and luscious. The best late red raspberry.

Price: 5c each; 10 for 50c; 100 for $1.50; 1000 for $12.00.

CUTTHILL. The great raspberry of the age. It is a seedling of the Cuthbert, grown near the Gregg, and is believed to be a cross between the two. It is enormously productive; of large size and excellent quality. Season of fruiting from July 12th to August 15th. It has stood 28 degrees below zero without injury; is producing in quantity from the tips and does not sucker. The color is dark red; adheres to the stem, does not crumble in picking; and is a splendid shipper.

Price: 7c each; 10 for 60c; 100 for $4.50; 1000 for $40.00.

MILLER. Very early hardy and makes a healthy growth of canes. Berries are about the same size as Cuthbert in color and quality, but much earlier, fully hardier and more firm. Will hang on the bushes several days without getting soft. Best early Red Raspberry.

Price: 5c each; 10 for 50c; 100 for $2.00; 1000 for $18.00.

SUNBEAM. Originated by Professor Hansen of the South Dakota College of Agriculture. It is worthy of trial where raspberries winter kill, as it has endured 41 degrees below zero without protection. It endured last winter at Bis-Mack without protection.

Price: 10c each; 10 for 75c; 100 for $6.00.

CAROLINA GOLDEN. From one of the best growers of Germany. Berry large, yellow, firm and sweet. A good bearer and very hardy. It is much superior to the old Golden Queen. A better berry in every respect, and of a prettier yellow color.

Price: 25c each; 10 for $1.75; 100 for $16.00.

BLACK VARIETIES

Black Raspberries do not root-sucker. New plants are raised from the tips. These tips are hard to ship, and are very soft. I therefore offer transplanted plants only.

CUTTHILL. A strong growing, hardy variety, and this one is black in color, of good size and very fine flavor. As hardy as any of the Black Raspberries. Creates the greatest surprise when shown at fairs and horticultural societies. Has no equal as an everbearing variety. A great novelty and a valuable one as well.

Price: 20c each; 10 for $1.25; 100 for $10.00.

CUMBERLAND. Very hardy and productive. Berries large, handsomely colored, very firm and stand long shipments. Remarkably free from diseases. The last two years the Cumberland has given us more and larger berries than the Kansas. This variety is also largely planted in Idaho.

Price: Strong transplanted plants, 7c each; 10 for 42c; 100 for $3.00; 1000 for $30.00.

GREGG. This has been the leading market variety all over the country. Best for evaporating. A good, strong, all around berry, of good quality.

Price: Strong transplanted plants, 7c each; 10 for 45c; 100 for $3.00; 1000 for $30.00.

KANSAS BLACK. A valuable early blackcap, so strong and healthy it withstands extremes of cold and drought, and yet bears heavy crops.

Price: Strong transplanted plants, 8c each; 10 for 48c; 100 for $3.00; 1000 for $30.00.
STRAWBERRY-RASPBERRY

Valuable for the extreme North, as the fruit is borne on the young growth and is of course hardy in any climate. This is an entirely new fruit, both in habit of growth and form of fruit. Bushes grow 1 to 3 feet high, and are covered with raspberries in the shape of strawberries. They are upright in manner of setting. Perfectly hardy, bound to become a valuable addition in the fruit line. It is very productive and a distinct novelty in small fruits. Prices: 10c each; 10 for 75c; 100 for $5.00. By mail, 10c each; 10 for 75c.

STRAWBERRIES

Strawberry Plants are all quoted at prepaid prices. These should do well in any ordinary farm or garden soil. The ground should be well prepared. For field culture set in rows three feet apart, and from 12 to 15 inches in the row. For garden 15 inches apart each way. Cultivate well and keep clear from weeds. Cut off all runners as soon as they appear, as fruit will be much larger. In winter a covering of straw or old hay will protect the plant. Do not cover until the ground is frozen.

Strawberry plants can not be shipped by freight to distant points, but should go by express to insure safe arrival.

COMMON VARIETIES

Price of all varieties of Strawberries, except Americas, Superb and Progressive. By parcel post or express, prepaid, 25c for 25; 75c per 100; $5.00 per 1000.

AROMA, Late, Perfect. Berries very large, bright red to the center; rich, delicately aromatic, firm and a good shipper.

BRANDYWINE, Very Late, Perfect. Blood red, great yielder of large, round berries, fine quality, having a delicious flavor; makes plenty of good strong wine. If you are looking for No. I canning berry or for table use, we would recommend the Brandywine. A good shipper.

EXCELSIOR, Perfect. A reliable variety with luxuriant foliage that protects the flowers from late frosts. A prolific yielder of large, highly colored berries of fine quality. Especially recommended for home use, and is at its best when planted in hills.

GANDY, Late, Perfect. Considered the best long keeping and the best shipping berry in the market. On heavy, rich soil the plant is a marvel of vigor and product. An early ripening strawberry. Perfect.

SENATOR DUNLAP, Medium Early, Perfect. This is the most popular strawberry in all sections of the United States. It produces immense crops of dark red, top-shaped berries of medium size to large size. Few varieties bear fruit of such uniform size and color. Stands universally, very healthy and firm strawberry and succeeds equally well all over the United States.

KLONDIKE, Early, Perfect. The most popular of all Southern varieties. Berries good size, regular shape and color, strong, healthy, very attractive. Contributes much to the market. Extra valuable for long distance shipping.

MICHAEL'S EARLY, Early, Perfect. One of the earliest varieties grown. Very attractive in shape, of a rich crimson color, with a rich, mild flavor and deep pink meat. The plant is strong and healthy; one of the best for fertilizing early platifolia varieties. You can always depend on this one.

EVERBEARING OR FALL VARIETIES

You can have strawberries just as easily in the fall as in the spring by planting the Americas or Erica, known as the fall-bearing varieties. They will produce heavy crops in the fall of as fine berries as any spring ripening strawberries. Truly a luxury for home and profitable for market. Think of having all the berries you can use on table during the months of September, October and November, and later, if not killed by freezing weather.

AMERICUS. This is the most wonderful everbearing strawberry ever produced—better than ever seen imported from France or Germany. A healthy and strong grower; very productive, from May until freezing weather; very drought resistant; a better berry for a hot, dry climate than any other variety. Size medium to large, very firm, uniform shape, bright red outside and inside. Has the native wild strawberry flavor. Succeeds well anywhere. With me, this berry fruited well this summer and fall, Perfect.

Price: 5c each; 30c per doz.; $2.00 per 100; $15.00 per 1000.

SUPERB. Cooper's introduction. Berry glossy, very attractive, and of the finest flavor. Size medium and firm. Brings every blossom to maturity, which is a strong point in a fall-bearing strawberry. The plants are strong and stand the winter well, after producing a heavy fall crop. Superb will please you and will bring you nice fresh strawberries in the late summer and fall.

Price: 5c each; 30c per doz.; 100 for $5.00; 1000 for $50.00.

PROGRESSIVE. This new fall-bearing variety seems to be a very good one. The new runner plants produce a nice lot of berries of good quality. The berries are not as large as Superb and not so good quality, but they yield well and, we think, will be one of the best known varieties of fall bearers in a few years. The fruit of Progressive is of good size, smooth, of good color and appearance. Very strong plants.

Price: 5c each; 30c per doz.; 100 for $2.00; 1000 for $15.00.

Superb Everbearing Strawberries
HORSE RADISH
This popular condiment is very easily produced in the home garden and anyone who has compared the freshly dug article with that sold over counters, can appreciate the value of good home-grown horseradish. A half dozen roots will provide the ordinary family, and as it spreads quite rapidly, the source of supply is easily maintained. We furnish large, strong roots, not small lengths. Price: 10 for 15c; 100 for $1.25; 1000 for $10.00.

RHUBARB OR PIE PLANT
Also called Wine Plant. This plant affords the earliest material in the spring, for pies and tarts. Invaluable for canning and wine. Can be set out in either spring or fall. Will grow in any good garden soil. Deep, rich, moist soil is best, but it is such a strong, vigorous growing plant, it will almost thrive anywhere. Plant in rows four feet apart, and the plants three feet apart. Set so that the crowns are about an inch below the surface. Rhubarb is a gross feeder and the more manure it is given, the larger and finer the yield.

LINNAEUS. Medium size, early and tender.
GIANT. Very early, vigorous grower and of fine quality. Best for canning.
Price, both varieties: Nice, strong, two-year-old roots, each 10c; 10 for 70c; $5.00 per 100.

ASPARAGUS
This earliest and finest of spring vegetables is among the earliest cultivated and most profitable. A bed once planted suffers no deterioration for many years if it is properly attended to and well manured. See that the ground is well manured and is well drained; work it up fine and deep, and make it very rich with well rotted barnyard manure. Place the plants 8 inches apart in rows 3 feet apart. Spread out the roots in a trench made deep enough to permit their crowns to be covered with 3 or 4 inches of mellow dirt. Give bed liberal dressings of manure at intervals.

CONOVER'S COLOSAL. Produces large, tender shoots. Well known and largely planted.
COLUMBIAN MAMMOTH. A distinct variety of mammoth size and superior quality. Remarkable for the clear whiteness of its stalks.
Price, both varieties, two-year-old plants: 10 for 10c; 100 for 70c; $5.50 per 1000.

SATISFIED CUSTOMERS
Department of Forestry, University, Lincoln, Nebraska, Sept. 14, 1914
You will remember that you presented me with two young Sweet Chestnut trees for planting this spring. I am delighted to report that these trees have made good growth, look very vigorous, and that one has three and the other two buds, which I hope contain as many fine chestnuts. Of course the test will not be conclusive until after a number of years, but I shall be glad to inform you concerning the success of these trees.
Very truly yours,
W. J. MORRILL.
I was well pleased with the nursery stock I bought of you last spring; so far only three trees died on a hillside, that has to be kept in sod. The only regret I have is, that I did not order all my stock from you. If I conclude to plant any more fruit trees in future, you will certainly hear from me.
W. C. HUSBY.
De Soto, Iowa, Oct. 9, 1914.
The Compass Cherry-Plums I bought of you one year ago last spring were loaded with fruit this summer. The black currants have made a great growth—had a few currants on, but the bushes are getting a great size.
R. THOMPSON.
Bought some trees from you three years ago; they have done well for us, much better than any others.
BRIMMER BROS.
FOREST TREE SEEDLINGS

ALL NURSERY GROWN

We are the largest growers of all kinds of forest tree seedlings in the West. We grow them by the millions. Our seedlings are nice, well rooted and sound, and will be well graded. Descriptions may be found under "Ornamental and Shade Trees."

Our seedlings are carefully raised, our soil here being especially adapted to the raising of first class, clean seedlings and nursery stock in general. The rather severe climatic conditions insure vigorous, hardy stock, that can withstand the raw, cold winters and the hot, dry summers to a surprisingly large degree. You will experience no trouble raised, our seedlings are well, if properly cared for in transplanting. We invite correspondence from parties desiring to purchase large quantities of seedlings.

ORNAMENTAL AND SHADE TREES

On this and several pages following we give a list of trees that are hardy and can endure the dry weather of the West. All these trees have been raised in the nursery, are well pruned and have good bodies and tops. All have been transplanted once and have therefore good roots. Our prices are so low that anyone can afford to beautify his home. For one-year seedlings of these varieties see page 26. Should you need a plan for your home grounds, write us.

These trees are all too large to be parceled post; must be freight or express.

ASH. (White.) Fraxinus Americana. A rapid growing native tree, of fine symmetrical outline. Very hardy and drought resistant. Good street or park tree.

Price of White Ash Trees: Per 1 Per 10 Per 100

|                        | 4 to 5 ft. trees, nice, well pruned | $0.14 | $1.00 | $9.00 |
| 5 to 6 ft. trees, nice, well pruned | $0.18 | 1.75 | 14.00 |
| 6 to 8 ft. trees, nice, well pruned | 0.30 | 2.75 | 25.00 |
| 8 to 10 ft. trees, nice, well pruned | 1.25 | 11.00 | 100.00 |

ALDER, EUROPEAN. (Alnus.) A quick-growing tree, well suited to moist places, but they also grow well on upland. Good for lawn or park.

Price of Alder:

|                        | Per 1 Per 10 Per 100 |
| 4 to 6 ft. trees, nice trees | $0.10 | 0.50 | 5.00 |
| 6 to 8 ft. trees, nice trees | 0.25 | 2.50 | 25.00 |
| 8 to 10 ft. trees, nice trees | 0.50 | 4.50 | 45.00 |
| 10 to 12 ft. trees, 2 to 3 inch caliper | 2.00 | | |

MOUNTAIN ASH. (Sorbus Aucuparia). A graceful tree of medium size, a smooth bark, head dense and regular, covered from July till winter with large clusters of bright red berries. A fine lawn tree and very hardy.

Price: 5 to 6 ft. trees, 60c each, 10 for $3.50; 6 to 8 ft. trees, 60c each, 10 for $5.00.

OAK-LEAF MOUNTAIN ASH. A large tree of fine pyramidal habit. Attains a height of 25 to 30 feet. A strong growing tree with smooth bark, deeply lobed foliage, resembling the oak leaves. Light green on upper side, and downy whitish below. Like all Mountain Ash it bears clusters of red berries. Tree very hardy; succeeds well in Nebraska and is hardy in South Dakota.

Price: 4 to 5 ft. trees, 30c each, 10 for $2.50.

BECHTEL'S DOUBLE-FLOWERING CRAB. (Pyrus Calleryana). Probably the best of the many varieties of flowering crab. Very hardy, thriving in most any soil, covered in the spring with large, beautiful, double, fragrant flowers of a delicate pink color. Suitable for a lawn tree or for a group.

Price: 4 to 5 ft. trees, 60c each, 10 for $5.00.

PURPLE BEECH, RIVERS. (Fagus Sylvatica Rivorsi.) One of the most attractive ornamental trees for lawn or park plantings. Very hardy and rarely subjected to insect ravages. Thrives in almost any soil, preferring a sandy loam and a half-shady position. Leaves large, smooth, very dark purple. Best purple-leaved lawn tree known, fine large specimens.

Price: 4-5 ft., $1.25 each.

Leaves and Berries of Mountain Ash

Catalpa Bungel, three years old, on my home place. (Price, Page 28)
ORNAMENTAL AND SHADE TREES

(Continued)

BLACK CHERRY, WILD. (Cerasus Serotina.) One of the most beautiful native ornamental trees. Also valuable for timber and largely planted for this purpose. A strong, straight tree, with dark brown bark, good wide crown and dark green foliage. Flowers are borne in long, loose racemes, and are followed by purple-black fruit. Perfectly hardy, even as far North as North Dakota. One of the best of the hardy ornamental trees.

**Price of Wild Black Cherry:**

  - $24.00

BOX ELDER. Ash Leaved Maple. (Acer Negundo.) A small native tree, maple-like in its seeds and ash-like in its foliage. Of spreading habit, rapid growth, very hardy, desirable for street planting, and succeeds in many places where other varieties do not thrive.

**Price of Box Elder Trees:**

- Per 1
- Per 10
- Per 100
- 4-5 ft., nice trees...
  - $0.12
  - $1.00

- 6-7 ft., nice trees...
  - $0.28
  - $2.40
  - $24.00

CATALPA SPECIOSA. Hardy C.atalpa. An effective tropical looking linn tree with very broad, large leaves and fragrant purplish-white blossoms of pyramidal clusters, often a foot long. There are few trees that have been extensively planted for commercial plantations in the Middle West and the Eastern states. It is hardy, grows rapidly on prairies, resists drought remarkably well, and has hardly any insect enemies. As a post timber it ranks with the Black Locust and Osage. Experiments have left no doubt as to its resistancy to decay. Without doubt for fence-post wood it has no equal, and in view of the fact that it can be grown so easily it ought not to require much argument to cause farmers to plant Catalpa where ever it will grow.

**Price of Catalpa Speciosa:**

- Per 1
- Per 10
- Per 100
- 4-5 ft., nice trees, well pruned...
  - $0.12

- 6-7 ft., nice trees, well pruned...
  - $0.28
  - $2.40
  - $24.00

CATALPA BUNGEL. (Chinese Catalpa.) A dwarf form, only 3 to 4 feet high, twice as broad. It is very useful in formal park work when grafted on stems 5 to 8 ft. high, forming a pretty dome shaped head of large, soft, heavy leaves. Elegant for lawns, parks and cemeteries. **Price:** 6-7 ft. very strong, well shaped 2-year crowns, each $1.10; 10 for $10.

BLACK OR YELLOW LOCUST. (Robinia Pseudacacia.) A large native tree of rapid growth, valuable for shade as well as quite ornamental. The yellowish white flowers are in long pendulous racemes and appear in June. Wood is very valuable for posts, growing quicker to 4 in. long than any other hard-wood tree. The timber is of very best quality and for posts outlasts, with a few exceptions, all other sorts. The Forestry Division of the Agricultural Department at Washington recommends the Black Locust for timber plantation for Oklahoma, Texas, New Mexico, Kansas, Nebraska and California.

**Price of Black Locust:**

- Per 1
- Per 10

  - $20.00

ELM. American White. (Ulmus Americana.) A noble native tree of large size, wide spreading head and graceful drooping branches. Easy to transplant; a hardy grower. One of the best park and street trees. Hardy everywhere. I can furnish large White Elm trees, all well pruned, well rooted and with good tops, by the carload. Write for prices in large quantities.

**Price of White Elm:**

  - $0.25
  - $2.00
  - $20.00

HONEY LOCUST. (Gleditschta Triacanthos.) This is an ornamental native tree of more than ordinary value. Its branches grow spreading, forming a broad, rather loose head. The branches and trunk are covered with strong thorns. Of rapid growth, stands pruning well and is often used for a hedge; its thorns make it almost impenetrable. I do not know of a better tree for western Kansas and western Nebraska.

**Price:**

- 4-5 ft...

Thornless Honey Locust. Fine shade tree, hardy, free of insects.
Walk in my garden. Shrubs to left are Forsythias and Purple-Leaved Barberry. Little trees to right, Tree Lilacs; the taller tree a Norway Maple.

On the left, driveway through my grounds to home. The trees are American White Elm. To the right, a five-foot walk.
ORNAMENTAL AND SHADE TREES
(Continued)

HACKBERRY. (Celtis Occidentalis.) Also called American Nettle Tree. A rare native tree, with numerous slender branches which spread horizontally, and thick, rough bark; apple-like foliage, but more pointed and a bright, shiny green. A very desirable tree for street planting. Perfectly hardy in Nebraska and the Northern states.

HORSE CHESTNUT. (Castanea.) White flowering. A fine, large tree, of compact outline, dense dark green foliage. In June the tree bears in greatest profusion large panicles of white flowers, tinged with red. Very pretty for street or lawn.

Price: 5 to 6 ft., 65c each, 10 for $6.00; 6 to 8 ft., 95c each, 10 for $8.00.

KENTUCKY COFFEE TREE. (Gymnocladus Canadensis.)
A perfectly hardy tree, with beautiful long, feathery foliage. Always makes a good crown and is, therefore, well adapted for ornamental or shade purposes. Perfectly hardy here.

Price: 4 to 5 feet, 25c each, 10 for $1.80.

PIN OAK. (Quercus Palustris.) An upright, vigorous growing variety, forming a stately, round-topped tree, with long slightly pendulous branches. The dark green, deeply cut foliage turns to brilliant yellow and crimson shades in autumn, forming one of the best of our fall colored trees. Transplants the easiest of all oaks, and is one of our very finest lawn trees and a desirable avenue tree.

Price: 5 to 6 feet, 45c each, 10 for $6.60.

SWEET GUM. (Liquidambar Styraciflua.) A tree that is beautiful at all stages, useful in all sorts of planting, and has more distinct, admirable traits than perhaps any other. Varying from 60 to 90 feet in height, it has a narrowly ovate head, formed of short, corky-winged branches and masses of star-shaped, lustrous leaves that color to intense crimson-scarlet in fall. Even in winter its odd, swinging seed-balls and cork-winged branches make it picturesque and interesting. The name be from its fragrant sap and leaves. We have no finer tree for street and park planting, or for specimens.

Price: 2-3 ft., well branched, 15c each, 10 for $1.40; 3-4 ft., well branched, 25c each, 10 for $2.20.

MAGNOLIA ACUMINATA. Cucumber Magnolia. Pyramidal tree attaining 60 to 90 feet in height. Flowers yellow, tinted with bluish purple; fruit when green resembles the cucumber, hence the name. Very hardy.

Price: 5 to 6 feet, 50c each, 10 for $4.00.

MAGNOLIA SOULANGEANA. A small tree or large shrub, growing very bushy. One of the hardiest and most popular of the foreign Magnolias. Blooms here in my garden in April. Flowers are large, 3 to 6 inches across, waxy, pure white inside, outside petals pink, or rosy-violet. Very fragrant. Foliage very dense, large, dark green and glossy. In my garden I tie them up with long straw, or slough grass, over winter, and in this way they come through in fine shape, and always bloom well. South from here this is not necessary.

Price: 3 ft. bushy plants, with flower buds and ball of dirt, each $1.50, 2 for $2.75. These will bloom after transplanting in the spring.

MAPLE, Norway. (Acer Platanoides.) One of the most beautiful and desirable trees known. Of large size, perfect outline, with deep green foliage, which turns a pale yellow in autumn. Desirable trees for street, park and garden.

Price: 4-5 ft., straight whips, not branched; 20c each, 10 for $1.90; 100 for $18.00; 5 to 6 ft. trees, 45c each, 10 for $3.50; 6 to 8 ft. trees, 55c each, 10 for $4.85; 8 to 10 ft. trees, 75c each, 10 for $7.50.

MAPLE, Sugar or Rock. (Acer Saccharum.) A popular American tree of pyramidal form. The foliage is large and handsome and of rich, pleasing green, turning to orange yellow and red in autumn. Its upright habit of growth, dense shade and adaptability to different soils has rendered it one of the most extensively used. Valuable for sugar and timber.

Price: 5 to 6 ft. trees, 45c each, 10 for $4.00; 6 to 8 ft. trees, 75c each, 10 for $7.00; 8 to 10 ft. trees, $1.00 each.

Horse Chestnut In Bloom
ORNAMENTAL AND SHADE TREES
(Continued)

MAPLE, SOFT OR SILVER. (Acer Dasyacarpum.) A native tree of very rapid growth. Hardy everywhere and easily transplanted. Leaves are finely cut, bright green on upper and whitish on lower sides. They are not as silvery-white, though, as those of the Silver Poplar, and people often get those trees mixed, especially as the leaves of the Silver Poplar resemble Maple leaves. If you wish a tree with leaves of silver white on the lower side, order a Silver or a Bolena Poplar. When you order a Silver Maple, you will get what is mostly called a Soft Maple. When quick effect or shade is desired, a Soft Maple is one of the best trees to plant. Largely used for street or park planting.

JAPANESE BLOOD RED MAPLE. (Acer Astro Purpureum.) Bushy growing Maple, with very delicate leaves of a deep blood-red color. Singly or in group they give a beautiful effect. Should be planted in every garden or lawn. Not very hardy, but I keep them in perfect shape in severe winters by tying with long straw. Price 2 ft., bushy plants, with ball of dirt, $1.50 each, 2 for $2.50.

EUROPEAN LINDEN. (Tilia Europea.) A very pyramidal tree with large leaves and fragrant flowers. A valuable tree for street and lawn planting, developing into beautiful specimens. Extensively planted for ornamental purposes and for bee culture. Rapid growth, not particular as to soil, and perfectly hardy. Price: 5 to 6 ft, each 65c, 10 for $4.00; 4 to 5 ft, each 50c, 10 for $2.50.

AMERICAN LINDEN. Basswood. (Tilia Americana.) Similar to the German Linden. Has large leaves, but does not make as good a crown as the European Linden. Both are excellent street trees. Price: 6 to 8 ft, each 75c, 10 for $5.00; 5 to 6 ft, each 50c, 10 for $3.50.

CAROLINA POPLAR. (Populus Carolinensis.) One of the most rapid growing trees, with large, handsome, glossy, deep green leaves. Succeeds everywhere; especially adapted to cities, where it makes unusually fast growth and resists smoke and gas. Pyramidal in form, making a spreading head and dense shade when properly trimmed. It is unexcelled for quick growth and effect; makes a fine tree, well windbreak or screen. It is used in larger numbers for street planting than any other tree. A good tree for northern Nebraska.

NORWAY POPLAR. Sudden Saw Log. (Populus.) A very distinct tree in habit of growing and making a straight, upright, somewhat pyramidal head. The foliage is large, thickly borne, bright and glossy. It grows rapidly in almost every soil, and yet it possesses strength and durability which most of the poplars lack. For city planting it is superior to most of the other poplars and withstands the effect of smoke and dust much better. These same characteristics make the Norway Poplar a superior tree for planting in shelter of forest plantations. It is claimed that this tree will mature a log 2 feet in diameter in 16 years, making quicker growth than any other tree adapted for the Middle or Northern states.

VOLGA POPLAR. A new, hardy poplar from Russia. The tree is an upright grower, similar to the Lombardy Poplar. The branches are much stronger, however, and the leaves are larger, of better form and deeper green. Perfectly hardy, of strong, vigorous growth. A tree of this variety transplanted on my home grounds last spring made new shoots five feet in length. Perfectly hardy, even in Minnesota or South Dakota.

For all trees and plants that can go by Parcel Post, see prices on pages 64, 65, 66, 67.
ORNAMENTAL AND SHADE TREES—(Continued)

**GOLDEN POPLAR.** (Populus Aurea.) Fine golden foliage, retaining its brilliancy throughout the season. The foliage will stay a golden color, while the Golden Elm will turn green in a few years. To produce a fine color effect among a cluster of green leaved trees, the Golden Poplar is the best tree we know of. A vigorous grower and hardy everywhere. 

*Price:* 4-5 ft., 20c each; 10 for $1.70; 5-6 ft., 20c each, 10 for $2.70; 6-8 ft., 45c each, 10 for $4.20.

**LOMBARDY, OR ITALIAN POPLAR.** Of obelisk form, growing rapidly to 100 feet. Forms striking lawn groups; is much used at Newport for tall screen hedges. Always makes a striking feature in any landscape. I do not recommend this poplar for Nebraska. It can’t stand our climate well. The Volga answers the same purpose. 

*Price:* 5-6 ft., branched, 20c each, 10 for $1.80; 6-8 ft., branched, 35c each, 10 for $3.30; 100 for $39.00.

**SILVER POPLAR.** (Populus Alba.) Quick growing tree, with spreading outline; leaves dark glossy green above and silvery white below. Hardy everywhere. Of great value in farm and private forestry; much more so than the Soft or Silver Maple. It is perfectly hardy anywhere and is especially largely planted in Wyoming. An ornament to any lawn. 

*Price:* Per 1 Per 10 Per 100
4-5 feet, nice trees... $0.09 $0.80 $7.50
5-6 feet, nice trees... 15 1.50 12.00
6-8 feet, nice trees... 30 2.50 20.00
8-10 feet, nice trees... 50 4.70 37.00

**BOLENA POPLAR.** Somewhat similar to Silver Poplar. The sharp cut leaves are pure white on the lower and a dark green on the upper side. The tree grows very erect and symmetrical. Never makes sprouts from roots. Hardy everywhere. 

*Price:* 4-5 ft., 25c each, 10 for $2.50; 5-6 ft., 30c each, 10 for $3.00; 100 for $25.00.

**RED HUD, Judas Tree.** (Cercis Canadensis.) A very ornamental native tree of medium size, with perfect heart-shaped leaves and hardy even in Canada. Blooms early in the spring, before the leaves appear, covering the branches with small reddish-purple flowers. 

*Price:* 5-6 ft. trees, 30c each, 10 for $2.75; 4-5 ft., 25c each, 10 for $2.25.

**RUSSIAN OLIVE.** (Elaeagnus.) A beautiful lawn tree, with spreading top; nearly black shining bark, and a dense, upright, long, narrow foliage. The small yellow blossoms have a wonderful appearance. The exquisite perfumes are carried long distances in the air. Fine if planted in a group with green leaved trees, among shrubbery, or as a lawn tree. Hardy as far North as Canada. Can also be used as a hedge or screen as it stands pruning and shattering. See under plants for hedges and screens, Page 36.

**Price of Russian Olive:** Per 1 Per 10 Per 100
3-4 feet, 2-year-old... $0.90 $8.80 $80.00
4-5 feet, nice trees... .30 2.50 20.00
5-6 feet, nice trees... .35 2.80 22.00

**SCOTCH GOLDEN ORNAMENTAL TREE.** (Lombardy.) A very ornamental tree of irregular shape, with smooth, shining foliage. Its bright yellow pea-shaped blossoms are produced in profusion during the spring and make a most desirable and hardy tree for lawns, which deserves to be more generally planted. 

*Price:* 4-6 ft., trees, 40c each, 10 for $4.00.

**TULIP TREE.** (Whitewood.) One of the grandest of our native trees; of tall pyramidal habit, with broad, glossy fiddler-shaped, tulip-like flowers; allied to the Magnolia. Should not be planted too far North. 

*Price:* 5-6 ft., trees, 40c each, 10 for $4.20.

**THORN, PAUL'S DOUBLE FLOWERING.** (Crataegus.) A beautiful small tree with spreading, spiny branches. Very hard and will grow well even in dry soil. The pretty flowers are bright scarlet, very showy and bloom earlier than the poplars. 

*Price:* 4-5 ft., each 40c, 10 for $3.50.

**SIBERIAN PEA TREE.** (Caragana.) An extremely hardy shrub or low tree, originally from Siberia. The branches have small, sharp thorns. It bears beautiful yellow flowers; its seeds are said to be valuable for poultry and dietary use. Will grow anywhere, and we especially recommend it for the North, as it is perfectly hardy, even in Canada. Price for Siberian Pea Tree, $2.75. See under hedges, see Page 36. 

**SILVER WILLOW.** Salix Argentea (Regalls.) A large tree with short and thick trunk and yellowish-brown branches. The leaves are very beautiful silvery hairs, giving a white appearance to the whole tree. While it grows well on upland, it is especially adapted for wet places. 

**WISCONSIN WEEPING WILLOW.** See under Weeping Trees, page 33.

**GOLDEN WILLOW.** (Salix Aurea.) An exceedingly showy and pretty variety, with bark of bright golden color, making it very conspicuous for its coloring. The catkins also are a very golden color. A handsome tree at all seasons. 

*Price:* 5-6 ft., well branched, each 12c; 10 for $1.20; 25c each, 10 for $2.20; 6-8 ft., each 35c, 10 for $3.50.

**LAUREL-LEAVED WILLOW.** A beautiful, distinct medium-sized tree, with soft, glossy, laurel-like leaves that make it very conspicuous in sunshine. Can be clipped into form like a bay tree; has bright green foliage throughout the year round. The tree does well in Nebraska; stood our severe winter two years ago without being injured. 

*Price:* 4-5 ft., 15c each, 10 for $1.25; 100 for $10.00; 6-8 ft., 20c each; 10, $1.30; 100, $15.00; 8-10 ft., 30c each, 10, $2.80; 100, $30.00.

**BALSAMIFERA.** Very strong-growing native tree, planted and esteemed for its foliage and hardiness and the resinous fragrance of its large buds in the spring. Leaves broad and heart-shaped, leaf stalk usually hairy and somewhat flattened. It makes a fine street tree and is probably the best adapted of the Poplars for this state. Some people use the buds for medicinal purposes. 

*Price:* 4-5 ft., nice trees, whips, each, 12c; 10, $1.00; 100, $9.00; 6-8 ft., nice trees, whips, each, 20c; 10, $1.70; 100, $15.00; 8-10 ft., nice trees, whips, each, 40c; 10, $3.50; 10-12 ft., nice trees, 1/2 in. calipers, each, 10, $7.00.

**ORIENTAL SYCAMORE OR PLANE TREE.** (Platanus Orientalis.) Rapid grower, broad crowned with large leaves during the finest headed tree in our list. Is especially adapted for street planting with city streets. Entirely tree from fungus and insects. 

*Price:* 4-5 ft., 30c each; 10 for $3.00; 5-6 ft., 45c each, 10 for $4.00.

**SYCAMORE, AMERICAN.** (Platanus.) Noble, upright growing tree, with spacious head and large deep foliage. A tree grower and very desirable for park or street planting. It is not, perhaps, though, north of here, and I cannot recommend it even for the milder climate of Nebraska. 

*Price:* 4-5 ft., 25c each; 10 for $2.25; 5-6 ft., 25c each, 10 for $2.25; 6-8 ft., 25c each, 10 for $2.00.
The trees form objects of great beauty when planted as single specimens on lawns, in the front yard, and especially when used for cemetery decorations. Also of great value for covering arbors. All are invaluable for the variety they add to landscape and garden. Our list embraces the best varieties.

**TEAS’ WEEPING MULBERRY**. (Morus.) The most graceful hardy weeping tree in existence. Forms a perfect umbrella-shaped head, with long, slender, willowy branches, drooping to the ground. It has beautiful foliage, is wonderfully vigorous and healthy; is one of the hardest, enduring the cold of the North and the heat of the South, safe and easy to transplant; admirably adapted for ornamental, small or large grounds, or for cemetery planting. Fine, strong trees, grafted 5 to 6 ft. high. Price: $1.25 each.

**WEPPING MOUNTAIN ASH**. (Sorbus.) One of the best known and most popular weeping trees. It is of easy culture, great hardiness and thrives in all soils. Its straggling branches, twisting and turning in every direction, with no training whatever, make a most picturesque and novel sight. Covered during the autumn with bright red berries. It is the best tree for the North of the extremely pendulous type. Splendid lawn tree. Grafted 6 ft. high. Price: 80c each.

**CUT-LEAF WEEPING BIRCH**. (Betula). This magnificent tree is, without question, the most popular and the most planted of all pendulous or so-called weeping trees. It is a tall, slender tree, yet with vigorous growth. It has an erect central trunk, somewhat pyramidal in shape, with graceful, drooping branches and glistening silver white bark. The foliage is fine, thin, deeply and delicately cut, and of a beautiful shade of green. The whole tree presents a soft and delightful effect not found in any other hardy ornamental tree. Price: 5 to 6 feet trees, 85c each, 6 to 8 feet trees, $1.00 each.

**CAMPERDOWN WEEPING ELM**. Its vigorous branches, which have a uniform habit, over-lap so regularly that a compact, roof-like head is formed. Leaves are large, and a rich, glossy dark green. Tree a strong, vigorous grower. One of the best weeping trees. It can be trained to form an arbor if desired. The peculiar characteristics of this tree make it very popular and valuable for the lawn. Hardy everywhere and not particular as to soil. With age the weeping branches will eventually sweep the ground, and enclose a shady place as effective as a small grove of trees. Price: 6 ft. high. Price: $1.25 each.

**AMERICAN PURPLE WEEPING WILLOW**. (Salix.) Also called Fountain Willow. An American species of dwarf habit, with slender, graceful branches. Forms a fine round head, sweeping outward in fountain shape. Makes one of the most ornamental of small weeping trees. Very hardy and of quick growth. Grafted. Price: 4 to 6 feet trees, 75c each.

**BABYLONIAN WEEPING WILLOW**. Napoleon’s Widow. (Salix.) A well known tree of pendulous or weeping habit, with long, slender olive green branches. Forms a large tree of very graceful habit. Its fresh, bright green leaves and long wavy branches make it very attractive. Very hardy, of quick growth, adapted to a variety of soils, easily transplanted, used to great advantage in landscape effects. Excellent for parks, etc. The accompanying illustration shows what beautiful landscape effects may be obtained with these trees. Price: 4 to 6 feet trees, 25c each, 10 for $1.50; 5 to 6 feet trees, 25c each, 10 for $2.00.

**THURLOW WEEPING WILLOW**. This willow, like the Babylonica, is not grafted or budded; it’s nature is weeping. Tree vigorous, fast grower, very hardy, and a graceful weeper. The branches are very slender, leaves long, of bright green, with a lighter shade of green on the lower side. A 5 to 6 foot tree, planted in my little park, spring, 1913, was (October 15, 1913). 2 inches in caliper, and 11 feet high, with branches drooping to the ground. These trees are not grafted. Price: 3-4 ft. trees, 15c each, 10 for $1.00; 4-6 ft. 18c each, 10 for $1.30; 6-8 ft. 19c each, 10 for $1.75; 8-10 ft. 20c each, 10 for $2.00.

**WISCONSIN WEEPING WILLOW**. A large tree with long drooping branches similar to the Babylonica, but much hardier. A good ornamental tree, also excellent for wood in low places. Grows very fast. The branches are very good for tying purposes. Price: 8-10 ft. trees, 18c each, 10 for $1.50; 10-12 ft. 19c each, 10 for $1.75; 12-14 ft. 20c each, 10 for $2.00.

**PARCEL POST**: For all trees and plants that can go by Parcel Post, see prices on pages 61, 62, 63 and 64.

Carried over from Page 32. This is an Ornamental Shade Tree, not a Weeping Deciduous Tree.

**CISTENA PLUM**. The hardiest of the bloodleaf ornamental Plum. Fully as good as Prunus Pissardi and much hardier. Keeps its color well through the summer. A fine tree for the lawn. Price: 4-6 ft., 32c each, 10 for $3.20.

**TESTIMONIAL**

McNeal, Ariz., April 8, 1915.

I received trees some time ago; they were sure fine; the Plums were so much better than I expected; are all doing fine; don’t expect to lose a one. Thanks for the premium. Yours truly, F. E. M.
Hardy Coniferous Evergreens are particularly valuable for use in all classes of ornamental planting in as much as they preserve their graceful foliage and rich coloring throughout the summer and winter, adding much to the charm of the landscape during that period when deciduous trees and shrubs are without foliage. The following Evergreens are very hardy and particularly adapted to our Western climate. Evergreens cannot be shipped before April 1st, and should always go by express. For short distance shipments we can pack them in boxes with other trees and send by freight, but on long distance shipments, it is best to send them by express or parcel post.

**ARBOR VITAE, AMERICAN.** (Thuya.) A well known Evergreen of great value; it forms an upright, conical tree of medium size and is, all things considered, the finest Evergreen for screens, being hardy, and easily transplanted. It grows rapidly and with little care, and soon forms a beautiful hedge, very dense and perfectly impervious to the sight. Are widely planted throughout the United States.

**Price of Arbor Vitae:**
- Per 1: $0.05
- Per 10: $0.15
- Per 100: $1.30
- Per 1000: $12.00

**CHINESE ARBOR VITAE.** (Thuya Orientalis.) Similar to the American, but it is claimed to be better adapted for the Middle West. The State Agricultural College, Manhattan, Kansas, recommends it very highly for planting in Kansas. **Price:** 6 to 8 in. seedlings, 5c each, 10 for 40c, 100 for $3.00, 1000 for $35.00.

**BLUE SPRUCE.** (Picea Pungens.) The Blue Spruce is the most beautiful of all conifers. Its silver foliage, glistening in the sunlight, makes it surpass in beauty any other Evergreen. It is very hardy; a good grower, will withstand severe winters and excessive moisture, and is very easily transplanted. The Blue Spruce has no equal for lawn and cemetery use.

**Price of Blue Spruce:**
- Per 1: $0.40
- Per 10: $3.00
- Per 100: $30.00

**DOUGLAS FIR.** (Abies Douglass.) A beautiful rapid-growing tree, with nice, dark green foliage. It is a splendid tree for lawn planting, and is used in all work where a particularly choice tree is required.

**Price of Douglas Fir:**
- Per 1: $0.60
- Per 10: $6.00
- Per 100: $60.00

**BLACK HILL SPRUCE.** (Picea Canadensis.) A very hardy Spruce with dark green foliage. Grows somewhat slower than the Norway Spruce, but is much harder. A fine lawn tree.

**Price:**
- Per 1: $0.75
- Per 10: $7.50
- Per 100: $75.00

**NORWAY SPRUCE.** (Picea Excelsa.) A lofty tree of perfect pyramidal form, remarkably elegant and rich, and as it gets age, has fine pendent branches; it is exceedingly picturesque and beautiful. One of the best evergreen hedges and windbreaks.

**Price:**
- Per 1: $0.90
- Per 10: $9.00
- Per 100: $90.00

**WHEN MY CUSTOMERS SAY**

R. I., West Liberty, Ill., Nov. 12, 1914.

Received the trees in fine shape on Nov. 10, being on the road about 20 days. Accept my thanks for the fine trees sent in this order, as my customers every one were highly pleased with their orders. Any other orders will be sent to your house, as my satisfaction is expressed in your treatment.

J. O.
EVERGREENS OR CONIFERS
(Continued)

AUSTRIAN PINE. (Pinus Austrilaca.) The Austrian or Black Pine is a stout branched tree of rapid growth; branches rather long in proportion to the trunk than in most pines. The elegant whorls of branches are densely clothed with deep, blackish green foliage. It is one of the best pines for forming screens. Perfectly hardy and thrives well in dry soil and upon high, bleak hills.

By Express.

WHITE PINE. (P. Strobus.) The most ornamental of all our native pines. A tall and very beautiful tree with regular whorls of horizontal branches, forming a pyramidal crown. Foliage light, delicate silvery green; will grow in the poorest of sandy soils; a long-lived tree and rapid grower. The valuable pine with a wide range of usefulness and adaptability, both for commercial and ornamental purposes.

By Express.

EUROPEAN LARCH. (Larix Europea.) An excellent, upright, rapid growing, pyramidal shaped tree, with drooping, slender branches; foliage light green, soft and graceful in the spring, turning to a golden yellow in the autumn before falling. Unlike most conifers, it is deciduous after the first year; is perfectly hardy and thrives in nearly all situations. Makes a very handsome specimen for ornamental planting and any valuable for timber. The cones are small and grow upright on the branches.

By Express.

WHAT MY CUSTOMERS SAY

Du Bois, Neb., April 18, 1915.

I am sending you this letter to let you know that I have received my stock of fruit trees in an excellent condition, and was surprised at the quality of the trees; last year I paid 50 cents for the same trees, but of poorer quality. In the future you shall have all my orders.

Yours respectfully,

J. P.
PLANTS FOR HEDGES AND SCREENS

A hedge, to be pretty and effective, must be very dense and well pruned. It is best to plant one year seedlings. The thorny varieties that are used to turn horses, cattle and hogs should be planted 8 inches apart, which will make three for every two feet. The ornamental varieties may be planted 12 to 18 inches apart. Cut plants back the first year to two or three inches, second year 10 to 15 inches, the third year to 24 inches.

THORNY VARIETIES

OSAGE ORANGE. (Bois d'Arc.) A valuable tree for its timber, posts of this wood being almost indestructible. It should be planted exclusively south of the Ohio River, as it is not hardy north of Nebraska. Stands pruning well and makes a beautiful and effective hedge.

Price: See page 26, under “Forest Tree Seedlings.”

HONEY LOCUST. See description on page 28. Has very long thorns and turns cattle and hogs well.

Price: See page 26, under “Forest Tree Seedlings.”

COMMON BUCKTHORN. (Crataegus Oxycantha.) A hardy shrub, extensively used in England and the continent for live hedges. Is covered with pretty white blossoms in the spring and red berries in the fall. The Buckthorn does well in Nebraska and is perfectly hardy.

Price: For 12 to 18-inch plants, 5¢ each, 40¢ per 10, $3.00 per 100, $25.00 per 1000.

ORNAMENTAL VARIETIES WITHOUT THORNS

CALIFORNIA PRIVET. (Ligustrum.) No plant has come more rapidly and deservedly into public favor. Is of vigorous growth, has glossy, dark green foliage, keeps its color until after Christmas. Almost evergreen. Should not be planted where the thermometer goes much below zero. Not hardy in Nebraska.

Price: For 18 to 24-inch plants, 5¢ each, 40¢ per 10, $3.00 per 100; 2 to 3 feet, 10¢ each, 80¢ per 10, $6.50 per 100.

AMOOR RIVER PRIVET. Hardy, foliage glossy green and holds its color well almost the entire year. Will stand shearing to any extent. Where the California Privet is not hardy, the Amoore Privet should be planted. It is perfectly hardy. In my garden I have an Amoore Privet hedge 200 feet long, and it came through the last three winters perfectly sound and bloomed fine, while California Privet froze clear to the ground. I recommend this Privet for all the states north of Missouri. It costs a little more, but will stand your climate and will be perfectly satisfactory.

Price: 12 to 18-inch plants, 7¢ each, 10 for 65¢, 100 for $5.00, 1000 for $47.00; 18 to 24-inch plants, 10¢ each, 10 for 90¢, 100 for $8.50, 1000 for $85.50.

ENGLISH PRIVET. (Ligustrum Vulgaris.) The familiar shrub of old gardens. Makes a perfect fence, is hardy, with white flowers and clinging purple berries.

Price: 18-24-inch, 7¢ each, 10 for 55¢, 100 for $4.50.

RUSSIAN OLIVE. (Full description see page 32.) It is well adapted for a hedge, and is perfectly hardy anywhere. Should be well pruned every year. I know this hedge will please you. For prices see page 26 under “Forest Tree Seedlings.”

RUSSIAN MULBERRY. Is well adapted for hedges or screens. Must be pruned often. See full description and price list on page 13.

LILACS. These make a very attractive hedge. See description on page 41. Plants suitable for hedges, $10.00 per 100.

SPIREA VAN HOUTTI. This is the best plant for an ornamental hedge that I know of. See description on page 41. Plants for hedges should be set 10 inches apart; 12 inch plants, suitable for hedges, $12.00 per 100.

SPIREA THUNBERGI. Makes very dense and pretty hedge fence, not over three feet high. See description on page 41.

Price: 8 to 12 inches, $5.00 per 100. For larger sizes see page 41.

SIBERIAN PEA TREE. (Caragana.) Full description on page 32. Is perfectly hardy, even in Canada, and especially adapted for ornamental hedges. Stands shearing well and grows very dense. Never looks coarse and, on account of its hardness, can be planted on any place wherever desired.

Price: 12 to 18 inch seedlings, 10¢ each, 10 for 90¢, 100 for $5.00.

PARCEL POST: For all trees and plants that can go by Parcel Post, see prices on pages 64, 65, 66, 67.

BOXWOOD.

BUXUS SUPRATRIFICOSA. An evergreen little shrub, with leathery small leaves; largely used for edging around flower beds, walks and graves. Is hardy, and hot weather, dust or smoke does not affect it. In Europe this shrub is very popular. 4-6 inch plants, 10¢ each, 10 for 85¢, 100 for $7.50.
ORNAMENTAL SHRUBS

There is nothing which so quickly, and for so little cost, adds so much to the beauty, cheerful and home-like appearance of a place as an assortment of hardy shrubs. They are permanent improvements which increase in size, value and beauty year after year. Our price is for strong, healthy, field-grown plants, two years old and 2 to 3 feet high, unless otherwise mentioned. If these shrubs are wanted in large quantities, please write for prices.

Moss Acacia. (Robinia Hispida.) An elegant shrub, 5 to 6 feet tall, with light green plinate leaves and long, graceful clusters of pea-shaped, rose-colored flowers in June, often throughout the summer. The branches are covered with a moss-like growth, similar to Moss Roses. The shade they are cast is beautiful when in full bloom and should be in every garden.

Price: Strong, 2-3 feet, 25c each, 10 for $2.30.

Althea. (Rosa of Sharon.) Unsurpassed by any hardy shrub for freedom of bloom. From midsummer until frost, when few other shrubs are in bloom, the Althea blossoms freely. Grows 4 to 6 feet tall. They have rich foliage and profuse flowers. Of the easiest culture and very hardy, thriving splendidly here in the West. As far South as Beatrice, Altheas will freeze to the ground in severe winters, but will sprout up again in the spring, will not bloom, though, the next summer. To avoid this, I cut all my Altheas in my garden back to about ten inches in the fall and cover with some coarse manure or straw. In this way they come through the winter in fine shape and bloom well the next summer. I have the following varieties:

Barberry Thunbergi

Calyctthus. The Sweet Scented Shrub or Strawberry Thunbergi. Also called Chocolate Shrub and Carolina Allspice. Flowers very double, a brownish purple in color and deliciously fragrant. Blooms nearly all summer and is one of the most desirable shrubs. Hardy and of easy culture. Price: 2 to 3 feet, 25c each, 10 for $5.00.

Exochorda Grandiflora. (Pearl Bush.) One of the most distinctively ornamental shrubs in cultivation and a leader in its season. It grows vigorously to a height of 6 to 10 feet, and can be trimmed to any desirable shape. The long, thin, white clusters of blossoms, resembling strings of pearls, may be opened up to long, gleaming sprays of pure white. Price: 2 to 3 feet, 30c each, 10 for $2.50.

The Everblooming Butterfly Bush. (Buddleya Var. Magnifica.) This shrub from a young plant set out either in the spring or fall, will mature to full size the first summer, producing a handsome bush, which the first year often attains a height of four feet. It produces long, graceful stems, which terminate in tapering panicles of beautiful flowers that are of miniature size and borne by the hundreds on a flower head which is frequently 10 inches long. A single plant the first season will throw out as many as 50 flower spikes, which increase greatly in number during the succeeding years. The foliage and blooms are exceedingly fine. The shrub is raised by which we mean in some latitudes it will die down to the ground and while perfectly hardy, we recommend covering the roots with manure, leaves or other suitable material as winter approaches, as this will produce a heavy growth the following season. This shrub is suitable as an individual specimen in the lawn and garden, or placed promiscuously in the shrubbery border. Price: 40c each, 10 for $3.00.

Azalea Mollis

Price: 2 to 3 feet, 25c each, 10 for $1.75.

Tree Althea. We can furnish the above varieties in tree form. Price: Nice, stocky specimens, 4 to 5 feet high.

Price: 40c each, 10 for $3.50. Too large to go by mail.

Azalea Mollis. Showy, low-growing, hardy plants, used extensively in parks and public grounds. The brilliancy of their yellow, orange and carmine flowers is not approached by any other hardy shrub. This shrub blooms in splendid showy clusters early in the spring. Should be protected with a layer of straw during severe weather. Thrives best in a moist, well drained soil, either in full sun or partial shade. Plants are about 3 feet high, with numerous buds. Too large to go by mail.

Price: 65c each, 10 for $6.00.

Barberry Purple Leaved. Beautiful shrub, 4 to 6 ft. high, with the color of oak-leaves, valued as a hedge plant and very unique and a striking contrast to the greenery of the other shrubs.

Price: 2 to 3 ft, 20c each, 10 for $1.75. Light plants, 10 to 18 inches, suitable for hedges, 12c each, 10 for $1.10, 100 for $10.00.

Barberry Thunbergi. Japanese Barberry. (Berberis.) Invaluable little shrub that fits in with almost every planting. Grows about anywhere, handsome foliage of bright green, oval leaves, that turn to most brilliant shades of orange and red in the fall. Slender, graceful branches, protected by thorns, are lined with little scarlet berries of great attractiveness from early autumn well into winter. Very hardy. Price: 2 feet, 20c each, 10 for $1.00; light plants, 12-18 inches, 15c each, 10 for $1.20, 100 for $10.00.

Barberry, Vulpinus. (European Barberry.) Leaves are dark green, flowers yellow and berries dark red. Very hardy. Should be in every garden. Makes a fine hedge. Price: 2 to 3 feet, 25c each, 10 for $2.25; light plants, 12 to 15 inches high, 15c each, 10 for $1.00, 100 for $9.00.
ORNAMENTAL SHRUBS—(Continued)

CORNUS. Siberian Dogwood. Free growing, 6 to 10 feet tall and very hardy; forms a small, handsome shrub. (Ribes Cornucopiae) Its clusters of small, white flowers in early summer are very dainty, and its bark is a showy dark red in winter. All the Siberian Dogwoods bear in early fall a profusion of whiteish blue berries, making them distinctly ornamental after the flowers have gone. A very brilliant shrub in early spring, the bark is intensely colored. Price: 3 to 6 ft., 10 for $2.

CORNUS FLORIDA. White Flowering Dogwood. The great white beautiful flowers are 3 inches and more in width, lasting in favorable weather for as many weeks. Besides the fine characteristics given above, the bright red bark on its young growths makes it attractive and cheery in winter. Tree rarely grows over 4 to 6 feet in height and is branching in habit. Blooms when it is still quite small. Price: 2-3 ft., 35c each, 10 for $3.00.

CORNUS—CHERRY. (Cornus Mascula.) A fine ornamental tree or bush. See description and price under Cherry tree.

DEUTZIA FORTUNEI. A very desirable shrub of strong, hardy growth, with luxuriant foliage and bearing a abundance of beautiful racemes of double white flowers. Price: 2 to 3 feet, 25c each, 10 for $1.50.

DEUTZIA LEMOINEI. This variety forms a small dwarf shrub with spreading branches, usually growing about 3 feet tall. Leaves bright green, 2 to 3 inches long; flowers pure white. A large cluster of pinnate. Of vigorous growth, very free flowering and of easy culture. In my garden Lemoinei stands our winter best of all, seldom freezing back in the least. Price: 2 to 3 feet, 25c each, 10 for $1.50.

FLOWERING Currant. (Ribes Aureum.) The Flowering Currants are much prized for their wealth of bright flowers in early spring and their pervading, spicy odor. The leaves are glossy green and turn to brilliant colors in the fall. This variety has yellow, fragrant flowers, followed by dark brown fruits. Very hardy. Attains a height of 3 to 6 feet. Early in April, when few trees or shrubs have awakened from their winter’s sleep, the Yellow Flowering Currant puts forth its leaves and brilliant colors of bright yellow flowers, making the air with their sweet fragrance and adding a touch of sunshine to the landscape otherwise dull and winter. Price: 2 to 3 feet, 30c each, 10 for $3.00.

FLOWERING ALMOND, PINK. (Pruco.) The Flowering Almonds are pretty dwarf bushes that bloom quite early and are very showy in spring. Their slender, leafless, upright branches are entirely hidden by stellate, very double flowers of pink color, resembling small roses. Grows to a height of 4 to 5 feet and blooms in May. One of the best flowering shrubs and can be highly recommended for the Western states. Price: 2 to 3 feet, 25c each, 10 for $2.00.

FLOWERING ALMOND, WHITE. Shrub, with handsome, double white flowers in great profusion. Price: 2 to 3 feet, 25c each, 10 for $2.00.

FRINGE TREE, PURPLE. (Prunus.) This is the beautiful Mist or Smoke Tree. One of our handsomest shrubs growing to tree-like proportions in favorable locations. Its loose, graceful clusters of purple flowers are quite fragrant, and borne in fringed clusters above very large, deep green leaves of thick, feathery texture, giving the bush an appearance of purple smoke; hence the name, "Smoke Tree." Flowers appear in April or May, the blooms turn the shades of reddish brown. Blooms in June. Price: 2 to 3 feet, 25c each, 10 for $2.00; 3 to 4 feet, very strong and bushy, 40c each, 10 for $3.50.

FRINGE TREE, WHITE. (Chionanthus.) A very desirable tall growing shrub, foliage dark green, turning yellow in autumn. Flowers pure white, in drooping panicles, appear in May and June, followed by small, plum-like berries of bluish color. Price: 2 to 3 feet, 25c each, 10 for $2.00; 3 to 4 feet, very strong and bushy, 40c each, 10 for $3.50.
ORNAMENTAL SHRUBS—(Continued)

FORSYTHIA. Golden Bell. Few if any of the spring flowering shrubs are hardier or taller than the Forsythia. Both the grace and beauty give them a prominent place in all shrub plantations. Of upright, vigorous growth; foliage rich, dark green and lustrous. Flowers brilliant golden yellow, borne in great profusion early in April before the leaves appear. Prices: 2 to 3 feet, 25c each, 10 for $2.00.

WEeping FORSYTHIA. Drooping Golden Bell. (Forsythia Suspensa.) A graceful shrub with long, slender drooping branches. Leaves dark green and lustrous, persisting until heavy frost. The beautiful flowers come in great profusion, are golden yellow and very showy. Grows about 6 to 8 feet tall. Very odd and interesting and one of the showiest of the shrubs in cultivation. Price: 2 to 3 feet, 25c each, 10 for $1.50.

GLOBE FLOWER, DOUBLE. (Kerria.) A graceful shrub from Japan, with long, slender branches, clothed with peculiarly rough, sharply cut foliage, bright green in summer and fading yellow in autumn. The double, brilliant golden flowers are borne in profusion throughout the summer. A handsome shrub, growing 4 to 5 feet tall, of spreading habits with drooping branches. Of strong, vigorous growth. Prices: 2 to 3 feet, 25c each, 10 for $1.50.

WHITE GLOBE FLOWER. Same as the above, except that double flowers are white. Price: the same as yellow.

GOLDEN ELDER. (Sambucus.) A variety with golden yellow foliage. A valuable plant for producing contrast with flowering hardy shrubs. Grows about 6 feet, and is of vigorous, spreading habit. Berries and flowers same as American Elder. Should have full sun to give best effect. Grows well on all soils and can be pruned into a neat, compact little bush. One of the best golden foliaged shrubs. Price: 2-3 ft., 30c each; 10, $2.50.

FLOWERING ELDER. This variety is similar in growth to the Golden Elder described above. The foliage is mottled with yellow and white; one of the best variegated leaves shrubs. In flower and fruit it is similar to the American Elder. This variety of Elder is not absolutely hardy in Nebraska. It will freeze to the ground in some winters, but will always sprout from the roots again. Should be planted farther South. Prices: 2 to 3 feet, 25c each, 10 for $2.00.

AMERICAN ELDER. (Sambucus Canadensis.) The common Elder Berry. A tall shrub with stout stems filled with white pith. The small white flowers come in large flat-topped cymes, fragrant, opening in early summer. Fruit black, very profuse, ripening in August and September. Are highly esteemed for cooking and making of cordials. In many parts of Europe they are grown for the purpose of making wine, and are said to be of great value for medicinal purposes in case of stomach disorders. Price: 2 to 3 feet, 15c each, 10 for $1.50.

HIGHBUSH CRANBERRY. (Viburnum Opulus.) A magnificent, large shrub, with upright and spreading form. The leaves are broad, oval, three-lobed and bright green. The small white flowers which appear in early summer are borne in broad, flat clusters surrounded by a ring of large sterile flowers. These are followed by very showy scarlet berries, which cling to the bush all winter, as they are not disturbed by the birds. It will thrive and grow to perfection in the coldest climates or where the extremes of heat and cold are the greatest. Price: 2-3 ft., 30c each, 10 for $2.25.

BUSH HONEYSUCKLE, RED TAR- TARIAN. (Lonicera Tatarica.) The best known of all the Bush Honeysuckles and in our estimation the finest variety of all. Grows to a height of 5 to 10 feet with upright, somewhat spreading branches and bright green foliage. The flowers are borne freely in May and June, are of bright pink color, followed by showy red berries, which ripen in mid-summer, and cling to the bush for several weeks. This fine shrub is of great value when planted as a background for smaller shrubs or in a commanding position where their size will make them conspicuous. It is one of the best shrubs for Northern latitudes, as it withstands the severest winters. Price: 2 to 3 feet, 25c each, 10 for $1.75; 3 to 4 feet, strong and bushy, 35c each, 10 for $3.00.

BUSH HONEYSUCKLE, MORROWI Japanese variety. Grows only 4 to 6 feet tall and spreading. In early spring its pure white flowers are very attractive. The finest berry-bearing variety, the fruit being a rich crimson and remaining a long time. Very hardy. Price: 2-3 ft., 25c each, 10 for $2.50.

PARCEL POST: For all trees and plants that can go by parcel post, see prices on pages 64, 65, 66 and 67.

On orders for trees and plants (not Seeds) amounting to $10.00 or more, I pay all freight charges.
ORNAMENTAL SHRUBS

HYDRANGEA PANICULATA GRANDIFLORA. 

The large flowering Hydrangea. Flowers would be scarce in August and September, if it were not for this showy shrub with its large panicles of pure white flowers, often turning to pinkish as they age. Blooms until hard frost kills them. Can be planted as a specimen plant, or in the foreground of other taller shrubs, also often used as a hedge. In cold localities, cut all limbs back to 15 inches and cover with some strawy manure, and you will be sure of a mass of flowers the next fall. Bush grows about 4 to 5 feet tall. A fine cemetery plant. Use it in numbers wherever a mass of white flowers is desired. This fall I had flowers 12 inches long and 8 inches in diameter.

Price: 2 to 3 feet, 25¢ each, 10 for $2.00.

HYDRANGEA PANICULATA IN TREE FORM.

These are 4 to 5 feet trees, with good stems and splendid crowns. They are very effective for the lawn or park; or planted along the sidewalk or driveway, about 10 feet apart, they make a most beautiful sight when in full bloom. By planting one or more of these beautiful trees you can show to your neighbors and friends something nice and not commonly seen. Price: For 4 to 5 feet trees, 60¢ each, 10 for $6.00. Cannot be sent by mail.

HYDRANGEA, AMERICAN EVERBLOOMING. 

The Snowball Hydrangea. This new Hydrangea is the most beautiful hardy shrub introduced in the last twenty years. The plant which attains a height of 5 or 6 feet, with nearly the same breadth, is of far more graceful habit than the old form; with large trusses of beautifully formed flowers, the professors of flowers, rendering the plant of peerless beauty. The flowers are full and round as a ball, resembling the flowers of the well-known Snowball shrub. They bloom much earlier than Hydrangea Paniculata, here about the middle of June, and if well watered will bloom almost all summer. Like all Hydrangeas, they like plenty of water. Its hardiness and vigor have been well tested in all parts of the country, and it has been found well adapted to this part of the country and all Western states. Price: 2-3 feet, 35¢ each, 10 for $3.00.

JAPANESE QUINCE. (Red.) Cydonia. Also called Firebush. Very showy and one of the earliest shrubs to bloom, the flowers appearing before the leaves are fully developed. The brilliant scarlet flowers gleaming like red-hot coals. Fruit about two inches in diameter, yellowish green, and of aromatic fragrance. Invaluable for border or garden planting and make beautiful informal or clipped hedges. As a harbinger of spring the Japanese Quince deserves a prominent place on the lawn, where its bright red flowers can be seen to advantage. Sometimes, when snow may be seen. In sheltered corners, this shrub will put forth brilliant flowers, glowing with the living coals of fire. Very hardy and easily transplanted, and will thrive in almost any well drained soil. Price: 2 to 3 feet, 25¢ each, 10 for $1.75, 100 for $15.00; 3 to 4 feet, strong, 25¢ each, 10 for $2.50.

JAPANESE QUINCE. (White.) Flowers same as the above except that the flowers are white. Price: Same as the Red Japan Quince.

LILAC, COMMON PURPLE. The old-fashioned Lilac which grows into a very high bush, with bright green leaves. In May the plant is crowned with its wondrous wealth of light purple flowers in clusters. It is, without doubt, the best known and most popular shrub grown, and notwithstanding the introduction of so many new flowering shrubs of late years, the Lilac holds its own. A fine tall shrub for the lawn and one of the best for a fancy hedge. Can be used to good advantage in making effective backgrounds for smaller shrubs. Hardy everywhere.

Price: 2 to 3 feet, 25¢ each, 10 for $2.50, 100 for $18.00.

LILAC, COMMON WHITE. This is substantially the same as the Persian Purple, save in the color of its flowers, which are pure white. In May it blooms one of the most charming sights the garden affords, with its handsome clusters of exquisitely fragrant flowers, shining out in contrast with the bright green, heart-shaped leaves.

Price: 2 to 3 feet, 25¢ each, 10 for $2.50.

Lilacs, Budded, see next page.

PARCEL POST: For all trees and plants that can go by Parcel Post, see prices on pages 62, 60, 66 and 67.
ORNAMENTAL SHRUBS—(Continued)

LILACS—BUDDED, SPECIAL VARIETIES

MME. CASIMIR PERIER. The finest double white Lilac yet introduced. The individual flowers, which resemble miniature Tuberoses, as well as the truss, are of immense size, deliciously scented; fine for cutting. Price: 40c each.

CHARLES X. A strong, rapid growing variety, with large, shining leaves. Trusses rather loose; large, reddish-purple. Price: 40c each.

LE GAULOIS. A good strong grower. Trusses very dense, flowers double, of rose-lilac color. A very good flower. Price: 40c each.

MAURICE DE VILMORIN. A rather dwarf Lilac, free flowering. Has very large trusses of white color with white eye. Where a low-growing Lilac is desired, this will fill the place. One of the prettiest of the many varieties. Price: 40c each.

One each of the above four budded Lilies for $1.30. Price: 40c each.

LILACS IN TREE FORM. We can furnish the two varieties, page 40, in tree form, grafted 3 to 4 ft. high. Very fine for the lawn or park, or may be planted along the sidewalk or driveway. Showy and something not usually seen.

Price: 3 to 4 feet trees, very strong and stocky, 50c each, 10 for $1.50. We have them in purple and white. Too large to be sent by mail.

MOCK ORANGE OR SYRINGA. (Philadelphia.) Coronarius. One of the very best of the old, well-known shrubs. It seldom or never fails to bloom. The fragrant and beautiful waxy white flowers appear in great profusion in June. The shrub grows to a height of 10 feet, can be kept lower, though, by pruning. Often used as an ornamental hedge. Hardy everywhere and valuable for immediate effects in landscape planting.

Price: 2-3 ft., 25c each, 10 for $2.50; 3-4 ft., 50c each, 10, $2.20

MOCK ORANGE, LOMINOE. R. Flowers of this variety are large, semi-double, very fine. The bush is of a more dwarfish habit. Considered one of the best of the many varieties of Mock Orange.

Price: 2 feet, 25c each, 10 for $2.00.

MOCK ORANGE, DIANTHAFLORUS. This variety has double flowers, somewhat resembling Dianthus. It blooms very profusely and the flowers are fragrant.

Price: 2 feet, 25c each, 10 for $2.00.

OLEASTER. (Elaeagnus Longipes.) An oriental shrub with a wealth of foliage and numerous yellowish-white, fragrant flowers. The fruit is red, borne on slender stalks and ripening in midsummer. Fruit is of a decidedly acid flavor and is prized by many for making jelly, jam, etc. It is a wonderfully strong and thrifty bush, and of great value for producing immediate effect. Grows to a height of 5 to 6 feet.

Price: 2 feet, 25c each, 10 for $2.25.

PRIVET, CALIFORNIA, and AMOOR RIVER. See under hedge plants, page 38.

Meadow Sweet. All varieties bloom with the greatest freedom, making them indispensable for ornamental purposes. We grow the following five varieties, all through the season. All the species are very hardy, easy to grow in many soils and situations, and will be found useful for specimens, groups, screens, borders, ornamental hedges, etc. We grow the following five varieties, which comprise the best of all Spiraeas.

SPIREA VAN HOUTTI. One of the most popular shrubs, especially in the Northwest. The branches are very graceful and drooping and when in full bloom the leaves are almost covered by masses of white flowers. It will thrive almost anywhere, even close to the north wall of a house, in the shade, as in the sun. One of the very best shrubs for an ornamental hedge. It likes a wet season, but the driest weather will not kill it. Grows about 5 to 6 feet high in good ground.

Price: 2-3 feet, 20c each, 10 for $1.75, 100 for $16.00; 3-4 feet, 30c each, 10 for $2.75.

SPIREA BILLOLDI. Rose colored flowers in large spikes, blooms nearly all summer. Very pretty and showy and splendid for cut flowers. Grows 4 feet high.

Price: 2 to 3 feet, 20c each, 10 for $1.75.

SPIREA PRUNIFOLIA. (The real Bridal Wreath.) Among the earliest of the double Spiraeas and very showy. It is very graceful and plume-like in effect, the branches being drooping, and their whole length with small double white flowers and sweeping outward in gentle curves.

Price: 25c each, 10 for $2.50.

SPIREA THUNBERGII. (Snow Garland.) A Japanese variety of medium size, with narrow delicate leaves and a profusion of small white flowers in early summer. One of the best. Leaves narrow, bright green, turning in autumn to brilliant shades of orange and scarlet. Grows 2 to 4 feet high.

Price: 15 inch plants, 10 for $1.50, 100, $18.00.

SPIREA ANTHONY WATERER. This beautiful variety produces flowers of a bright crimson and blooms so freely that it may be kept flowering during the summer till late fall by trimming away dead blooms. foliage is very handsome, being variegated with creamy white or yellow. Grows 15 to 20 inches high; very useful for massing or border.

Price: 15 inch plants, 20c each, 10 for $1.75, 100 for $14.00.
ORNAMENTAL SHRUBS—(Continued)

SNOWBALL. Guilder Rose. (Viburnum.) One of the favorites of old-time gardens. It grows into a magnificent high bush with upright branches and handsome foliage. It forms one of the most impressive sights of early summer with its pure white, four-petaled flowers, borne in showy balls, are in bloom. We have a Snowball bush on our farm which we counted over 400 blossoms. Hardy everywhere.

Price: 2 to 3 feet, 25c each, 10 for $2.25, 100 for $18.00.

JAPANESE SNOWBALL. (Viburnum Plicatum.) From North China. Of moderate growth; handsome plicated leaves, globular heads of pure white neutral flowers early in June. It surpasses the common Snowball in several respects. Its habit is better, foliage much handsome, flowers white and more delicate. One of the most valuable flowering shrubs.

Price: 2 to 3 feet, 35c each, 10 for $3.00.

VIBURNUM LANTANA. (Wayfaring Tree.) 10 to 15 feet. Beautiful wrinkled, Lantana-like leaves; white flowers in May and June. Fruits color unequally from crimson to black, causing a most charming combination of colors throughout the summer.

Price: 2 to 3 feet, 15c each, 10 for $1.30, 100 for $12; 3 to 5 feet, 25c each, 10 for $2.30.

SNOW OR WAXBERRY. Red Fruited. Same as below, only the berries have a red color, and are smaller.

Price: 2 to 3 feet, 20c each, 10 for $1.75.

SNOWBERRY OR WAXBERRY. (Symphoricarpus.) A desirable shrub with small pink flowers, followed by large wax-like berries, which hang on the plant throughout the winter. Grows to a height of 2 to 4 feet. In very showy and succeeds everywhere.

Price: 2 to 3 feet, 25c each, 10 for $1.75, 100 for $15.00.

TAMARIX, AFRICAN. Very strong-growing shrub with brown bark and slender, spreading branches. The foliage is as light and feathery as asparagus; flowers delicate and fringing, of bright pink color. The blooms appearing in May or June and sometimes again in fall. Valuable for planting near the seashore on the edges of sandy hills near the sea water. Will grow 10 to 15 feet high.

Price: 2 to 3 feet, 15c each, 10 for $1.30, 100 for $12; 3 to 5 feet, 25c each, 10 for $2.30.

TAMARIX ODessa. A Russian variety, much superior to the African Tamarix. The foliage is bluish green, similar to the Colorado Blue Spruce. The flowers are of a delicate pink color. Blooms in July and often again in August and September. The branches are very graceful and the shrub is much harder than the African. Stood in my garden a temperature of 26 degrees below zero without injury, whereas the African froze to the ground. Excellent in making bouquets, owing to its superb foliage and delicate flowers.

Price: 25c each, 10 for $2.25.

RUSSIAN ARTEMESIA. A very hardy shrub with finely cut foliage of light or whitish-green color and very pleasant aromatic odor. Forms a symmetrical upright bush. The height is about 4 to 5 feet.

Price: 2 ft. plants, 20c each, 10 for $1.50.

WEIGELIA, EVA RATHKE. A new variety from Germany and probably the best and finest of all Weigelias. Flowers are of brilliant crimson color, a beautiful and distinct shade. Blooms nearly all summer and when the full bloom the whole plant fairly glows with color. On September 27th our Eva Rathke Weigelias were still in full bloom and the plants literally covered with their beautiful, intensely rich flowers. Grows 2 to 3 feet tall. It is not real hardy in Nebraska. Cut the bush back late in fall to one foot and cover with strawy manure. It will amply repay this little work the next summer.

Price: 2 to 3 feet, 35c each, 10 for $3.20.

WEIGELIA ROSEA. An elegant shrub with beautiful rose-colored flowers. Blooms from June until fall. It is erect in habit, with good foliage. The height is four feet. Very hardy.

Price: 2 to 3 feet, 25c each, 10 for $2.25.

WEIGELIA VARIEGATA. A variety with bordered leaves of yellowish-white color, making the bush very conspicuous the entire season. Pink flowers.

Price: 2 to 3 feet, 25c each, 10 for $2.25.

PARCEL POST: For all trees and plants that can go by Parcel Post, see prices on pages 64, 65, 66 and 67.
Corner in my garden. On the little island are planted Caladiums on the outside, inside Cannas. Lawn, Kentucky blue grass and white clover. See description and prices, pages 115-117. The small building is a partial reproduction of a castle-ruin near my old home in Switzerland. A rockery of this kind gives one a chance to display plants found in rocky places.

Entrance to my home. Flowers around the fountain are Moss Verbenas. Outside circle along walk Petunias. The small trees are Tree Roses. The two large trees are Catalpa Bungei. An entrance like this from the street to almost any house can be arranged without very much expense. The walk and fountain being the biggest items.
HARDY ORNAMENTAL CLIMBING SHRUBS

Your home, outbuildings, fences and trunks of old trees can be made very attractive by the use of hardy vines. Some permanent improvements add greatly to the value of your property, and the value increases from year to year. We furnish nice, strong, field-grown plants at prices given below.

AKEBIA. A beautiful, hardy Japanese vine with unique, dainty foliage and chocolate-purple flowers of delightful fragrance in large clusters. The foliage is never attacked by insects and is nearly evergreen. Blooms in May. Its rapid growth makes it highly suitable for porches, trellises or running over walls and banks. Does best in a sunny location and well-drained soil. Price, 30c each.

AMPELOPSIS ENGELMANNI. A new variety of Woodbine which has long been desired. It has shorter joints and very much smaller and thicker foliage. It also is better equipped with tendrils by which it will climb walls of stone or brick as closely as the Boston Ivy. This variety has proved itself perfectly hardy in Minnesota, and we have no doubt that it will occupy the same place in the North and West that the Boston Ivy does in the East. Will grow in any soil and withstands drought and heat. Price, 25c each, 10, $2.30.

BOSTON IVY. (Ampelesis Veitchii.) One of the finest climbers for covering walls, as it clings firmly to the smoothest surface, covering it evenly with overlapping leaves, which form a perfect mass of foliage. The color is fresh deep green in summer, changing to bright shades of crimson and yellow in autumn. The handsomest vine possible for growing on house walls, especially the foundation and first story, around the doors and windows. When once established it is quite hardy. Should be planted only south of here. Price: 30c each, 10 for $2.75.

VIRGINIA CREEPER. Woodbine. (Ampelesis Quinquefolia.) A strong, rapid grower; foliage large, dark green; in autumn bronze and crimson. This is an old favorite and valuable for covering back porches, outbuildings, arbors, etc. Price, 30c each, 10, $2.75.

Bitter Sweet. (Celastrus scandens.) A native climber with handsome glossy foliage and large clusters of beautiful orange crimson berries remaining all winter. Very bright in effect and charming for winter house decorations. Very hardy. Price, Strong plants, 25c each, 10, for $2.00.

Chinese Matrimony Vine. (Lycium.) Vigorous growing, hardy climbing vine that may be used anywhere that a vine is needed for training to trellis, fence or wall. The foliage is of a grayish green. The flowers, which appear from June to September, vary through shades of pink to purple. The fruit which follows is of a deep crimson color and very showy. It is borne abundantly along the entire length of the branches. It is especially attractive in the fall when it is thus loaded with its bright fruits which contrast well amid the green foliage. The foliage remains fresh until severe frosts. Will grow in nearly all soils and in all climates. Price: 25c each, 10, $1.75.

Japanese Kudzu Vine. Jack and the Bean Stalk Vine. (Pueraria.) The most remarkable rapid growing hardy perennial extant. In rich soil the plant will grow 70 feet in one season. It starts into growth slowly, but after three or four weeks it grows almost beyond belief. Leaves in shape like Lima Beans; dark green, soft and woolly. For porches, arbors, old trees, etc., we know of nothing its equal. The illustration on this page gives some idea of the beautiful effect obtained by planting this climber.

Price: Strong, field-grown roots, 25c each.

Honeysuckle. Hall's Evergreen Japon. (Loniceria.) One of the best of the climbing Honeysuckles and a free bloomer. Has oval, semi-evergreen foliage and fragrant, low and cream colored flowers in constant succession. Grows to a height of 12 to 15 feet. Excellent for covering trellises, rocks, dry banks, etc. The Honeysuckle perfume is remembered and loved throughout the world.

Price: 25c each, 10, for $2.25.

For Parcel Post Prices, see pages 64 to 67.
HARDY ORNAMENTAL CLIMBING SHRUBS—(Continued)

HONEYSUCKLE, RED CORAL. A shrubby climber and one of the most satisfactory of all plants. The odd shaped foliage is showy and attractive and it produces its bright red, fragrant, trumpet shaped flowers almost continuously. A splendid vine for porches. Grand for trellises and ground cover. Will thrive in almost any kind of soil, growing to a height of 10 to 15 ft. Price: 10 each, 10 for $1.75.

HONEYSUCKLE, AUREA. A variety with beautifully variegated foliage. Flowers very fragrant, of creamy white color. In bloom from June till Aug. Price: 25c each, 10 for $2.25.

TRUMPET VINE. (Bignonia Radicans.) A robust, woody vine, climbing high and twining tightly with numerous roots along its stems. Great leathery, trumpet-shaped flowers of orange-scarlet, clustering all the tips of the branches, bending them gracefully with their weight. In bloom nearly all summer. Extremely valuable for covering old stumps or walls; wherever a showy flowering vine is desired, it will be found most useful and pretty. Price: 25c each, 10 for $2.25.

EUROPEAN TRUMPET VINE. (Bignonia Rubra.) The flowers of this variety are very much larger and of a better color, which is yellowish-red. They bloom much younger than the Bignonia Radicans, two-year-old plants always blooming well in the nursery. Are perfectly hardy, constant bloomers and very showy. Price: Two-year-old-plants, 30c each, 10 for $2.75.

WISTARIA, CHINESE PURPLE. This variety bears in great profusion large drooping clusters of purple pea-shaped flowers, somewhat resembling a bunch of grapes in size and form. Blooms in May and June and sometimes again in the fall. Foliage is very pretty, of pale green color. An exceedingly beautiful and useful climbing plant that may also be trained to tree form. Price: 25c each.

WISTARIA ALBA. A form of the above, but flowers are pure white, in large drooping racemes. Price: 25c each.

MADEIRA VINE. Also called Mignonette Vine and Mexican Vine. A beautiful tuberous rooted climber, with glossy green leaves and handsome racemes of fragrant white flowers. The vines make a rapid growth, and a few plants will cover a trellis or cottage wall in a single season and grow anywhere without care. Price: Strong roots, 5c each, 12 50c.

For Parcel Post prices, see pages 64 to 67.
HARDY ORNAMENTAL CLIMBING SHRUBS—(Continued)

JACKMANNII. The well-known large flowering blue clematis. The beautiful flowers, when fully expanded, measure 4 to 6 inches in diameter, intense violet-purple with a rich, velvety appearance, distinctly veined. It blooms continually from July until cut off by frosts. Plant is hardy, abundant and successful bloomer. Price: 40c each.

HENRYI. This is the finest of all large flowering white clematis, and should find a place in every collection. It is not only a vigorous grower, but a remarkably free and continuous bloomer, beginning with the earliest, holding out with the latest. Flowers are large, of beautiful creamy-white, with reddish chocolate anthers. Price: 40c each.

MADAME EDOUARD ANDRE. Has been called the crimson Jackmannii. The plant is a strong, vigorous grower, very free in bloom. Lovely flowers of a distinct crimson color. Distinct from all other varieties. Price: 40c each.

RAMONA. One of the most desirable of the large flowering clematis. The large, beautifully formed flowers are of a deep rich lavender, a very pleasing and unusual color. The plant is a vigorous grower and perpetual bloomer. A decided acquisition to this class of clematis and a plant that everyone will want. Price: 35c each.

SMALL FLOWERING CLEMATIS

COCCINEA. Scarlet Bell-Flower Clematis. A beautiful and graceful climber, with broad, green leaflets and very pretty flowers of intense scarlet color. Blooms freely in June and throughout the summer. The plants are healthy and will stand drought quite well. Price: 25c each.

PANICULATA. The small flowering, sweet scented Japan clematis. One of the most vigorous and beautiful of all climbers. It is a rapid grower, and desirable wherever a quick growing vine is needed, on walls, verandas, fences, etc. In late summer it produces dense sheets of medium sized pure white flowers of the most pleasing fragrance. Will grow in almost any soil, and is entirely free from blight and insects. Price: 30c each. See illustration, page 55.

TRAILING PERIWINKLE

(Viola Minor)

A hardy evergreen shrub, or more properly called a vine, trailing close to the surface, forming a dense mat, thriving under trees, where grass will not grow; useful for binding the soil in slopes to prevent washing, for covering graves, where the blue flowers contrast finely with the glossy foliage. Perfectly hardy. Price: 10c each, 10 for 90c.

SATISFIED CUSTOMERS

I am very well pleased with the order I sent to you two years ago. Among the order I included one of the Compass Cherry-Plum. Last year that tree had some fruit already, and this year, the second year after planting, we picked over two quarts of fruit from it. Considering the awful dry and hot weather we had this summer, I think that was fine for a two-year-old tree, as there was hardly any other fruit around. The plums were all sound and healthy, there wasn’t a spotted one in the bunch. I showed the tree to all my neighbors that came here while the fruit was on the tree and they all said they would order some of them.

HENRY DEHN, R. No. 3.

Pembine, Wis., April 22, 1914.

Our goods shipped by you about April 1 were received in good condition about a week ago, and I wish to thank you sincerely for the more than fair way you dealt with us. I note with special pleasure the extra size of the "Delicious" and "Bismarck" apple trees, and their vigorous and fine appearance, and assures you that you will be remembered later, when we want stock in your lines, and again thank you, I beg to remain,

C. F. KENNISON.

The Rose, the Queen of Flowers, is justly one of the most popular. Few plants give better satisfaction to the lover of beautiful flowers, when properly treated. To obtain the most satisfactory results, roses should be planted in well drained, rich, deep loamy soil, and given a location where they will have sunlight and a circulation of air. For winter protection an application of composite or manure should be given them in late autumn, and spaced into the ground the following spring. All our roses are two-year-olds, field-grown plants, about 2 to 3 feet high and well rooted, and almost all our Everblooming Roses are on their own roots. We have no small greenhouse-grown stock.

**HARDY EVERBLOOMING HYBRID TEA ROSES**

The following varieties are free bloomers and excellent for cutting. Hardy and will withstand ordinary freezing weather, but should have protection during the winter. Suitable for garden or house culture. In the open field the Kaiserin, Gruss an Teplitz, Maman Cochet and especially Killarney withstand our hot, dry summer extremely well and bloomed profusely all through the summer and fall.

**RA DI ANCE.** An American Novelty. "A brilliant rosy-carmine, displaying beautiful rich opaline-pink thins in the open flower. The form is fine, largest size and full, with cupped petals. It blooms constantly and is delightfully fragrant. This is a superior rose."

*Price: 40c each, 10 for $3.50. Strong two-year-old plants.*

**THE DAILY MAIL ROSE.** (Mad. E. Herriot) This rose is a vigorous grower, quite hardy, of spreading, branching habit with many long thorns, green bronzed foliage, coral red bud shaded with yellow on the base, flowers of medium size, semi-double, superb coloring, coral-red shaded with yellow and bright rosy-merigold. Mad. E. Herriot was greatly admired by the visitors at the Royal International Exhibition held in London in May, 1912, where it was awarded the Daily Mail Gold Cup as the best new rose in the show.

*Price: 50c each, 10 for $4.00.*

**AMERICAN BEAUTY.** This Rose has become as famous as the Marechal Niel. It is a hardy rose of the largest size, having the everblooming qualities of the tea rose, with the delicious odor of the damask or moss rose. It is the sweetest of all roses. Color a deep, brilliant red, shading to a rich carmine crimson, entirely hardy. A valuable rose for the garden or indoor culture, flowering freely during the winter.

*Price: 35c each, 10 for $3.50.*

**GRUSS AN TEPLITZ.** One of the brightest colored roses grown. When first opened it is a dark, rich crimson, changing to a bright scarlet. Blooms continually; flowers good size and delightfully fragrant.

**HUGH DICKINSON.** Flowers very dark crimson; petals very large, full and double, and of magnificent form, with high pointed center. Vigorous upright grower, and blooms freely and continuously all summer. The sweetest perfume for outdoor planting.

*Price: 35c each, 10 for $3.50.*

**JOHNKEER MOCK.** A rose that has won fame for itself in Europe and soon to become one of the leaders in its class in America. Pink in color faced with carmine, and of enormous size and perfect formation. Delightfully fragrant and a good keeper. Flowers on long, heavy canes, almost thornless. Is a strong, rapid grower, hardy with protection in the coldest latitudes.

*Price: 35c each, 10 for $3.50.*

**KAISERIN AUGUSTA VICTORIA.** The finest, truest and hardiest everblooming hybrid tea rose. Soft, nearly white, lightly tinted with lemon in the center, just enough to relieve the white. Remarkably fragrant buds and open flowers of elegant form. The plant is a strong grower, blooms freely, and the flowers are carried on long, stiff stems. Best rose for garden and house.

*Price: each 35c, 10 for $3.50.*

**KILLARNEY.** (See page 48.) This beautiful new rose is unquestionably the finest pink, hardy everblooming tea rose introduced. Blooms large, full and of exquisite shade of shell bright pink, fragrant and handsome. The bush is strong and upright, with beautiful deep bronze-green foliage; very free blooming.

*Price: each 35c, 10 for $3.50.*
GERMAN NURSERIES AND SEED HOUSE, BEATRICE, NEBRASKA

HARDY EVERBLOOMING HYBRID TEA ROSES

MADAME CAROLINE TESTOUT. One of the most popular roses in its class, and undoubtedly one of the best for outdoor culture. Should be in every garden. Immense, large, clear pink flowers, full and double; beautiful buds. Very hardy. Price, 35c each, 10 for $3.75.

OTTO VON BISMARCK. A new Hybrid Tea Rose from Germany. Pure silvery pink, somewhat similar to La France. Flower, profusely and summer. In my garden It is one of the best bloomers. Price, each 35c, 10 for $3.25.

QUEEN OF COLORS. (Farbenkönigin.) A new rose from Germany. Blooms very large and full. Buds are long, color bright rose, with somewhat darker background. Is always in bloom and very hardy. See illustration at top and page 47. Price, each 30c, 10 for $2.75.

PINK MAMAN COCHET. The best pink garden rose. In the open ground it quickly makes a strong bush, producing on long stiff stems, in wonderful profusion, flowers that are perfect. The buds are beautiful, large, full and firm, elegantly pointed, while the open flowers are extra large, and perfectly double. The color is clear, rich pink, changing to silvery rose. Blooms all the time. Price, each 30c, 10 for $2.75. See illustration, page 50.

WHITE MAMAN COCHET. A pure white, hardy, everblooming rose, has been obtained in this grand variety. It has the requisites of a perfect garden rose—substance, size, fragrance, hardness, vigor and profusion of bloom—rivaling the best of the monthly everblooming roses in the latter all-important quality. It is a “sport” from the well-known and much valued rose, "Maman Cochet." Inheriting all its fine qualities, full and firm buds, long and pointed, the ideal rose, bearing long. Price, each 30c, 10 for $2.25.

JULIETTE. An excellent novelty, of strong bushy growth and very everblooming. Flowers are large, very double, exceedingly fragrant. The color of the petals on the outside is old gold, inside orange rose, slowly passing to rose. I recommend this rose to all my customers who can appreciate a very daintily colored and fragrant flower. Price, 40c each, 10 for $3.50.

MADAME HAVARY. (Hybrid Tea.) A beautiful monthly rose, blooming profusely all summer. The plant grows vigorously and is as hardy as the Grand Canyon. Buds are scented, very large and wide open, very double and of exquisite orange yellow color, which it holds well. Probably the best yellow rose in cultivation, much better than Golden Sun and a more profuse bloomer. I can recommend this rose. You will not be disappointed. Price, 35c each, 10 for $3.20.

RAYON D'OR. (Golden Rays.) A Hybrid Tea Rose, everblooming, furnishes roses all summer. Without doubt the best yellow everblooming rose. Strong, bushy grower, with green, shining leaves and oval shaped buds, which are of a yellow color, striped with carmine red. The big, well-formed flowers, when fully open, are of a fine canary yellow color. Received gold medals at London and the Lyon (France) exhibitions. Price, 50c each, 10 for $4.50.

HARDY HYBRID PERPETUAL ROSES

These hardy roses combine hardness, vigor of growth and size of flower with grand variety. They are very popular and most useful of all roses. While called “Perpetuals,” they are not such constant bloomers as the Everblooming Tea Roses. Particularly valuable for beds or borders in the North and Middle states. If you like roses, set out a row or two of these and you will be well repaid. We furnish field-grown, two-year-old, well rooted plants.

GEO. ARENDS, PINK SNOW QUEEN. Splendid buds and immense flowers, 4 to 5 inches across; perfectly double and delightfully fragrant, large, thick petals, very durable and handsome. Bright, shining green leaves, elegantly veined; a healthy, vigorous grower, entirely hardy and a constant and abundant bloomer. The most beautiful and largest pink rose now before the public. It is as hardy and vigorous, and just as constant a bloomer as the White Snow Queen. In my opinion, both the pink and white Snow Queen (Frau Karl Druschki) are among the very best hardy perennials.

Price, 40c each, 10 for $3.50.

Clio. A rose of perfect form, with broad, thick petals, high, full center; beautiful from pointed bud to fully opened flower. The color is of a delicate salmon blush, with slightly deeper center. Plant is strong, blooms freely, displaying its great flowers boldly on good stems against large, rich leaves.

Price, each 25c, 10 for $2.25.

GENERAL JACQUEMINOT. A rich velvety crimson, changing to a scarlet crimson. This is the best known of all hybrid perennials, and is without a rival in fragrance and richness of color. As easy of cultivation as many of the more vigorous varieties and perfectly hardy. Does well anywhere and blooms freely. Also adapted for growing in the house.

Price, each 25c, 10 for $2.25.

F. W. Bechtel, Proprietor.

Gruss an Teplitz
(See page 47.)

Rhea Reid (See page 49.)
HARDY HYBRID PERPETUAL ROSES—(Continued)

RHEA REID: A magnificent new crimson garden rose. "As large as American Beauty, as double as La France and as red as Richmond," is the enthusiastic way the originator describes this beautiful new Hybrid Tea Bush Rose. The color is vivid scarlet crimson, and the flowers are marvels of beauty, large, bold and of splendid substance. Has a strong, disease-resistant constitution and makes rapid growth; throws up a profusion of canes from the roots, and is always blooming. As an all-round garden bush rose, it has no superior.

Price, 30c each; 10 for $2.70.

PAUL NEYRON. The largest rose in cultivation, sometimes called the Paeony Rose. Color bright, fresh cerise red. Flowerers are very double and full, delightfully fragrant. The plant makes a strong, healthy growth, and has clear, glossy foliage. Blooms almost without intermission from June until late October. Price, each 25c; 10 for $2.25.

PRINCE CAMILLE DE ROHAN. Deep velvety crimson maroon, large, moderately full. One of the darkest in cultivation, and a splendid rose. A good bloomer and very hardy. At a distance the beautiful, fragrant, large, deep double flowers appear black. A wonderful rose. Each, 25c; 10 for $2.25.

SNOW QUEEN. (Frau Karl Druschki.) The finest snow white hybrid perpetual rose. Pure white, large, long pointed buds of first class form. Our plants are very hardy double and delightfully fragrant; petals shell shaped. Continuous free bloomed the flowers are in this class a rose of purest snow white, whose desirability and value we could not possibly overstate. This is, in our opinion, the finest rose of this character that we have ever offered. Certainly no other white rose can begin to compare with it. An exceedingly strong grower and very hardy.

Price, 25c each; 10 for $2.25; 100 for $10.00.

ROSSER. (Yellow Rose.) A grand free flowering rose. Fine for bedding out or pot culture. Flowers are very double and handsomely formed, with outer petals pearl white, shading to a center of rosy pink.

Price, 25c each; 10 for $2.25; 100 for $10.00.

Moss ROSES

Admired for the beautiful moss covering of the buds. The moss rose is strong and vigorous, perfectly hardy and very desirable for outdoor culture. Most varieties bloom but once in the season, but the flowers and buds are very large and handsome, remain in bloom a long time, and are highly prized.

WHITE BATH. White, sometimes tinged with flesh; attractive in bud and open flower. The best White Moss. Each, 25c; 10 for $2.25.

SALET. Light rose, medium size, covering mossy, the best in its class. Each, 25c; 10 for $2.25.

HENRY MARTY. Red, well mossed, is a fine rose. Each, 25c; 10 for $2.25.

HARDY CLIMBING ROSES

As an ornamental plant for covering porches, side walls, pillars, fences, etc., they are unequaled, calling forth more admiration than anything else that can be similarly used. They require but little care and are very hardy. Our plants are field grown, hardy, two-year-old stock, 2 1/2 to 3 feet high.

CLIMBING AMERICAN BEAUTY. A grand novelty of great merit. Cross between American Beauty and an unnamed seedling; color rosy crimson, similar to its popular parent, and with same exquisite fragrance, a quality rarely found in climbing roses. Strong growth, making shoots 10 to 15 feet in one season, and as hardy as an oak. Flowers are from 3 to 4 inches in diameter, of fine form, and are produced in great profusion, not only in May and June, but in a fair sprinkling of flowers throughout the growing season. Try a few; you will never regret it. I offer this new rose in strong two-year-old field plants, that will bloom this summer, 18c each; 10 for $1.80.
Hardy Climbing Roses—(Continued)

**Excelsa.** (Red Dorothy Perkins.) A grand novelty. Intense crimson scarlet, double flowers in brilliant clusters, set in glossy shining foliage, which never mildews nor spots. An intense red Crimson Rambler which it promises to displace. Extremely vigorous and the handsomest of all red climbers. Each, 25c; 10 for $2.50.

**Baltimore Belle.** Flowers pale blush, nearly white, double, in large clusters. It blooms very free. A strong grower and it is hardy. Each, 25c; 10 for $2.20.

**Crimson Rambler.** It is a vigorous grower, making shoots 10 to 20 feet high in a single season. Flowers glowing crimson and produced in immense panicles, coming from the top to bottom. Each, 25c; 10 for $2.25.

**New Everblooming Rambler.** (Flower of Feuverfield.) Sport of the famous and famous Crimson Rambler Rose. This new rose produces its lovely flowers until killing frosts stop further growth of the plant. The flowers are in great trusses each carrying from 30 to 40 blooms of the brightest crimson, which remains undimmed to the end. Combined with the waxy, pale green, red-veined foliage, the glowing crimson mass of bloom makes an irresistible effect. The new Everblooming Crimson Rambler produces its flowers on the ends of new shoots, and if cut off as soon as faded, many new side branches will form which soon are covered again with a great mass of blossoms. By blooming so constantly, the new shoots are not as large as with the old Crimson Rambler, but the wood is more firm and less subject to mildew, another point in its favor. It is one of the finest and best novelties of recent introduction and will be very popular. Price, two-year-old field grown plants, each 35c; 10 for $3.00.

**The Blue Rose.** Veilchenblau or Violet Blue. This new climbing rose surpasses all others of recent introduction in having a pure blue color. The flowers appear in large clusters after the manner of the Crimson Rambler, are semi-double and of medium size. Upon first opening, the color is partly bright red and partly bright blue, turning soon a steel blue. The color is best described by saying that it resembles that of early violets. This variety is a strong grower, has shining green foliage and few thorns. It has not been troubled with mildew and is classed among the hardiest climbing roses, withstanding the winters very successfully.

Price: Strong plants, 30c each; 10 for $2.70.

**Dorothy Perkins.** In general habit closely resembling the Crimson Rambler, but of a beautiful shell pink, full and double, of an unusually large size for a Cluster Rose. The trusses are made up of from 20 to 40 flowers. I consider this to be the finest of all climbing roses. Each, 25c; 10 for $2.25.

**Prairie Queen.** An old standby variety, and very popular. Flowers bright golden red, globular, large and compact. Very strong grower. Each, 25c; 10 for $2.25. Never mildews.

**Seven Sisters.** (Grevilles.) White and crimson, making it unique, as both white and crimson flowers may be seen on the plant at the same time. Blooms in large clusters. Each, 25c; 10 for $2.25.

**Thousand Beauties.** (Tausendschoen.) The most sensational Climbing Rose yet introduced, not even barring Crimson Rambler. A single cluster of flowers is a bouquet in itself, hence the very fitting name, "Thousand Beauties." Blooming profusely from the beginning of June until the last of July, the flowers appear in large clusters (10 to 15 in a cluster), and of splendid size and quite double. The colors run from delicate salmon to tender rose through the intermediate shades of bright rose and crimson, with white, yellow and various other indescribable tints showing. There is no other rose in cultivation like it. It is a strong grower, with but few thorns, and magnificent foliage. The most remarkable rose of its kind in the world. After trying this rose a number of years, I can recommend it to my customers. Price, 30c each; 10 for $2.30.
HARDY CLIMBING ROSES—(Continued)

YELLOW RAMBLER. (Aglais.) It is related to the Crimson Rambler, and like it, blooms in large trusses. Flowers are double, very fragrant, of light yellow color. Each, 25c; 10 for $2.25.

THALIA. A white Rambler. Grows very strong and vigorous. The flowers are pure white, in very large panicles. A very free bloomer and much superior to the old White Rambler. Very hardy. Interwoven with a Crimson Rambler, the effect is very pleasing. Try it. Price, 25c; 10 for $2.25.

BABY RAMBLERS

(Continued)

(Polyantha Rosas)

A type of Roses which is very popular for bedding purposes, or for borders around rose beds, or along walks. They form shapely, compact, bushy specimens about 18 inches high and produce in great profusion immense trusses of small flowers, the color of which is almost identical with the flowers of Dorothy Perkins. Entirely hardy. Price, each, 25c; 10 for $2.25.

TRY ELLEN POULSEN. A novelty, dark brilliant rose, well scented, with large flowers. Bloom from May till October, fine for bedding and also for forcing. Price, 30c each; 10 for $2.50.

GRUSS AN AACHEN. New. This is the only good satisfactory white Baby Rambler that will bloom all summer, that I have seen. It will bloom as well as the Red Baby. You will like it. Each, 30c; 10 for $2.50.

BABY TAUSENDSCHOEN. (Thousand Beauties.) A grand novelty of the Baby Rambler type. Flowers appear in large clusters the same as with the climbing "Thousand Beauties," are of a good size, of the same beautiful colors, all shades from pink to white and yellowish. Blooms all summer. A grand novelty that is sure to give satisfaction. 30c each; 10 for $2.50.

ANNIE MUELLER. One of the very best of the Baby types. The flowers come in clusters, but with longer stems and are not so close together and, therefore, more graceful. Are a shining, beautiful pink, and after the rose is fully opened the petals roll up, not unlike a Cactus Dahlia. I am sure you will like this variety. Price, 25c each; 10 for $2.50.

ORLEANS. Brilliant geranium red, suffused rose, with white center, making a charming combination of colors. Very free blooming. Decidedly the best in its color. Price, 25c each; 10 for $2.50.

ERNA TESCHENDORFF. The new Polyantha Rose of the future. It bears all red Baby Rambler varieties of roses. The color is more intensive fiery red than Gruus an Tepiiz, and the blooms are more double and fuller than the old red Baby Rambler. The flower does not get a bluish shade and the blooms stand hot weather well. Can't be matched for forcing; not to be beaten for bedding purposes. Received prizes at Berlin and Hamburg flower shows. Price, 50c each; 10 for $4.75.

SUMMER ROSES

The roses of this species are summer or spring bloomers, but they flower so profusely and their rich coloring is so intense that they deserve a place in all collections. These roses bear on the terminals of a preceding year's growth, and pruning must be done just after blooming.

MADAME PLANTIER. Flowers are pure white, large, full and double; produced in great abundance early in the season. Hardy. Suitable for cemetery planting. Each, 25c; 10 for $1.75.

PERSIAN YELLOW. The hardy yellow rose of your mother's garden. Perfectly hardy. Flowers are semi-double, and a golden yellow in color. Each, 25c; 10 for $2.25.

For Parcel Post prices on all Roses, see pages 64-67.
EVERGREEN MEMORIAL ROSES

The Memorial Roses are of the most charming and unique beauty, very valuable wherever an absolutely hardy Climbing Rose is required, forming lovely objects in the garden while in bloom, and splendid for covering unsightly objects.

WICHURIANA. (White Memorial.) The plant clings closely to the ground, rapidly branching and covering any surface. The flowers appear in July and continue throughout the season, forming showy clusters of pure white blossoms. Single and of sweet fragrance. Entirely hardy everywhere. Used extensively in cemeteries, rock work, etc.
Each, 20c; 10 for $1.75.

MISCELLANEOUS ROSES

RUGOSA RUBRA. Plant grows 4 to 5 feet high and is very ornamental with its beautiful, large, glossy foliage, distinctly wrinkled. Blooms all season. Flowers single, very large, of a most beautiful bright rose crimson, succeeded by large berries of a rich red color. Makes a beautiful low hedge. Price, 25c each; 10 for $1.75.

RUGOSA ALBA. Same as above, except that the roses are pure white. Price, 20c each; 10 for $1.75.

TREE ROSES

These are grafted on hardy rose stalks, 4 feet high, and tree shaped, and when in full bloom are fine objects of beauty, making handsome plants for the lawn, or as border plants along the sidewalks or driveway. They are coming into popular favor and at the low price we are offering them this year, everyone can set out a few of these pretty tree roses in his yard or on the lawn. Tree Roses cannot be sent by parcel post.

CRIMSON RAMBLER TREE ROSES. No other rose is so well adapted for growing in tree form. The branches droop gracefully and reach nearly down to the ground, forming a regular weeping tree. Price, 70c each; 10 for $6.50.

HYBRID PERPETUAL TREE ROSES. These hardy, free blooming roses we have in the following colors: Red, Pink and White. Price, 75c each; 10 for $6.50.

EVERBLOOMING MONTHLY TREE ROSES. We can furnish the following colors: Red, Pink, White and Yellow. Price, $1.00; 10 for $8.00.

BABY RAMBLER TREE ROSES. A most attractive novelty in hardy roses. Budded on strong, straight stems, four feet high; the round, bushy Baby Rambler is at all times a perfect mass of crimson bloom. Most floriferous of all roses, bloom continuously until late in the fall. Price, 70c each; 10 for $6.50.

TREE ROSES, EXTRA TALL. We have a few Tree Roses, 6 to 7 feet high, including a small number of Tausendschoen. These I offer at $1.25 each. These cannot go by parcel post.

A THOUSAND BEAUTIES TREE ROSE. The picture of the Thousand Beauties Tree Rose which we show on this page was taken in my garden. The tree was then 2 years old, growing the third year, and had over one thousand roses on at one time. It bloomed for some time over three weeks. No tree could be prettier. The roses are double, and from pink to shell pink to pure white. Here we wrap the tree over winter with long straw or slough hay, but south of here, the tree would be perfectly hardy. As this variety is really a climbing rose, it droops its branches, very gracefully when not grafted on a rose stem. Price, about 4 feet high, 90c each; 10 for $8.00.
HERBACEOUS PERENNIAL PLANTS

Perennials have never been so popular as they are at the present time. Their permanency appeals to all. They are planted once and are always there; living through the winter with little or no protection, the flowers become better as the plants grow older. Will grow well in any soil, which may be enriched with decomposed manure or bone meal. The varieties we list are all perfectly hardy; the tops dying down in winter, but coming up early in the spring. Our prices are for field grown plants. These plants cannot well be shipped by freight in a box. They should go by parcel post or express, so we give prepaid prices only.

ACHILLEA. "THE PEARL"
The finest of all plants for cemetery planting. The plants grow about 15 to 20 inches high and are completely covered with double pure white flowers from July until frost. A fine cut flower. Is daintily formed, quite double flowers are borne on long stemmed, branching sprays so profusely as to give a refreshing, cool, airy effect through summer heat and late into fall. Price, 15c each; 10 for $1.00 by prepaid post.

ANEMONE JAPONICA
JAPANESE WIND FLOWER
These beautiful hardy plants are not appreciated as they should be. They make a magnificent garden show and furnish an abundance of cut flowers. They commence blooming in August and increase in beauty until heavy frost. We grow the following varieties:
WHIRLWIND. Flowers semi-double, pure white.
BRILLIANT. Beautiful dark red.
QUEEN CHARLOTTE. Flowers very large, semi-double, color a soft pink.
Price, each 7c; 10 for $1.25, by prepaid parcel post.

AQUILEGIA (Columbine)
The Columbines have established a place in all old-fashioned gardens. Their curious forms and many pleasing shades of color and the readiness with which they adapt themselves to all localities, have made them prime favorites. See illustration.
CHRYSANTHA. The Golden Columbine. Flowers very numerous, 2 to 3 inches across, bright yellow. In bloom all summer. Height 3 to 4 feet. Easily grown in any good garden soil.
CHRISULA. The true Rocky Mountain Columbine. An exquisite flower, with pale blue sepals and white petals. Grows about ½ feet high and blooms from May to July.
VULGARIS. The well-known garden Columbine, in all shades of blue and purple. Very free blooming. Height, 2 feet.
Price: Each 15c; 10 for $1.25, by prepaid parcel post.

ARTEMESIA PONTICA
Beautiful plant for border or filling in within the shrubbery. The foliage is silvery white, finely cut, and has a delightful fragrance. I have used this plant with good success to hold steep banks and terraces, especially on a south exposure, where blue grass will not grow. Used thousands of them in the Beatrice

Along the east side of my house, first from sidewalk Achillea, the Pearl; little trees are Tree Roses and between these are Delphiniums. Back of the Tree Roses are Dahlias in different colors. These all have done very well and the afternoon shade does not seem to affect them.
PERENNIAL PLANTS (Continued)

COREOPSIS

COREOPSIS, YELLOW. One of the most popular hardy plants. The flowers are a rich golden yellow, graceful form and invaluable for cutting; in bloom from June till autumn. It succeeds everywhere. Height 1½ to 2 feet. A group of these plants furnishes an unfailling mass of rich glowing color. The plants grow vigorously in any sunny situation. Should be more freely planted. Price: 10c each; 10 for 80c, by paid parcel post.

COREOPSIS ROSEA. Grows 8 to 12 inches high, and blooms from July until September. Flowers are rosy pink, with yellow center, with dark green cut-leaf foliage. A very interesting foreground plant. Price: 15c each; 10 for $1.20, postpaid.

ASTERS (Michaelmas Daisies)

These are among the showiest of our late flowering hardy plants, giving a wealth of bloom at a season when most other hardy flowers are past, and for best effect should be planted in masses of one color. They grow freely in any soil.

MULTIFLORUM. The plants form bushes 2 to 3 feet tall, literally covered with pretty little white flowers. Blooms September and October.

NOVAE-ANGLIAE. New England Aster. The richest and gayest of our native Aster has the largest flowers and is usually conceded to be the finest. It ranks "among the best of all hardy border plants." Its stout, leafy stems vary from 3 to 6 feet in height, and its beautiful violet-purple flowers appear from September to October.

TARTARICA. 2 to 3 ft. high, free flowering. Blossoms large, of a lovely bluish color. Blooms in October.

Price: 25c each; 10 for $1.00, by paid parcel post.

Sonderregger's Dwarf Aster. I think this is one of the best novelties in Asters. It is very dwarf, 6 to 8 in. high, branches well and blooms so freely that the blossoms almost cover the leaves. The flowers are of medium size, whitish lavender with yellow center. For a border around a fall Aster or perennial bed, this tall it was admired by everybody who saw it. Although this is a novelty, I am offering it at low prices.

Price: 25c each; 10 for $1.25, by paid parcel post.

CANTERBURY BELLS (Campanula)

An old-time favorite, growing 2 to 3 feet high and bearing in great profusion very pretty bell-shaped flowers. The Campanulas give to our gardens exceedingly pretty flowers for almost every situation, moist or dry, sunny or shaded, and the flowers are more abundant even in summer drought. Valued for cut flowers. See illustration. Shades, blue, white and rose mixed. Price: 15c each; 10 for $1.25, by paid parcel post.

CHRYSANTHEMUM

We offer an assortment of the hardy varieties. They flower profusely in October, after everything else in the garden has been killed. They are excellent for cut flowers and bouquets. Sure bloomers and satisfactory growers that should be included in any list of successful plants. They succeed everywhere, in any situation at bottom of this page.

LARGE FLOWERING YELLOW. Height 2½ ft. Fine double-flowers.

DWARF WHITE. 2 ft. high. Flowers medium size. Very pretty.

TALL WHITE. 2½ to 3 ft. Fine double.

LARGE FLOWERING PINK. Height 2½ ft. Stout and strong. For larger gardens.

Price: 12c each; 10 for $1.00, paid parcel post.

DIANTHUS (SWEET WILLIAM)

Charming, hardy plants, great favorites in every garden. Stems 12 to 18 in. high. Flowers in greatest profusion, in large, round-topped clusters. Dianthus William delves masses of color as brilliant as any of our perennials. Its splendor lasts five weeks, then, if not. Fading branches are cut away, fresh ones appear at intervals all summer.

Price: 15c each; 10 for $1.25, paid parcel post.

Canterbury Bells

Digitalis or Foxglove (Page 35)

Coreopsis

Dianthus, Sweet William
PERENNIAL PLANTS—(Continued)

DIGITALIS or FOXGLOVE

An old-fashioned flower that should be planted in quantity. Succeeds under all conditions and furnishes a grand display during July and August. The flowers are very showy, thimble shaped and are borne close together on stalks 3 to 4 feet high. For backgrounds and contrast among shrubbery, it is a very fine plant. Grows well in a half shady position. Price, 15c each; 10 for $1.25, by paid parcel post.

DESMODIUM PENDULIFLORUM

(SWEET PEA SHRUB)

A most magnificent shrub, being covered from first of September till frost, with red pea blossoms in enormous quantities. In fact, so many flowers are on the branches that they give to the plant a drooping effect which greatly enhances its beauty. Grows to a height of about four feet. Does well here in Nebraska and is perfectly hardy here. The branches all freeze to the ground in the fall and come up again in the spring. North of here it might be well to cover with a little straw over winter. See picture below taken in my garden. Price, 35c each; 10 for $3.00, by paid parcel post.

EULALIA (Miscanthus)

Beautiful hardy ornamental grasses with handsome foliage and numerous feathery panicles, 4 to 6 inches long. It will thrive in almost any kind of soil. Plants grow 3 to 5 feet tall and are among the best and most popular grasses for groups, bedding purposes or hedges. Splendid in corners of the house. The leaves are striped green and white. It is very ornamental. Price, each 15c; 10 for $1.25 by paid parcel post.

ZEBRINA. Zebra Grass. Leaves banded crosswise with green and light yellow. Brilliant and effective for hedges. Price, each 15c; 10 for $1.25 by paid parcel post.

DELPHINIUM (Larkspur)

One of the finest sights of modern gardens is a good collection of blooming Larkspurs. They give us the greatest abundance of flowers and utmost variety in tints and shades of blue during June and July. The Delphiniums make good border-backgrounds. Although the petals are thin in any garden soil, a deep, rich loamy one, with sunny exposure is best.

CINNAMONUM. Showy plants, growing 2 to 3 feet tall. Flowers deep blue with violet spurs. The stout stems are clothed with fine delicately cut leaves. Blooms persistently through the summer.

CHINENSIS. The Chinese Larkspur. A fine and sturdy old type, fascinating because of its many variations as well as for its beauty. The leaves are finely cut and fern-like, the flowers single or double and colors ranging from clear deep blue to creamy white. For about ten weeks of mid-summer it makes a grand display of bloom. Price of above varieties, each 15c; 10 for $1.25, by paid parcel post.

BLEEDING HEART (Dicentra)

(See Front Cover Page)

Bleeding Heart, the popular name of the Dicentra is derived from the curious heart-shaped blossoms with the drop of blood below. These fine hardy perennials were great favorites in the old gardens. Fine for the border or margins of shrubbery. In the spring these plants bear beautiful heart-shaped flowers of a light red color. The stems grow 12 to 18 inches high, with abundant, deeply cut leaves of light green color. Price, 25c each; 10 for $1.75, by paid parcel post.

GAILLARDIA GRANDIFLORA

Among the everblooming hardy plants there is none more showy or ornamental than this. Flowers borne in prodigal profusion from June to frost; useful for cut flowers. They are of gorgeous coloring, dark red-brown in center with bands of crimson orange and vermilion, meriting the popular title of "Aurora Flower." Height 2 feet. Price, 15c each; 10 for $1.20, by paid parcel post.

PHALARIS (Ribbon Grass)

A tall, hardy grass with variegated foliage and a common plant in old-fashioned gardens. It thrives in almost any kind of soil or exposure. Stems 2 to 5 feet tall, with graceful drooping foliage. Price, each 15c; 10 for $1.25, by paid parcel post.

New England Aster. (See Page 54.)

Desmodium (Sweet Pea Shrub)

This picture was taken on my place.

Arbor covered with Clematis Paniculata

(See description, page 46)
PERENNIAL PLANTS—(Continued)

HOLLYHOCKS

Among the very finest of old hardy garden plants the Hollyhock still holds a proud place and may be termed one of the great powers of July. It has the widest range of colors among tall garden plants. Flowers are very showy, produced in great abundance on long towering spikes. Height 6 to 8 feet. Blooming period June to August. We have the Double White, Double Dark Red, Double Pink, Double Maroon, Double Yellow. Price, 15c each; 10 for $1.25, by paid parcel post.

HIBISCUS (Rose Mallow)

Tall, free-flowering, hardy plants with remarkably large and showy flowers. Thrives in most loamy soils, producing throughout a long period numerous mammoth flowers, sometimes 6 to 8 inches across. Plant grows 3 to 5 feet tall. Price, for the following varieties: 15c each; 10 for $1.25, by paid parcel post.

CRIMSON EYE. Flowers very large, creamy white, with crimson center.

MOSCHEUTUS. Extra large, beautiful flowers of a light rose color and with a purple eye.

VIOLA ODORATA

(Sweet Scented Violet)

Well known favorite, abundant and fragrant blossoms, does best in cool, moist situation; blooms early spring and in fall. Price, 10c each; 10 for 90c; 100 for $1.00, postpaid.

YUCCA FILAMENTOSA

(Adam’s Needle)

Tropical looking plant with long narrow leaves; remains green the entire year. Grows in clumps and throws up a flower stalk 3 to 4 feet high, from which hang from 100 to 300 creamy white, bell-shaped flowers. It blooms a long time. A fine plant for the lawn or cemetery. 10c each; 10 for $1, by paid parcel post.

PLATYCODON (Chinese Bellflower)

An extra good, very hardy and free flowering perennial. Grows 1 1/2 to 2 feet high. Flowers are a lovely shade of blue and they come from June until October. We also have them in pure white. This is one of the most free flowering plants, and I cannot understand why it is not planted more. It grows well in sunny or shady places, almost in any soil, and does not need much attention. Useful for bouquets in a time when flowers are scarce. The price is low and you will get plenty of flowers the first season. Price, either blue or white, 12c each; 10 for $1.00, by paid parcel post.
PERENNIAL PLANTS—(Continued)

PHYSOTEGIA VIRGINICA (False Dragon Head)

Handsome mid-summer flowering plants, growing 3 to 4 feet high and bearing broad, dense spikes of purplish pink tubular flowers, of delicate, but conspicuous beauty. Each 12c; 10 for $1.00, postpaid.

ORIENTAL POPPIES (Papaver Orientale)

These are the regal representatives of this popular genus, far surpassing in splendor of bloom all the annual and biennial kinds, and for a gorgeous display of rich and brilliant color nothing equals them during their period of flowering in May and June, and whether planted single or in masses their large flowers and freedom of bloom render them conspicuous in any position. They are of easiest culture; almost any kind of soil suits them, but they do best in deep, rich loam; set the plants out in fall or very early spring; give them water occasionally during dry spells in the early part of the season; mulch with available litter in fall, and they will increase in size and floriferousness for several years. Price, assorted colors, 25c each; 10 for $2.50, by paid parcel post.

RUDbeckia (Golden Glow)

A fine, hardy plant that should find a place in every garden. It will be found excellent for cut flower purposes. Plant attains a height of 4 to 6 ft. and will produce hundreds of large blossoms of brilliant, golden yellow during August and September. Price, each 10c; 10 for $1.00, paid parcel post.

SALVIA

BLUE SAGE. Rocky Mountain species that grows 2 feet tall and produces pretty sky-blue flowers in August and September. Exquisite for cutting—one of the finest plants for the border. Very hardy. Price, each 10c; 10 for 90c, by paid parcel post.

STOKESIA (Stoke’s Aster)

This beautiful plant grows 1 to 2 feet high, and produces profusion Aster-like flowers from 4 to 5 inches across; it is of easy culture, succeeding in any open position used as a cut flower and for planting in masses in the hardy border. Each 15c; 10 for $1.25, by paid parcel post.

SHASTA DAISY

Remarkably large, semi-double daisies, 3 to 4 inches across and pure white, with petals in two or more rows about a golden center. The plant is extra vigorous and maintains a fine show of great flowers throughout the summer and autumn. A splendid border plant and of great value for cutting. Price, each 15c; 10 for $1.25, by paid parcel post.

TRITOMA

FLAMING TORCH. 3 to 4 feet high. Dazzling scarlet, lower half tinged with rich orange. In the North the roots should be taken up in the fall. Blooms: August to October. Price, each 25c; 3 for 50c, by paid parcel post.

HARDY FERNS

I offer below only very hardy Ferns, natives of Minnesota. They do well in shady and half-shady places in the garden and park, and are often used for growing close to houses in corners which are too dark for most plants. On the other hand, many of them will grow in places which receive considerable direct sunlight, the sun, at least under ordinary garden conditions.

While the native ferns are, of course, perfectly hardy, most of them are better off with a light covering of leaves in winter. In their natural habitat they are usually well covered with leaves and snow throughout the winter. The hardy ferns do not make satisfactory house plants. Most ferns ripen up their leaves in the fall and remain dormant all winter, even under favorable conditions.

MAIDENHAIR FERN. (Adatum Pedatum.) One to three feet high. Frond, forked at the summit of the slender, polished, black stalk. The recurved branches bearing on one side several slender, spreading pinnate divisions; pinnae oblique, triangular oblong.

Price, 25c each; 10 for $2.00, by paid parcel post.

WOOD FERN. (Aspidium Spinulosum.) The plant varies greatly in height, breadth and way of holding itself. Sometimes the fronds stand three feet high and are broad and spreading. Again they are tall, slender and somewhat erect. At its best it grows with almost tropical luxuriance and is a plant of rare beauty, its fronds having a certain feathery effect on the garden.

Price, 25c each; 10 for $2.00, by paid parcel post.

CINNAMON FERN. (Osmunda Cinnamomea.) A large fern, growing in a crown 2 to 5 feet high. Sterile fronds broadly lance-shaped, once pinnate, pinnae cut into broadly oblong divisions that do not reach the midvein, each pinnae with a tuft of rusty wool at its base beneath. The plant is a superb one when seen at its best. Its tall, sterile fronds curve gracefully outward. The Osmundas are easily cultivated and group themselves effectively in shaded corners, while they do fairly well in the most exposed sunlight. Price, 30c each; 10 for $2.25, by paid parcel post.

GERMAN NURSERIES AND SEED HOUSE, BEATRICE, NEBRASKA
PERENNIAL PLANTS—(Cont’d)

HARDY FERNS—(Continued)

OSTRICH FERN. (Onclea Struthiopteris.) Grows in a crown 3 to 10 feet high. Fronds, broadly lance-shaped, once pinnate; pinnae divided into narrow, oblong segments which do not reach the midvein. Great plume-like frond of a rich green. This magnificent plant luxuriates on soil which is subject to an annual overflow. Its vase-like masses of foliage suggest the Cinnamon Fern, but the fertile fronds are dark green while those of the Cinnamon Fern are golden brown. The Ostrich Fern does well under cultivation and it propagates sometimes by means of underground runners.

Price, 30c each; 10 for $2.50, by paid parcel post.

LILY (The Lily)

With a well selected collection, Lilies may be had in bloom from June to October. They should be planted in the fall, from October 1 as long as the soil can be worked; and in spring until the first of May. Plant about 5 inches deep.

AURATUM. (Gold Banded Japan Lily.) Flowers are very large, broad, white petals, thickly studded with crimson maroon, bright golden band through center of each petal. Stalks frequently have from 12 to 15 flowers of immense size. Large bulbs, each 25c; 10 for $1.50, by paid parcel post.

GRANDIFLORA. A well known variety, with snow-white trumpet-shaped flowers that are very fragrant. Quite hardy and blooms freely in the open ground in June and July. Each, 25c; 10 for $2.50, by paid parcel post.

SPECIOSUM RUBRUM. Flowers white with crimson band on each petal. Large and very fragrant. Perfectly hardy. Grows 2 to 3 feet high. Blooms in August. Large bulbs, each 35c; 10 for $2.50, by paid parcel post.

DOUBLE TIGER LILY. Perfectly hardy; easily grown lily, with very large double flowers of rich orange color, spotted with black. Exceedingly pretty. Each 15c; 10 for $1.25, by paid parcel post.

LILY CANDIDUM. (Madonna Lily.) Large, pure white, fragrant flowers. This Lily should be planted in early autumn. Each 15c; 10 for $1.40, by paid parcel post.

LEMON LILY (Hemerocallis Flava)

These are among the oldest and best loved of garden plants. Very hardy and persistent, they need no winter protection and thrive in any good soil, preferring, however, a rich, moist loam. For garden borders and waterside planting few perennials are more satisfactory. A good clump of this striking lily, when blooming in June and July, lights up the border superbly with many tall stems of fragrant, white, yellow or orange fragrant flowers, 30 to 50 inches high. Price, 10 each; 10 for 80c, by paid parcel post.

FUNKIA (Day Lily)

LANCIFOLIA. Narrow Leaved Day Lily. Hardy plant with lily-like flowers, forming dense clumps of foliage. The leaf blades are 4 to 8 inches long. Flowers pale lilac, nodding, borne in long, loose racemes. Height 18 inches. Blooms August. They thrive well in deep soil in a half shady position.

Price, each 15c; 10 for $1.25, by paid parcel post.

FUNKIA GRANDIFLORA. A fine, pure white, large trumpet-flowered, and exceedingly fragrant species, with handsome, broad light green foliage.

Price, each 15c; 10 for $1.25, by paid parcel post.
PERENNIAL PLANTS—(Continued)

GERMAN IRIS (Iris Germanica)
The true "Fleur-de-Lis," the national flower of France. They are perfectly hardy, thrive anywhere, grow and bloom luxuriantly, particularly if plentifully supplied with water. Plants well established produce from 50 to 100 spikes of bloom. In beauty the flowers rival the finest orchids. The plant grows 18 to 24 inches high. We offer the following selected varieties:

FLORENTINA ALBA. Extremely free flowering, and very beautiful white, sweet scented blossoms. One of the best.
HONORABILIS. Fine yellow with lower petals of maroon. An odd but very pretty Iris.
PLICATA. Dark purple, lower petals lilac. The best dark colored Iris.
CELESTE. A soft shade of light blue, changing into lavender. A fine and beautiful shade.

Price of all of the above varieties, 7c each; 10 for 50c, by paid parcel post.

CHOICE MIXED VARIETIES. Each 7c; 10 for 50c, by paid parcel post.

JAPANESE IRIS (Iris Kaempferi)
Finest of all the Iris family. The flowers are of immense size, from 6 to 8 inches in diameter, and of the most beautiful, delicate shades. Are perfectly hardy, and will flower in profusion during June and July. A well established plant gives a fan of 6 or more flower stalks 2 to 3 feet high, each stalk producing 2 to 4 enormous blooms. These plants prefer a cool, moist situation, but do well in most any good position. We offer some of the very finest varieties in cultivation.

ANGELO. Bluish-purple, center of petals white with cream band.
HERMOINE. White, maroon center, petals penciled in blue.
BLUE JAY. Sky-blue, veined white.
MONT BLANC. Pure white, large and fine.
YOKOHOMA. Double, reddish-purple.

Price of above five varieties of Japanese Iris, 25c each; 10 for $2.20, by paid parcel post.

ALL SORTS MIXED, 20c each; 10 for $1.70, by paid parcel post.

SIBERIAN IRIS (Iris Sibirica)
Tall and slender growing, with flowers like those of the German Iris in structure, but smaller and much more numerous. The plant forms clumps and blooms so freely that its deep blue blossoms give solid color effects. Hardy, thrives in almost any soil. Each, 15c; 10 for $1.25, by paid parcel post.

SPANISH IRIS.
Have long, narrow leaves, thin, erect stems, and delicately formed small flowers in all colors and combinations of colors. Everybody admired them in my garden last summer. Price, mixed colors, 6c each; 10 for 50c; 100, $4.00, by paid parcel post.
PERENNIAL PLANTS—(Continued)

HARDY PHLOXES

The ease with which they are cultivated, season of blooming, combined with the varied and beautiful coloring, make them particularly valuable for garden planting. In bloom from June till late autumn. Phloxes are very effective either as single specimens, in small groups, or large beds on the lawn. They produce a beautiful and harmonious contrast when massed against a background of shrubbery. We offer a carefully selected collection, all field-grown plants.

FRAULEIN VON LASS-BURG. The purest snow white. Flowers larger than any other white sort. Tall, extra fine. Each, 25c; 10 for $1.75, by paid parcel post.

LOTHAIR. Flesh color, with deep red eye; very pretty. Each, 15c; 10 for $1.30, paid parcel post.

LA VAGUE. Mauve, with aniline red eye. A very distinct variety. Each, 20c; 10 for $1.50, by paid parcel post.

LUMINEAUX. Carmine red, with bluish center. Each, 20c; 10 for $1.75, by paid parcel post.

RICHARD WALLACE. Pure white with maroon center. A tall grower and a variety not usually seen. Each, 25c; 10 for $1.75, by paid parcel post.

SIR EDWIN LANDSEER. Bright glowing crimson. The best red.

Of robust, tall growth, and a free bloomer. Each, 25c; 10 for $1.75, by paid parcel post.

MADAME BYZANSON. The very best of the crimson varieties. Holds the color a long time. Price, each 20c; 10 for $1.75, by paid parcel post.

SUNSET. Dark rosy pink, a beautiful variety of medium height. Price, each 20c; 10 for $1.75, paid parcel post.

PHLOX SUBLATA. Creeping plants with evergreen moss-like foliage. When in bloom almost completely hidden under a blanket of rose-colored flowers in early spring (here in May), often blooming again through the summer. Height of plant about 6 inches. Price, 12c each; 10 for $1.00, by paid parcel post.

PAEONIES

Few hardy perennials are so suited to any position in the garden or lawn as the Paeony. The gorgeous display of flowers is very effective, rivaling the best in the garden. They are also well suited for mounding in beds all-by-themselves. A good, rich, deep soil and sunny situation suits them best, but they will thrive in almost any soil, as long as plants are field grown, strong and well rooted with 3 to 4 eyes. In comparing prices with other growers, please bear this in mind. We offer the following selected varieties which we consider the best for general planting:

COURONNE D'OR. (Crown of Gold.) Very late. Large imbricated flower, white with yellow shadings, center petals flaked crimson. One of the finest white varieties.

Price, 30c each; 10 for $2.50.

FESTIVA MAXIMA. About the largest and undoubtedly the most popular Paeony of them all. High built flowers, borne on long stiff stems; the purest white, the inner petals slightly tipped with crimson. Very handsome foliage, enormous full double flowers, with very broad petals. A vigorous grower and early bloomer. Price, 45c each; 10 for $4.00, postpaid.

COUNT DE MANTEUIL. Dark rose, petals tipped with white. Large, fine flowers. Price, 25c each; 10 for $2.00, by paid parcel post.

PRINCE IMPERIAL. Brilliant, purplish-scarlet. Fine bloomer. Price, 25c each; 10 for $2.50, by parcel post.

ROSA PLENISSIMA. A bright, clear rose, full colored, double, dwarf and compact grower. Price, each 25c; 10 for $2.50, by paid parcel post.

ROSE FRAGRANCE. Bright dark rose; exceptionally fragrant and very full double. blooms late. Price, 25c each; 10 for $2.00, postpaid.

THOMAS MEEHAN. Full double flowers, light rose, edged white; early. Price, 25c each; 10 for $2.00, by paid parcel post.

GRANDIFLORA. Very beautiful light crimson. Stems are tall and strong. Is a late bloomer. Price, 25c each; 10 for $2.00, postpaid.

(Paeonies Continued on Next Page)
PERENNIAL PLANTS—(Continued)
NEW PAEONIES FROM HOLLAND

PURPUREA SUPERBA. Dark purple lilac. Large flowers. Blooms mid-season. Price, 35c each; 10 for $3.00, by paid parcel post.

DUC OF WELLINGTON. A fine flower of yellowish-white color, better than Couronne d'Or. Mid-season. Price, 35c each; 10 for $3.00, by paid parcel post.

ROEM VAN BOOSKoop. Color lilac-rose, a color not often found in Paeonies. Blooms late. Price, 35c each; 10 for $3.00, by paid parcel post.

One each of the above four Holland varieties for $1.10, by paid parcel post.

I have some very nice Paeonies of which the labels have been lost, so we cannot tell just what colors or varieties they are. They are all fine sorts, though, and I offer them for 18c each; 10 for $1.50, by paid parcel post, or $1.00 per 100, not prepaid.

SUMMER BLOOMING BULBS

Bulbs for spring planting require scarcely any care and quickly make a gorgeous display while the bulbs can be kept over winter and year after year will return a hundred fold in beauty and satisfaction the trifling expense of the original cost.

CANNAS

The grandest of all bedding plants. Of quick growth and tropical appearance. Throughout the summer they present a mass of gorgeous colors until withered by frost in the fall the tall slender heights of the plants, right after the name. Cannas need a good deal of water and a liberal dose of liquid manure should be applied from time to time. Never let the bed get weedy or baked hard.

FLAMBEAU. 6 feet. Very vigorous, a strong grower, and exceptionally free bloomer. Flowers are very large, often 6 inches in diameter; are of a peculiar salmon red or reddish yellow color, with a gold colored narrow border around the outside of the petals. Bed of about 40 plants in my garden was admired by everybody who saw it. One of the very best Cannas I have seen. I can recommend it to all my customers. I am sure this Canna will please you. Price, 25c each; 10 for $2.20, by paid parcel post.

UNCLE SAM. 4-5 feet. Strong grower, leaves are large. Flowers come in immense clusters; are of a very bright scarlet color and do not turn purple, like some red Cannas. If you want a very glowing red, plant the Uncle Sam. Price, 20c each; 10 for $1.50. By paid parcel post, 20c each.

VARIEGATED DIZZY. 3-4 feet. A splendid variety. Strong grower and large flowers, variegated, yellow and red, with other shades. A profuse bloomer, and one of the earliest. Price, 10c for $1.00.

WINTZER'S COLOSSAL. New. 5 ft. The largest Canna in commerce today. Bloom simply gigantic. Color, vivid scarlet. Flowers over 8 inches across. It is an improvement on all others of the orchid-flowering class. With its superior substance it seems to rival in the hot sunshine with impunity, and promises to give satisfaction in the most tropical sections. For size, color and endurance, Winter's Colossal is far ahead of its nearest rival. Price, 5c each, 10 for $1.00, by parcel post.

AUSTRIA, BURBANK. About 3 feet. These two are very much alike. Both are really half way between orchid and true Cannas. The color is a pure, strong canary yellow with some red spots in throat, a beautiful color. The flower is often 4 to 5 inches across and they are profuse bloomers. Price, each 12c; 10 for $1.00, by parcel post.

ALLEMANNIA. 4-6 feet. A scarlet orange flower, spotted with golden yellow, very handsome and striking. Large flowers often 5 to 6 inches across, growth luxuriant and profuse bloomer. Price, each 12c; 10 for $1.00 by parcel post.

LING HUNGRY. 4-6 feet. Orchid flowering. Its flowers measure 6 inches in diameter, produced in a profusion, a brilliant orange scarlet with bright red markings; bring a large charge of a rich coppery bronze. Price, each 15c; 10 for $1.00. By parcel post, 15c each.

INDIANA. 6 feet high. One of the gorgeous "Orchid Flowering" class. Soft orange, lightened by flecks of gold, slightly margined with deep orange. Each 15c; 10 for $1.35. By paid parcel post, 15c each.

LOUISIANA, PENNSYLVANIA. 5-6 feet. Flower a deep, vivid crimson, the darkest and bluest of this class and apt to be the largest, usually 6 and often 7 inches across. These two Cannas are substantially alike, there being more difference in flowers on one stalk than between different plants. Price, each 15c; 10 for $1.00, by parcel post.

PAUL MARQUAND. 4-5 feet. Green foliage. Flowers a peculiar shade of salmon, very unique, in some flowers. Price, 12c each; 10 for $1.00, by parcel post.

PARKENOFF. 5 feet. Green foliage, strong growing. Flowers a rosy-rose color. Price, 15c each; 10 for $1.00, by parcel post.

VENUS. 3-5 feet. Flowers a gay rosy-pink with border and streaking of dark red and is a large flower, almost an orchid in size, but large truss also. Strong grower and profuse bloomer. Price, 25c each; 10 for $1.50, by parcel post.

MONT BLANC, IMPROVED. 3 feet. In this, the flower is larger, truss larger and color nearer a true color than the old Mont Blanc, though still with touch of cream in shade. Price, 15c each; 10 for $1.50, by parcel post.

No. 1 Collection for a Canna Bed, round, 7 feet in diameter. Middle, 3 Louisiana; next row, 6 Paul Marquand; outer row, 12 Venus. These 21 plants will make a fine bed. Price for the 21 plants, $1.80 by paid parcel post.
SUMMER BLOOMING BULBS—(Cont’d)  

CALLAS  

SPOTTED-LEAF CALLA, MRS. ROOSEVELT. Plants of remarkably vigorous growth, with tall, finely spotted leaves, and large (though not as large as Ellitottiana), bloom of a light yellow shade. Price, 25c each; 10 for $1.50, by paid parcel post.

GOLDEN YELLOW. (Richardia Elliottiana.) This is the best of the Yellow Callas, its flowers being as large as the popular white variety, but of a rich, lustrous golden yellow of velvety texture. The foliage is dark green, with translucent creamy white spots, which add much to its beauty. Price, Strong bulbs, 25c each; 10 for $2.25, by paid parcel post.

DAHLIAS  

These showy and pretty flowers are becoming very popular, and justly so. The Dahlia is one of the showiest of all fall flowers, commencing to bloom in July and continuing until frost. Price named is for large roots.

CATHERINE DUEY. Decorative Dahlia. Large double flowers of fiery red. Each, 20c; 2 for 50c, by paid parcel post.

JACK ROSE. Decorative. The best crimson for garden cutting; that crimson red that makes the Jack Rose so popular and suggested the name. Each, 20c; 3 for 50c, by parcel post.

C. W. BENTON. Bright yellow flowers on good long stems. Fine for cutting. Each, 20c; 3 for 50c, by parcel post.

CACTUS DAHLIAS  

Undoubtedly the finest of all Dahlias. The large flowers are of beautiful cactus form with twisted petals, giving great depth to the flowers.

KIEMHILDE. The finest of all Dahlias. Flowers extra large, outer edge brilliant pink, shading to white. Price, each 25c; $2.70, for 45c, by parcel post.

WINSONE. Lovely, large, creamy white. Price, each 20c; 3 for 50c, by parcel post.

FLORADORA. A most valuable addition to the cactus list. A maroon, large, spotted, double bloom. Price, each 25c; 3 for 60c, by parcel post.

HONZOLLEN. Beautifully formed, large flowers of rich, orange red, with golden sheen. Each 25c; 3 for 65c, parcel post.

MRS. BENNET. Deep crimson red. Good long stems. Price, each 25c; 10 for $2.20, by parcel post.

MRS. CHAS. TURNER. Very large flowers, well quilled, clear canary yellow. Price, each 25c; 10 for $2.20, by parcel post.

ST. CATHERINE. Large bronze colored flowers, good long stems and well quilled. Each, 25c; 10 for $2.20, by parcel post.

POMPON DAHLIAS (Double)  

These are the small Bouquet Dahlias that are so popular as cut flowers. They make nice plants and bloom freely.

LITTLE HERMAN. Beautiful little flowers of deep red, with white tips. Each, 15c; 3 for 40c, by parcel post.

SINGLE FLOWERED DAHLIAS  

Single Dahlias are more largely planted. They are of real merit, very pretty. You will be agreeably surprised by their exquisite beauty.

TWENTIETH CENTURY. One of the most beautiful orchid flowering single varieties. The flowers are of immense size, the color intense crimson, with white disk around center, white tips. Each 25c; 3 for 60c, by parcel post.

QUEEN WILHELMINA. Large flower, pure white with yellow center. Free bloomer and long stems. Each, 25c; 10 for $2.70, by paid parcel post.

AMARYLLIS FORMOSISSIMA  

JACOBEAN LILY. Splendid, showy plants, suitable for garden and house culture. The large lily-like flowers are of a rich, deep velvet crimson color. It is a free bloomer and of easy culture. For pot culture should be well drained and potted in soil composed of leaf mold and light loam, but will grow well in any rich soil. Each, 15c; 10 for $1.20, by paid parcel post.

CALADIUM  

ELEPHANT’S EAR. A splendid, tropical appearing plant, usually growing 4 to 5 feet high. Very showy leaves, often growing 3 feet long. Of easy culture. They are useful to a great extent for large beds, together with Cannas; also as single specimens or as groups on the lawn. For obtaining tropical effects in lawn and garden this beautiful plant takes a prominent place. Will grow in any good garden soil, but to get the best results they should have plenty of water and good rich soil. When at its best stands 5 to 7 feet high, with bright green leaves 3 to 4 feet long and 2½ feet wide.

EXTRA LARGE SIZE BULBS. Each, 15c; 3 for 40c; 20c each by paid parcel post.

LARGE SIZE BULBS. Each, 15c; 3 for 25c; 10 for 75c. 15c each by paid parcel post.
SUMMER BLOOMING BULBS—(Cont’d)

TUBEROSES

PRINCEPS. The $1,000 Gladioli. Its wonderful size of flower, perfect shape, brilliant coloring, and artistic form of spike are each so notably an improvement over all other varieties that all place it in the front rank. Flowers are 5 to 7 inches broad, petals wide and rounded, forming a near almost circular flower. The color is brilliant crimson, carrying mostly, three broad, white blotches on the lower petals. Spikes 4 feet in height, produce 12 to 15 flowers. Price, 20c each; 10 for $1.25, by paid parcel post.

KLONDIKE. Light yellow, with crimson blotch. A very desirable variety for cut flowers. Price, each 15c; 10 for $1.25, by paid parcel post.

OUR SUPERB GENERAL MIXTURE. Composed of fine same as above colors, in first size bulbs only. We have tested many brands of mixtures, some of them costing twice as much as this, but have never seen any which surpassed it in variety of coloring or general excellence. Price, 10 for 35c; 50 for $1.50; 100 for $2.50, by paid parcel post.

ZEPHYRANTHES

FAIRY LILY OR ZEPHYR FLOWER

One of the prettiest and most easily grown bulbs; very effective for masses or borders, flowering profusely all summer. Also suitable for pot culture. Put six bulbs in a 6-inch pot from the bloom in full display during the winter. The plants grow about 8 inches in height. One of the good things in bulbous flowers that so often overlooked, but deserves to be planted in every garden. Once planted it will always be planted again the next season. Each, 5c; 10 for 45c, by paid parcel post.

WINTER BLOOMING BULBS

For fall planting, either for house culture or early spring blooming in the garden we offer a large assortment of choice Holland Bulbs, our own importations, such as Hyacinths, Tulips, Narcissus, Crocus, Snowdrops, Scillas, Jonquil, etc. Also have a choice stock of Roman Hyacinths, Freesias, Japanese Lilies, Star of Bethlehem, Chinese Sacred Lilies, etc. Write for Illustrated Price List, ready September 1st.

MONTBRETIA

One of the brightest and best summer flowering bulbs. Plant in clumps of 6 to 12 in May or June. In larger beds they will also make a splendid showing. They greatly resemble the Gladioli in growth and produce beautiful spikes of star-shaped flowers in various shades of pink, lavender, orange, yellow and red. Hardy with slight covering over winter, and they will improve in size of flowers when left in the open ground undisturbed year after year. Mixed varieties, 10c; per doz., 50c; 100 for $2.25, by paid parcel post.

SUMMER HYACINTH

The flower stems grow 3 to 4 feet high and are loaded with very pretty, drooping, bell-shaped flowers of ivory white. The plant will grow well in dry soils. A splendid bulb to plant in the perennial border, as it is hardy and need not be taken up in the fall. Plant in rear of bed on account of its tall growth. Each, 5c; per 50, 50c, paid parcel post.

TIGRIDIA

These gorgeous flowers look well associated with Gladioli, Lilies and kindred stock; grow about ½ feet high, and flower freely throughout the summer. Flowers come in shades of red, white, yellow and blended shades, and are splendid and desirable for middle border. They deserve the same treatment as Gladioli. Splendid Mixture, each 5c; per doz., 50c, by paid parcel post.

ZEPHYRANTHES

GLADIOLUS

The Gladiolus is the most attractive of all summer flowering bulbs and deserves a place in every garden, as it is sure to do well with little care. For best results they should have a sunny position and light, sandy soil. Flowers are of almost every desirable color. By cutting the spikes when two to three of the lower flowers are open and placing them in water, the entire spike will open beautifully. Plant bulbs in April or May for early, and late June for fall blooming.

KUNDERDI "GLORY." With "Ruffled Petals." Broadly expanded, wide open flowers, paired by twos, all face in the same direction and are carried on straight stout stalks, fully 3½ feet. From three to eight of these handsome flowers are open at one time. Each petal is exquisitely ruffled and fluted. The color is a delicate cream pink, with a most attractive crimson stripe in the center of each lower petal, the shade of which is unique in Gladiolus. The ruffling of the petals in this new strain has received much attention the world over. Price, 20c each; 10 for $1.85, by paid parcel post.

GLAUCIUS. The present favorite. One of the best. Each spike is furnished with two flowers, each a perfect diamond-shaped flower, with colors of vivid scarlet and white. By cutting the spikes when two to three of the lower flowers are open and placing them in water, the entire spike will open beautifully. Good flower for summer borders. Price, 5c each; 10 for 35c, by paid parcel post.

BARBARA. A beautiful variety of the present day, which is not easily surpassed. The flowers are 6 inches broad, white on the outside, with brilliant yellow on the inside. Price, 5c each; 10 for 35c, by paid parcel post.

MIXTURE. Contains various Gladioli, each a different shade of color, ranging from scarlet to white. The color of each plant is very distinctive, and grouped in one mixture, the Gladiolus looks very attractive and imposing, and is hardy and sure to please. Spikes about 3½ feet high. Price, 3c post. per doz., 50c; 1 doz. 50c, by paid parcel post.
Parcel Post—TREES AND PLANTS BY MAIL—Parcel Post

TREES OF SIZES LARGER THAN QUOTED BELOW CANNOT BE SENT BY MAIL

I can now send trees and plants of suitable sizes by Parcel Post, and they will be delivered right at your door. No need of going to town after them, and I know they will not cost you more than half as much as if you buy of an agent. I pay postage on all mail packages. The prices here below are for goods delivered at your door.

Trees will be well rooted, sound and healthy, and of 2 to 3, or 3 to 4 feet sizes, so you will know exactly what you will get. Larger trees cannot go by parcel post, as the circumference and length of a package cannot exceed seven feet. Always use prices given below if you wish trees by parcel post.

SEED DEPARTMENT

On the following pages we list the standard varieties and newer sorts of merit in Vegetable, Flower and Farm Seeds. Every variety listed is reliable and has our recommendation. This department is under the management of my son, Ernest Sondergerg, who has been raised in the seed business and has also worked in seed house in Germany. All orders entrusted to us will be conscientiously and promptly filled and dispatched.

Our Seeds are not grown on a basis of cheapness, but of quality, and we aim to quote every item of our product at a price, which, after being satisfied with it, will take great care, costs much time and money to produce our Selected Stock of Seeds—such seeds cannot be sold cheaply. We do not handle cheap seeds, and we guarantee all seeds which we carry in stock to comply with the laws of Nebraska in regard to purity and germination.

This catalogue is intended to appeal to those seed buyers who want first-class stock at lowest prices, consistent with such stock, buyers who can appreciate honest descriptions and lists, and who can be satisfied to receive seeds that are just as replete in their germination as is the lot.

In my former catalogues I offered Seed Packets at 5c, 10c and 15c, and gave a premium. This was not very satisfactory, as often the premium which I sent was not wanted. One season I offered packets for 5c, 10c and 15c, but if the premium was better than the premium, as much of my customers sent too much money, while others did not send enough. It seemed hard to get the figures just right. It has always been my aim to have my catalogue prices attractive and as simple as possible, so as to make it easy for my customers to make out their orders. To do this I will after this charge 5c, 10c and 15c, and for the premium and discounts I will put in more seed in each packet. In this way my customers get their money's worth of just what they order.

WHEN TO ORDER. We will be prepared to fill seed orders when this catalogue reaches you, and we are greatly obliged to our customers if they would order early, to avoid the rush which always comes late in the spring. Send in your combined orders of trees, seeds and plants, and we will send seeds at once and trees and plants when time for planting comes in your locality. You will find two places on the order sheet in our catalogue, one for trees and plants, and one for seeds. You will help us very much and there will be less delay in filling orders, if you will use spaces as indicated.

REMITTANCES can be made by P. O. Money Order, Express Money Order, or Bank Draft, and full amount should be sent with each order to avoid delays in shipping.

OUR RESPONSIBILITY. All those who have never dealt with us, we refer to Union State Bank, National Bank, or Bradstreet's and Dun's reports. We have been in business the past 30 years and fulfill all our promises.

SEEDS BY PARCEL POST. We deliver postpaid by parcel post or express any seeds offered in our catalogue "By Paid Parcel Post."

NOTICE. Seeds are now included in the parcel post system. As we are located in the center of the U. S., we can deliver packages by parcel post much cheaper than any Eastern seed house.

The parcel post rates are much cheaper than the old rate of 8c per pound. The weight of packages for local and first and second class zone has also been increased from 11 lbs. to 70 lbs., and from 1 lb. to 4 lbs.; third and fourth, sixth, seventh and eighth, 1 lb. to 12 lbs., and from 14 lbs. to 20 lbs. In this way much larger packages, at a much less cost, can be delivered free at your door. It will also save you many trips to the express or freight office.

MARKET GARDENERS' trade is especially invited; we can please you and all we ask is to give us a trial. Special Wholesale Price List for Market Gardeners is sent free to all who buy bulk seeds in large quantities.

FOR inspectors SEEDS. While we exercise the greatest diligence and care to have all our seeds true to label and of best quality, we wish it understood that we give no warranty, express or implied, as to description, quality, productivity or any other matter of any seeds we send out, and will not be responsible in any way for the purchaser does not accept the goods on these terms, they are to be returned at once. Subject to above conditions we make sales at the very moderate prices at which we sell our seeds.

GERMAN NURSERIES AND SEED HOUSE.

50c COLLECTION OF BEST VEGETABLES 18 VARIETIES, ALL GOOD, RELIABLE SORTS

Best of All Bean
Blood Turnip Beet
Early Spring Cabbage
Premium Late Flat Dutch Cabbage
Long Orange Carrot
Chicago Pickling Cucumber

These 18 packages will be sent by mail to any address in the U. S. for only 50c. REGULAR PRICE WOULD BE 90c.

50c LARGE FLOWER GARDEN COLLECTION 25 REGULAR SIZE PACKETS OF CHOICE FLOWER SEEDS FOR 50c POSTPAID

Contains and the following each of the following varieties of each size Annuals--

Allysum
Amaranthus
Calendula
Campanula
Chrysanthemum
Centauria
Calliopsis
Dianthus
Escholtzia
Nasturtium

25c POPULAR COLLECTION Twelve regular size packets of nice varieties, all Annuals--

Aster
Calliopsis
Campanula
Escholtzia
Pansy
Mignonette
Petunia
Poppy

NOTICE—These collections cannot be changed as they are put up before the rush of the season.
VEGETABLE SEEDS

Every effort possible is used in the selection of our seeds, and we feel justified in saying that all our seeds are the purest and best to be had. The packages are, we believe, better filled than most seedsmen send out, while our prices are as low as those of any other reliable firm.

ARTICHoke

Seeds may be sown indoors and plants potted, the same as the tomato, and set out in May, or can be sown in hills outside and thinned out to one plant in a hill. The plants thrive best in deep, rich soil, where the water will not lodge about them in winter. Plants are set in rows 2 feet apart and 2 to 3 feet in the row.

LARGE GREEN GLOBE. The well-known French vegetable. The undeveloped flower heads when properly prepared, make a most delicious dish. Packet 5c, ounce 30c, ¼ lb. $1.00, postpaid.

ASPARAGUS

In early spring sow the seed, after soaking it 24 hours in warm water, in drills one foot apart and one inch deep. During the summer keep the soil mellow and free from weeds, thinning the plants to 4 inches apart. The following spring transplant them into permanent beds that have been deeply dug and highly manured. One ounce of seed to 50 feet drill; 5 lbs. to the acre.

EARLY GIANT ARGENTEUIL. The earliest large green sort. Best for gardeners. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. $1.00, postpaid.

CONOVER’S COLOSSAL. A mammoth green sort of the best quality. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 60c.

PALMETTO. An early green sort, prolific and very desirable. Is fast becoming the favorite everywhere. Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 60c.

COLUMBIAN MAMMOTH WHITE. This variety is in great demand, because it furnishes white shoots. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 85c.

BONVALLET’S GIANT. Most vigorous and healthy of all varieties, and best for home and market use. Pkt. 10c, oz. 15c, ¼ lb. 35c, lb. $1.25.

ASPARAGUS ROOTS. See Page 25.

BORECOLE OR KALE

The best plant for furnishing “greens.” The greens are for fall, winter and spring use. Sow seed about the middle of June and later transplant to rows 2½ to 3 feet apart. The dwarf sorts may be sown later. Frost improves the quality. One ounce will produce 2,000 plants.

DWARF PURPLE GERMAN. Hardier than cabbage, leaves very tender, finest flavor. Immense quantities are grown in the South and shipped to Northern markets. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. 90c, postpaid.

BOROCOLE, Dwarf German

TALL GREEN CURLED SCOTCH. This is one of the most popular varieties. It is very hardy, and is much improved by frost. Grows 2 feet high. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. 85c, postpaid.

BROCCOLI

Sow seed in Central West early in May; transplant in June. Growth and habit like cauliflower, but far more hardy. Of special value in the North. One ounce produces 2,000 plants.

LARGE WHITE. Large white heads. Pkt. 5c, oz. 25c, ¼ lb. 30c.

BRUSSELS SPROUTS

One of the best vegetables for winter use, producing an abundance of sprouts, resembling small cabbages; of excellent mild flavor. By sowing in April and planting out in July, it may be had in fine condition until December, and in the South from November to March.

IMPROVED DWARF. Of dwarf habit, a healthy grower, finest quality. Pkt. 5c, oz. 15c, ¼ lb. 40c, lb. $1.25, postpaid.

CHICORY

The leaves are used as salad; roots are used to mix with or be substituted for coffee. Cultivate same as parsnips. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 65c.
CRESS OR PEPPER GRASS

Cress should be sown in a sheltered spot in shallow drills. Sow seed thickly. Ready for use in a month. For continued use sow every few weeks.

CURLED GARDEN. Much used with lettuce to the flavor of which its warm pungent taste makes a most agreeable addition. Pkt. 5c, oz. 10c, ¼ lb. 25c; lb. 50c.

EULAND. Has the highly prized flavor of water cress. It is so hardy as to be green nearly the whole year and is ready for use before any other salad in the spring. Pkt. 5c, oz. 15c, ¼ lb. 40c.

ERFURT WATER CRESS. The pleasant and peculiar flavor of the water cress causes it to be highly esteemed for table use. Will grow along margins of streams, creeks and ponds. Pkt. 10c, oz. 30c, ¼ lb. 75c postpaid.

CHUFAS

EARTH ALMOND. Small ground nut greatly liked by children. In sweetness and flavor they resemble coconut or almond and are very nice to put on the table with candies, as an after-dinner relish. Pkt. 5c, oz. 10c, ¼ lb. 25c; lb. 50c.

EGG PLANT

NEW YORK IMPROVED LARGE PURPLE. This variety has about superseded all others, both for market and home use. Pkt. 10c, ¼ oz. 25c, oz. 40c, ¼ lb. $1.25 postpaid.

WHITE PEARL. Best white variety. Fruit round, very tender and of excellent quality. Ripes early and is very productive. Pkt. 5c, oz. 30c, ¼ lb. 95c.

ENDIVE

This small salad is used during the winter and spring months as a substitute for lettuce and is cooked and used like spinach. Sow seed in shallow drills one foot apart during August or September or early in the spring. Pkt. 5c, oz. 10c, ¼ lb. 25c; lb. 85c postpaid.

Egg Plant, New York Improved

large, open heads. It is improved by slight freezing. Give the same cultivation as cabbage. Pkt. 5c, oz. 10c, ¼ lb. 30c.

CORN SALAD OR FETTICUS

This small salad is used during the winter and spring months as a substitute for lettuce and is cooked and used like spinach. Sow seed in shallow drills one foot apart during August or September or early in the spring. Pkt. 5c, oz. 10c, ¼ lb. 25c; lb. 85c postpaid.

GEORGIA MAMMOTH. A form of cabbage extensively grown in the South for greens. They form large, open heads. It is improved by slight freezing. Give the same cultivation as cabbage. Pkt. 5c, oz. 10c, ¼ lb. 30c.

Sach’s White Delicous Kohlrabi

GREEN CURLED. Large and well adapted to this soil and climate. Pkt. 5c, oz. 10c, ¼ lb. 25c; lb. 50c postpaid.

BROAD LEAVED BATAVIAN. A large summer variety, productive. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. $1.00 postpaid.

GIANT FRINGED WINTER. Best for late planting. Leaves large, very curly, of fine flavor. Pkt. 5c, oz. 15c, ¼ lb. 45c, lb. $1.50.

KOHLRABI

SACH’S WHITE DELICIOUS. Flesh white, tender and of delicate flavor. Ripes very early; foliage erect, short leaves. Hardier than any other variety. Pkt. 10c, oz. 25c, ¼ lb. 90c.

EARLY WHITE VIENNA. Finest market sort. Flesh white, tender and of delicate flavor. Better tasting than turnips. Pkt. 5c, oz. 15c, ¼ lb. 40c, ¼ lb. $1.50 postpaid.

EARLY PURPLE VIENNA. Bulbish purple; similar to above except in color. Flesh white. Pkt. 5c, oz. 15c, ¼ lb. 45c, lb. $1.50.

LENTILS

Used in oriental countries as principal article of diet. Splendid for soups. Cultivate same as peas. Pkt. 5c, ¼ lb. 15c, ¼ lb. 40c.

Egg Plant, New York Improved

large, open heads. It is improved by slight freezing. Give the same cultivation as cabbage. Pkt. 5c, oz. 10c, ¼ lb. 30c.

CORN SALAD OR FETTICUS

This small salad is used during the winter and spring months as a substitute for lettuce and is cooked and used like spinach. Sow seed in shallow drills one foot apart during August or September or early in the spring. Pkt. 5c, oz. 10c, ¼ lb. 25c; lb. 85c postpaid.

GEORGIA MAMMOTH. A form of cabbage extensively grown in the South for greens. They form large, open heads. It is improved by slight freezing. Give the same cultivation as cabbage. Pkt. 5c, oz. 10c, ¼ lb. 30c.

Sach’s White Delicous Kohlrabi

GREEN CURLED. Large and well adapted to this soil and climate. Pkt. 5c, oz. 10c, ¼ lb. 25c; lb. 50c postpaid.

BROAD LEAVED BATAVIAN. A large summer variety, productive. Pkt. 5c, oz. 10c, ¼ lb. 30c, lb. $1.00 postpaid.

GIANT FRINGED WINTER. Best for late planting. Leaves large, very curly, of fine flavor. Pkt. 5c, oz. 15c, ¼ lb. 45c, lb. $1.50.

KOHLRABI

SACH’S WHITE DELICIOUS. Flesh white, tender and of delicate flavor. Ripes very early; foliage erect, short leaves. Hardier than any other variety. Pkt. 10c, oz. 25c, ¼ lb. 90c.

EARLY WHITE VIENNA. Finest market sort. Flesh white, tender and of delicate flavor. Better tasting than turnips. Pkt. 5c, oz. 15c, ¼ lb. 40c, ¼ lb. $1.50 postpaid.

EARLY PURPLE VIENNA. Bulbish purple; similar to above except in color. Flesh white. Pkt. 5c, oz. 15c, ¼ lb. 45c, lb. $1.50.

LENTILS

Used in oriental countries as principal article of diet. Splendid for soups. Cultivate same as peas. Pkt. 5c, ¼ lb. 15c, ¼ lb. 40c.
BEANS

DWARF OR BUSH VARIETIES
Plant in drills 1½ inches deep and drop the beans 3 inches apart in the drills. The rows should be 2 to 3 feet apart. Beans are sensitive to both cold and wet, and cannot be planted until danger of frost is past and the ground has become dry and warm. A sandy loam is best. Up to the time of blossoming the plants should have frequent shallow cultivation. For succession plant every two weeks. 1 quart will plant 100 feet of drill; 1½ bushels per acre. Deduct 15c from quart price if to be sent with other goods at your expense.

DWARF WAX POD VARIETIES
SONDEREGGER'S MAMMOTH WAX. (Novelty.) Giant among beans. The pods frequently attain a length of from 8 to 10 inches, with the thickness of a man's finger, and are nearly all solid pulp, the seeds being very small when fit for use. A rich golden yellow color, and are absolutely stringless, cooking tender and of delicious quality. It is enormously productive, as many as fifty of its monster pods being counted on one bush. Pkt. 10c, ½ pt. 25c, qt. 50c, postpaid; not prepaid, ½ pk. $2.00.

SONDEREGGER'S IMPROVED BLACK WAX. This is an improved strain of the old standard variety of German Black Wax. The pods are borne in great profusion and the bushes are more rust resisting. A very superior snap bean, ripening among the first earliest and almost as well suited for late planting. Pods are round, yellowish white, tender and of fine flavor. Pkt. 10c, ½ pt. 25c, qt. 50c, postpaid; ½ pk. $2.00, not prepaid.

MICHIGAN WHITE WAX. (Novelty.) A white seeded Golden Wax, but it is far superior to the popular variety. The vine is a little larger, more robust and vigorous; foliage a little heavier. The handsome pods are produced in great abundance and are very uniform in size and color, which is a very attractive light golden yellow. Stock slightly mixed with green podded beans. Pkt. 10c, ½ pt. 25c, qt. 50c, postpaid; not prepaid, ½ pk. $2.00.

HODSON WAX. Produces a healthy growth of foliage, resists rust and blight, and is remarkably prolific, with long, straight, light yellow, oval shaped pods. The pods are brittle and tender, and if picked when young are entirely stringless. Pkt. 10c, ½ pt. 25c, qt. 50c, postpaid; ½ pk. $2.00, not prepaid.

GERMAN BLACK WAX. A very superior snap bean, ripening among the first earliest and almost as well suited for late planting. It is a sturdy grower and yields well. Pods are round, yellowish white, tender and of fine flavor. Pkt. 10c, ½ pt. 25c, qt. 50c, postpaid.

IMPROVED GOLDEN WAX. Pods large, long, brittle, entirely stringless, and of a beautiful rich golden color. As a snap bean it excels most other varieties in tenderness and rich, buttery flavor, while as a shell bean it has few or no superiors. Seeds white, mottled brown and pubic, postpaid 10c, ½ pt. 25c, qt. 50c, postpaid.

WARDWELL'S KIDNEY WAX. Hardy and productive. Pods flat, of a delicate, waxy yellow and very brittle. Seed white, mottled brown around the eye. A favorite with market gardeners and one of the best kinds for a main crop and field planting. Crop total failure. Cannot furnish this year.

DAVIS WHITE KIDNEY WAX. Immensely productive, bearing many clusters of handsome pods. The pods are straight and clear waxy white, 8 to 10 inches long. In quality they are tender, crisp and of good flavor. Pkt. 10c, ½ pt. 25c, qt. 50c, postpaid; ½ pk.$2.00, not prepaid.

NOTICE
The very wet weather and early frosts throughout the bean-growing districts the past season have caused almost a total crop failure in the wax and green podded bush beans. There was only a very small percent of the new bean crop saved and we do not look for the quality to be as good as other years. Therefore the prices are much higher this season than usual. We have a good supply of beans in stock and hope to be able to take care of our customers as usual.
BEANS—(Continued)

DWARF GREEN POD VARIETIES

SONDEREGGER'S GIANT STRINGLESS GREEN POD. The vines are of robust growth, very prolific and produce the pods in wonderful profusion. The pods are extra long, round and fleshy, very tender and absolutely stringless. As an early snap bean and for canning purposes it is unequalled. In our trial grounds it proved to be one of the very best beans. Pkt. 10c, $1.90, postpaid; ½ pk. $2.00.

BURPEE'S NEW STRINGLESS. Considered the best green podded bush bean for general planting and for the market. The pods are long, full and straight, entirely stringless and of a crisp, tender flavor. Pkt. 10c, $1.90, postpaid; ½ pk. $1.90, not prepaid.

BLACK VALENTINE. A great improvement over the popular sort Early Red Valentine, being one-third longer; pods perfectly round, straight, although not quite so early. Pkt. 10c, $1.90, postpaid; ¼ pk. $1.50, pk. $2.50, not prepaid.

BEST OF ALL. Pods nearly twice as long as those of Valentine; very fleshy, tender, stringless and of excellent flavor. Pkt. 10c, ½ pt. 20c, qt. 70c, postpaid; ½ pk. $1.90, pk. $3.50, not prepaid.

IMPROVED RED VALENTINE. Grows robust and vigorous, producing the round, curved pods very abundantly. The pods are remarkably fleshy and very tender. Excellent in quality and uniformity of ripening. Pkt. 10c, ½ pt. 20c, qt. 70c, postpaid; ½ pk. $1.90, not prepaid.

EARLY REFUGEE OR THOUSAND TO ONE. Very hardy, suitable for early and late planting. Pods are perfectly round, of pale green color, thick and fleshy, straight and with few strings. Especially desirable for pickling. Pkt. 10c, ½ pt. 20c, qt. 70c, postpaid; ¼ pk. $1.50, not prepaid.

EARLY YELLOW SIX WEEKS. Very early and a good yielder. The pods are long, flat and straight. A standard sort, and excellent snap bean. Pkt. 10c, ½ pt. 20c, qt. 70c, postpaid; ½ pk. $1.90, not prepaid.

LONGFELLOW STRINGLESS. Pods are extra long, round and fleshy, very tender, and absolutely stringless. Pkt. 10c, ½ pt. 20c, qt. 70c, postpaid; ½ pk. $1.90, not prepaid.

EARLY ERFURT BROAD BEAN. An improvement of the old English Broad or Windsor Bean. The plant is of robust and upright growth, entirely different from any other bean. Pods are very long, broad and filled with 5 to 9 beans of extra large size and of most delicate flavor. The beans are used shelled and are superior in quality to Lima Beans. Can be planted early as they are quite hardy. Pkt. 10c, ½ pt. 20c, qt. 40c, postpaid; ½ pt. $1.90, 1 bu. $12.00, not prepaid.

BOSTON PEA BEAN. An improvement over the old navy bean. A very prolific field bean. Pkt. 10c, ½ pt. 20c, qt. 65c, postpaid; ½ pk. $1.90, pk. $3.50, bu. $12.00, not prepaid.
BEANS—(Continued)

POLE OR RUNNER BEANS

Beans should be planted middle of May. Set poles 4 feet apart each way, and plant 4 to 6 beans about an inch deep around each pole. Thin out to three plants to a pole, if the soil is rich; pitch off the plants when they overrun the top of the poles. They succeed best in sandy loam. One quart will plant about 100 hills.

GOLDEN CLUSTER WAX. It bears profusely its long golden pods in clusters of three to six, from the middle of July until cut by frost. Pods are 7 to 8 inches long and about an inch in width. They are fleshy, absolutely stringless and very brittle, while their flavor is delicious. Pkt. 10c, 1/4 pt. 25c, qt. 75c, postpaid; 1/2 pk. $1.30, not prepaid.

LAZY WIFE. As its name indicates, a handful of choice stringless pods at a single grab. They are broad, thick, very fleshy and entirely stringless and possess a rich buttery flavor when cooked. Beans are white and make a good dry bean. Pkt. 10c, 1/4 pt. 20c, qt. 70c, postpaid; 1/2 pk. $1.15, not prepaid.

CUT SHORT OR CORN HILL. Popular variety for planting with corn. Pods short, round and tender; beans nearly round, white with reddish brown spots. Pkt. 10c, 1/4 pt. 20c, qt. 65c, postpaid; 1/2 pk. $1.15, not prepaid.

KENTUCKY WONDER OR OLD HOMESTEAD. Vine vigorous, very productive, bearing its pods in clusters; pods green, very long, often reaching nine or ten inches, nearly round and very crisp. Ten days earlier than any other green podded pole bean. Good market sort. Pkt. 10c, 1/4 pt. 20c; qt. 70c, postpaid; 1/2 pk. $1.15, not prepaid.

EXTRA EARLY JERSEY LIMA. This variety matures earlier than the Large White Lima. Pods contain three and four large beans each. Splendid quality. Good market sort. Pkt. 10c, 1/4 pt. 20c, qt. 70c; postpaid; 1/2 pk. $1.30, not prepaid.

LARGE WHITE LIMA OR BUTTER. Productive, large, flat pods, rich and of finest flavor. The dry beans are white. Pkt. 10c, 1/4 pt. 20c, qt. 65c; postpaid; 1/2 pk. $1.15, not prepaid.

MANGEL WURZELS

Mangels are very easily grown and are a sure crop. They are very valuable for feeding, and will keep your stock healthy and free from diseases. Sow in April or May in drills three feet apart and thin out to 10 inches in the row. 5 to 6 lbs. of seed per acre.

DANISH SLUDSTRUP. This is considered the best of all Mangels, having been awarded first class certificate. Its color is reddish yellow and very hardy, grows well above the ground and is easily harvested. It contains a larger per cent of nutriment than is found in any other sort. Oz. 5c, 1/4 lb. 15c, 1 lb. 40c; postpaid; 5 lbs. per express not prepaid, $2.00.

GIANT ECKENDORF. The most popular Mangel in Germany, and has also given excellent results in this country. The roots are very large, of smooth, cylindrical shape, and weigh from 15 to 25 lbs. each. The flesh is firm and solid, of white color and its highly nutritive value makes it the best Mangel for feeding stock. The roots are very easily harvested. Oz. 5c, 1/4 lb. 15c, 1 lb. 45c; postpaid; 5 lbs. per express not prepaid, $1.75.

GIANT HALF SUGAR. The roots of this new Mangel are more valuable than the best strain of sugar beets. They are not only of better quality, but will yield more than twice as much. The roots grow partly out of the ground, which makes digging very easy. Oz. 5c, 1/4 lb. 15c, 1 lb. 40c; postpaid; 5 lbs. by express not prepaid, $1.50.

MAMMOTH LONG RED. Largest of all Mangels, valuable for stock. Oz. 5c, 1/4 lb. 15c, 1 lb. 40c, postpaid; 5 lbs. by express not prepaid, $1.50.

GOLDEN TANKARD. Best yellow Mangel in existence. Oz. 5c, 1/4 lb. 15c, 1 lb. 40c, postpaid; 5 lbs. by express not prepaid, $1.40.
Sonderegger's Early Blood Turnip

CROSBY'S EGYPTIAN. An improved strain of the Early Egyptian. The roots are of perfect shape when small, making a good beet for bunching. Uniform size and shape, small tops and tap root. Pkt. 5c, oz. 10c, ¾ lb. 20c, 1 lb. 75c, postpaid.

CRIMSON GLOBE. An extra early variety of medium size and globe shaped. Entirely free from rootlets, very smooth and of a rich, deep red color. Flesh is of the finest quality, sweet and tender. foliage is small and of a bronze purple color. Pkt. 5c, oz. 16c, ¼ lb. 20c, lb. 60c, postpaid.

LONG BLOOD RED. Matues rather late, but is of fine quality and an excellent keeper; resists drought better than any other variety. Pkt. 5c, oz. 10c, ¾ lb. 15c, lb. 55c, postpaid.

EARLY BLOOD TURNIP. Very early, excellent for family use. Pkt. 5c, oz. 10c, ¾ lb. 20c, lb. 60c, postpaid.

EARLY ECLIPSE. Rapid grower, round, smooth and of dark red color. Pkt. 5c, oz. 10c, ¼ lb. 15c, lb. 50c, postpaid.

DEWING'S EARLY BLOOD TURNIP. Excellent for late planting. Pkt. 5c, oz. 15c, 1/4 lb. 16c, 1 lb. 60c, postpaid.

HALF LONG BLOOD. Roots thick and smooth; flesh rich, dark red, crisp, tender and sweet. Pkt. 5c, oz. 10c, ¼ lb. 20c, lb. 60c, postpaid.

SWISS CHARD OR SILVER BEET. Especially grown for greens. Of superior quality to spinach and ordinary beet greens. Oz. 5c, ¼ lb. 12c, lb. 35c, postpaid.

SUGAR BEETS

Sugar Beets are grown on a large scale throughout the West. In Colorado large tracts are devoted to the culture of Sugar Beets annually and the crop is sold to the Beet Sugar factories at a handsome profit for the planter. When planted for this purpose 12 to 20 pounds of seed per acre is the usual quantity. For stock feeding the Sugar Beets are superior to the Mangels. Our seed is grown by the foremost growers in Europe, who have made the growing of Sugar Beets their speciality for many years. Write us for prices on large orders.

KLEIN WANZLEBEN. Selected stock. This variety has proved to be a very valuable sort. It has a rather long, slender root, very rich in sugar, and it is claimed to yield under average conditions about 16 tons to the acre, containing 13 to 15 per cent of sugar. Oz. 5c, ¼ lb. 15c, 1 lb. 30c, postpaid; 10 lbs. $2.00, not prepaid.

FRENCH RED TOP. It unites capacity for a large yield with an exceedingly rich flesh, making it the best kind for cattle feeding. Roots above medium size, long top shaped; flesh fine grained and very sweet. Of much value for feeding to milk cows and will add greatly to the milk production as well as to its richness. Oz. 5c, ¼ lb. 12c, 1 lb. 30c, postpaid; 10 lbs. $2.00, not prepaid.

LANE'S IMPERIAL. Grows to a large size, will yield almost as much in bulk as the best Mangels, and contains a large per cent of sugar. The roots are smooth, broad at the shoulder, and gradually taper to the base. Oz. 5c, ¼ lb. 10c, ¼ lb. 25c, postpaid; 10 lbs. $1.50, not prepaid.

BEETS

The soil for beets should be rather light and well enriched. Sow in drills one foot apart and one inch deep, as early as the ground can be worked, continue for a succession as late as the middle of July; when the plants are large enough thin out to stand six inches apart in rows. One ounce to 50 feet of drill; 5 to 6 lbs. to the acre in drills.

SONDEREGGER'S EARLY BLOOD TURNIP. This splendid beet is an improved strain of the old standard variety of Early Blood Turnip. It is nearly as early as the Extra Early Egyptian, and greatly surpasses that variety in quality and flavor. It is free from fibrous roots, being always smooth. The roots are of a dark red color, very solid and remain crisp and tender for a long time. Also one of the best varieties for early spring and summer use. This is an excellent beet in every way and you should not fail to give it a trial in your garden. Pkt. 10c, oz. 15c, ¼ lb. 25c, 1 lb. 75c, postpaid.

Crosby's Egyptian Beet

Danish
Studstrup
Mangel
(See Page 73)
CABBAGE

For early summer sow in hotbed in February or March. Before transplanting to open ground the plants should be hardened off by exposing them gradually to the night air. For winter use sow in the open ground in May or June. When five or six inches high, transplant in rows two feet apart one way, and 12 to 18 inches the other, according to variety, burying to the first leaf, whatever the stem length. Hoe frequently, drawing the earth up around the plants until they begin to head. Requires a rich, deep soil. One ounce will produce 2,000 plants. Use "Slug Shot" to kill worms and insects. Dusting with tobacco dust, insect powder, etc., or splashing with hot soap-suds, especially Whale-Oil Soap Solution, are good remedies for some of the insect pests attacking the plants.

EARLY COPENHAGEN MARKET. (Novelty.) This is a very popular sort in Denmark, where it is considered the finest and largest round-headed early cabbage in cultivation. The plants have narrow light green leaves, which grow erect, taking up little room, and form their heads close to the ground. The latter have a very short internal stem and are similar in character and form to the great round-headed varieties. It is a great advantage, especially for the market gardener, that the heads keep remarkably well in storage and that they all turn in at the same time, as much labor is thus saved in cutting and the land can be cleared at once for another crop. Pkt. 10c, oz. 30c, $1.00, lb. $2.75, postpaid.

SONDREGER'S SUMMER BALLHEAD. This cabbage is equally as hard as the original type, Danish Ballhead, and its keeping qualities are not surpassed by any other. It is of an average weight of 10 to 11 lbs. are of excellent quality for the table and store. The heads are round, solid, and hard even in summer. Also good for winter cabbages. Pkt. 5c, oz. 15c, 1/4 lb. 55c, lb. $1.50, postpaid.

EARLY SPRING. Of the type of the Early Ballhead and Broadhead. The heads are round, solid, and hard even in summer. Also good winter cabbage. Pkt. 5c, oz. 15c, 1/4 lb. 55c, lb. $2.00, postpaid.

EARLY WINNINGSTADT. Early, heads large, decidedly conical, solid and hard even in summer. Also good winter cabbage. Pkt. 5c, oz. 15c, 1/4 lb. 55c, lb. $2.00, postpaid.

FIRST GLORY. Best early sure heading variety. It is a vigorous grower, forming large, compact heads of a nice yellowish green color. Few outer leaves. Heads round. Excellent market sort. Pkt. 10c, oz. 30c, 1/4 lb. 95c, lb. $2.75, postpaid.

NEW IDEAL. The largest early round headed variety, and most solid early cabbage grown. A vigorous grower, forming large, compact, hard heads with only a few outer leaves. Color a nice yellowish green. Unexcelled in flavor, unequalled in quality, sells readily at good prices in any market. Pkt. 10c, oz. 30c, 1/4 lb. 95c, lb. $2.75, postpaid.

ALL SEASONS. (Or Vanderwag.) One of the best sorts for market gardeners, as it forms large, solid heads, much larger than the Early Summer and about as early; when planted later, it matures the latter part of June and may be cut in succession for several weeks. Heads are solid and conical in shape, with blunt point, and have but few outside leaves. Pkt. 10c, oz. 25c, 1/4 lb. 75c, lb. $2.50, postpaid.

SURE HEAD. A well known variety, producing very large, round heads, slightly flattened and remarkable for its certainty to head. A vigorous grower and one of the best cabbages for late or main crop. Heads are remarkably uniform, very hard and exceedingly fine in texture, weighing about 10 to 15 lbs. each. Of very fine flavor, a fine keeper and good shipper. Pkt. 10c, oz. 25c, 1/4 lb. 75c, lb. $2.50, postpaid.

SONDEREGGER'S IMPROVED DANISH BALLHEAD. An improvement over the old Danish Ballhead. The heads are of excellent market size—not too large. They are very hard, almost round, fine grained, and will weigh one-fourth more than other varieties of equal size. For main crop and late planting it is unexcelled, being one of the best keepers of all winter cabbages. Its excellence will make it available for all summer. Pkt. 10c, oz. 25c, 1/4 lb. 85c, lb. $2.75, postpaid.

EARLY FIDERKRAUT. (Earliest Pommerian.) Extra early, with pointed, solid heads, of good size and few outer leaves. Pkt. 5c, oz. 15c, 1/4 lb. 40c, lb. $1.50.

TRUE EARLY JERSEY WAKEFIELD. Selected Long Island grown stock. Considered the very best first early variety suited for market and family use. The heads begin to mature the latter part of June and may be cut in succession for several weeks. Heads are solid and conical in shape, with blunt point, and have but few outside leaves. Pkt. 10c, oz. 25c, 1/4 lb. 70c, lb. $2.50, postpaid.

Copenhagen Market

Sondereneger's Summer Ballhead

Early Jersey Wakefield
GERMAN NURSERIES AND SEED HOUSE, BEATRICE, NEBRASKA

CABBAGE.—(Continued)

DANISH BALLHEAD. Heads are of good marketable size, very hard, round, fine grained and solid. One of the best keepers of all our cabbages and very desirable for main crop and late planting. Pkt. 5c, oz. 10c, ½ lb. 40c, 1 lb. $1.65, postpaid.

MARBLEHEAD MAMMOTH. A large headed variety of the drumhead type, considered to be the largest cabbage in cultivation. Under good culture it forms compact, solid heads, weighing from 30 to 40 lbs. each. Large size in some sections of the South. Not a very good keeper. Pkt. 5c, oz. 20c, ½ lb. 65c, 1 lb. $2.25.

BRUNSWICK LARGE LATE FLAT. Very fine late variety with short stem, producing large, fine heads, which are uniform in size and always very solid. Quality is very best. The heads maintain their shape and solidity during the period of storage. Can be grown either as second early or late sorts. Pkt. 5c, oz. 20c, ½ lb. 65c, 1 lb. $2.40, postpaid.

Plymouth, Neb., June 9, 1915.

Gentlemen: We are delighted to report the success of our hotbed. We bought one packet of your Early Spring Danish Ballhead

Cabbage and one packet of your New Globe Tomato Seed. Every seed must have sprouted, as we sold 15 dozen Cabbage plants and 11 dozen of the Tomato plants. Our agriculture class realized enough from the plants to purchase decorations for the class day exercises.

Very resp.,

MISS MARY STURMER, Teacher.

RED CABBAGE

OTHELLO. This new Red Cabbage "Othello" surpasses in size, productiveness, solidity and keeping quality, every variety known in the trade. It has all the qualities of the true variety of largest Flat White Brunswick cabbage, being of the same great size and exceeds by far that of all the known varieties of Red Cabbage. It forms a smooth, flat, slightly arched head, exceeding firm, deep, glossy, black-red and is the best keeper during the winter. Pkt. 10c, ½ oz. 20c, oz. 35c, ½ lb. $1.25, postpaid.

ZENITH RED. This new variety produces solid heads of rich, deep blood-red color, ripens medium early. The heads are of medium size, fine ribbed and with but few outer leaves. It is of excellent quality and a good keeper. Without doubt the finest early red cabbage ever introduced. Pkt. 10c, oz. 20c, ½ lb. 75c, postpaid.

MAMMOTH RED ROCK. The largest and surest heading variety of the red cabbages. The plant is of vigorous growth and forms round, solid heads of deep red color. In quality and flavor is considered to surpass any green cabbage. Pkt. 10c, oz. 20c, ¼ lb. 65c, ½ lb. $2.25, postpaid.

CABBAGE—(Continued)

DANISH STONE HEAD. Very hardy, short stemmed, with exquisitely solid heads of dark red color. The outside leaves are somewhat crumpled at the edges, giving the head a fine appearance. There are but few outer leaves, therefore the plants may be set closer together in the rows. A splendid medium late variety. Quality is excellent. Pkt. 10c, oz. 25c, ½ lb. 75c.

SAVOY CABBAGE

The Savoy Cabbages require the same culture as the common cabbages. They have finely curled leaves and are of a superior flavor than other sorts. Preferred by many to all other cabbages.

KING OF EARLIEST SAVOY. The finest early Savoy cabbages. Forms medium sized, very solid heads of conical shape, with blunt point; leaves are finely crimped. Superior in flavor to the smooth-leaved cabbages; its flavor is like that of Brussels Sprouts. Pkt. 10c, oz. 20c, ½ lb. 60c.

LARGE DRUMHEAD SAVOY. An excellent winter and spring cabbage, forming nice solid heads, with curly outer leaves. Plants are strong and vigorous. Pkt. 5c, oz. 20c, ¼ lb. 65c, ½ lb. $2.25, postpaid.

CHINESE CABBAGE (Celery Cabbage)

This delicious vegetable should be more generally used. It is more easily grown than the ordinary cabbage, and when boiled with meat it is much better than either cabbage or turnips. As a salad or cold slaw it is excellent. Every home should have a plot of Chinese Cabbage. From seed sown the first week in July and plants transplanted about three weeks later, I had excellent success with this variety. Some of the heads were 12 inches in circumference and 12 to 15 inches long. They were solid and of fine quality. Seed should be sown in July and plants transplanted. If sown too early the heads will be small and late. A few light frosts do not injure Chinese Cabbage. Pkt. 10c, oz. 25c, ½ lb. 75c, postpaid.
CAULIFLOWER

Sow the seed in a hotbed in January or February, and when the plants are large enough transplant three inches apart in boxes until time to plant out. If hardened off they are seldom injured by planting out as early as the ground can be properly prepared: 2 1/2 feet apart each way. Keep well hoed, watering freely in dry weather, and especially when they begin to head. The late varieties mature in the autumn, and are sown and are managed similar to winter cabbage. Any soil that will grow cabbage will grow cauliflower, but rich, moist soil is preferred. One of the most delicious vegetables.

SONDEREGGER’S IMPROVED EARLIEST DWARF. In this Cauliflower you will find a remarkably sure and early heading variety. It is of dwarf habit, with short outside leaves and is similar in all respects to Early Snowball. It produces smoothly rounded heads which are of uniformly even size, fine grained, compact and pure white. If planted in rich soil at proper season, heads 8 to 10 inches in diameter can be marketed in July. Pkt. 10c, 1/2 oz. $1.00, oz. $1.50, 1/4 lb. $6.00.

EARLY SNOWBALL. A well known variety, producing very early, fine grained, smooth heads which are compact and even in size. The plants are of dwarf habit. On account of the short outer leaves the plants can be set out as close as 18 to 20 inches apart each way, a point of great value to market gardeners. Equally good for forcing or planting in open ground for main crop. We obtain this seed from the most reliable growers in Denmark. Pkt. 10c, 1/2 oz. $1.35, oz. $2.50, 1/4 lb. $8.15.

CELEBRITY

EARLIEST DWARF ERFURT. Best variety for forcing and open ground. Dwarf in habit; heads smoothly rounded, fine grained and pure white. Pkt. 10c, 1/4 oz. $1.00, oz. $1.50.

NEW DANISH GIANT. The dry weather Cauliflower. Originated in Denmark. Heads of large size, pure white and very solid. It also has large leaves which help to protect the head. It is later than the Snowball and has proven much more desirable for growing in the open ground and does well in dry seasons when other sorts fail. Pkt. 15c, 1/2 oz. $1.40, oz. $2.60.

SONDEREGGER’S SELECT SELF BLANCHING. This is the American grown. Leading early market sort. Stalks broader and heavier than White Plume and superior in quality. Ribes are solid, crisp and brittle. Pkt. 10c, oz. 40c.

WHITE PLUME. This celery is valued because the stalks, inner leaves and the hearts are white. Tender, crisp and of good flavor, ripening very early. Pkt. 10c, oz. 40c.

GIANT PASCAL. Best keeper of all late sorts. Very solid and crisp. Unsurpassed for market gardeners. Pkt. 10c, 1/4 oz. 35c, oz. 50c.

GOLDEN DWARF. Fine Keeping golden dwarf sort. Heart large, surrounded by a solid stalk. Popular. Pkt. 10c, oz. 25c, 1/4 lb. 76c.

FLAVORING CÉLEY. Old seed. Oz. 5c, 1/4 lb. 15c, lb. 40c.
GERMAN CELERY
OR CELERIAC

This popular German vegetable is worthy of more extended use. Keeps well all winter. It is much used in salads, and boiled like parsnips or turnips, it is a great favorite with lovers of celery.

CELERIAC OR TURNIP ROOTED CELERY. Grown exclusively for its very tender, narrow-like roots. The roots are cooked and sliced, used with vinegar they make excellent salad. Pkt. 10c, oz. 30c, ½ lb. 90c, lb. $2.25, postpaid.

SONDEREGGER'S BEST. A new Celariac, which according to experiments, has proven to be the best of all Celariacs. The beautiful white roots are large, very smooth, of fine flavor and best quality. They will make delicious salads and are also fine for seasoning meats and flavoring soups. We feel assured that any one who tries this new Celariac is bound to be perfectly satisfied with same. Pkt. 15c, oz. 40c.

CARROTS

The Carrot is one of the most nutritious and healthful of roots, and should be more generally used for the table as well as for stock feeding purposes. Will grow in any soil; sandy loam is best. Sow as early as the ground can be worked, in rows 15 to 18 inches apart, covering about ¼ inch. For field culture sow in drills 18 to 24 inches apart. One ounce will sow 100 feet of drill, 3 to 4 pounds per acre.

SONDEREGGER'S NEW SCARLET. This new carrot is of the best quality, and of good shape and size. The leaves are fine and the roots almost cylindrical, very smooth and grow very rapidly. The flesh is beautiful red, very sweet and tender and almost entirely without a core. It is also a heavy yielder, therefore can be recommended to everybody. A first class carrot for table use and can also be used to good advantage for stock. As the seed of this new variety is scarce, we can only offer them in packets and ounces this year. Pkt. 10c, oz. 25c.

SONDEREGGER'S IMPROVED HALF LONG. A splendid variety of half long carrots. Very smooth and handsome, of dark orange color; broad shouldered, stump rooted; cylindrical in shape and very productive. Under special care it has yielded from 20 to 25 tons per acre. Cooking qualities superb; in fact no carrot excels it in essential qualities, of uniform size, smoothness, sweetness, flavor and deep color. Pkt. 15c, oz. 25c, lb. 90c, postpaid.

OXHEART OR GUERANDE. Roots are very thick, five inches long and nearly as broad, and very blunt at the lower end. It grows rapidly and the roots often weigh a pound or over. Excellent quality. Pkt. 5c, oz. 10c, ½ lb. 20c, 1 lb. 75c, postpaid.

EARLIEST SCARLET HORN. A very popular extra early variety. Roots of medium size. Color orange scarlet; fine grained and of best flavor. Pkt. 5c, oz. 10c, ½ lb. 20c, 1 lb. 75c.

EARLIEST FRENCH FORCING. Used extensively for forcing. Small, globe-shaped root of orange-red color; excellent quality. Pkt. 5c, oz. 10c, ½ lb. 20c, 1 lb. 90c, postpaid.

GOLDEN ROD. A new half long table carrot; uniform in size, smooth, free from core, with sweet and tender flesh. For market gardeners and the home garden it is one of the finest sorts. Pkt. 5c, oz. 10c, ½ lb. 20c, 1 lb. 75c, postpaid.

DANVERS HALF LONG. Of rich orange color, smooth, stump rooted; flesh of fine texture and with little core. Pkt. 5c, oz. 10c, ½ lb. 25c, 1 lb. 75c, postpaid.

EARLY CHANTENAY. Very early, smooth, and of finest quality. Grows five to six inches long. We consider this the best table carrot. Very productive even under unfavorable conditions. Pkt. 5c, oz. 10c, ½ lb. 25c, 1 lb. 75c, postpaid.

LONG ORANGE. Grows to a large size, is a rich orange color and fine quality. Very desirable for table use and stock. Pkt. 5c, oz. 10c, ½ lb. 15c, 1 lb. 50c, postpaid.

VICTORIA. A very large and rich stock carrot. It is a heavy cropper on all soils. Roots are very symmetrical, of excellent quality and orange yellow color. Pkt. 5c, oz. 10c, ½ lb. 20c, 1 lb. 75c, postpaid. By express, 5 lbs. for $2.75, not prepaid.

LARGE WHITE BELGIAN. Root pure white, green above ground. It will grow to a very large size, and is easily gathered. Flesh rather coarse. Is raised extensively for stock. Pkt. 5c, oz. 10c, ½ lb. 20c, 1 lb. 65c, postpaid. By express, not prepaid, 5 lbs. for $2.50.
CUMBERLAND.

One ounce will plant about 50 hills, two to three pounds to the acre. Succeeds best in a rich, loamy soil. For first early sow in hotbeds, six weeks before the plants can be set out in the open ground. For general crop plant in May, in open ground, about 10 seeds to a hill, the hills 4 feet apart each way.

CHICAGO OR WESTERFIELD PICKLING. Selected Stock. Fine for market. It is the best cucumber for pickles, and is used by a vast majority of the pickle factories. The fruit is of medium length, pointed at both ends, with large and prominent spines. The color is a beautiful deep green. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 85c.

NEW EVERBEARING. It is of small size, very early, productive, and valuable as a green picker. Continues to produce fruit until killed by frost, whether the ripe cucumbers are picked off or not. The fruit is perfect in shape, of a fine green color. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 85c.

KLONDIKE. The color is a rich, dark green, and the fruits grow to a uniform size, measuring about seven inches in length and two inches thick when in good condition for use. Matures early; continues to bear for a long time. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 85c, postpaid.

IMPROVED LONG GREEN. A standard main crop variety, about nine inches long, of excellent quality, and makes a great market. Also one of the best for slicing, being tender, crisp and of fine flavor. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 90c, postpaid.

CUMBERLAND. Hardy, rapid, vigorous grower and very prolific. The fruits are thickly set with fine spines over the entire surface except the extreme end. They are exceptionally straight and symmetrical, and the flesh is crisp and tender. A fine pickling cucumber. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 90c, postpaid.

JAPANESE CLIMBING. While all cucumbers are running vines, yet this variety is much more creeping or climbing in its habit, so much so, that it quickly climbs on poles or trellises. This makes it very desirable for small gardens, as it takes up less room, and the fruits keep much cleaner as they are kept up from the ground. The quality is splendid for pickling, as well as for slicing for salads. The fruits are of good size and of fine flavor. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 90c, postpaid.

DAVIS PERFECT. An excellent cucumber for both outdoor use and forcing. The fruits grow eleven to twelve inches long, of curious form, covered with small horn-like eruptions. Color deep green, turning to orange yellow when ripe. Quality excellent. Desirable for pickling and slicing. Pkt. 10c, oz. 25c.

IMPROVED EARLY LONG WHITE SPINE. Selected stock. The most popular variety with market gardeners. Fruit of uniform in size, straight and light green, with few spines. Very prolific. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 90c, postpaid.

EARLY FRAME OR SHORT GREEN. Excellent for table use and pickling. Fruit is straight, handsome, smaller at each end, bright green; flesh crisp and tender. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 90c, postpaid.

LEMON CUCUMBER. The fruits are nearly round, with yellow and green markings and the smooth skin of a lemon, while the flesh is exceedingly tender and crisp, with a sweet flavor. The vines grow and produce fine fruits until killed by frost. Pkt. 5c, oz. 10c, ¼ lb. 25c.

GHERKIN OR BURR. Used exclusively for pickling; fruit 2 to 3 inches long and prickly. Pkt. 5c, oz. 10c, ¼ lb. 40c, lb. $1.25, postpaid.

LEMON CUCUMBER. The fruits are nearly round, with yellow and green markings and the smooth skin of a lemon, while the flesh is exceedingly tender and crisp, with a sweet flavor. The vines grow and produce fine fruits until killed by frost. Pkt. 5c, oz. 10c, ¼ lb. 25c.

ANIMAL HOUSE, BEATRICE, NEBRASKA.
SWEET CORN

One quart will plant about 200 hills. One-third bushel will plant one acre in hills. Sweet corn being liable to rot in cold or wet ground, should not be planted before May, or until the ground has become warm. For a succession, plant every two weeks, in rich ground, in hills three feet apart each way, covering about one-half an inch, and thin out to three plants to the hill. The extra early varieties can be planted closer. Give frequent and thorough but shallow cultivation until tassels appear. Our price for packets, pint, pint and quart is postpaid, larger quantities to go at the expense of the purchaser.

SONDEREGER’S EARLIEST. A novelty which we have found to be of great value, as it is not only extremely early, but also very productive. The ears are about 7 to 8 inches long, well filled with white, sweet kernels and are ready for use about the first of June. Pak. 5c, ½ pt. 15c, qt. 50c, postpaid. Not prepaid, ½ pk. $1.35.

SONDEREGER’S IMPROVED EARLY EVERGREEN. In this new sort we believe a truly valuable variety of Sweet Corn has been found. It resembles Stowell’s Evergreen very much, only is ready for use much earlier, and remains in condition fit for use longer. The ears grow to a good size, usually about 7 to 8 inches long, are well filled with kernels of a very sweet and tender flavor. Extra fine sort for market gardeners. Pak. 5c, ½ pt. 15c, pt. 40c, quart 75c, postpaid. Not prepaid, ½ pk. 85c, pk. $1.50.

WHITE MEXICAN. The White Mexican possesses all the good qualities of the old Black Mexican—just as sweet, with just as fine a flavor—without the objectionable color. It matures and remains in edible condition perhaps longer than any other early variety. Pak. 5c, ½ pt. 15c, qt. 40c, postpaid. Not prepaid, ½ pk. 75c, pk. $1.35.

SEEDS OF DAY. Of Minnesota origin, 5 to 7 days earlier than other well known early kinds. Ears 5 inches long, perfect in form, well filled and corn is tender and sweet. Pak. 5c, ½ pt. 15c, qt. 40c, postpaid. Not prepaid, ½ pk. 85c, pk. $1.50.

GOLDEN BANTAM. Very early, one of the sweetest and richest corns ever known. Can be planted thickly and as late as July 15th. Pak. 5c, ½ pt. 15c, pt. 25c, qt. 50c, postpaid. Not prepaid, ½ pk. 75c, pk. $1.35.

COUNTRY GENTLEMAN. Extremely productive; stalks average three ears and sometimes five. Kernels small, irregular, very deep and pure white, of very sweet and delicious flavor. Ears average 9 inches long. Not prepaid, ½ pk. 60c, pk. $1.00.

EARLY MINNESOTA. Stalks 4 to 5 feet high, bearing 1 or 2 ears, long and 8-rowed, Kernels very broad, sweet and tender. Pak. 5c, ½ pt. 12c, pt. 20c, qt. 50c, postpaid. Not prepaid, ½ pk. 80c, pk. $1.00, bu. $5.00.

STOWELL’S EVERGREEN. The standard variety. Very productive; ears large; grains deep, exceptionally tender and sugary, and remains in good condition fit for use longer than any other early variety. Pak. 5c, ½ pt. 12c, pt. 20c, qt. 50c, postpaid. Not prepaid, ½ pk. 80c, pk. $1.00, bu. $5.00.

SONDEREGER’S LARGEST SUGAR. Produces the largest ears of any sort, excellent quality, sweet, tender and delicious. Ears average 10 to 12 inches long. Ripens late. Pak. 5c, ½ pt. 12c, pt. 20c, qt. 30c, postpaid. Not prepaid, ½ pk. 60c, pk. 90c, bu. $3.00.

LEEK

A species of onion highly esteemed for flavoring soups. Sow in middle of spring; when plants are 3 to 4 inches high transplant.

LARGE LONDON. The variety most generally sown. A large, strong plant, with broad leaves and mild pleasant flavor. Hardy. Pak. 5c, oz. 15c, ½ lb. 50c, lb. $1.50.

GIANT PRIZEKET. On account of its size and attractive appearance, this variety is ideal for growing to show at exhibitions and market. In quality it is better than any other variety, the white stems being of mild flavor. Pak. 10c, oz. 20c, ½ lb. 75c.

MUSTARD

WHITE. Best for salad and culinary purposes. Oz. 5c, ½ lb. 15c, lb. 40c, postpaid.

SOUTHERN GIANT CURL. Highly esteemed in the South, where seed is sown in fall and plants used early in spring as a salad. Pak. 5c, oz. 10c, ½ lb. 25c, lb. 90c.
"The sweetest thing that ever grew
Beside a human door."

Hall's Japan Honeysuckle...

(Lonicera Halleana.)

EVERGREEN HONEYSUCKLE.
A RAPID GROWER.

UNEQUALLED FOR SWEETNESS.

MARVEL OF BEAUTY

"The honeysuckle round the porch has woven its wavy bower."

This variety is the most beautiful and hardy of all climbing Honeysuckles. A perfectly hardy plant, vigorous grower, and the delicious fragrance of the flowers is unequalled. The flowers are pure white, changing to yellow. It flowers from July to December.

There is no more charming plant to train over the porch or veranda of a dwelling house, so that the fragrance of its flowers may be enjoyed constantly.

This is a plant especially adapted to severe climates, and we recommend it to all our northern patrons.

The Garden and Forest (Philadelphia, Pa.) says: "It should be grown more in gardens in this country."

The Canadian Horticulturist, of June, 1889 (Grimsby and Toronto, Ont.) says: "No variety of all the Honeysuckles can be more recommended for general cultivation than Hall's Japan," and that it is the most suitable for the adornment of home grounds in Ontario.

PRICE—30c each, or 5 for $1.25, free by mail.

GERMAN NURSERIES & SEED HOUSE

CARL SONDEREGGER, Prop.
BEATRICE, NEBR.
NATURE'S MOST CHARMING CLIMBER

HALL'S JAPAN HONEYSUCKLE
LETTUCE

Lettuce seed should be covered very shallow to secure germination. For early spring use sow in September and protect through the winter in cold frames same as cabbage, or sow in hotbed in March, and transplant to the open ground as soon as it can be worked. For late supply sow in the open ground as soon as the season will permit, in rows one foot apart; thin out plants 8 to 10 inches in rows. If sown every two or three weeks to the middle of August, it may be had in perfection the entire season. One ounce will sow 100 feet in drills, 3 to 4 pounds to the acre.

Sonderegger's Extra Early Head. This new lettuce is sure to become popular both in home or market gardens. Heads are of medium size, solid, round; leaves of light green color, outer leaves slightly tinged with brown and inner leaves of a bright yellow. The flavor is very rich, buttery, crisp and tender. It is hardy as well as very early, and its fine, large heads are ready for use in advance of any other head lettuce. Pkt. 10c, oz. 15c, 1/4 lb. 35c, lb. $1.10, postpaid.

IDEAL FORCING. The earliest and best in every respect for forcing purposes. Head is perfectly rounded, unsurpassed for firmness and quality. Pkt. 5c, oz. 15c, 1/4 lb. 40c, lb. $1.25, postpaid.

GERMAN ICEHEAD. A new lettuce from Germany. Heads very large, of crisp, delicious flavor, yellowish green, outer leaves finely curled, enclosing the very solid heads, like cabbage. Will withstand drought very well and stand 4 to 5 weeks before running to seed. The leaves are so tender and brittle as to have suggested the name Icehead. Pkt. 10c, oz. 20c, 1/4 lb. 45c.

IMPROVED HANSON. It forms large, firm heads, which are deliciously sweet, crisp and tender. Pkt. 5c, oz. 15c, 1/4 lb. 25c, lb. 75c, postpaid.

MAY KING. The new early lettuce. It has medium-sized, solid and round heads. Flavor rich, crisp and tender, melting in the mouth like butter. Pkt. 10c, oz. 15c, 1/4 lb. 25c, lb. $1.10, postpaid.

BIG BOSTON OR IMMENSITY. The plants are large, hardy and vigorous, with broad, smooth, thin leaves of light green color, and when well grown are very tender. Pkt. 5c, oz. 10c, 1/4 lb. 30c, lb. $1.00, postpaid.

BLACK SEEDED SIMPSON. (Selected stock). Forms large, loose heads of light green color; leaves quite thin; very tender and crisp, of fine quality. Pkt. 5c, oz. 10c, 1/4 lb. 30c, lb. 90c.

ALL SEASONS. Forms large, handsome, solid heads. Color a light grayish green, never spotted nor brownish. Leaves broad and thick; quality excellent. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 90c.

EARLY CURLED SIMPSON. White seeded. Forms large, loose heads, very tender and crisp. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 90c.

GERMAN BUTTERHEAD. Produces fine, large heads of extra quality, remarkably tender and crisp, sure to head, of quick growth. Slow to go to seed and resists heat well. Pkt. 5c, oz. 10c, 1/4 lb. 30c, lb. 90c.

GRAND RAPIDS FORCING. A very popular variety, which is grown very extensively in the Western states for forcing, produces medium-sized heads, which are not solid, but very crisp, tender and delicious. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 90c.

DENVER MARKET. Early head lettuce, good either for forcing or open ground. The leaves are beautifully crimped and curled like the Savoy cabbage: very crisp, tender and of excellent flavor. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 75c, postpaid.

PRIZE HEAD. Leaves are of reddish brown color, variegated with dark green. The heads are of good size, tender and of excellent flavor. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 85c, postpaid.

PARIS WHITE COS. Cos lettuce is of conical form, with elongated head. Outer coloring is yellowish green. Very crisp and sweet. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 90c.
MUSK MELON

Earliest varieties ready in 80 to 100 days from sowing. General crop requires 115 to 140 days. Melons thrive best in a light, rich soil. Plant when ground has become warm and dry, and danger from frost is past, in hills 6 feet apart each way, in well enriched soil. 12 to 16 seeds in a hill. After all danger of bugs is over, thin out to three plants per hill. One ounce will plant 60 hills, 3 lbs. to the acre.

RUST-RESISTANT ROCKY FORD. (Novelty.) The highest development yet attained in the Rocky Ford Cantaloupe, both in netting and rust-resisting qualities. The heavy gray netting being closely laced and interlaced over the entire surface of the melon from the stem to the well-developed blossomed button. The meat is light green and very deep; its flavor is not excelled by any of the green meat sorts, and none of them are better, if as good shippers. It is highly rust resistant. Pkt. 10c, oz. 15c, 1/2 lb. 45c, lb. $1.25.

HUNGARIAN PINEAPPLE. A decided acquisition and the finest flavored, sweetest and most aromatic of all muskmelons. Ripens medium early, very prolific and a good shipper. Exterior very interesting; the skin is very warty; when ripe of brilliant golden yellow. Flesh deep red, very rich and juicy, resembling the pineapple in its aromatic flavor. Pkt. 10c, oz. 30c.

EXTRA EARLY HACKENSACK. Melons weigh from 4 to 10 pounds, round in form, flattened at the ends and well ribbed. Skin is deeply netted. Flesh deep red, very rich and juicy, resembling the pineapple in its aromatic flavor. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 85c, postpaid.

BURRELL GEM. Of the same size and shape as the well known Rocky Ford, but the flesh is of a rich golden color and most delicious flavor but still solid. Abundant yielder. Meat thick and fine grained. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 90c, postpaid.

THOROUGBRED ROCKY FORD. Flesh is greenish white in color, very juicy and rich. It is medium in size, of round, oval form and good keeper. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 90c.

NETTED NUTMEG. Often called Early Green Nutmeg. Vines vigorous, hardy, productive; fruit round, slightly flat, ribbed, covered with coarse netting, flesh very thick, green and the finest flavor. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 85c, postpaid.

BANANA. Long, slim, banana-like fruit, cream color; flesh salmon, of rich flavor and delicate odor. Matures late. Pkt. 5c, oz. 10c, 1/4 lb. 30c, lb. $1.15, postpaid.

OSAGE. Of medium size and oval. Rind thin, dark green and netted. Flesh deep salmon, remarkably sweet, and of spicily flavor. Seed cavity very small. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 90c, postpaid.

HOODOO. Nearly round, rind very tough, surface thickly netted. The melons average 11/2 lbs.; very solid and heavy. Flesh rich salmon colored, sweet and delicious. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 90c.

EMERALD GEM. Of excellent quality and medium size. The white ribbed skin is perfectly smooth and of a deep emerald green color. The flesh is thick, of a rich salmon color, very juicy and very rich. Rind thin. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 90c, postpaid.

PAUL ROSE OR PETOSKEY. A hybrid of the Osage and Netted Gem, combining the color and thickness of the former with the good flavor of the Gem. Very solid. Rind green, netted; flesh reddish salmon. Pkt. 5c, oz. 10c, 1/4 lb. 25c, lb. 80c, postpaid.

EUROPEAN MIXED. This is a grand mixture of many rare European and African varieties, including such kinds as the Black Portugal, Apple Shaped, Winter Olive, Algerian, Turkistan and French melons. Pkt. 10c.

STRAWBERRY. Melon with the delicious flavor of the strawberry. Its smooth, deep flesh is salmon red. Skin green, turning yellowish when ripe. Pkt. 10c, oz. 25c.

KHIVA OR WINTER PINEAPPLE. Delicately flavored winter-keeping melon. Flesh is whitish green and very thick, rind is firm, of grayish green color. Not recommended until November. Muskmelon can be had for Christmas dinner if you plant Khiva. Pkt. 5c, oz. 15c, 1/4 lb. 40c, lb. $1.50.

HYBRID CASABA. A late variety that has become very popular in the South. Flesh is nearly three inches thick, of excellent flavor, very juicy and melting. Fruits are good size, oblong; greenish yellow. A heavy yielder; bears till frost. At the first sign of frost, all melons, even half grown, should be cut and put in a dry place, where they will ripen gradually and luscious fruit may thus be had as late as December. Pkt. 10c, oz. 25c, 1/4 lb. 70c.
WATER MELON

A light, sandy soil, with good exposure to the sun, is the best for water melons. It should be prepared deep, but receive shallow cultivation. Hoe often and thoroughly. To get good, strong vines early in the season, form large, well-drained hills of earth, made very rich, about 8 feet apart. In these plant the seed as soon as the ground is warm and dry, dropping 6 to 10 seeds in the hill. Protect the young plants from insects. One oz. to 30 hills, 3 lbs. to the acre.

TOM WATSON. An extra long melon of attractive appearance, uniform in shape and quality. The dark green rind is tough, but thin and easily withstands shipment to distant markets. The deep red flesh extends to within three-fourths of an inch of the green rind, is crisp, melting and of finest flavor. The melon measures about 24 inches long and 12 inches in diameter and often attains a weight of from 50 to 60 pounds. It is very prolific, producing in great abundance the large, delicious fruits. Pkt. 10c, oz. 15c, ½ lb. 25c, lb. 75c, postpaid.

COLE'S EARLY. Can be grown farther North than any other variety. Flesh is bright red, crisp, very delicate, sweet and excellent in flavor. It is an abundant bearer of medium sized but very solid melons, with thin rind. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 75c, postpaid.

SWEETHEART. Fruit large, oval and very heavy, uniformly mottled in light and dark green. Rind very thin but tough. Flesh bright red, solid, tender, melting and sweet. Oz. 5c, ½ lb. 15c, lb. 35c, postpaid.

DIXIE. Color of skin dark green, striped with a lighter shade; rind thin, but tough; flesh bright scarlet, of high flavor, ripens closely to the rind. Oz. 5c, ½ lb. 15c, lb. 50c, postpaid.

KLECKLEY'S SWEET. Very productive. The fruit is oblong, color dark green, flesh deep red, stringless, solid and very sweet, with but few seeds set near the rind. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 90c, postpaid.

McIVER'S WONDERFUL SUGAR. The fruits are long, averaging about 35 lbs. each. Rather light colored, irregularly striped and mottled with dark green. The rind is thin but tough, so that it is a good shipper. Flesh is delicate light red, entirely stringless, very tender, juicy and luscious. Oz. 5c, ½ lb. 15c, lb. 55c, postpaid.

KOLB'S GEM. Fruit of the largest size, slightly oval, marked with irregular stripes of dark green and very light green. Flesh bright red, extending to within half an inch of the rind, always solid, very firm, sweet and tender. An excellent keeper and shipper. Oz. 5c, ½ lb. 15c, lb. 50c, postpaid.

ICE CREAM. (White Seeded.) Medium sized, of excellent quality, early and very productive. Being thin in rind, it is not so well adapted for shipping to distant places. Pkt. 5c, oz. 10c, ½ lb. 20c, lb. 65c, postpaid.

ICEBERG OR BLUE GEM. Has a very firm, hard rind and is quite as good a shipper as Kolb's Gem, but the flesh is much deeper colored, more tender and sweet. An excellent keeper. This variety is much the best dark colored melon for shipping. Oz. 5c, ½ lb. 15c, lb. 55c, postpaid.

GYPSY OR RATTLESNAKE. Of very large size, light green with dark stripes. Flesh bright scarlet and very sugary. Oz. 5c, ½ lb. 15c, lb. 50c, postpaid.

ALABAMA SWEET. The rind is a dark green marked with a still darker green mottled stripe and, while thin, it is very tough, making the melon a first-class shipper. The flesh is bright red, fine grained, sweet and luscious, entirely stringless and very firm. Pkt. 5c, oz. 10c, ½ lb. 30c, lb. 85c, postpaid.

CITRON. For preserving. Grows uniformly round and small, dark green, mottled with light green; flesh white, and solid. Pkt. 5c, oz. 10c, ½ lb. 25c, lb. 60c, postpaid.

MIXED VARIETIES. Many kinds in a good mixture. By planting these you will have early and large, and small melons. Pkt. 5c, oz. 10c, ½ lb. 25c, lb. 85c, postpaid.

Shickley, Neb., 4-12-15.

Everything I have purchased of you has always been "A No. 1" class.

Yours truly,

ALVIN V. VENELL

Gypsy or Rattlesnake Watermelon, grown by L.W. Faus, Clifford, N.M.
ONIONS

A strong, deep, rich and loamy soil is most suitable for this crop. As early in the spring as the ground is in working order, harrow it thoroughly and make as fine and level as possible, sow thinly in drills one-fourth inch in depth and 14 inches apart. Keep the surface of the ground open and free from weeds, but do not ridge up to the growing bulbs. One ounce will sow 100 feet of drill, 4 to 5 lbs. to the acre.

Write for special quotation on large lots.

EXTRA EARLY RED FLAT. Uniform in size and shape, quite flat, of deep red color and mild flavor. An abundant yielder, ripens up hard and keeps well. Pkt. 5c, oz. 15c, ¼ lb. 45c, lb. $1.65.

SOUTHPHOT RED GLOBE. Medium early, grows to a large size, skin deep red, flesh fine grained, mild and tender. A good yielder. Pkt. 5c, oz. 15c, ¼ lb. 55c, lb. $2.60, postpaid.

LARGE RED WETHERSFIELD. Of large size, heavy yielder and most excellent keeper. Form round, somewhat flattened, skin deep purplish red; flesh purplish white, moderately fine grained and of stronger flavor than other kinds. Pkt. 5c, oz. 15c, ¼ lb. 40c, lb. $1.50, postpaid.

OHIO IMPROVED WETHERSFIELD. The bulbs are very uniform in shape and size, somewhat larger on an average than the old, well known strain, while in flavor they are milder. Pkt. 10c, oz. 20c, ¼ lb. 50c, lb. $1.80, postpaid.

YELLOW GLOBE DANvers. Bulbs are of large size, very thick and of globular shape. Flesh white, solid, and of good quality. The crop is uniform and ripens at one time. A heavy yielder. Pkt. 5c, oz. 15c, ¼ lb. 45c, lb. $1.95, postpaid.

DANvers YELlow FLAT' or Large Strassburg. Similar to Yellow Globe Danvers, except in shape. Ripens very quick, is a sure cropper and yields well. Will stand drought well and is used to a large extent for growing onion sets. Pkt. 5c, oz. 15c, ¼ lb. 45c, lb. $1.65, postpaid.

AUSTRALIAN BROWN. Early. Exceeds any other onion in keeping qualities. Will produce a fine crop of hard, solid onions, even in unfortunate seasons. Of globe shape. The skin is light brown, flesh pure white and exceptionally mild. Pkt. 5c, oz. 15c, ¼ lb. 45c, lb. $1.75.

EXTRA EARLY BARLETTA. The very earliest onion in cultivation. They are of a pure paper-white color, very mild and delicate in flavor; 1½ inches in diameter, and ¾ of an inch in thickness. For table use and pickling. Pkt. 5c, oz. 15c, ¼ lb. 45c, lb. $1.65, postpaid.

SOUTHPORT YELLOW GLOBE. A fine strain of yellow globe, bulbs of handsome appearance and superior quality. They are fine keepers, uniform in size and shape. Pkt. 5c, oz. 15c, ¼ lb. 45c, lb. $1.75, postpaid.

LARGE WHITE GLOBE. Pure white, of large size and globe shape. An immense yielder and good keeper. The flesh is very fine grained, solid, of fine flavor and very mild. Pkt. 5c, oz. 15c, ¼ lb. 70c, lb. $2.50.

COLLECTION OF GIANT ONIONS
One packet each of five varieties of Giant Onions as listed on next page, Sonderegger's Prizetaker, Prizetaker, Mammoth Silver King, Giant Zittau and Mammoth Pompeii, for only 25c, postpaid.

Yellow Globe Danvers

White Bermuda

Large Red Wethersfield

Southport Red Globe
ONIONS—(Continued)

GIANT ONIONS

SONDEREGGER'S PRIZETAKER. The largest and handsomest Yellow Globe Onion. They attain an immense size, 15 inches in circumference, being often retained under favorable conditions. This onion is of the same type as the large Spanish onions imported in quantity and sold in crates, which always command a high price. It is of a bright straw-colored skin and thin neck. Ripens up hard and fine; flesh is pure white, fine grained, mild and of delicate flavor. Excellent for fall or early winter use. Pkt. 10c, oz. 25c, ¼ lb. 60c, lb. $2.00, postpaid.

PRIZETAKER. One of the largest onions in cultivation. Is of globular shape with a bright straw-colored skin, the necks are very thin and the large, handsome bulbs always ripen up hard. An excellent keeper, of finest flavor. Pkt. 5c, oz. 15c, ¼ lb. 50c, lb. $1.55, prepaid; lb. $2.00, postpaid.

GIANT ZITTAU. The bulbs are of uniform globular shape, very large, solid and heavy. The flesh is pure white, fine grained and of mild, agreeable flavor. It is the best keeper. Ripens medium early and very evenly in all soils. Pkt. 10c, oz. 25c, ¼ lb. 60c, lb. $2.00, postpaid.

MAMMOTH SILVER KING. The largest of all white onions. It is of attractive form, flattened, but thick through. The skin is silvery white, sweet and tender. Matures early and is of uniformly large and fine shape. Pkt. 5c, oz. 20c, ¼ lb. 60c, lb. $3.00, prepaid; lb. $3.50, postpaid.

MAMMOTH POMPEII OR COPPER KING. Have been grown to the enormous size of 5 pounds and 6 ounces. Skin of copper red color, flesh pure white, fine grained and mild. Pkt. 10c, oz. 25c, ¼ lb. 65c, lb. $2.00, postpaid.

---

ONION SETS

Indispensable for early onions for bunching, as in a very few weeks they are ready for the table. Our stock is carefully grown and very nice. Price by the peck or bushel is subject to market variation, and shipped at buyer's expense. Top sets are sold at 28 lbs. per bushel. Other kinds $2 lbs. per bushel, or stroke measure on all small lots. If you want a large lot, write for prices.

WHITE BOTTOM SETS. The best for early use and large onions. Pt. 12c, qt. 20c, prepaid; not prepaid, pk. 75c, bu. $2.50. RED BOTTOM SETS. Pt. 12c, qt. 20c, prepaid; not prepaid, pk. 70c, bu. $2.40.

YELLOW BOTTOM SETS. Pt. 12c, qt. 20c, prepaid; not prepaid, pk. 60c, bu. $3.60.

---

WHITE MULTIPLIER SETS. Excellent quality; very early. Pt. 25c, qt. 40c, postpaid; not prepaid, pk. $1.50, bu. $6.00.

POTATO OR MULTIPLIER SETS. Early cropper. The sets are the largest of all. Pt. 20c, qt. 35c, postpaid; not prepaid, pk. $1.50, bu. $6.50.

PERENNIAL OR WINTER SETS. Also called Egyptian or Tree Onion. Produce the earliest spring onions without winter protection. Pt. 10c, qt. 20c, prepaid; not prepaid, pk. 65c, bu. $2.25.

---

PARSLEY

One ounce to 150 feet of drill. Soak the seed a few hours in lukewarm water and sow early in the spring in drills 1 inch apart. Thin out to four inches. To preserve in winter transplant to a light cellar, or glass frames. Used for garnishing and seasoning. A few seeds sown in onion rows use no space.

DWARF PERFECTION. The plant is of dwarf, symmetrical form, 6 to 8 inches high and 10 inches across. Leaves finely curled, light green. Pkt. 10c, oz. 25c, ¼ lb. 75c, postpaid.

CHAMPION MOSS CURLIED. Leaves extra large, deep, rich green. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 75c, postpaid.

NEW EMERALD. The plants are of compact growth; the leaves are of a handsome bright green color, finely crimped and curled. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 75c.

HAMBURG. Turnip rooted variety. The roots as well as the leaves are used for flavoring soups, etc. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 85c.

---

PARSNIP

One ounce will sow 200 feet of drill. 5 pounds for one acre. Sow early in the spring, in drills 15 inches apart, covering half an inch deep. When well up, thin out to 5 or 6 inches apart in the rows. They are improved by frost and take up in fall a quantity for winter use.

IMPROVED GUERNSEY. Roots not so long as the Hollow Crown, but of greater diameter. Very smooth, fine grained and of excellent quality. A heavy cropper. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 50c, postpaid.

HOLLOW CROWN OR LONG SMOOTH. Roots long, ending somewhat abruptly with a tap root. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 55c, postpaid.
PEAS

Peas mature earlier in a light, rich soil; for the general crop a moderately heavy soil is best. Commence sowing the early varieties as soon as the ground can be worked, continue for a succession every two weeks until June. One quart for 180 feet of drill; two or three bushels for one acre. The wrinkled varieties are more susceptible to cold, wet weather than the small, round sorts, hence should not be planted very early. They are sweeter and better flavored, In comparing prices, please bear in mind that our prices are postage paid by us on pints and quarts, and on ½ pk. and pk., by express or freight, purchaser paying charges.

SAXONIA. (Novelty.) This new pea is as early as the well known First and Best, but nearly double as productive and the pods are fully one-third to one-half larger. The plants grow two feet high and are healthy, vigorous and hardy. The pods are 3½ to 4 inches long and ready for market with the extra early sorts, they appear in great quantities, mostly in pairs, and are of the same shape and about full of large peas as the main crop varieties. Will yield big crops of splendid quality peas for all purposes. Highly to be recommended for the market as well as for the home garden, it is without doubt the best of all extra early peas. Pkt. 10c, ½ pt. 20c, pt. 50c, qt. $1.00, postpaid.

ALASKA. A variety of remarkable earliness and hardiness. It is a good yielder and produces pods of good size and dark green color, which are well filled with round, smooth peas of splendid flavor. Height 2 feet. Color of the dried pea is green. Ready for table in 48 days. Pkt. 5c, ½ pt. 15c, qt. 30c, postpaid. Not prepaid, ¼ pk. 50c, pk. $1.00.

FIRST AND BEST. The standard extra early variety. Pods are smooth seeded peas, well known everywhere and largely planted by market gardeners and for home use. Pods are of good size and well filled with round, smooth pods of excellent flavor, ripening at one time, so that generally the entire crop may be gathered at one picking. Is very productive and hardy. Height of vino 2 to 2½ feet. Ready for the table in 50 days. Pkt. 5c, ½ pt. 10c, qt. 35c, postpaid. Not prepaid, ¼ peck $1.00, peck $2.50.

EXTRA EARLY TOM THUMB. An extremely early variety of superior merit. Vines dwarf about 9 inches high, completely covered with an abundance of the finest well-filled pods. It is of such upright growth that it can be planted in rows 10 inches apart. Matures in 40 to 45 days, and is always in great demand for the home garden, especially for the small city garden. Don’t fail to include this variety in your order. Pkt. 5c, ½ pt. 15c, quart 50c, postpaid. Not prepaid, ¼ peck $1.15, peck $2.50.

BOUNTIFUL. Very early and hardy. Of vigorous growth, 2½ feet high, bearing a bountiful crop of large pods well filled with good sized peas. In quality unsurpassed by any other extra early sort. Will out-yield the Alaska and be ready for the market in 49 days. Pkt. 10c, ½ pt. 25c, qt. 50c, postpaid. Not prepaid, ¼ pk. $1.15, pk. $2.00.

EXTRA EARLY MAY. An extremely early variety of superior merit. Vines dwarf, about 18 inches high, completely covered with an abundance of the finest well-filled pods. It is of upright, hardy growth. Pods large for an extra early sort; quality the very best. Matures in 49 to 50 days and is always in great demand for the home garden, especially for small city gardens. Pkt. 10c, ½ pt. 15c, qt. 50c, postpaid. Not prepaid, ¼ pk. $1.25.

WHITE MARROWYAT. A very heavy yielding, late variety. Pods large and well filled. 3 to 4½ feet high, robust grower. The dry peas are of large size and excellent for cooking. Pkt. 5c, ½ pt. 15c, qt. 50c, postpaid. Not prepaid, ¼ peck 60c, pk. $1.50.

FIELD PEAS. See under Farm Seeds, Page 114.

WRINKLED VARIETIES

PREMIUM GEM. Ripens a little later than American Wonder, but generally a better yielder. Pods are 2½ inches long and well filled with wrinkled peas of the finest quality. Height 12 to 15 inches. Pkt. 5c, ½ pt. 15c, qt. 40c, postpaid. Not prepaid, ¼ pk. $1.15, pk. $2.50.

NOTTS EXCELLENCE. Of robust and vigorous growth and ripens with the extra early market sorts. The pods are about 3 inches long, and each pod contains from 6 to 8 large peas, which are tender and of unusual fine flavor. Height 16 in. Pkt. 5c, ½ pt. 15c, quart 45c, postpaid. Not prepaid, ¼ pk. $1.15, pk. $2.50.

AMERICAN WONDER. Very prolific, with pods of good size. Matures early and is strictly a pea for the family garden, requiring no bush or support. Quality the best. Height about 10 inches. Ready for table in 55 days. Pkt. 5c, ½ pt. 15c, qt. 50c, postpaid. Not prepaid, ¼ pk. $1.25, pk. $2.25.

PIONEER. (Novelty.) One of the latest achievements in the perfection of early peas, and we cannot speak too highly of it. Vines grow about 15 inches high, are very strong and do not need supporting. Pods are filled with large, tender, fine flavored peas and are ready for market about the same time as Thomas Laxton. Pkt. 5c, ½ pt. 15c, qt. 50c, postpaid. Not prepaid, ¼ pk. $1.15, pk. $2.10.
PEAS, Wrinkled Varieties—(Continued)

GRADUS OR PROSPERITY. The earliest large podded wrinkled pea. Bears in great abundance handsome pods and ripens nearly as early as the small, round early sorts. Is quick to germinate and of vigorous growth and foliage. The pods are of bright green color, and measure 4 inches in length, well filled with luscious peas, 8 to 10 more in a pod. Height 3½ feet. For the market and home garden one of the best varieties. Pkt. 10c, ½ pt. 20c, qt. 50c postpaid. Not prepaid, ½ pk. $1.20, pk. $2.10.

THOMAS LAXTON. This variety closely resembles Gradus in habit, rapidity of growth, earliness and foliage. Pods are large, long, blunt at the end, well filled with peas of a deep green color. Height about 2½ to 3 feet. For the table in about 52 days after planting. Pkt. 10c, ½ pt. 20c, qt. 50c postpaid. Not prepaid, ½ pk. $1.25, pk. $2.25.

HORSFORD'S MARKET GARDEN. A first class wrinkled pea; second early. Height 24 inches. Very productive. It is a very profitable sort, as a single plant has been known to produce more than 150 pods. The medium sized pods are borne in pairs, and are easily and quickly picked. Pkt. 5c, ½ pt. 10c, qt. 25c postpaid. Not prepaid, ½ pk. $1.15, pk. $2.15.

SURPRISE. The earliest of all the sweet wrinkled peas. A cross between American Wonder and Alaska, possessing the quality of the American Wonder and the early ripening of the Alaska, although not quite as hardy as the latter. Height 24 inches. The pods are of large size and well filled. Tall and vigorous growth. For the table in about 60 days after planting. Pkt. 5c, ½ pt. 15c, qt. 50c postpaid; ½ pk. $1.15, pk. $2.15, not prepaid.

EVERBEARING. Splendid for second early and main crop. Of special value for its continuity of bearing and heavy cropping. The pods are of large size, well filled with very large and tender peas. The vines are of robust growth and branching habit, producing new blossoms after repeated pickings. Height 20 to 24 inches. Very productive. Pkt. 5c, ½ pt. 10c, qt. 25c postpaid. Not prepaid, ½ pk. $1.15, pk. $2.15.

CHAMPION OF ENGLAND. Universally admitted to be one of the richest and best flavored peas grown. The vines are of vigorous growth and produce large pods of great size and quality. Not prepaid. Pkt. 5c, ½ pt. 10c, qt. 25c postpaid. Not prepaid, ½ pk. $1.25, pk. $2.25.

SUGAR PEAS

SODEREGGER'S GIANT SUGAR. Edible pods. They are used in the same manner as string beans. The large, broad, flattened pods are of a waxen yellow color, stringless, very sweet and tender. Vines grow to a height of 4 to 5 feet, and are very productive. Pkt. 5c, ½ pt. 20c, qt. 50c postpaid. Not prepaid, ½ pk. $1.25, pk. $2.25.

DWARF GRAY SUGAR. The most desirable and sweetest of all edible pod peas. Pods of good size and filled with 6 to 8 peas of finest flavor. Pkt. 10c, ½ pt. 15c, qt. 50c postpaid. Not prepaid, ½ pk. $1.25, pk. $2.50.

TALL GRAY SUGAR. Edible pods. Height 4 to 5 feet. Produces abundantly large sized brittle pods which are cooked like string beans; if used before they begin to ripen they are delicious, sweet and tender. Pkt. 10c, ½ pt. 20c, qt. 50c postpaid. Not prepaid, ½ pk. $1.40, pk. $2.40.

MAMMOTH MELTING SUGAR. Edible pods. Quality the best. Cooked like string beans, they are a delightful dish. Immensely productive. Fine for home garden. Pkt. 10c, ½ pt. 20c, qt. 60c postpaid. Not prepaid, ½ pk. $1.50, pk. $3.00.

PEPPER

Sow in hotbed in April and transplant to open ground when the weather is favorable, in warm, mellow soil, in rows 18 inches apart. May also be sown in the open ground when all danger of frost is past and the soil is warm. One ounce to 2,000 plants.

CHINESE GIANT. Undoubtedly the largest pepper in existence. Plant is of strong growth, and a very prolific bearer. Flesh is thick, of bright scarlet color, very mild and sweet. Pkt. 10c, ½ oz. 25c, oz. 40c, ½ lb. $1.25.

REINETTE. So mild and aromatic is the flesh that the fruit can be eaten raw like an apple, and prepared like a salad. The habit of the plant is compact, of luxurious growth, produces in great quantities large fruits of beautiful dark red color. Pkt. 10c, ½ oz. 15c, oz. 25c, ½ lb. $1.15.

LARGE SWEET SPANISH. Bell shaped. A very large sort, of square form, thick and hard, less pungent than most sorts. Ripens early. Pkt. 5c, oz. 15c, ½ lb. 50c.

CAYENNE. A long, slim pod, and when ripe of a bright red color; extremely strong and pungent. Pkt. 5c, oz. 15c, ½ lb. 50c.

RUBY KING. The fruits are five to six inches long, by four inches thick, of a bright red color. Remarkably mild and pleasant in flavor. Pkt. 5c, oz. 20c, ½ lb. 60c.

GUMMO GOLDEN QUEEN. Eight to ten inches long. Bright, waxy, golden yellow, and of mild flavor. Pkt. 5c, oz. 20c, ½ lb. 60c.

RED CHILLI. Small fruits, three inches in length and about an inch in diameter. Bright red, very hot and fiery. Used for making Mexican Chili. Pkt. 5c, oz. 20c, ½ lb. 60c.
PUMPKIN

Pumpkins are frequently planted in connection with a crop of corn, or as a second crop after early peas, etc. Plant in drills 8 to 12 feet apart, one ounce of seed for 25 hills; 3 to 4 pounds per acre. If planted late, they will plant an acre. The fruits are very susceptible to frost; should be gathered and stored in cool dry place in the fall.

GERMAN NURSERIES AND SEED HOUSE, BEATRICE, NEBRASKA

Common Field

COMMON FIELD. Well known old Connecticut Field Pumpkin, which is of medium size, orange yellow color and good flavor. If planted with corn it only requires 2 lbs. of seed per acre. Also good sort for kites. Pkt. 5c, 1/4 lb. 25c, lb. 75c, postpaid; not prepaid, 10 lbs. $2.75.

RADISH

One ounce will sow 100 feet of drill, 8 to 12 lbs. per acre. For first crop sow as early as the ground can be worked, and every two weeks thereafter until the first frost to ensure succession. A warm, sandy loam, made rich and light by strong manure, is best. Sow in drills 10 to 12 inches apart. The winter varieties should be sown in July and August.

Our Radish Seed is saved from selected, transplanted roots, and it costs more to raise Radish Seed if grown that way than if no selection is made.

SONDEREGGER'S GIANT BUTTER. (Novelty.) A splendid new forcing radish which grows extremely large, but in spite of its uncommon size does not go hollow or pithy, but keeps crisp and juicy for weeks, even longer than any other kind. One of its most prominent features is the perfect regularity of its fine round shape and its very firm tap root, and its very good flavor. A further improvement gained by careful selection, consists of its being short leaved and of a vivid scarlet coloration. The tastefulness of its tender and crisp condition is unrivalled. Pkt. 10c, oz. 25c.

SONDEREGGER'S DELICIOUS. (Novelty.) A new summer radish that has quickly attained great popularity and should be planted by everyone. It is particularly adapted for summer use, producing handsome olive shaped roots, which are pure white, exceedingly crisp and of mild flavor. It requires a longer time to mature than the earlier varieties of radish, but, when in fine condition, much longer. See illustration on next page. Pkt. 10c, oz. 25c, 1/4 lb. 30c, lb. $1.00.

CRIMSON GLOBE. This variety is suitable both for forcing or early planting, and it costs more to raise Radish Seed if grown that way than if no selection is made. It will grow double the size of other round red forcing radishes and still remain solid. In shape this new radish is round to oval. Flesh is mild and tender. Pkt. 5c, oz. 10c, 1/4 lb. 20c, lb. 50c, postpaid.

EARLY SCARLET GLOBE. Extra early, brilliant scarlet, nearly globe shaped and remarkably crisp and tender. Pkt. 5c, oz. 10c, 1/4 lb. 30c, lb. 50c, postpaid.

NE PLUS ULTRA. An extra early sort especially adapted to forcing, being ready for market in 20 days. Round and bright scarlet, very small tops; quality the best. Pkt. 5c, oz. 10c, 1/4 lb. 20c, lb. 50c, postpaid.

EARLY SCARLET TURNIP. A small, round, red, turnip-shaped radish, with a small top, a variety of quick growth and of very rich color, crisp and tender. Pkt. 5c, oz. 10c, 1/4 lb. 20c, lb. 60c, postpaid.

ROSY GEM. Very desirable for forcing and outdoor planting. Tops and roots both small; skin is bright scarlet; both hard and white. Pkt. 5c, oz. 10c, 1/4 lb. 30c, lb. 50c, postpaid.

EARLY LONG SCARLET SHORT TOP. It grows 6 to 7 inches long, half out of the ground. It is very brittle and crisp, and of quick growth; color bright scarlet. Pkt. 5c, oz. 10c, 1/4 lb. 20c, lb. 50c, postpaid.

CINCINNATI MARKET. It is a long radish; light color, white tipped, of uniform size. Extra early, with small tops. The flesh is of transparent whiteness, always crisp, brittle and of mild flavor. The standard sort in many localities, especially in the South, but suitable for all sections. Pkt. 5c, oz. 10c, 1/4 lb. 20c, lb. 50c, postpaid.

FRENCH BREAKFAST. Well known, quick growing variety, of oval shape. Bright scarlet tipped with white. Of medium size, crisp and tender. Pkt. 5c, oz. 10c, 1/4 lb. 20c, lb. 60c, postpaid.

CHARTIER. The color of the top is crimson, running into pink about the middle; the small white spot is round and hard. It has an excellent flavor; crisp, tender and of pleasant flavor. Pkt. 5c, oz. 10c, 1/4 lb. 20c, lb. 50c.

MUNICH WHITE. The renowned German radish; 6 to 8 inches long. The flavor is sweet and mild, skin smooth and grow quickly; flavor mild and agreeable. Pkt. 5c, oz. 10c, 1/4 lb. 20c, lb. 75c, postpaid.

Crimson Globe. Photograph taken from Radishes grown in my garden

Common Field

Cincinnati Market
WINTER RADISH

The Seed of Winter Radish Should Be Sown During July and Early August.

LONG BLACK SPANISH. of very large size and firm texture. Some what sharp in taste. Best keeper. Pkt. 5c, oz. 10c, ½ lb. 25c, lb. 75c, postpaid.

ROSE CHINA. Bright rose color, flesh white, firm and of superior quality. Pkt. 5c, oz. 10c, ½ lb. 25c, lb. 75c, postpaid.

CALIFORNIA MAMMOTH WHITE. Pure white. Flesh tender and crisp; keeps perfectly through the winter. Pkt. 5c, oz. 10c, ½ lb. 25c, lb. 75c, postpaid.

WHITE MUNICH. Six to eight inches long, with a white thin skin, smooth and grow quickly; flavor mild and agreeable. May also be sown earlier for summer use. Pkt. 5c, oz. 10c, ½ lb. 25c, lb. 75c, postpaid.

RHUBARB OR PIE PLANT

Succeeds best in deep, rich soil. Sow in spring in drills, cover one inch. Thin plants to six inches apart. Transplant in autumn or spring to permanent beds 3 feet apart each way; 1 ounce will make about 100 plants.

LINNAEUS. The standard sort. Pkt. 5c, oz. 10c, ½ lb. 35c, lb. 1.25.

GIANT. Quite a bit larger and more robust. Pkt. 5c, oz. 10c, ½ lb. 35c, lb. 1.25.

RHUBARB ROOTS. See page 25.

SALFIS OR OYSTER PLANT

Resembles a small parsnip, and when thinly sliced and cooked is a good substitute for oysters, having a very similar flavor. It succeeds best in a light, rich soil. Sow early and quite deep, thin out and cultivate like carrots. Perfectly hardy and may remain out all winter. For winter use store a quantity in the cellar. One ounce to 50 feet of drill.

MAMMOTH SANDWICH ISLAND. Grows to a large size, is of superior quality and pure white color. Pkt. 5c, oz. 10c, ½ lb. 25c, lb. 95c, postpaid.

SPINACH

One ounce will sow 100 feet of drill, 10 pounds per acre. Select rich, well drained soil, sow in drills one foot apart and one inch deep, or it may be sown broadcast at the rate of 30 pounds per acre. For spring and summer use, make first sowing early in spring and continue at intervals of two or three weeks until the middle of June; sow in August and September for early spring use, and protect with a covering of straw during severe weather.

FLEMISH GIANT. The plants of this new spinach are extremely hardy and of extra large size. The leaves are very thick, permitting safe long-distance shipment. Oz. 5c, ½ lb. 15c, lb. 40c, postpaid; not prepaid, 5 lbs. $1.25.

VICTORIA. The foliage is heavy, the broad dark green leaves being of the true Savoy appearance, and of finest quality. In addition to two to three weeks after other kinds have run to seed. Oz. 5c, ½ lb. 15c, lb. 35c, postpaid; not prepaid, 5 lbs. $1.25.

ROUND LEAVED. Leaves large, thick and fleshy; excellent for fall sowing. Oz. 5c, ¼ lb. 15c, lb. 25c, postpaid; not prepaid, 5 lbs. $1.00.

LONG STANDING. An improved strain of excellent merit, having all the good qualities of the ordinary sorts, and especially desirable because it is much later in going to seed. Oz. 5c, ¼ lb. 15c, lb. 35c, postpaid; not prepaid, 5 lbs. $1.00.

NEW ZEALAND. This sort is grown to supply the place of the ordinary spinach during the hottest months of the year or in dry arid places, where the ordinary spinach does not succeed. In our gardens we plant nothing but New Zealand, as it does best in both cool and wet as well as hot and dry summers. The plant is very large, with thick, fleshy leaves of very fine flavor and remains crisp and tender from early summer till cut by frost. Pkt. 5c, oz. 10c, ½ lb. 20c, lb. 75c.
stand the dry, hot weather better than other sorts, as they were originated in the dry state of Kansas. They are the earliest of all tomatoes, but unlike other early varieties, they continue to bear ripe fruits until cut down by frost. They are really an excellent everbearing tomato. You will make no mistake planting some of these splendid new tomatoes. See colored illustration on back cover page. Pkt. 20c, oz. 75c, 1 lb. $2.00.

I got a package of your Beebe's Tomato Seed and I never have seen the like. I sowed one-half packet and then I sold a few dollars worth of the plants; sold over $7.00 worth of tomatoes; canned 37 quarts; made 4 gallons of tomato butter and we used on the table all we wanted for a family of seven. I never saw such nice tomatoes; the grocer where I sold them said that I must have a tomato factory, as I brought him the nicest tomatoes he got last summer. So I want to get some more seed.

MRS. A. M. BRANDT.

Goodstreak, Neb., April 6, 1915.

Please send me a package of Beebe's tomato. I had one package last year and I had all the tomatoes my family could use and put up 40 quarts and sold $16.00 worth. My neighbors hadn't any, the frost came before they were ripe.

MRS. L. ACKER.

I am going to send for another order later on. We are living on the 100 meridian line in western Oklahoma. I never raised as many tomatoes anywhere as I raised last year. I find your Beebe's Early Prolific Tomato all you had represented it to be.

L. E. MURDOCK.

Welch, Okla., Feb. 16, 1915.

Was very well pleased with the seeds received from you last year, especially the Beebe's Early Prolific Tomato. From 300 plants I sold $26.00 worth of tomatoes and used way over 15 bu. for myself. I was the only one in the neighborhood that raised any tomatoes last year.

MARIE DOSSMANN.

Jone, Oreg., Sept. 21, 1915.

Beebe's Early Prolific is a very good tomato; withstands heat and drouth very well. I sold over 60 lbs. of them.

ERNEST MONTANDON.

Nordheim, Tex., Mar. 5.

Sent for some of your Beebe's Early Prolific Tomato last year, and they have done very well in our hot zone. Many thanks.

OSMAR NEUBERT.

Last season I had most excellent success with your "Early June tomatoes." They began to ripen early in August, and for six weeks we had an abundance both for eating fresh and canning. It is not usual for tomatoes to ripen at all in Colorado; so if your new "Beebe's" are better, they'll be quite ideal. Respectfully,

B. M. KEMPLE.
TOMATO

One ounce of seed for 2,000 plants. Well manured, light, sandy soil is best. For early plants sow the seed in boxes or hotbeds in March. When the plants are about two inches high, transplant to four inches apart each way. Set out of doors as soon as danger of frost is over. Transplant carefully four feet apart each way, and cultivate well as long as the vines will permit. To obtain early fruit pinch off the ends of the branches when the fruit is first set.

EARLY JUNE. (Novelty.) This splendid new tomato ripens earlier than Earliana. The plants are vigorous and of extremely quick growth, yielding large, well shaped fruits in greatest abundance. It is smooth, of bright red color, almost seedless, the flesh thick, firm and flavor delicious. Its main points are earliness, large size and fine flavor. Pkt. 10c, ½ oz. 25c, oz. 40c, ¼ lb. $1.40.

NEW GIANT DWARF. (Novelty.) The largest fruited of all dwarf tomatoes. The color is a rich, purple crimson. The skin, while thin and easily removed in peeling, is sufficiently strong to protect the fruit when shipped to distant markets. The thick size, and substantial fruit weight of fruits which are produced in clusters of four to six and weigh twelve to eighteen ounces each. Pkt. 15c.

NEW CORELESS. Large size, globe shaped, full at stem end, bright red, a strong grower and big cropper. Main crop variety. Most productive, individual tomatoes weighing 12 ounces or more each. Free from core. Fine for slicing, the seed cells being surrounded by a bright red, heavy, meaty and delicious flesh. Its color is very brilliant and rich red. Pkt. 10c, ½ oz. 20c, oz. 35c, ¼ lb. $1.30.

KANSAS STANDARD. Very rapid growth, strong stalks; color bright red; shape round, slightly flattened, perfectly smooth; meat solid and thick, of excellent flavor. Good size, fine for shipping and first-rate keeper. Pkt. 10c, ½ oz. 15c, oz. 25c, ¼ lb. 30c, lb. $2.80, postpaid.

DWARF CHAMPION. Its habit of growth is not only dwarf and compact, but the stem, being thick, stiff and short jointed, it is almost self-supporting when laden with fruit. It is early, of a purplish pink color, smooth, solid and of fine quality. Pkt. 5c, oz. 25c, ¼ lb. 50c, lb. $2.60, postpaid.

SPARKS EARLIANA. Extremely early, of large size and beautiful bright red color. Its solidity and fine quality are equal to the best late sorts. The plants are very compact, with stout jointed branches. It is enormously productive. Fruit is even in form and smooth, very fleshy, solid and excellent for shipping. Pkt. 5c, oz. 20c, ¼ lb. 50c, lb. $2.75, postpaid.

CHALK'S EARLY JEWEL. Large, handsome fruits, very solid, deep through, being almost round. Flesh thick, bright scarlet, solid, with few seeds, of sweet flavor; skin thin but strong to make it a good shipper. Pkt. 5c, oz. 20c, ¼ lb. 50c, lb. $2.25.

EARLY MINNESOTA. This is considered the earliest of all tomatoes. Vines vigorous, producing smooth fruits of fair size, good shape and dark red color. Pkt. 5c, oz. 20c, ¼ lb. 50c, lb. $2, postpaid.

ATLANTIC PRIZE. An excellent variety that will average with the medium and late sorts both in size and shape. It is large, smooth, bright red, one of the most profitable. Pkt. 5c, oz. 20c, ¼ lb. 50c, lb. $2.00, postpaid.

NEW GLOBE. Extra good all around sort, of distinct globe shape. Among the earliest in ripening. The fruits are of a large size, always smooth, of firm flesh and has few seeds; ripens evenly; color a fine, glossy rose, tinged with purple. Heavy yielder and of finest flavor. Pkt. 5c, oz. 25c, ¼ lb. 75c, lb. $2.75.

BEAUTY. Vines large, vigorous and heavy bearers. Fruit large, uniform in size, very smooth, excellent flavor, color crimson-purplish. Pkt. 5c, oz. 15c, ¼ lb. 50c, lb. $1.75, postpaid.

IMPROVED TROPHY. One of the best. Fruit large, smooth, of very deep color and a good flavor. Pkt. 5c, oz. 25c, ¼ lb. 65c, lb. $2.00, postpaid.

ACME. Vine hardy and productive. Fruit in clusters of four to five; round, smooth and of good size; flesh solid, of excellent flavor. Color reddish purple. Early. Pkt. 5c, oz. 15c, ¼ lb. 35c, lb. $1.15.

RED PEACH. The fruit is of uniform size, resembling a peach in shape, size and color. It is a profuse bearer until killed by frost, and has an agreeable, very fine, mild flavor. Pkt. 5c, oz. 15c, ¼ lb. 35c.

MATCHLESS. Fruit large, of rich, cardinal red color, from top to bottom. Less liable to crack in wet weather than any other large tomato. The plant is a strong grower, is very productive, bearing well until frost. Pkt. 5c, oz. 20c, ¼ lb. 65c, lb. $2.25 postpaid.

NEW STONE. It is very early for main crop, is very large and of bright scarlet color, very smooth, ripening evenly to the stem without a crack; exceedingly solid and firm fleshed. Pkt. 5c, oz. 20c, ¼ lb. 60c, lb. $2.00, postpaid.
GERMAN NURSERIES AND SEED HOUSE, BEATRICE, NEBRASKA

SMALL TOMATOES

Excellent for Preserves and Pickles.

YELLOW PEAR SHAPED. Bright yellow, distinctly pear shaped, of rich flavor. Pkt. 5c, oz. 25c.

YELLOW PLUM. Plum shaped, deep yellow, fine flavor. Pkt. 5c, oz. 25c.

RED CHERRY. About five-eighths inch in diameter, borne in clusters. Pkt. 5c, oz. 25c.

RED PLUM. Plum shaped, rich red, excellent quality. Pkt. 5c, oz. 25c.

GROUND CHERRY. Husk or Strawberry Tomato. Fruit golden yellow; size of a cherry. The fruits are enclosed in a husk. Excellent for preserves, sauce or pies; very productive. Directions for preserving sent with each packet. Pkt. 5c, ½ oz. 15c, oz. 25c.

SQUASH

Any good enriched soil is adapted to the growing of the Squash. The seed should not be sown in the spring until danger from frost is past and the ground is warm. Plant in hills (about 8 to 10 seeds to a hill) the early sorts 4 to 6 feet apart, the late varieties 8 to 12 feet. Thin out to three plants in the hill. Keep the earth about the plants loose and free from weeds. One ounce for 25 hills, 3 to 4 pounds per acre.

EARLY WHITE BUSH. This is the well known White Pattypan Squash. The earliest to mature, very productive, light cream colored. Pkt. 5c, oz. 10c, ½ lb. 25c, lb. 60c, postpaid.

DELICIOUS. Considered to be the best flavored squash in existence. Color a handsome green and of nice size, weighing 8 to 10 lbs. Flesh is dark orange color, fine grained, sweet and dry. Best in winter. Pkt. 5c, oz. 10c, ½ lb. 25c, lb. 80c, postpaid.

MARBLEHEAD. About the size of the Hubbard. Fine grained and dry. Shell bluish green and bright orange flesh. Excellent keeper. Pkt. 5c, oz. 10c, ½ lb. 25c, lb. 80c, postpaid.

GIANT SUMMER CROOKNECK. A great improvement upon the former size, runs more evenly as to type, and grows fruit in quantity of healthy, compact, bushy plants. The fruit is heavily warty, its flesh is of deep golden color, and quality best. Pkt. 5c, oz. 10c, ½ lb. 25c, lb. 80c, postpaid.

WARTY HUBBARD. We consider this the ideal type of the Hubbard Squash. It is the best of all winter sorts, and sells at sight in all markets. Very dark green, shell extremely hard and warty. Flesh dry, sweet and of finest flavor. Pkt. 5c, oz. 10c, ½ lb. 25c, lb. 80c, postpaid.

TOMATO—(Continued)

PARAGON. An immense cropper, medium in season, and no variety holds its size better late in season. Fruit large, solid, well colored and of fine flavor. Color glossy, deep red. Pkt. 5c, oz. 15c, ¼ lb. 50c, lb. $1.85.

PONDEROSA. The largest fruited tomato. The vines are of strong growth; fruits largely oblong in form, deep through and generally ridged; deep purple in color. They are solidly fleshy with small seed cells; of fine sweet flavor. One fruit often weighs a pound. Pkt. 5c, oz. 25c, ¼ lb. 90c, postpaid.

CRIMSON CUSHION. (Beefsteak.) The best climbing tomato. Can be grown on trellises and in small space. Fruit is very large, of deep red color and excellent flavor. Very productive. Pkt. 10c, oz. 30c, ¼ lb. 50c.

GOLDEN QUEEN. Best large yellow variety; much like Paragon, except in color. Ripens very evenly, fruit is smooth, of good quality and fine flavor. A good yielder. Pkt. 5c, oz. 25c, ¼ lb. 25c, lb. $2.25, postpaid.

HUBBARD. A well known standard winter squash. Very similar to the above; however, the fruits are smoother and somewhat smaller in size. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 75c, postpaid.

GOLDEN HUBBARD. This is a very distinct sort, of the shape and general character of the Hubbard, but a little smaller, earlier to mature, and of rich, orange-red color. Flesh is of good quality. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 80c, postpaid.

MAMMOTH CHILL. Largest of the squash family. Round form, flesh very thick, yellow, of good flavor. Color orange yellow. Excellent keeper. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 75c, postpaid.

SIBLEY OR PIKE'S PEAK. One of the very best winter varieties. Surpasses the Hubbard in quality. Has large, oval fruits, tapering at the blossom end. Shell hard, dark olive color. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 75c, postpaid.

New Globe (Page 91)

Early White Bush Squash

Warty Hubbard Squash, raised on my farm
TURNIP

One ounce will sow 125 feet of drill. Two pounds per acre in drills, three pounds broadcast. Turnips do best in a highly enriched sandy or light loamy soil. Commences sowing the earliest varieties in April, in drills from 12 to 15 inches apart and thin out nearly six to eight inches in the row. For late planting or main crop, sow in July and August.

Danish Bortfelder. This splendid root has been awarded first class certificates several times by the Danish government, as the most productive of all Turnips and is considered the best in Scandinavia. Long root, cream color, delicate green tops, rapid grower, heavy cropper and excellent keeper. Pkt. 5c, oz. 10c, 1/4 lb. 25c, 1 lb. 60c, postpaid.

Purple Top Strap Leaved. Superior for early or late planting. Round and flat, good sized, small top, with but few leaves; flesh very fine grained. A splendid keeper. Oz. 5c, 1/4 lb. 15c, 1 lb. 50c, postpaid; 5 lbs., not prepaid, $1.50.

Purple Top White Globe. The shape is globular and of good size. Surface white, with an uneven purple edging at the top. The flesh is firm, fine grained, white and of most excellent flavor. It is a fine keeper, desirable for table and stock. Oz. 5c, 1/4 lb. 15c, 1 lb. 50c, postpaid; not prepaid, 5 lbs. $1.75.

Extra Early Purple Top Milan. The earliest in cultivation. Of medium size, quite smooth, with a bright purple top; the leaves are few and short. Flesh of choicest quality, solid and fine grained. Pkt. 5c, oz. 10c, 1/4 lb. 25c, 1 lb. 75c, postpaid.

Extra Early White Milan. Very similar to preceding, except skin is white. Pkt. 5c, oz. 10c, 1/4 lb. 25c, 1 lb. 80c, postpaid.

Early Snowball. A globe-shaped, white-skinned turnip, fine grained, firm, of delicate flavor. One of the best keeping of white fleshed sorts. Very early. Pkt. 5c, oz. 10c, 1/4 lb. 25c, 1 lb. 50c, postpaid.

Early White Flat Dutch. A most excellent early variety. Roots medium size, flat, color white; very early, sweet and tender. Oz. 5c, 1/4 lb. 15c, 1 lb. 50c, postpaid.

Golden Ball. One of the best and sweetest yellow fleshed turnips. Not of large size, but firm, hard and of most excellent flavor. Keeps well; excellent quality. It has given the best of satisfaction everywhere. Oz. 5c, 1/4 lb. 15c, 1 lb. 50c, postpaid.

Cow Horn. This variety is carrot-like in form, growing nearly half out of the ground. It is delicate and well flavored, of very rapid growth. Oz. 5c, 1/4 lb. 15c, 1 lb. 50c, postpaid.

RUTABAGAS OR SWEDES

Require a longer season than turnips. For table use they keep better, and better flavored than the turnip. For stock in fall and winter there is nothing superior to turnips and rutabagas, as they are liked by all kinds of stock and keep them in good condition.

Purple Top Yellow. Considered the best yellow fleshed variety. Of fine quality, and widely grown. Keeps perfectly all winter, even into the following summer. It is justly held in high esteem both for table and stock feeding purposes. Oz. 5c, 1/4 lb. 15c, 1 lb. 50c, postpaid.

Sweet German. Flesh pure white and very sweet; grows to a large size, always yields well and is a good keeper. Pkt. 5c, 1/4 lb. 15c, 1 lb. 50c, postpaid.

White Russian. One of the finest Rutabagas, heavy yielder and very heavy. Keeps in good condition until late spring. Quality very good, sweet and tender. For table use and stock feeding. Pkt. 5c, oz. 10c, 1/4 lb. 25c, 1 lb. 60c, postpaid.

TOBACCO

Connecticut Seed Leaf. Best adapted to the climate of the Middle and Northern states. Pkt. 5c, oz. 25c, 1/4 lb. 85c.

White Burley. Largely grown for the manufacture of fine cut plug. Pkt. 5c, oz. 30c, 1/4 lb. 1.15.

Havana. Well known, large-leaved variety. Pkt. 5c, oz. 25c, 1/4 lb. 85c.

Udo Salad

The Udo vegetable is grown in many localities in place of Asparagus, and it is said to be much superior in quality when properly raised and bleached. The flavor is distinctly aromatic like celery or parsnip, but different from either. When properly prepared it is one of the most delicious of vegetables, but unless properly cooked, it is sure to meet with ridicule. Cooking directions with each packet. Sow seed in April in hotbed or coldframe, in one part loam, one part leaf-mold, and one part sand, and cover one-fourth inch. Transplant to garden after danger of frost is past. Udo is a perennial. The following spring the new shoots should be covered about two feet with straw chaff. When they grow through the chaff the fresh roots will be bleached ready for use. It is two weeks earlier than Asparagus.

Write to the U. S. Dept. of Agr., Washington, D. C., for Bulletin No. 84. Pkt. 10c, oz. 30c.

GERMAN NURSERIES AND SEED HOUSE, BEATRICE, NEBRASKA

Purple Top Yellow Rutabaga

Purple Top White Globe Turnip

Early Snowball Turnip

Golden Ball Turnip
AROMATIC, SWEET, POT AND MEDICINAL HERBS

Herbs in general, delight in rich, mellow soil. Sow early in spring in shallow drills one foot apart; when up a few inches thick out to proper distance to transplant. Some of them have very fine seed, and it is only necessary, after the seed is sown, to press the ground with a board. For flowers, fruits, meats, etc., a few pot and sweet herbs are necessary for every garden. If they are to be used during winter the stalks should be cut on a dry day, when not quite in full bloom, then be dried quickly in the shade, and when dry be packed closely in boxes, with the air entirely excluded.

ANISE. Used for garnishing, seasoning and for cordials. The seeds have an agreeable aromatic taste. Pkt. 5c, oz. 10c, ½ lb. 50c.

ARNICA. Arnica Tincture is made from it. Pkt. 10c.

AIRCENESIA. (Mugworth.) Is used for flavoring of stews, roasts, etc. Pkt. 10c.

BALSAM. The leaves are used for the making of balm wine, a pleasant beverage, and tea used in fevers. Pkt. 5c, oz. 25c, ½ lb. 75c.

BASIL. Sweet. The leaves are used for flavoring soups, stews, etc., also for garnishing. Pkt. 5c, oz. 15c, ½ lb. 50c.

BORAGUE. Leaves used for salads. Flowers excellent for bees. The flower spikes can also be used in cool drinks. Flowers very aromatic. Pkt. 5c, oz. 15c, ½ lb. 50c.

CARAWAY. Seeds are used for flavoring bread, pastry, meats, etc.; also used in confectionery and medicine. Pkt. 5c, oz. 10c, ½ lb. 20c, lb. 60c, postpaid.

CASTOR OIL PLANT. The seeds yield Castor Oil. Pkt. 5c, oz. 10c, ½ lb. 20c.

CHAMOMILE. Great medicinal herb. Much used for the well known Camomile tea. Pkt. 10c.

CHERVIL. Leaves are used for garnishing and flavoring. Also for salads. Pkt. 5c, oz. 10c, ½ lb. 25c.

CHIVES. Used for seasoning. Onion flavor. Pkt. 5c, ½ oz. 10c, oz. 25c.

CINNAMON. Seeds are aromatic. Used for flavoring and in the manufacture of liquor and confectionery. Leaves used for garnishing. Pkt. 5c, oz. 10c, ½ lb. 25c, lb. 65c, postpaid.

DILL. Leaves and seeds are used for flavoring of soups, sauces, preserves and pickles. Pkt. 5c, oz. 10c, ½ lb. 25c, lb. 75c, postpaid.

FENNEL. Leaves are used for garnishing, seeds for flavoring. The leaves boiled are used in fish sauces. Pkt. 5c, oz. 10c, ½ lb. 25c.

HOREHOUND. Leaves are used for flavoring. Also used in the manufacture of cough remedies. Pkt. 5c, oz. 25c.

HOREHOUND. An aromatic, medicinal herb, but the plant is chiefly grown for its flowers, which are used in the making of perfumes. The dried leaves, put up in paper bags, are used to perfume linen and to keep out moths. Pkt. 5c, oz. 20c.

MARJORAM, SWEET. Used for flavoring. The leaves and the shoots may be dried for winter use. Pkt. 5c, oz. 15c, ½ lb. 45c.

MUSTARD, WHITE. For salad or culinary purposes. Oz. 5c, ½ lb. 15c, 1lb. 40c.

OPPOPOPO. Medicinal herb. Pkt. 5c, oz. 15c, ½ lb. 45c.

PEPPERMINT. For flavoring and in cold drinks. 25 seeds 10c, 100 seeds 25c.

ROSEMARY. Leaves are used for seasoning. The oil from the flower is used in perfumery. Pkt. 5c, oz. 25c.

RUE. Medicinal. Good for fowls for the table. Pkt. 5c, oz. 20c.

SAFFRON. Used for coloring and flavoring. Pkt. 5c, oz. 10c, ½ lb. 30c.

SAGE. Leaves are used for seasoning and dressing, also in medicine. Pkt. 5c, oz. 15c, ½ lb. 50c.

SORREL, LARGE LEAVED. For boiling “greens” or used as a salad. Cook like spinach. Pkt. 5c, oz. 15c, ½ lb. 50c.

SUMMER SAVORY. Plant is aromatic. Leaves and young shoots used for flavoring, especially with boiled sauerkraut, beans, also for dressing. Pkt. 5c, oz. 15c, ½ lb. 50c.

TANSY. An aromatic medicinal herb. Leaves are used for tea and in bitters. Pkt. 5c, oz. 25c.

TARRAGON. Valued for seasoning and culinary purposes. Pkt. 10c.

VALERIAN. For medicinal purposes. Pkt. 10c.

SWEET WOODRUFF. For flavoring wine. Well known ingredient of the German “Maitrank.” Shoots also used for scenting clothes. Pkt. 10c.

THYME. Medicinal and culinary herb. Young leaves and tops used for soups, dressing, sauce, either green or dry. Thyme tea is a cure for nervous headache. Pkt. 5c, oz. 25c, ½ lb. 50c.

WORMWOOD. Medicinal herb. Beneficial for poultry, and should be planted in every poultry yard. Pkt. 5c, oz. 25c.

WINTER THYME. True Winter or Perennial. It is used same as Thyme. Pkt. 10c.

MIXED HERBS. Many kinds of the above in a mixture. Pkt. 5c.

OKRA OR GUMBO

Young seed pods used for delicate “Gumbo” soups. Probably the finest vegetable for table. Easy to grow. Plant as soon as danger of frost has passed, in drills or hills, 18 to 24 inches apart; cultivate the same as corn. Pods can be dried for winter use.

WHITE VELVET. The pods are larger than any other. Pkt. 5c, oz. 10c, ½ lb. 25c, lb. 75c.

GARLIC

The most pungent of all the onion family. The root or round is composed of many small bulbs called “cloves,” which are planted in the spring six to eight inches apart, and in August the bulbs are ready to gather. Large bulbs, ½ lb. 25c, lb. 40c, postpaid.
Miscellaneous Seeds

ALPINE EVERBEARING STRAWBERRIES

These grow freely from seed and fruit the first summer. In March or April sow seed under glass, and in May transplant to open ground. By the first of July they commence blooming, and the first fruit ripens about the 15th of that month. From that time there is ripe fruit continually until late in October. The berries, while not so large as the garden varieties, are much higher flavored. A few of them will perfume a whole room, so great is their fragrance. Perfectly hardy. Can be grown in pots in the house. Pkt. 10c, 3 pkts. for 25c.

CURLED CHERVIL

The leaves are used in flavoring soups and salads and for garnishing. More beautiful than parsley. Of dwarf growth, with finely curled leaves. One ounce will sow 100 feet of drill. Cultivate same as parsley. Pkt. 5c, oz. 10c, ¼ lb. 25c, lb. 65c, postpaid.

CHIVES

Perfectly hardy little perennial members of the onion tribe, and are grown exclusively for their tops, which are used where ever the flavor of onions is required. The tops appear early in the spring, and can be shorn throughout the season as needed. Pkt. 5c, ½ oz. 50c, oz. 50c.

FENUGREEK

Annual. This seed is much sought by hostlery to give temporary fire and vigor to their horses. It is frequently given to oxen and pigs when fattening, causing them to drink and digest their food. Good for soil less when green. Oz. 10c, lb. 50c, postpaid.

GARDEN LEMON

Fruit is of shape shown in our engraving, is somewhat smaller than Vine Peach, which it resembles in growth, but has thinner flesh and is decidedly more acid, thus dispensing with the sliced lemons which are so important in putting up the Vine Peach. Directions for cooking with each packet. Pkt. 5c, oz. 15c, ¼ lb. 50c.

LENTILS

Used in oriental countries as principal article of diet. Splendid for soups. Cultivate same as peas. Large pkt. 5c, ½ lb. 15c, lb. 40c.

MUSHROOMS

The ease and certainty with which a crop of mushrooms can be grown to perfection in any ordinary house, cellar, wood shed or barn, and the astonishing success of so many who have taken up this industry, both for profit and their own use, induces us to call special attention to the subject. The great luxury can be enjoyed by all at a trifling expenditure of money, time and labor. We recommend our English mushroom spawn as generally better both for the market gardener and private planter. Book, “How to Grow Mushrooms,” 10c.

IMPROVED ENGLISH SPAWN. Is grown by special culture from large, perfect heads and then pressed into bricks of about 1½ lbs. each. For brick, 40c, postpaid; not prepaid, 5 lbs. 75c, 10 lbs. $1.35.

The wide demand for Mushrooms is seldom satisfied. It is claimed there is always a splendid market at good prices for the produce.

POTATO SEED

Hybridized potato seed from the flower bolt (the true seed). It is from such seed that the new choice varieties of potatoes are derived. The result is interesting and often profitable. Pkt. 10c, 3 for 25c.

ROSELL

The Lemonade Plant of Queensland. The fruit resembles the scarlet podded okra, and is used for making jelly and jam. It is easily grown from seed, grows rapidly and resists drought. It is a very ornamental plant and also of great food value, warranting more extended cultivation. Pkt. 10c.

VINE PEACH

The vine on which they are borne is somewhat similar to the muskmelon vine, and requires the same cultivation. The fruit is about the size of a large peach, oval shaped, and of bright orange color, somewhat russeted. For sweet pickles, pies or preserving they are superb. Directions for cooking this fruit are given on every packet of seed. Pkt. 5c, oz. 15c, ¼ lb. 50c, postpaid.
On the following pages we offer the best varieties of choice Flower Seeds. Our seeds are fresh and of unsurpassed quality, grown by the best growers in this country and Europe. Quality is always our first consideration. There is no space so small that there is not room for any of those beautiful flowers, and with a small outlay a succession and abundance of bloom can be obtained. Our packets contain a liberal quantity of seed, more than is generally sent out by other firms. Annuals bloom and ripen the seed the first year and then perish. They are marked "P" after name. Cultural directions given on all packets. All flowers are sent postpaid by mail on receipt of price.

ASTERS. A.

Asters are of easy culture. The seed can be sown in the open ground in May and the plants will then bloom in September and October. For earlier blooming, sow in March or April, in cold frame or hotbed, or boxes in the house. Seed should not be covered more than one-fourth of an inch.

**WHITE GIANT COMET OR POODLE ASTER.** The handomest of the tall asters. Resembles Japanese Chrysanthemums. Pkt. 10c.

**DARK BLUE GIANT COMET.** Very large, double flowers, resembling the finest chrysanthemums, color a beautiful intense dark blue. Pkt. 10c.

**DAY BREAK.** The flowers are round, large and full, on long stems; color a charming seashell pink; early and free flowering. Pkt. 10c, ½ oz. 20c.

**VIOLET KING.** The habit is similar to the branching Asters. Petals somewhat resemble the quilled varieties, but are much larger and broader, those in the center being curled and incurved. Its color is a soft, violet lilac. Pkt. 10c, ½ oz. 25c.

**LAVENDER GEM.** When first opened the full double flower is an exquisite shade of delicate lavender, deepening with age. Pkt. 10c.

**LILIPUT BOUQUET.** Especially suited for pot culture or for low border. Extremely dwarf, being only 8 or 9 inches high, but almost smothered with blossoms. Splendid mixture. Pkt. 10c.

**SURPRISE.** Flowers are large, globular, quilled, very double and of a clear sulphur yellow. Pkt. 10c.

**COMET OR BRANCHING.** Flowers large, very double, with long stems. Best cut flowers. Mixed. Pkt. 5c, ½ oz. 20c.

**BOHENZOLLENS.** Larger than Giant Comet, the petals longer, more curled. Blooms very abundantly on long stems. Finest cut flower. Mixed. Pkt. 10c.

**IDEAL EVERBLOOMING.** Produces more good cut flowers than any other kind. In bloom from August to October. Pkt. 10c.

**PAEONY FLOWEDED.** Plants 12 to 18 inches high. Flowers large, extra double. Mixed colors. Pkt. 5c, ½ oz. 20c.

**VICTORIA.** Magnificent sort, 20 inches high, free bloomer, very double; colors distinct and brilliant. Finest mixed. Pkt. 10c.

**DWARF CHRYSANTHEMUM.** The finest of all dwarf asters; with large beautiful flowers in brilliant colors. Mixed. Pkt. 5c, ½ oz. 25c.

**GERMAN QUILED or Japanese Needle Aster.** Nice double flowers, very free blooming. Mixed. Pkt. 5c, ½ oz. 15c.

**MANY KINDS MIXED.** Very superior. Pkt. 5c, ½ oz. 25c.

**SINGLE FLOWERING.** True China Aster. Finest assortment of colors. Pkt. 5c, ½ oz. 20c.

**CHRISTMAS TREE COMET ASTER. A.**

New, distinct habit of growth and a branching pyramidal form. The plants grow 16 to 18 inches tall, are quite early in blooming, and are thus most desirable for planting individually, thus showing the symmetrical form of growth. The flowers are of the very best Comet form, the petals being very long and perfectly waved and curled.

**ROYAL ROSE.** Extremely free flowering, each plant bearing many beautiful blossoms of a pleasing shade of rose. Pkt. 10c.

**BRILLIANT CARMINE.** Flowers are of a beautiful glowing carmine red color. A fine bedding plant or for border and pot culture. Splendid as a cut flower. Pkt. 25c.

**ABRONIA. A.**

**GRANDIFLORA.** Flowers are rose-lilac, and sweet scented. For beds, borders and hanging baskets. Pkt. 5c.

**AGERATUM. A.**

**BLUE.** Very pretty sky-blue flowers. Nice for borders. Pkt. 5c, ½ oz. 10c.

**ALYSSUM. A.**

**SWEET.** Flowers white, fragrant. Easily grown in boxes, vases and beds. A good border plant. Pkt. 5c, ½ oz. 20c.

**CARPET OF SNOW.** Of dwarf, dense growth, completely covered with snow-white flowers. blooms all season. Nice for borders. Pkt. 5c, ½ oz. 25c.
AMARANTHUS. A.
CAUDATUS. (Love Lies Bleeding.) Very large, handsome drooping flowers, spikes of blood red color. 3 ft. Pkt. 5c.

TRICOLOR. Handsome foliage plant. Leaves yellow, red and green. Well known as "Joseph’s Coat." 3 ft. high. Pkt. 5c.

ANTIRRHINUM. A. (Snapdragon)
They do not receive the attention they deserve. One of the best cut flowers. Easily grown from seed; excellent for beds and borders.
PURPLE KING. (Novelty.) The flowers are of a deep, glowing purple color, which will make it become the pioneer of a new giant class. Illustration shows the natural size of an individual blossom. Pkt. 20c.
GIANT FLOWERED. Flowers are very large and fragrant, produced in long spikes all summer. Pkt. 10c, ¼ oz. 20c.
DWARF MIXED. Plants grow 1 ft. high. Pkt. 5c, ½ oz. 20c.
TALL MIXED. Plants grow 2 ft. high. A nice mixture of many shades and colors. Pkt. 5c, ½ oz. 20c.

Alyssum, Carpet of Snow (Page 96)

AQUILEGIA. P. (Columbine)
TRUE ROCKY MOUNTAIN. Colorado’s emblem flower. Free flowering; for permanent borders, etc. Blossoms light blue. Pkt. 10c.

ARABIS. A.
ALPINA. (Snow in Summer.) Very early white spring flower. Dwarf, fine for edging. Quite fragrant. Pkt. 5c, ¼ oz. 10c.

ARCTOTIS GRANDIS. A.
AFRICAN LILAC DAISY. Pure white on top surface and reverse side of petals pale lilac blue. Blooms all summer. Pkt. 10c.

ARMERIA. P.
MOUNTAIN PINK. Flowers grow in large tufts, rosy pink. Beautiful for edging. Pkt. 10c.

ASPHERULA. A.
AZUREA. Fragrant light blue flowers. Thrive well in shady places. Pkt. 5c, ½ oz. 10c.

Auricula, A.
See under Primula, page 105.

BALSAM. A. (Lady Slipper)
One of the most beautiful annuals. Flowers brilliantly colored, very large and double. Balsams like rich soil and a sunny situation.

CAMELIA FLOWERED. Very double, extra large flowers of rich color. Finest mixed. Pkt. 5c, ¼ oz. 25c.
DOUBLE WHITE. Flowers are extremely large, very large, of true Camellia shape. Pkt. 10c.

ROSE FLOWERED. Splendid rose-like flowers of brilliant colors. Pkt. 5c, ¼ oz. 25c.
DWARF DOUBLE MIXED. Finest mixture of double varieties. Pkt. 5c, ¼ oz. 20c.
TALL CARNATION FLOWERED. Flowers are large, double and beautifully striped. Pkt. 5c, ¼ oz. 25c.
NIGHTBLOOMING. (Nycteris.) Flowers single, pure white, emitting a strong heliotrope perfume after sundown. Pkt. 5c, ¼ oz. 20c.

BRACHYCOME. A.
SWAN RIVER DAISY. Of dwarf growth, very free flowering. Suitable for edging; small beds or pot culture. Blooms freely nearly all summer. Pkt. 5c, ¼ oz. 10c.

BUTTERFLY PLANT. A.
COMMELINA. Plants are of graceful, trailing habit, superb for carpet bedding. In pots it will bloom every day in the year. In the garden from May until frost, showing daily scores of large, blue butterfly-like blossoms. Pkt. 10c.

CALCEOLARIA. P.
Produces a mass of beautiful pocket-like flowers. A favorite for house culture and conservatory. Finest mixture. Pkt. 20c.
CALEDULA A.
Will grow in any soil and bloom all summer. Excellent for bouquets and vases. One foot high. Sow seed outdoors quite early. Mixed colors. Pkt. 5c, 1/2 oz. 10c.

CALLIOPSIS A.
One of the showiest of garden flowers, covered with hundreds of flowers from July to October. Of easiest culture. Grows two feet high. Fine cut flower.

GOLDEN WAVE. Plants very bushy and compact. Two feet high. Flowers beautifully golden yellow with dark center. Pkt. 5c, 1/4 oz. 10c.

GOLDEN RAY. Bright, showy flowers of rich purple brown, turning golden yellow toward the end of each petal. Eight inches high. Pkt. 10c. 1/4 oz. 20c.

HYBRIDA SUPERBA. Form dense bushes that bloom the entire summer, in all shades of yellow and brown. For groups, borders, pots and also as cut flowers, they are most desirable. Pkt. 10c.

FINEST MIXED. Many varieties. Pkt. 5c, 1/2 oz. 10c.

CANDYTUFT A.

Hardy annuals that grow easily in any soil, and bloom very freely all summer. Fine for solid beds and edging.

DWARF EMPRESS. About 8 inches high, covered with extra large, pure white flowers. Pkt. 10c, 1/2 oz. 20c.

WHITE ROCKET. Large white flowers. One foot high. Pkt. 5c.

CANNA A.
Stately plants of luxuriant and tropical appearance. Easily grown from seed. Will bloom the first year.

LARGE FLOWERING. Best varieties mixed. Pkt. 5c, 1/4 oz. 15c.

MADAME CHOZY. Dark leafed varieties. Pkt. 5c, 1/4 oz. 15c.

CARNATION P.

For house and garden culture. Flowers are large and fragrant.

DOUBLE GERMAN. Finest mixed. Sweet scented, double, large flowering sorts. Best for house culture. Pkt. 10c.

EVER-BLOOMING FRENCH. Flowers large, very double, deliciously sweet, and of rich color. Bloom in four months from seed. Pkt. 10c.

SCARLET GRENADEX. Flowers double, large, rich scarlet. Lives through the winter with little protection. Pkt. 10c.

MARGUERITE. The beautiful, fragrant flowers are in bloom nearly all of the time. Mixed colors. Pkt. 5c.

GIANT MARGUERITE. Will bloom about four months after sowing, and continue all through the summer. Flowers are very large, measuring three inches in diameter, colors are beautiful. Pkt. 10c.

CELOSIA OR COCKSCOMB A.

Handsome garden and pot plants, bearing large combs of crimson, pink or golden striped color.

DWARF MIXED. Splendid mixture of dwarf sorts. Pkt. 10c.

CENTAUREA A.

Also called Bachelor’s Button, Blue Bottle, Ragged Sailor, Corn Flower. Flowers freely in any situation and requires little care.

MIXED. Many varieties mixed. Pkt. 5c, 1/2 oz. 15c, oz. 25c.

DOUBLE. Beautiful double flowers of many colors. Pkt. 5c.

EMPEROR. Lovely dark blue flowers of many lovely shades. Pkt. 5c, 1/2 oz. 15c, oz. 25c.

GYMNOCARP. (Dusty Miller.) Finely cut, silvery-white leaves. Showy foliage plants for borders, 1 1/2 feet high. Pkt. 5c, 1/2 oz. 25c.

MARGUERITA. Large, pure white flowers, sweet scented. Fine for cutting. Pkt. 5c, 1/4 oz. 15c.

CERINTHE A.

WAX PLANT. Beautiful and easily grown annual. Excellent bee plant. Flowers bright yellow, often spotted with purple. Pkt. 5c, oz. 15c.

CHOCOLATE FLOWER. A.

Two and one-half feet high. Bears numerous long stemmed flowers of a peculiar chocolate brown color and sweet odor. Fine cut flower. Blooms July to October. Pkt. 10c.
CHRYSANthemum A.

These hardy annuals are showy and effective border plants, extensively grown for cut flowers.

**DOUBLE AND SINGLE MIXED.** Pkt. 5c, ¼ oz. 10c.

**EVENING STAR.** Flowers pure golden yellow and 3 inches in diameter. Bloom about ten weeks after sowing, until frost. The petals remain firmly extended in the rain and sunshine. Pkt. 10c.

**MAXIMUM P.** Moon-penny, or Ox-Eyed Daisy. Free blooming hardy perennial, two feet high. Covered with large, single, pure white flowers. Pkt. 5c.

**PERENNIAL.** Chinese and Japanese varieties. Will bloom in fall from seed sown in March. Flowers large, very double. Pkt. 10c.

CINERARIA P.

For pot culture. Large, beautiful flowers. The extreme grace and elegance of the plant and flower makes it effective for decoration. Pkt. 15c.

CLEOME PUNGENS A.

**SPIDER PLANT.** Blooms all summer. A good bee plant. Pkt. 5c, ¼ oz. 15c.

COLEUS A.

Handsome foliage plant, easily grown from seed. Leaves large and rich in color. 2 feet high. Mixed. Pkt. 15c.

COSMOS A.

Grows and blooms with the greatest freedom in any soil. Flowers dainty, of brilliant colors, carried on long slender stalks. Foliage feathery and very pretty. Extra fine for cut flowers.

EARLY FLOWERING. Many varieties mixed. Will bloom from July to Nov. Pkt. 5c, ¼ oz. 20c.

GIANTS OF CALIFORNIA. Flowers very large and beautiful. Handsome fern-like foliage. Start seed early. Finest mixed. Pkt. 5c, ¼ oz. 15c.

MAMMOTH FANCY. Very large, beautiful flowers in exquisite shades. Pkt. 10c.

DATURA A.

**TRUMPET FLOWER.** Large, trumpet-shaped flowers, very showy. Of easy culture. Double and single mixed. Pkt. 5c, ¼ oz. 15c.

*You will find special collections of flower seeds on page 68 of this catalog.*

DAHLIA P.

Can be easily raised from seed and will bloom profusely the first year. One of the best late summer flowering plants. Very pretty.

**CACTUS FLOWERED.** Flowers a large, fine cactus form. Splendid mixture. Pkt. 10c.

**COLOSSAL.** New Peony flowering class; mammoth blooms, many shades. Pkt. 10c.

**DOUBLE MIXED.** Large flowering varieties. All colors. Pkt. 5c.

**SINGLE MIXED.** Produce flowers of large size in greatest abundance. Pkt. 5c, ¼ oz. 10c.

DELPHINUM OR LARKSPUR

**ANNUAL VARIETIES.**

These hardy annuals are of great beauty in borders or among shrubs. The long flower spikes appear in greatest profusion.

**DWARF HYACINTH FLOWERED.** 2 to 3 feet high; the flower spikes resemble a double hyacinth. The colors are brilliant and delicate. Finest mixture. Pkt. 5c, ¼ oz. 15c.

**DOUBLE TALL MIXED.** Produces freely long slender flower spikes of great beauty. Plants 3 to 4 feet high. Pkt. 5c, ¼ oz. 15c.

**PERENNIAL VARIETIES.**

**CHINESE BLUE.** 3 feet high. Produces freely spikes of large blossoms; all delicate shades of blue. Pkt. 5c, ¼ oz. 15c.

**NUDICAULE.** 1 foot high. The only pure bright scarlet. Dwarf and compact in growth. Flower stems of fine length. Pkt. 20c.

**ZALL.** Flowers bright yellow, resembles finest orchids. Pkt. 10c.

**PERENNIAL MIXED.** Hardy perennial plants with brilliant flower spikes. Double and single flowering mixed. Pkt. 5c.

**CHINESE TOM THUMB “ULTRAMARINE.”** Height about 8 inches; forms broad and well branched bushes and is during all the summer covered with its very pretty flowers. May be treated as an annual or perennial. Pkt. 20c.

**DIMORPHOTECAL OR GOLDEN DAISY A.**

**AFRICAN GOLDEN DAISY.** (Novelty.) A rare and showy annual from South Africa, of easy culture and beautifully colored flowers. Plants grow 12 to 15 inches high and are very profuse in flowering. Its Marguerite-like blossoms 2½ to 2¾ inches in diameter, show a unique glossy rich orange gold, surrounded by a black zone. Pkt. 15c.

**MIXED HYBRIDS.** (Novelty.) Same as above except that it ranges in all colors and shades from pure white to a deep salmon-orange; some varieties even have different colored zones, such as white with a broad sulphur yellow zone around the black disk or soft salmon-red inner circle, etc. Pkt. 20c.
DANES. P.
BURBANK'S GIANT SHASTA. Flowers very large and graceful, pure white, single, grow on long, stiff, wiry stems. Pkt. 10c.

MAMMOTH BLUE DAISY OR MARGUERITE. Plants form compact, well branched bushes 12 inches high and produce in great profusion single, sky-blue mammoth flowers. Seed sown in early spring will make blooming plants by May, and bloom until frost. Pkt. 20c.

DOUBLE DANES. P.
Will bloom the first summer and continue to bloom for years, with slight protection in winter.

GIANT SNOWBALL. Flowers large, double, snow white on long stems. Free flowering. Pkt. 10c.

FLAT MIXED. Assortment of various kinds and colors. Pkt. 5c.

DIANTHIS OR PINKS. A.
For beautiful and lasting flowers, ease of culture, and freedom of bloom, these hardy Garden Pinks have no superior among annuals. Have long been a favorite garden flower everywhere.

WONDERFUL. Japanese variety with large single flowers, the petals of which are deeply cut and fringed. All colors. Pkt. 10c.

COUNT KERCHOVE. Beautiful new Pink with large, full flowers of dark blood red color. Blooms profusely and long season. Pkt. 10c.

GIANT RUFFLED AND FRINGED. A magnificent new strain with extra large flowers. The petals are ruffled, frilled and fringed. Many colors. Pkt. 10c.

DOUBLE ROYAL PINKS. Flowers of the largest size, very double, light and dark shades. Lovely cut flowers. Pkt. 10c.

IMPERIAL CHINESE. Double flowers of great beauty and rich colors. Best mixture. Pkt. 5c, ½ oz. 15c.

LACINATUS. Flowers are large, very double and finely fringed. Pkt. 5c, ½ oz. 25c.

BEDDUNI. Large double flowers. One of the most showy of all pinks. Mixed colors. Pkt. 5c, ¼ oz. 25c.

MOURNING CLOAK. The large double, almost black flowers, have a clear white, fringed edge. Pkt. 5c, ¼ oz. 25c.

SNOWBALL. Flowers double, very large, often 2 inches in diameter, resembling a pure white carnation. Pkt. 10c.

BEDDUNI, GIANT SINGLE. Immense flowers of strikingly pretty colors. Mixed. Pkt. 10c, ¼ oz. 25c.

STAR PINKS. Beautiful, star-shaped, pure white flowers. 10 in. high. Excellent for edgings. Profuse bloomer. Pkt. 10c.

GRASS PINKS. P. The delicately fringed flowers are fragrant and fine for bouquets. Pkt. 5c, ½ oz. 25c.

KOPERT CLOVE PINKS. P. Of dwarf growth, perfectly hardy and produce immense quantities of clove-scented flowers. Pkt. 10c.

DIGITALIS OR FOXGLOVE. A.
The long flower stems are loaded with pretty flowers of delicate and varied mixed shades. 3 to 4 ft. high. Pkt. 5c.

DWARF MORNING GLORY. A.
CONVOLVULUS. Grows easily and rapidly from seed, and the plants are covered with flowers the entire season. One foot high. Pkt. 5c, oz. 15c.

EDELWEISS. P.
ESCHOLTZIA. A. (California Poppies)
Showy summer blooming plants, bearing a profusion of richly colored flowers. Fine for beds, edging or masses.

DOUBLE MIXED. Pretty double flowers. white, rose and yellow. In bloom from June until cut down by frost. Mixed. Pkt. 5c, ¼ oz. 15c.

CALIFORNIA. Large yellow flowers. Pkt. 5c, ½ oz. 15c.

GOLDEN WEST. Extra large flowers of bright yellow and orange. Pkt. 10c, ¼ oz. 20c.

BUSH ESCHOLTZIA. (Hunebrilliana.) Very beautiful plant, forming a nice bush, covered with large, cup-shaped flowers 3 inches across on long stems. The color is bright yellow. The cut flowers keep in water for two weeks. Pkt. 10c, ¼ oz. 20c.

FUCHSIA. P.
Well known house plant of beautiful form. Blooms first year from seed. The flowers come in colors of red, white and purple. Double and single mixed. Pkt. 8c.
FORGETMENOTS. P.
(Myosotis.) Neat and beautiful little plants, with star-like flowers. Succeeds best in a moist situation.

ALPESTRIS. Lovely, sky-blue flowers. Pkt. 5c.

PALUSTRIS. The true water Forgetmenot. Blooms continuously. Pkt. 10c.

FOUR O'CLOCKS. A.
Also called Mirabilis and Marvel of Peru. Well known free flowering garden favorite. Does well everywhere. Give each plant 12 to 15 inches of room. Will grow splendidly along the fence, requiring no care and blooming freely.

DWARF MIXED. Many colors in a good mixture. Pkt. 5c, oz. 15c.

SWEET SCENTED. Flowers white, very fragrant. Pkt. 5c, oz. 25c.

STRIPED LEAVED. Very ornamental foliage. Blooms continuously. Mixed. Pkt. 5c, oz. 20c.

GALLIARDIA. P.
Undoubtedly one of the choicest of the hardy perennials. Flowers very large, very numerous and fine for cutting.

FINEST MIXED. Brilliant shades of orange, crimson, scarlet and vermilion. Pkt. 5c, ½ oz. 15c.

DOUBLE ANNUAL. The large double flowers are round as a ball in the most varied colors. Nice for bouquets. Pkt. 5c, ¼ oz. 20c.

AMBIYODON. Of a rich blood-red color, very pretty and effective. Pkt. 10c.

GODETIA. A.
Of easiest culture. The flowers are of handsome shape, brilliant in color and are produced in marvellous profusion. Tall mixed. Pkt 5c, ½ oz. 15c.

GOLD FLOWER. A
HETEROSPERMUM. Flowers golden yellow. Plants bloom from June until frost, commencing four weeks after sowing. Nice for bouquets. Pkt. 10c.

GYPSOPHILA. A.
Also called Angel’s Breath and Baby’s Breath. Thrives everywhere and furnishes the loveliest material for all kinds of bouquets. Pkt. 5c.

HELIOTROPE. P.
Flowers very pretty and of delightful fragrance. A splendid bedding plant as well as suitable for house culture. Seed sown in February or March produce large flowering plants in the summer.

FINEST MIXED. Bloom the first summer. Pkt. 5c, ¼ oz. 25c.

NEW MAMMOTH. A grand variety, producing immense clusters of fragrant flowers. Pkt. 10c.

HOLYHOCK. P.
One of the most majestic of the hardy plants. For planting among shrubbery or forming backgrounds it is without an equal.

DOUBLE MIXED. Mixture of double sorts. Pkt. 5c, ¼ oz. 20c.

CHATER’S EXTRA DOUBLE. Flowers large and very double. Finest strain obtainable. Pkt. 10c, ¼ oz. 15c.

ANNUAL EVERBLOOMING. Seeds sown in March will produce blooming plants in July and continue until frost. Flowers are double, semi-double and single. Mixed colors. Pkt. 10c, ¼ oz. 25c.

ICE PLANT. A
Will do best on dry, sandy soil. The plant is of dwarf habit: flowers are white, wax-like and frosted. For rock work and hanging baskets. Pkt. 5c.
LINUM. A.

SCARLET FLAX. An effective and showy bedding plant, 12 inches high. Foliage is finely cut and flowers are brilliant scarlet. Pkt. 5c, oz. 15c.

PERENN. P. Beautiful hardy perennial, producing bright blue flowers the entire summer, 18 inches high. Pkt. 5c, oz. 20c.

LUPINS. A.

Ornamental free flowering plants for borders and beds, with long spikes of richly colored flowers.

DWARF MIXED. Annual flowering varieties. Pkt. 5c, oz. 15c.

PERENNIAL LAURKSPUR FLOWERED. Extra long spikes of pretty flowers in blue and lilac shades. Two to three feet high. Pkt. 10c, ½ oz. 25c.

LYCHNIS. P.

Hardy perennial plants for beds and borders. Will bloom year after year, requiring no protection.

CHALCEDONICA. Plants grow one foot high and bloom the first year after seed. Flowers a brilliant scarlet, star-shaped. Pkt. 5c.

MARIGOLD. A.

Free flowering old favorites of easy culture. Well adapted for large beds and borders.

GOLD STAR. (Novelty.) Has very pretty single flowers of golden yellow tints with broad velvety streaks. Remarkably contrasting and effective. About 16 inches high. Pkt. 15c.

GOLD RING. (Novelty.) Color dark velvety brown, gracefully surrounded by a distinct gold ring. Compact, bushy little plants that flower very abundantly. Pkt. 15c.

TALL AFRICAN. 2½ feet high. Large double flowers, in glowing colors. Mixed. Pkt. 5c.

DWARF FRENCH. Each plant bears hundreds of bright flowers. One foot high. Double mixed. Pkt. 5c, ½ oz. 15c.

DOUBLE PORTULACA. (Page 103)

MIGNONETTE. A.

A well-known favorite. Also suitable for pot culture. Should be watered freely until plants are several inches high.

GIANT MACHER. Flowers are larger than those of other sorts, the spikes are very dense, its foliage is distinct, being crinkly, while its odor is strong and most delicious. The plants grow in handsome bush form and bloom until late fall. Pkt. 10c, ¼ oz. 20c.

SWEET SCENTED. The old sweet-scented variety. Pkt. 5c, oz. 20c.

GOLDEN QUEEN. Flowers yellow, very sweet. Pkt. 5c, ½ oz. 15c.

GIANT WHITE. Long white flower spikes produced in great abundance. A very pretty variety. Pkt. 5c, ½ oz. 15c.

MIMOSA. A.

(Sensitive Plant.) Curious and interesting plants. Leaves close and droop when touched or shaken. The flowers are red, 1½ ft. high.

MIMULUS. P.

Showy, profuse flowering plants for shady situations or house, blooming the first year from seed. One foot high.

TIGRINUS or Monkey Flower. Mixed spotted varieties. Pkt. 5c.

MOSCHATUS or MUSK PLANT. Of dwarf, creeping habit. Flowers yellow, have strong musk fragrance. Pkt. 5c.

NEMESIA. A.

Very pretty bedding flower of easiest culture. The flowers are large, of rich color and are produced in wonderful profusion. Pkt. 10c.

CLIMBING NASTURTIUMS. A.

Elegant and luxuriant climbers for verandas, trellises, etc. May be used to cover unsightly railings and to trail over rough ground with fine effect.

TALL CHAMELEON. Produces various colored flowers on one and the same plant. Pkt. 5c, oz. 15c.

TALL KING THEODORE. Flowers rich, deep crimson; dark leaves. Pkt. 5c, oz. 10c, ½ lb. 25c.

TALL IVY LEAVED. Finest assortment. Pkt. 10c; ½ oz. 15c; ¼ lb. 75c.

LOBIP'S CLIMBING. A grand free flowering variety. Very showy and rich colored flowers. Finest mixed. Pkt. 5c, oz. 10c, ½ lb. 25c, lb. 75c.

TALL MIXED. Nice mixture. Pkt. 3c, oz. 10c, ½ lb. 25c, lb. 75c.

(Dwarf Nasturtiums on Next Page.)
DWARF NASTURTIUMS. A.
May be classed among our most beautiful and showy annuals. They are of easy culture and make a continuous show of bloom.

DWARF CHAMELEON. Bears flowers of various colors on one and the same plant. Pkt. 5c, oz. 15c, ¼ lb. 45c.

DWARF GOLDEN KING. Dark foliage, bright golden yellow flowers. Pkt. 5c, oz. 10c, ¼ lb. 25c.

KING OF TOM THUMBS. Deep scarlet flowers. Pkt. 5c, oz. 10c, ¼ lb. 25c.

DWARF KING THEODORE. Dark leaves and deep crimson colored flowers. Pkt. 5c, oz. 10c, ¼ lb. 30c.

DWARF MIXED. Pkt. 3c, oz. 10c, ¼ lb. 25c, 1b. 75c.

DWARF IVY LEAVED. New sorts in finest mixtures. v. Pkt. 10c, ½ oz. 15c, oz. 25c, ¼ lb. 75c.

NICOTIANA. A. (Tobacco Plant)
SANDERAEC, NEW HYBRIDS. Will thrive in any soil, either in pots, boxes or in the open ground. Grows two feet high. Valued for cut flowers. Mixed. Pkt. 10c.

AFFINIS. This plant grows to a height of 2½ feet and produces an abundance of large, pure white flowers of delicious fragrance. Pkt. 5c, ½ oz. 15c.

SANDERAEC. Will thrive anywhere and produce lovely flowers of carmine red color from summer to late autumn. Pkt. 10c.

NIGELLA. A.
(Love in a Mist or Devil in a Bush.) A compact, free-flowering plant, with finely cut foliage and curious looking flowers and seed pods. One foot high. Pkt. 5c; ½ oz. 10c.

NYCTERINIA. A.
(SEE UNDER BALSMS)
OENOTHERA. A.
EVENING PRIMROSE. Neat plants with large, saucer-shaped flowers, white or golden yellow; open at dusk; emit a delightful perfume. Pkt. 5c.

PALMS. P.
Nice stately palms are comparatively easy to grow from seed and the plants make splendid ornaments. Directions for culture on each packet.

CHAMAROPS EXCELSA. One of the best plants for house culture. Pkt. of 12 seeds 10c.

PHOENIX. Beautiful specimen for house culture. Pkt. of 10 seeds 10c.

WASHINGTONIA. The fan-shaped leaves are fringed with long thread-like filaments. Stands neglect well. Pkt. of 12 seeds 10c.

CYPRESS. Well known Umbrella Palm. Pkt. of about 90 seeds 5c.

PETUNIA. A.
For bedding, edging or house culture, few plants equal them in effectiveness and bright colors. Easily cultivated and bloom all season.

PORTULACA. A.
Also called Rose Moss or Sun Plant. One of the most popular hardy annual plants of easy culture. Flowers of richest colors and produced in profusion.

SINGLE MIXED. Fine mixture of colors. Pkt. 5c, ½ oz. 20c.

DOUBLE MIXED. Many shades, double flowering. Pkt. 10c.

DOUBLE WHITE. Pkt. 10c. DOUBLE SCARLET. Pkt. 10c.

DOUBLE PINK. Pkt. 10c. DOUBLE YELLOW. Pkt. 10c.

Collection of four separate colors, 1 packet of each for 35c.
Three Blossoms of Our German Imperial Pansy

PANSIES. P.

For best results, you must start with a good strain of seed. The finest pansies are, as a rule, shy seeders, which accounts for the difference in the prices of the various mixtures offered below. The plants thrive best in a cool, moist, but well drained and enriched soil. Sow seeds in April or early May and cover lightly. The soil should be kept moist until plants show their first true leaves.

MASTERPIECE OR GERMANIA. The petals are crimped and curled in such a fashion that the flowers appear double. The flowers are often 3 inches across and the color variations and combinations are odd and striking, the rich, dark velvety shades predominating. Pkt. 25c, 3 for 50c.

THE GLOBE. (Novelty.) No matter how many flowers may succeed one after another, this conspicuous novelty will always conserve its dwarf and compact form. The flowers are large and vary from the palest light blue to the deepest dark blue. As the petals are crimped and undulated, the flowers appear curved and double. Pkt. 25c.

GIANT TRIMARQUE. Flowers extra large; stand well above foliage. Each flower marked with three blotches. Strong growers. Pkt. 10c, ¼ oz. 25c.

PSYCHE. Giant flowered. The characteristic five velvety blotches or eyes are surrounded by a broad white edge. Flowers are curled and undulated. True from seed. Pkt. 15c.

BUGNOT’S MAMMOTH. The petals are of great substance and velvety appearance, each one bearing a large, deeply colored blotch that runs out in delicate veins to the edge; the shading comprise tints of red, bronze and brown. Pkt. 15c.

GERMAN IMPERIAL. Elegant, richly colored flowers of large size and perfect shape. The finest mixture of giant flowered Pansies. Pkt. 10c, ¼ oz. $1.00.

ENGLISH TUFTED PANSY or Pansy Violet. Elegant free blooming plants for partially shaded beds and borders. They are more hardy than regular Pansies. Large flowering varieties mixed. Pkt. 15c.

ORCHID FLOWERING. Shows the most surprising, novel, unique and beautiful color combinations, entirely new among Pansies. The upper petals are upright and plaited, resembling orchids. The ground color of nearly all the flowers is light. Pkt. 25c.

PHENOMENAL OR MADAME PERRET. Giant flowered with frilled edge. Colors are rich wine shades and red with a white margin. Pkt. 15c.

QUADRICOLOR or Pheasant’s Eye. Elegant spotted and marbled, large flowers. Pkt. 5c, ¼ oz. 30c.

PRECIOSA. Color is carmine-purple with bright violet blotches and distinct margin of glistening white. Pkt. 25c.

LIGHT BLUE. A delicate shade. Pkt. 5c.

CRIMSON. The finest bright red Pansy. Pkt. 10c.

KING OF BLACKS. The darkest Pansy known. Pkt. 5c.

SNOWFLAKE. Large, satiny, pure white. Pkt. 5c.

YELLOW. Golden yellow with dark eye. Pkt. 5c.

STRIPED VARIETIES. The lovely flowers are striped and mottled in various tints. Pkt. 5c, ¼ oz. 25c.

EXTRA FINE MIXED. We make up this mixture from the finest varieties of English, German, French and Belgian Pansies. Pkt. 10c, ¼ oz. 50c, oz. $1.75.

GOOD MIXED. Many varieties. Pkt. 5c, ¼ oz. 30c, oz. $1.

PHLOX DRUMMONDI GRANDIFLORA. A.

Of all summer flowering annuals the varieties of large flowering Phlox are one of the most brilliant and satisfactory. From June until October they maintain an endless display of dazzling and varied colored flowers.

STARRED AND FRINGED. Very pretty star-shaped flowers. Dwarf growth. Mixed colors. Pkt. 10c, ¼ oz. 20c.

ALBA. Extra large, white flowers. Pkt. 5c, ¼ oz. 30c.

SCARLET. Intense, glowing scarlet. Pkt. 5c, ¼ oz. 30c.

ROSE. Pleasing shade of rose pink. Pkt. 5c, ¼ oz. 30c.

YELLOW. Of lemon yellow color. Pkt. 5c, ¼ oz. 30c.

EXTRA CHOICE MIXED. Best sorts. Pkt. 5c, ¼ oz. 25c.

DWARF MIXED. Of dwarf, compact habit. Fine for pot culture, for bedding and edging; 6 to 8 inches high. Very profuse bloomer. Pkt. 10c, ¼ oz. 25c.

DOUBLE FLOWERING. Flowers double and semi-double; last longer than single Phlox. Mixed colors. Pkt. 15c.

PERENNIAL MIXED. Hardy perennial sorts in splendid mixture of colors. Pkt. 15c.
PENTSTEMON. P.
MIXED HYBRIDS. Large flowering, very attractive plant, much used in hardy borders. Forms large and beautiful flower spikes. Height 2 to 3 feet. Pkt. 10c.
ANNUAL MIXED. Large flowering annual varieties. Splendid mixture. Pkt. 5c.

PERILLA. A.
An elegant foliage plant of easy culture. Dark purple leaves. Two feet high. Pkt. 5c, 1/2 oz. 15c.

PHACELIA. A.
Two to three feet high. Flowers purplish blue. In bloom until fall; easy culture. Splendid bee food. Pkt. 5c, oz. 10c.

POPPIES. A.
ADMIRAL. The large, round, smooth-edged flowers are of a glistening pure white color. With a broad band of brilliant scarlet around the top. Pkt. 10c.
GOLDEN FOLIAGE. Beautiful golden yellow foliage, and large double flowers in various shades of red. Twelve inches high. Pkt. 10c.
TULIP FLOWERED. The perfect, beautiful flowers resemble the Tulip. Intense fiery scarlet; single. Pkt. 10c, 1/2 oz. 20c.
SHIRLEY. Silk or Ghost Poppies. Handsome single flowers of glowing colors. Mixed. Pkt. 5c, 1/2 oz. 10c.

DOUBLE PAEONY FLOWERED. Large, showy, double, globular flowers, resembling a double peony. We can supply the following solid colors: White, Rose, Scarlet, Purple and Yellow. Each, per pkt. 5c, 1/2 oz. 15c.
COLLECTION of one packet each of the five colors for 15c.

DOUBLE PAEONY FLOWERED MIXED. Flowers large as Peonies and very double. Finest mixture. Pkt. 5c, 1/2 oz. 10c.

DOUBLE CARNATION FLOWERED. Flowers of large size and varied colors. Very popular. Pkt. 5c, 1/2 oz. 10c.

DOUBLE AND SINGLE MIXED. Finest mixed. Pkt. 5c, 1/2 oz. 15c, oz. 25c.

BORNED POPPY. Three inches across and of brilliant orange red with black or yellow spots on each petal. Pkt. 5c, 1/2 oz. 10c.

ICELAND POPPY. P. Will produce flowers the first year from seed. The colors range from pure white to orange scarlet and flowers are slightly fragrant. Nice for vases. Finest mixed. Pkt. 10c, 1/2 oz. 20c.

PERENNIAL MIXED. P. Nice assortment of many hardy perennial Poppies. Pkt. 10c, 1/2 oz. 25c.

PRIMULA. A.

CHINESE PRIMROSE. One of our most important pot plants, in bloom almost all winter. Mixed. Pkt. 15c.

PRIMULA ODONICA. Everblooming Primrose. Splendid for pot culture and also for the open borders. In bloom from May to fall. Flowers single, in shades of lavender, pink and red. Pkt. 15c.

PRIMULA VULGARIS. Hardy English Garden Primrose. Flowers lovely canary yellow and of sweetest fragrance. Pkt. 10c.

PYRETHRUM. P.
Handsome herbaceous plants of easy culture.

GOLDEN FEATHER. Beautiful golden leaves foliage plant for borders and ribbon beds. Six inches high; half hardy perennial. Pkt. 5c.

HYBRIDUM. Beautiful perennials blooming in May and June. Large, Aster-like flowers in many shades. Single and double mixed. Pkt. 15c.

RICINUS OR CASTOR BEAN. A.
Strong growing plants with ornamental foliage, adapted as center plants for Canna or Dahlia beds and single specimens.

SANGUINEUS. Brownish red foliage; 6 ft. Pkt. 5c, oz x 10c.

ZANZIBARIENSIS. 12 to 15 ft. high. Enormous leaves 2 1/2 feet across, and are beautifully lobed. Pkt. 5c, oz. 15c.

MIXED. Many kinds mixed. Pkt. 5c, oz. 10c, 1/2 lb. 30c.

SALPIGLOSSIS. A.
Of easy culture, blooming from early summer until late fall. Flowers orchid-like. Large flowered Mixed. Pkt. 5c, 1/2 oz. 15c.

SALVIA SPLENDENS. P.
SCARLET SAGE. Blooms first year from seed. Bears long spikes of beautiful, scarlet flowers from July to frost. Pkt. 10c, 1/2 oz. 25c.

SCHIZANTHUS. A.
Butterfly Flower or Poor Man's Orchid. The gay, butterfly-like blossoms are carefully marked and spotted, resembling some species of fine Orchids. Fine cut flowers. Mixed. Pkt. 5c, 1/2 oz. 15c.

VERBENA. A.
Many people prefer Verbenas to Phlox, Pansies or Asters for bedding purposes. Constant bloomer; brilliant flowers. Start seed in February or March, transplant in May or June.

NEW GIANT FLOWERS. (Novelty.) It excels all other varieties heretofore known by the size and noble shape of the flower, and the rich display of colors and shades. The flowers are enormous large and have, without exception, a large brilliant white eye. Pkt. 35c.

NEW MAMMOTH. Individual flowers are larger than a silver quarter. Unsurpassed for profusion of bloom. Fancy mixed. Pkt. 10c, ½ oz. 35c.

MIXED HYBRIDS. Many sorts and colors. Mixed. Pkt. 5c, ½ oz. 25c.

LEMON SCENTED. Fragrant plants. Leaves when dried retain fragrance for years. Seed scarce. Pkt. 10c.

BURLINGTON'S MAYFLOWER. One of the finest Verbenas, with the delicate odor and fragrance of Arbutus. Pink and white flowers. Pkt. 10c.

MOS VERBENA. White. Same as above, but flowers are pure white. Pkt. 5c, ¼ oz. 15c.

VENOSA. (Hardy Garden Verbena.) One foot high, covered with purplish heliotrope flowers from early summer till late fall. Pkt. 5c.

VINC. P.

MADAGASCAR PERIWINKLE. Blooms from seed the first season, continuing until frost. May be potted in fall for winter blooming. Flowers single, pink and white. Height 12 to 15 inches. Pkt. 5c, ½ oz. 25c.

VIOLET. P.

SWEET VIOLET. Well known, old-fashioned hardy garden violets; prized for their fragrance and pretty blue and white flowers. Pkt. 10c.

Price of Plants, 10c each, 10 for 80c, 100 for $7.00 post-paid.

VISCARIA. A.
Very free blooming plants, closely allied to the Lych- nis; they form compact plants about a foot high, and are covered from early summer till fall with their bright flowers, shaped like a single Pink, borne on long slender stems; it is best to sow them where they are to bloom, thinning out to prevent overcrowding. Pkt. 5c, ½ oz. 15c.
New Giant Flowered Zinnia

EVERLASTING OR IMMORTELLES

This class of annuals is of easy culture, producing their showy flowers abundantly all summer and fall. Suitable for bouquets.

**ACROCLINUM.** Grows 15 in. high, bearing lovely white or rose-pink flowers, in bloom from July to October. Mixed. Pkt. 5c, ½ oz. 10c.

**AMMORBUS OR WINGED EVERLASTING.** Large, handsome double white flowers with yellow disk. Plants 2½ feet high. Pkt. 5c, ½ oz. 10c.

**ATHANASIA.** Grows 10 to 12 inches high, very desirable for borders. Golden yellow. Blooms from June until September. Pkt. 5c, ½ oz. 10c.

**GOMPHRÉNA** or Globe Amaranth. Showy plants with brilliant colored globe shaped flowers. ½ to 1 foot high. Mixed. Pkt. 5c, ½ oz. 10c.

**HELICRYSUM.** Mammoth Flowered. Pretty and effective flowers. One of the showiest. Blooming season from July to October. Two feet high. Mixed colors. Pkt. 5c, ½ oz. 10c.

**RHODANTHE.** Beautiful for the garden, or grown in pots in the house. The flowers are white, rosy or crimson and show a darker disk. Grows one foot high. Pkt. 5c, ½ oz. 10c.

**XERANTHEMUM.** Profuse blooming handy annuals. Flowers very double and long stemmed. White and deep purple. Plants grow 12 to 15 inches high. Blooms from July until Sept. Mixed. Pkt. 5c, ½ oz. 10c.

**SPECIAL MIXED.** All the above sorts and many other varieties mixed. Pkt. 10c, ½ oz. 15c.

**ORNAMENTAL GRASSES**

The ornamental Grasses are indispensable for the mixed flower bed and for the border, making these more attractive during the summer, while in the dried state the Ornamental Grasses are valuable for winter bouquets. For large beds or groups on lawns nothing gives a finer effect, and they are largely used in many of the finest public parks, etc.

**COIX LACHRIMAE.** A. (Job’s Tear.) Broad, corn-like leaves and hard, shining pearly seeds. 3 feet high. Pkt. 5c, 15c.

**EULALIA ZEBRINA.** P. (Zebra Grass.) Leaves light green, crossed with creamy white stripes. 3½ to 4 feet high. Pkt. 5c.

**GYNERIUM ARGENTUM.** P. (Famps Grass.) Bears large, white, silvery plumes. 10 feet high. Pkt. 5c.

**LAGUS OVATUS.** A. (Hare’s Tail Grass.) Produces small white heads. Excellent for bouquets. Pkt. 5c.

**PENNISÉTUM RUEPELLIÁNUS.** P. (Purple Fountain Grass.) Beautiful large spikes of purple color. The foliage is long and slender and glossy deep green in color. 3 feet high. Pkt. 10c.

**STIPA PENNATA.** P. (Feather Grass.) Beautiful delicate white, feathery plumes. 10 feet high. Pkt. 5c.

**MIXED VARIETIES.** Many different kinds. Pkt. 10c.

**WALLFLOWER.** P.

Well known, deliciously fragrant, half-hardy perennial with large spikes of beautiful flowers. A fine pot plant.

**FINEST DOUBLE.** Large spikes of brilliantly colored flowers. Pkt. 15c.

**SINGLE MIXED.** Nice colors. Pkt. 5c.

**EARLY PARISIAN OR ANNUAL.** Beautiful flowers of light brown color. Height 1½ feet. Pkt. 5c.

**ZINNIA.** A.

This is one of the most charming flowers, deserving a prominent place in every garden. Plant forms handsome bushes which produce hundreds of nice double flowers all summer and fall. Succeeds everywhere.

**STAR FLOWERED.** (Novelty.) Resembles a miniature Cactus Dahlia; so truly does it render the character of the Cactus form with its pointed petals twisted downward. The plant forms a low, compact bush with strong, green foliage, covered with numerous orange-yellow flowers, which makes a beautiful contrast. It blooms from July to October. Pkt. 1c.

**DOUBLE POMPON.** A very fine strain containing many rich colors and shades. Plants grow about 2 feet high. Pkt. 5c, ½ oz. 15c.

**TALL DOUBLE.** Tall varieties in splendid mixture. Pkt. 5c, ½ oz. 15c.

**NEW GIANT FLOWERED.** Three feet high and are very profuse bloomers. Flowers extremely double and very brilliant in color. Finest mixed. Pkt. 10c, ½ oz. 25c.

**CURLER AND CRESTED.** Flowers are large and double; the petals being twisted and curved. Very nice. Pkt. 5c, ½ oz. 15c.

**DOUBLE LILIPUT OR FAIRY.** 15 inches high. A Fairy with tiny, short stemmed, double flowers. Mixed colors. Pkt. 5c, ½ oz. 15c.

**MEXICAN HYBRIDS.** Produce flowers of the size of a daisy. They are single, semi-double and double, the colors are unique and pleasing. Pkt. 10c, ½ oz. 25c.

**DOUBLE DAHLIA FLOWERED.** A new class, with large, tall varietal-like flowers in all shades. Pkt. 10c, ½ oz. 25c.

**JACQUEMINOT.** Beautiful rich crimson-scarlet, double flower. Pkt. 10c.

**ZEA JAPONICA.** A.

This is a four-colored Japanese maize in green, white, pink and rose. It is exceedingly effective and graceful as a foliage plant, either for centers or borders, as a background. Pkt. 5c.

**WILD FLOWER GARDEN**

This mixture contains several hundred varieties of beautiful flowers, suitable to be planted together. They will form a mass of bright colored flowers and pretty foliage. For borders, along fences and bare spots in the garden, nothing more effective could be desired. Large pkt. 10c, ½ oz. 25c.

**FLOWERS FOR BOUQUETS**

A mixture of annuals which produce flowers suitable for bouquets and decorating, having long stems. Pkt. 10c.
SELECTED CLIMBING PLANTS

ADLUMA. P. Allegheny Vine. A graceful, hardy climber, with feathery, feathery foliage and pretty tube-shaped, pink flowers. Pkt. 10c.

AMPELOPSIS. P. Boston Ivy. Will climb any wall without supports. In fall the leaves turn a rich orange and red. Pkt. 5c, ½ oz. 15c.

BALSA VINE. A. A rapidly growing climber, succeeding best on light soil. Flowers white; seed pods like small balloons. Pkt. 5c, oz. 15c.

BALSAM APPLE AND PEAR MIXED. A. Very curious, rapid and dense growing climbers, with ornamental foliage and pretty fruit, which opens when ripe, showing seeds and blood red inside. Grows 10 ft. high. Pkt. 5c, ½ oz. 15c.

BIGNONIA. P. Trumpet Vine. Grows very tall, bearing clusters of trumpet-shaped flowers of orange. Pkt. 15c.

CANARY BIRD VINE. A. Graceful, rapid growing climber with pretty little canary-yellow flowers. 15 feet high. Pkt. 5c, ½ oz. 15c.

COCOEA SCANDENS. A. Beautiful climber, growing 20 to 30 feet in one season. Large, bell-shaped blue flowers. In sowing, place seeds edgewise, cover with light soil. Pkt. 5c.

DOLICHOS. A. Hyacinth Bean. Very pretty, bean-like flowers in erect racemes, followed by ornamental seed pods. 10 feet high. Pkt. 5c.

EVENING GLORY. A. Quick growing climber with violet-blue flowers. Fragrant in the evening. Pkt. 5c, ½ oz. 15c.

HUMULUS, JAPANESE HOP. A. Variegated Leaved. Rapidly growing climber, 12 to 20 feet high. The leaves are beautifully marbled and splashed with silvery white, light and dark green; very effective for screens, arbors, wallflours, etc. Pkt. 5c.

JAPANESE KUDZU VINE. P. (Jack and the Bean Stalk Vine.) Of wonderfully quick growth, climbing to a height of 60 feet or more, light soil. Flowers are of dark green color and make a dense shade. Pkt. 10c.

LATHYRUS. P. (Everlasting Pea or Hardy Sweet Pea.) Hardy perennial vine, with white, pink and crimson pea-shaped flower clusters. Grows 6 feet high, flowering from July to September. Fine for cut flowers. Pkt. 5c, ½ oz. 15c.

MEXICAN MINA VINE. A. The leaves resemble oak leaves, and the flowers are borne in large clusters. Blood red, yellow, white. Grows 20 to 25 feet high. Pkt. 5c, ½ oz. 20c.

MOONFLOWER, LILAC BLUE. A. Ground cover similar to Moonflower White. Produces lovely, large flowers of lilac blue color. Pkt. 10c.

MOONFLOWER, LILAC PINK. HYBRID. A. Of marvelous growth. Color a most exquisite soft lilac pink. Foliage is dense, luxuriant, and of large size. Pkt. 10c.

PASSION FLOWER. P. Tender perennial climber for the summer garden, for window boxes and pot culture. Flowers beautiful, white and blue; very large, wax-like. Pkt. 10c.

ORNAMENTAL GOURDS

Mixed Morning Glory

NASTURTIUM. A. Tall or Climbing. See Page 102.

SCARLET RUNNER BEAN. A. Well known and popular ornamental vine. Flowers dazzling scarlet and very showy. Large pkt. 10c.

SMILAX. P. Makes a fine pot plant for winter. Lovely glossy green foliage which is greatly prized for bouquets and decorating. Pkt. 5c, ½ oz. 20c.

SWEDISH PEAS. A. See Page 106.

WILD CUCUMBER. A. Will grow 30 feet in one season. Bears pretty white, fragrant flowers, followed by an abundance of ornamental and prickly seed pods. Pkt. 5c, ½ oz. 15c.

CYPRESS VINE. A.

For trellises the Cypress Vine cannot be excelled. It has a profusion of pretty star-shaped blossoms and its fine leaved, feathery foliage is well adapted to ornamental work. Will grow 15 to 20 feet high.

IVY LEAVED. Foilage ornamental. Flowers fiery red. Pkt. 5c, ½ oz. 20c.

SCARLET. Flowers bright, flowing scarlet. Pkt. 5c, ½ oz. 15c, 20c.

WHITE. Pretty blossoms of clear white color. Pkt. 5c, ½ oz. 15c, oz. 25c.

MORNING GLORIES. A.

Well known climbers with beautiful, showy flowers in endless variety of colors. For covering walls, trellises, arbors, stairs of trees, they are invaluable. Will succeed anywhere.

GIANT FLOWERED MIKADO. A new giant type with enormous flowers, handsome colors, shapes and markings. Their colors run from snow white through all shades of blue and from palest pink to darkest reds and purples. Finest mixture. Pkt. 10c, ½ oz. 20c.

IMPERIAL JAPANESE. This is a large flowering Japanese strain, with beautiful blossoms in the most varied colors and shades. Pkt. 5c, oz. 20c.

DOUBLE FLOWERED. Double and semi-double. Finest mixed. Pkt. 10c.

MIXED. The old-fashioned Morning Glories in mixture of many colors. Pkt. 5c, oz. 15c.

ORNAMENTAL GOURDS. A.

Desirable, pretty climbers for many places where a large amount of vines are wanted quickly. The blossoms of some are striking and handsome.

DIPPER. Fruit makes excellent dippers. Pkt. 5c.

HERCULES CLUB. Fruits green, to feet long. Pkt. 5c, oz. 15c.

LUFFA OR DISH CLOTH. Many ladies prefer a dish cloth made of this vegetable. Pkt. 5c.

NEST EGG. Resembling in color, shape and size the eggs of hens. They make best nest eggs. Pkt. 5c, oz. 20c.

ORANGE SHAPED. Known as mock orange. Pkt. 5c, oz. 15c.

SUGAR TROUGH. The fruits have thick shells, very light but durable. Pkt. 5c, oz. 20c.

ORNAMENTAL MIXED. Many varieties mixed. Pkt. 5c, ½ oz. 15c, oz. 25c.
Our farm seeds are grown from carefully selected stock for seed purposes, and every effort is made to keep them pure and free from weed seeds. All varieties which we offer have been well tried and found to be superior merit. We have a new law in Nebraska compelling Seed Houses to sell seeds with purity and germination according to a schedule, which is part of the law. Any seed that is not up to the standard must be labeled as such. We will after this sell farm seeds, including all grasses, clovers, alfalfa, corn, oats, etc., only NEBRASKA STURDY, that is, seeds that will come up to the germination and purity required by our laws. In comparing our prices with those of other Seed Houses, please bear this in mind. Our laws are very strict and we live up to them as nearly as possible for us to do so. At the prices quoted we furnish farm seeds free from charge, but would advise to have all heavier seeds shipped in new Grain Bags, for which we make an extra charge of 23c each. Please notice that seeds cannot be packed together with trees and plants, as the latter are packed in damp moss, whereas seeds must be kept dry. To avoid confusion, but would advise to have all heavier seeds shipped in new Grain Bags, for which we make an extra charge of 23c each. Please notice that seeds cannot be packed together with trees and plants, as the latter are packed in damp moss, whereas seeds must be kept dry. To avoid confusion.

**OATS**

JUNGHANS. I received this oats from a German friend in Wisconsin. He has been raising it with much success for some time. In 1904 he received the First Premium on this splendid new oats at the St. Louis World’s Fair. I find that the oats has very heavy straw, stands up well and the past season we found no rust nor smut in this oats, as we did in many other fields. The strawy has many long, broad leaves, which make it very valuable for feeding stock. The heads are very long and are well filled with large, plump kernels which weigh about 40 lbs. per bushel. It ripens about the same time as the White Swedish Oats. My stock of this oats is not very large, and I would advise my customers to order it by parcel post. Price, by parcel post, 3 lbs. 50c. Not prepaid, pk. 55c; bushel $1.10; 5 bushels $5.25; 10 bushels $10.00.

NEW KHerson. These oats were first introduced here by the University of Nebraska from Russia. This variety ripens two or three weeks earlier than other oats. Plant is vigorous but rather dwarf growth, stiff in straw, hence will withstand strong winds and not lodge. Leaves are broad, heads large and full. Kernels light yellow color and contain an extra large berry. Our seed was grown from the original stock. Price, 4 lbs. 60c postpaid. 3 bushels $1.10; 5 bushel $3.50; 10 bushel $10.00, sacks included.

REGENERATED WHITE SWEDISH SELECT. This oats yields heavily, is free from rust, and withstands drought extremely well. The heads are large and branching, fairly loaded with big, plump, thin-hulled kernels of bright, pure white color. The straw is very stiff and noted for its color to withstand lodging. Price, 3 lbs. 60c postpaid. By freight, not prepaid, bushel $1.10; 5 bushel $5.25; 10 bushel $10.00, sacks included.

**BARLEY**

ODER-STRUCKER. A stiff strawed, heavy yeilder, six-rowed, bearded variety. It has a protein content of 15 per cent, or nearly double the amount found in other varieties. This makes it valuable for feeding barley. Price, 3 lbs. 60c postpaid. By freight, not prepaid, pk. 55c; bushel $1.10; 5 bushel $3.50, sacks included.

WHITE HULLESS. No beards or hulls. The grain looks like wheat. Equal to wheat in feeding value, and will yield nearly twice as much. It is early, thus making a splendid nurse crop with clover; is entirely rust and smut free. Many farmers cut it for hay or silage and use for drying grain and hay. Price, 3 lbs. 50c postpaid. By freight, not prepaid, pk. 75c; bu. $2.00; 5 bu. $9.00, sacks included.

**SPELTZ OR EMMER**

The grain is considered as good as oats for stock and better than barley for hogs. It makes excellent pasture and good hay if cut at proper season. Produces from 50 to 100 bushels of seed per acre, and yields well in dry years. Its is claimed that it will make a crop where the annual rainfall is only 16 inches. Can be grown very easily as plants are not injured by frost or snow. Drill, 2 bushel, or if sown broadcast, 3 bu. per acre. Price, 3 lbs. 50c postpaid. By freight, not prepaid, bu. (40 lbs.) $1.45; 5 bu. $6.75; 10 bu. $12.50.
MACARONI WHEAT
A wheat that will grow where others fail. A very heavy yielding variety, and does especially well in the semi-arid plains. It seems to be always a sure crop, and will mature in a shorter season than any other wheat. The grains are very hard and rather large. Sow early in spring, about 1 1/2 to 2 bushels per acre. Price, 3 lbs. 60c postpaid. By freight, not prepaid, pk. 60c; bu. $1.80; 5 bu. $9.25; 10 bu. $18.00, sacks included.

FLAX SEED
Flax is one of the most profitable crops, especially on new land. It makes a quick crop, being sown in April and harvested in June. The seed is always marketable at a good price. We offer good, clean seed. Sow 1/2 bushel per acre. Price, 3 lbs. 60c postpaid. By freight, not prepaid, pk. 75c; bu. $2.85, bags included.

WINTER RYE
This Rye was introduced by the Agricultural Department of Wisconsin and it has proven to be much superior in yield and quality over the old varieties. It will yield 3 to 20 bushel more seed per acre than any other variety.

WISCONSIN PEDIGREE No. 1. Rye is a sure crop—failures being almost unknown. It is usually sown in the fall and as it grows very vigorous, will furnish pasture until late in the fall, and also early in the spring it makes an abundant stand of grass, but then makes the crop. 3 lbs. 60c postpaid. By freight, not prepaid, pk. 50c; bu. $1.60; 2 bu. $2.85, bags included.

SPRING RYE
Invaluable as a catch crop. Can be sown later than any other spring rye, but usually yields well. The seed we offer is home grown. Price, 3 lbs. 60c postpaid. By freight, not prepaid, pk. 50c; bu. $1.60; 2 bu. $3.90, bags included.

RUSSIAN SUNFLOWER
The largest Sunflower. One of the best paying crops to raise. Seeds are the best of feed for poultry, and much cheaper to raise than corn. 3 to 4 lbs. per acre. Price, lb. 25c; 5 lbs. 70c postpaid. By freight, not prepaid, 10 lbs. $1.00; 25 lbs. $2.25.

BUCKWHEAT
JAPANESE. An early and very prolific variety, with kernels about double the size of ordinary sorts. The best for the Western states, as it withstands drought well; 2 pecks per acre. Price, 3 lbs. 50c postpaid. By freight, not prepaid, pk. 50c; bu. $1.80; 2 bu. $3.40, sacks included.

SILVER HULL. Well known standard variety. Sow one bushel per acre. Price, 3 lbs. 50c postpaid. By freight, not prepaid, peck 60c; bushel $1.80; 2 bushels $3.50, sacks included.

YELLOW LUPINS
One of the best known plants for reclaiming poor soil, particularly sandy and old, worn out land. By plowing a crop of Lupins such land can be made very valuable. The plants in the green state or when dried, make very good fodder for sheep. The seed when burned is excellent as a fertilizer for orange and olive trees. Sow in the spring when the ground has become warm, at the rate of 15 to 100 lbs. per acre. Price, lb. 25c; 5 lbs. 60c postpaid. By freight, not prepaid, 10 lbs. $1.15; 100 lbs. $5.50.

SORGHUM OR SUGAR CANE
Dairy farmers say that Sugar Cane is the most valuable fodder plant in existence for their use. Can be grown anywhere on any soil that will grow corn. It is of the best quality, being sweet, tender, nutritious and greedily eaten by horses, cattle and hogs. It is claimed that as high as ten tons of green fodder have been grown per acre. Sow 100 pounds per acre. It is a profitable crop, also to grow for seed. When grown for seed sow in drills three feet apart, using 4 to 6 pounds of seed per acre. Prices subject to change.

EARLY AMBER. Popular and well known. Succeeds well from Texas to Minnesota. Price, 3 lbs. 40c postpaid. Not prepaid, pk. 40c; bu. $1.10; 5 bu. $5.50.

EARLY ORANGE. Ten to fifteen days later than the Early Amber. Well adapted to South and West. Price, 3 lbs. 40c postpaid. Not prepaid, pk. 40c; bu. $1.20; 5 bu. $5.50.

WHITE KAFFIR CORN
An excellent fodder plant, yielding two crops of fodder during the season. The stalks keep green and juicy, making excellent fodder, either green or dried, which is highly relished by stock. The seed crop is heavy. Sow in rows 3 feet apart, 4 to 5 lbs. per acre. For fodder sow 1/2 to 1 bushel either broadcast or in drills. Price, 3 lbs. 35c postpaid. By freight, pk. 35c; bu. $1.20; 5 bu. $5.50. Write for prices on larger quantities.

RED KAFFIR CORN
Similar to the White, except the seed is of red color. Ripens a little earlier and is said to withstand drought even better than the white. Price, by mail postpaid, 3 lbs. 40c. By freight, not prepaid, pk. 50c; bu. $1.20; 5 bu. $5.25. Write for prices on larger quantities.

Russian Sunflower, 14 inches in diameter.
SELECTED SEED CORN

The greatest care is used in selecting and harvesting our seed corn. Every ear is examined, and if found true to type of that variety, it is then tipped and butted; afterwards shelled and run over our large corn grinder, and not only fanned, but also graded. Seed corn prepared in this manner is well worth the price we ask for it.

Corn in this locality made a very large yield this season and is of very fine quality. The germination qualities were not damaged by frost as it was in other localities in Nebraska and especially Iowa. We guarantee all seed corn we send out to comply with the Pure Seed Law of Nebraska, which requires a germination test of 89 per cent.

REID'S YELLOW DENT. This corn is light golden in color. The ears are 9 to 11 inches long, 15 to 20 rows of kernels. The ears are cylindrical from butt to tip. The cob is completely covered with solid corn, spilling 9 per cent grain, and often better. The kernel's are moderately rough, rather narrow, medium in thickness, wedge shape, setting very close together, with no lost space between the rows. It has an abundance of foliage. Ripens in 110 days. Splendid sort for the Western states in general, but not recommended for the North. Price, 3 lbs. 60c post-paid, By freight, not pre-paid, peck 75c; bu. $2.75; 5 bu. $13.50, sacks included.

IOWA GOLD MINE. Very popular early yellow dent corn, ripening a few days later than Pride of the North. Ears are not large, but of good size and symmetrical; color a bright golden yellow; grain very large, white, very deep kernels, heavy and will mature in 95 days. Price, 3 lbs. 60c post-paid. By freight, not pre-paid, peck 75c; bu. $2.75; 5 bu. $13.00, sacks included.

NEBRASKA YELLOW DENT. The best and heaviest yielding yellow corn for Nebraska and the Western States. Ears are large, uniform in size, and well filled, kernels of good size and golden yellow color. Cobs are small. Stalks are medium size, strong and well rooted, producing two good, well shaped ears each. It is a strong grower and will produce a larger yield on poor land than any other variety. Price, 3 lbs. 60c post-paid. By freight, not pre-paid, pk. 90c; bu. $2.70; 5 bu. $13.00, sacks included.

CHAMPION WHITE PEARL. The stalk is short and thick. The ear grows low on the stalk, is from 7 to 10 inches in length, almost averaging 16 rows of grains. The grains are pure white, very deep, compact and heavy. The cob is small. This variety is a great drought resistser. It matures in 95 to 100 days. Price, 3 lbs. 60c post-paid. By freight, not pre-paid, peck 75c; bu. $2.75; 5 bu. $13.00.

EARLY FLINT. An 8-rowed Flint variety with ears 10 to 15 inches long, 14 to 18 inches in diameter, and are well filled out to the extreme end of the cob. The cob is small and the kernel large and broad, ripens in 75 to 95 days. This corn is adapted to the Northwestern States. Price, 3 lbs. 60c, post-paid. By freight, not pre-paid, pk. 75c; bu. $3.00; 2 bu. $5.75.

SANFORD WHITE FLINT. The most productive White Flint corn, yielding a large crop of corn and fodder at the same time. The ears are very long, measuring from 15 to 15 inches and are of a very handsome appearance, with large kernels of transparent corn color. Price, 3 lbs. 60c post-paid. By freight, not pre-paid, pk. 90c; bu. $3.00; 2 bu. $5.75.

SWEET FODDER CORN. This is of greater value for dairy farmers than common fodder corn on account of its high feed value and milk production quality. As a green fodder for cattle during the summer, one acre is worth eighty acres of ordinary pasture. Sow in drills or broadcast 12 to 25 lbs. per acre. Price, by freight, not pre-paid, pk. 90c; bu. $3.00; 2 bu. $6.25.
BROOM CORN

Broom Corn is one of the most paying crops and is adapted to any soil that will grow corn. It will make a crop with very little rain. One acre will yield 1 to 1 1/2 tons of cured brush and up to 40 bushels of seed, which is nearly equal to oats in feeding value. Plant in drills 3 1/2 feet apart, and in rows about 3 inches apart, and cultivate the same as corn. About 5 to 8 lbs. of seed will plant an acre. If planted the first of June, the crop will be ready to cut September 15th. Prices subject to change.

IMPROVED EVERGREEN. This variety grows about 8 to 10 feet high, stands up well, and is entirely free from crooked bushes. Price, 3 lbs. 75c postpaid. By freight, 10 lbs. 70c; 25 lbs. $1.10; 100 lbs. $3.75, sacks included.

OKLAHOMA DWARF. Most valuable grain grown in Oklahoma and neighboring states. Very early and is a drought resister. Averages 5 feet in height. Is a great yielder. Price, 3 lbs. 75c postpaid. By freight, not prepaid, 10 lbs. 85c; 25 lbs. $1.50; 100 lbs. $5.00, sacks included.

YELLOW MAIZE OR BRANCHING SORGHUM

Highly valued because of its certainty to produce good crops on poor, dry soil. Grows 9 to 10 feet tall and branches freely. The seed heads produce a large quantity of grain, which is superior food for fowls. Plant in drills, 3 to 4 feet apart, using 5 to 6 lbs. per acre. Price, 3 lbs. 60c postpaid. By freight, pk. 40c; bu. (50 lbs.) $1.50; 2 bu. $2.40, sacks included. Prices subject to change.

SAND VETCH OR WINTER VETCH

The true Winter Vetch or Hairy Vetch, a forage plant which has proved of highest value. It succeeds and produces good crops on poor sandy soils, and grows to a height of 4 to 5 feet. It is exceedingly nutritious, is eaten with relish, and may be fed with safety to all kinds of stock. In the earliest crop for cutting, and a full crop may be taken off the land in time for the spring crops. It serves equally well as a cover crop, for pasturage, hay, or as a soil renovator. In the far North sow in the early spring; in moderate climates sow from July to November, broadcast or in drills, at the rate of 1 bushel per acre, with 1/2 to 1 bushel of rye, wheat, barley. Cut when the vetches are in full bloom. Price, lb. 30c; 3 lbs. $1.10, postpaid. By freight, not prepaid, 10 lbs. $2.90; 50 lbs. $13.00, sacks included.

WILD RICE

A valuable plant in lakes and marshes to attract wild fowl. The best crop will be sown between September and October or in early spring. Sow broadcast in drills 6 to 8 inches deep, with mud bottom. Sink seeds in bags in water over night to soak it overnight, so it will sink to the bottom at once. Per lb. 35c, postpaid. Not prepaid, 10 lbs. for $2.25.

FETERITA

A new non-saccharine from Sudan. It is an early maturing drought resisting sorghum of considerable value both for fodder and grain. It has rather slender stems varying in height from 1 to 7 feet with locality and season. The stems are juicy and slightly sweet before ripening. Suckers are produced freely when moisture is sufficient. It is a little earlier than dwarf milo and yields about the same. Sow in hills 40 to 44 inches apart and not before the ground is warm, about 2 weeks after Indian Corn, as it is still more liable to rot in cold ground. 3 to 5 lbs. will sow 1 acre. Price, 3 lbs. 45c postpaid. By freight, pk. 50c; bu. $1.50.

GIANT SPURRY

This is a very valuable annual forage crop for sandy soil or worn out land, where almost no other crop will grow. It is a splendid catch crop in short seasons and makes excellent pasture crop and milch cows. As a fertilizer to plow under it has few equals. Sow 10 to 12 lbs. per acre, broadcast, and harrow it lightly. Price, lb. 25c; 3 lbs. 70c, postpaid. By freight, 10 lbs. 1.25; bu. (50 lbs.) $4.75; sacks included.

TEOSINTE

A valuable forage plant, resembling field corn in its habit of growth, but throwing out side shoots or suckers in much greater profusion. It is greedily eaten by all kinds of stock, either in the field or in the barn. It can be cut two to five times in one season. Should not be planted until the ground is warm. Plant in drills 3 feet apart, dropping three to four seeds every 2 inches, 3 to 4 lbs. will plant an acre. Cultivate the same as field corn. Oz. 5c; 1/4 lb. 15c; lb. 50c; 3 lbs. $1.40, postpaid.

WE DO NOT PREPAY THE FREIGHT CHARGES ON FIELD SEED ORDERS OF $10.00 OR MORE. THIS APPLIES TO TREES AND PLANTS ONLY.
MILLET

Millet is a paying crop for the stock raiser and dairy farmer, because it is of the greatest feeding value and makes good stock feeding. It will yield much more good hay per acre than timothy and clover. Of the greatest value for late sowing as a "catch crop." When spring is so unfavourable and hot that other crops fail to grow, Millet can be put in as late as June 15th, and can be depended upon to make a good crop. Prices are subject to market conditions.

GERMAN OR GOLDEN MILLET. Matures about two weeks later than common millet. It grows from 4 to 5 feet high, yielding any abundance of ears; heads closely condensed; spikes very numerous; seeds round, golden yellow, in rough sheaths. Sow 1 bushel per acre, or for seed ½ bushel. Price, 3 lbs. 35c postpaid. Pk. 40c; bu. $1.40; 5 bu. $6.75, not prepaid.

NEW SIBERIAN. Is earlier than all other kinds and wonderfully productive. Makes fine dry and rust proof hay. Has become very popular in the West, as it withstands droughts well and is extremely hardy. Will yield 50 to 75 bushels of seed per acre. Seed is of reddish color. Sow 2 to 3 pecks per acre. Price, 3 lbs. 50c postpaid. By freight, not prepaid, bushel (50 lbs.) $1.40; 5 bushe. $6.50. Grain bags 25c each extra.

JAPANESE MILLET. A distinctly new variety, which has been called the "Dillon-Dollar Grass." Especially valuable for the Northern states. It yields an enormous crop of foliage, which is greatly relished by stock. When cured it makes an excellent hay. Can be sown until the end of July. It ripens before the wheat. It is 3 feet high. In Kansas and our Western states in general this millet has given splendid results. Sow the seed broadcast at the rate of 15 lbs. per acre, or in drills 12 to 18 inches apart, using 12 to 15 lbs. per acre. Price, 3 lbs. 55c postpaid. By freight, not prepaid, 15 lbs. $1.00; bushel (50 lbs.) $2.50; 100 lbs. $5.00. Grain bags, 25c each extra.

PEARL MILLET. Entirely different from ordinary millet. An immense fodder yielder of tall growth, highly recommended by the U.S. Department of Agriculture. Price, lb. 25c; 3 lbs. 70c, postpaid. By freight, 10 lbs. (for one acre) $1.00; 25 lbs. $2.25; 100 lbs. $5.00.

Millet seed should be shipped in strong grain bags to insure safe transit. We make an extra charge of 25c each for new grain bags.

FIELD PEAS

Valuable for fattening stock. Can also be grown to best advantage for sowing purposes. Great nutritive value for fodder, either when the matured peas are fed as ground feed or when the vines are cured for hay. Can be sown alone or with oats; if sown alone 2 bushels per acre, with oats 1 bushel of peas and 1½ bushels of oats.

CANADA YELLOW OR EAGLE VINE. Ripens early and is a good yielder. Price, 3 lbs. 60c postpaid. By freight, pk. 90c; bu. $3.50; 4 bu. $6.75, sacks included.

GREEN CANADA. Very hardy, extra early and a good yielder. 3 lbs. 60c postpaid. By freight, pk. 90c; bu. $3.50; 2 bu. $6.75, sacks included.

COW PEAS

Largely grown in Southern states, as a hay crop and fertilizer, in which respect they are of great value. May be sown in corn at time of last cultivation or after a crop of early potatoes. Sow broadcast at the rate of 1½ bushels per acre, or they can be planted in rows about 3 feet apart with a corn planter. This will require only 1½ bushel per acre. Prices subject to change.

NEW ERA. The earliest variety and the best sort for the North and West. Price, 3 lbs. 65c postpaid. Crop very short. Pk. $1.00; bu. $3.50. Write for prices on larger quantities.

WIPPOORWILL. A favorite in Oklahoma, Texas, and the South. 3 lbs. 65c postpaid. Crop is short. Pk. $1.00; bu. $3.50. Write for prices on larger quantities.

JERUSALEM CORN

A non-saccharine sorghum, especially adapted for cultivation in dry sections. It is a sure yielder, and is an immense crop of flat, white soft grain, similar to white kaffir corn, and very valuable as a feed for stock and poultry of all kinds. The plant grows about 3 feet high, making a single large head of the main stalk and numerous small heads on the side shoots. Four to five lbs. of seed in drills is required to plant an acre, or if sown broadcast ½ to 1 bushel per acre. Price, 3 lbs. 80c post paid. By freight, not prepaid, pk. 90c; bu. (50 lbs.) $2.25.

SHALLU OR EGYPTIAN CORN

(Sorghum Vulgare.) A well known cereal, it produces a large quantity of seed, of which forbs and animals are fond. Can also be sown broadcast for soiling, or in drills for forage and seed. If sown in drills, one pack of seed per acre is ample. If sown broadcast one bushel per acre. For grain, the stalks should not be nearer than 10 inches in the drill, but if to be cut repeatedly for stock they should be sown quite thickly in the hills. Shallu should not be sown too early, and covered from one-half to one inch. If too much rain in the spring the seed will not come up well; they require more heat than the other sorghums. Price, lb. 25c; 5 lbs. 49c postpaid. By freight, not prepaid, pk. 50c; bu. $1.30.

AUSTRALIAN SALT BUSH

A most valuable plant for regions subject to drought and for growing on alkaline soils. When once established it will make satisfactory pasture or hay crop in the driest weather and on soil so strongly alkaline that nothing else will grow. The plant is of a low spreading growth, sending out runners 8 to 9 feet long in all directions and covering the ground with a thick dense mat of soft yellow leaves. It grows well in sand on well pulverized soil. Price, oz. 15c; ½ lb. 40c; lb. $1.40; 3 lbs. $3.75 by mail prepaid.

WE DO NOT PREPAY THE FREIGHT CHARGES ON FIELD SEED ORDERS OF $10.00 OR MORE. THIS APPLIES TO TREES AND PLANTS ONLY.
CLOVER AND GRASS SEEDS

OUR PRICES on Clover and Grass Seeds are based on the market values prevailing at the time this catalogue goes to press. We reserve the right to fill orders according to price based on the market changes when your order reaches us. We guarantee to give full value for money received and will hold to our catalogue prices as long as our supply of seeds will last. For new grain bags to ship clover seed in we make an extra charge of 2 c. for each bag. Sample packets mailed on application. All seeds put out under our name of NEBRASKA STANDARD, are absolutely the best and finest obtainable and warranted to our law.

ALFALFA OR LUCERNE. The most valuable forage plant. In the driest weather, when every blade of grass withers, Alfalfa is as fresh and green as in the spring, as its roots go down from ten to twenty feet to the moisture of the ground. The seed may be sown early in the spring, as soon as the frost is out of the ground in order to catch the spring rains, as it needs moisture to germinate. Sow the seed broadcast, 15 to 25 lbs. to the acre. Sow with a hand seeder, going over the field crossways and using half the quantity of seed each way. May also be sown in the fall. The seed bed should be well prepared and the ground well pulverized. Our seed is quite free from adulteration. We furnish Nebraska upland grown seed which should not be confounded with seed grown under irrigation as the latter is practically worthless and is unsalable.

Price, Nebraska Standard Grade Alfalfa, per lb. 45c; 3 lbs. $1.25, postpaid. By freight, not prepaid, pk. $4.00; bu. (60 lbs.) $15.00.

TURKESTAN ALFALFA. Has recently been introduced by our Agricultural Department. It was found growing on the island of Japan, and is especially adapted to the sudden changes of temperature that prevail there—intense heat at midday and very often very frost at night, even at midsummer. Turkestan resembles the ordinary cultivated alfalfa described above, except that the leaves are shorter and sparsely clothed with short hairs. Its cultivation has been quite successful in the arid regions of the West, and under conditions where Alfalfa fails, the Turkestan Alfalfa will prove to be of greatest value, and will grow on alkali soils. As there is much seed of the common Alfalfa sold for Turkestan, we wish to state that we have the true Turkestan Alfalfa.

Price, Nebraska Standard Grade of seed, per lb. 45c; 3 lbs. $1.25. By freight, not prepaid, peck $4.10; bushel $15.35.

ESPACETTE CLOVER. (Sanfoin or Sand Clover.) An excellent, but comparatively little known variety of special value. Grown on light, dry, sandy or limestone soil. It is very deep rooted, and therefore withstands drought. It is a good fodder plant on account of its high feeding value. Can be cut twice a year and is exceedingly vigoroussow with oats or barley at the rate of one bushel to the acre. If sown alone about two bushels of seed should be used per acre. Cover the seeds quite deeply.

Price, Nebraska Standard Grade, lb. 30c; 3 lbs. 85c, postpaid. By freight, not prepaid, 25 lbs. $3.50; bu. (45 lbs.) $15.00.

SAND LUCERNE. (Medicago Media.) Variety of Lucerne especially adapted to sandy or heavy sandy land where it will yield heavy crops. It is very long lived, and will grow in all climates. Will furnish from one to three good cuttings a season, according to the fertility of soil. Price, lb. 40c; 5 lbs. $1.25, postpaid. By freight, not prepaid, pk. $4; bu. $15.

Medium Red Clover

SWEET CLOVER, BOKHARA OR BEE CLOVER. (Melilotus Alba.) Will grow on any soil and is invaluable for bee food. It is greatly relished by the bees and makes superior honey. Of great value as a fertilizer. Sweet Clover will furnish the soil with bacteria for the successful growing of alfalfa. It will make sandy soils fertile. Sow 10 to 12 pounds per acre.

Price, Nebraska Standard, per lb. 35c; 3 lbs. $1.00, postpaid. By freight or express, not prepaid, 10 lbs. $2.50; bu. $12.00.

WHITE CLOVER. This is of particular value in mixtures for pastures and lawns, and will grow on almost any kind of soil, excepting wet or very moist ground. Being very hardy and of creeping habit, it will also prevent the ground from being washed away by heavy rains. Sow 5 to 6 lbs. per acre. Seed is very scarce. Write for prices on larger quantities.

Our Nebraska Standard Grade Seed, per lb. 65c; 3 lbs. $1.85, prepaid. Not prepaid, 1 lb. 55c; 5 lbs. $2.65.

MAMMOTH RED CLOVER. (June Clover.) Regarded the most important of all clovers, not only for forage, but also as a soil fertilizer. When sown for forage use 10 to 15 lbs. per acre. Enriches the soil, furnishes an immense amount of grazing, large crops of excellent hay and is a profitable seed crop. It can be sown with wheat or oats early in the spring, but will do equally well when sown in the fall. Our seed is grown on clean land and we clean all seed with the latest improved machines. Our customers are advised to order only receiving the best seed.

Our Nebraska Standard Grade Seed, per lb. 40c; 3 lbs. $1.10, postpaid. By freight or express, not prepaid, pk. $3.85; bu. $14.75. Write for prices on larger quantities.

WE DO NOT PREPAY THE FREIGHT CHARGES ON FIELD SEED ORDERS OF $10.00 OR MORE. THIS APPLIES TO TREES AND PLANTS ONLY.
GRASS SEEDS—(Continued)

PRICES SUBJECT TO CHANGE

ALSIKE OR SWEDISH CLOVER. The advantage which the Alsike Clover and other varieties are their hardiness and true perennial character. It adapts itself to a great variety of soils, growing on the edge of a stream and in swampy or low land, and also to hills or dry and stubborn, stiff clay and upland soils, thus being capable of resisting the extremes of drought and wet alike. It is well liked by all stock, either green in the pasture when cured for hay. Sow 6 to 9 lbs. per acre. Seed is scarce and somewhat higher in price.

Our Nebraska Standard Grade Seed, per lb. 40c; 3 lbs. $1.10 postpaid. Pk. $8.25; bu. $12.00.

JAPAN CLOVER. Well known in the South. Grows most anywhere and lasts a long time; on sands, gravelly or denuded clay hill tops, no other plant is so valuable for grazing. On medium good land up to three tons of hay per acre is no unusual yield. Will thrive in any soil and withstand the driest weather. Sow in spring. 15 to 20 pounds per acre, by itself, or in the fall with rye or winter oats.

Price, Nebraska Standard Grade, 1b. 45c; 3 lb. $1.15, postpaid. By freight, bu. (25 lbs.) $7.50.

CRIMSON CLOVER. (German Mammoth or Giant Inernate Clover.) In this state and north of here this clover is treated as an annual plant and sown in the spring. In the South any time from July to end of September. The only clover that yields a heavy and full crop the first season. The yield in fodder is immense, and after cutting, it at once commences to grow and continues until severe freezing weather. It grows about two feet high. Will grow on nearly all soils, and succeeds well on sandy soil. There is hardly a better crop than Crimson Clover for cutting green. It makes excellent feed for both cows and stock and all kinds of stock. It makes superior hay and is of great value as a fertilizer. Worked soils can be cheaply reclaimed by growing this Clover. Sow in spring 12 to 15 lbs. per acre. Every farmer should sow 5 to 6 lbs. per acre with spring grain for fertilizing purposes. Nebraska Standard Grade, Price, 1b. 30c; 3 lbs. 85c postpaid. By freight, not prepaid, pk. $2.50; bushel $2.50, sacks included.

CREEPING BENT GRASS. This early variety is especially valuable as a pasture grass, and best adapted for low and moist situations. It starts early and holds out very late in the autumn. It does well in rich, and moist soils, being very deep rooted, of quick, successive growth when cropped closely, and of deep habit. Sow 1 to 1 1/2 bushels per acre.

Nebraska Standard Grade, per lb., 40c; 3 lbs. $1.10, postpaid. By freight, not prepaid, bu. (14 lbs.) $3.75; 100 lbs. $25.00, sacks included.

PERENNIAL RYE GRASS. (English Rye Grass.) A nutritious, permanent grass, good for burnows and pastures, or for mixing with other grasses for lawns. It is also well adapted for permanent meadows and yields large quantities of very nutritious hay. Its deep roots and growth of the early growth of the new grasses, succeeds in the shade as well as in the open, and may be sown with good results in orchards or woodland pastures. Sow our Nebraska Standard in spring and fall at the rate of 20 to 30 lbs. per acre.

Price, Nebraska Standard Grade, 1b. 20c; 3 lbs. 85c postpaid. By freight, bu. (20 lbs.) $2.25; 100 lbs. $5.00, sacks included.

ITALIAN RYE GRASS. A quick growing annual grass. Will grow on almost any soil, but thrives best on rich, moist land, where large crops can be made. Valuable for hay and pasture. It is well adapted for pastures on account of its early growth in spring, and its quick and successive after-growth when closely cropped. For this reason it is invaluable to sow as a catch crop in clover fields where the clover has dried or winter killed. When mixed with Crimson Clover and sown on these bare spots in spring, a full crop of grasses is obtained from these fields. Grows 2 to 4 feet high. Sow 20 to 25 lbs. per acre. Price, Nebraska Standard Grade, 1b. 25c; 3 lbs. 65c postpaid. Bu. (14 lbs.) $1.75; 100 lbs. $9.00, sacks included.

MEADOW FESCUE, or English Blue Grass. Succeeds well in almost all soils, from high, dry land in the summer heat excellently. It is valuable as a pasture grass, being one of the earliest in the spring, and latest in the fall. It is highly recommended as a large yielding, nutritious grass for the southern sections of the country as far south as Tennessee, and west into central Kansas. In central Kansas, in particular, where timothy does not grow well, it is always a good stock. May be sown either in spring or in fall. Sow 20 to 30 lbs. per acre.

Price, Nebraska Standard Grade, 1b. 25c; 3 lbs. 76c postpaid. By freight, bu. (24 lbs.) $3.25; 100 lbs. $12.00, sacks included.

TALL MEADOW OAT GRASS. The earliest of all grasses, and one that has naturalized itself all through the western states. It is the first grass to show itself in the spring, and grows rapidly in good soil, showing a height of 4 feet by June. It will furnish two and three cuttings per year and is invaluable for early and late pasturing the grounds without a doubt one of the most valuable grasses for either hay or pastureage. It seems to keep green both in summer and winter, longer than any other grass, and for this reason is also known as Evergreen Grass. Farmers in sections where Timothy does not succeed will make no mistake by sowing this grass liberally. We recommend a mixture of about 10 lbs. each of Meadow Oat Grass, Bromus Inermis and Meadow Fescue, to which clover seed may be added. Sow 20 to 25 lbs. per acre when sown alone.

Nebraska Standard Grade, per lb. 35c; 3 lbs. 85c postpaid. Bu. (14 lbs.) $3.00; 100 lbs. $17.40.

We do not prepay the freight charges on field seed orders of $10.00 or more. This applies to trees and plants only.
GRASS SEEDS (Continued)

BERMUDA GRASS. For the Southern states particularly, this grass is best adapted, and of great value. It is the only grass that will thrive where sod is so hard that it is impossible to break up by cultivation. It grows wherever corn and cotton grow. It grows luxuriantly during the driest weather and will withstand the winters as far North as central Kansas. Sow in spring 5 lbs. per acre. **Price, lb. $1.00 by mail, postpaid. 5 lbs. not prepaid, $4.25.**

BROMUS INERMIS. (Hungarian Brome Grass.) This pre-eminent drought resisting grass stands at the head of all and is destined to lead as the most satisfactory and valuable forage grass in all localities where light soils demand a plant with ability to withstand drought. Stands intensive cold equally as well. It will produce a big crop of hay on land that is too poor to be planted with clover or timothy. May be sown in autumn with winter wheat or in early spring. In the Southern states sow in February or March, preparing the land as for other grasses. For hog pasture a mixture of Bromus Inermis and Alfalfa, where the latter succeeds well, is recommended by Prof. Ten Eyck, of Kansas State Agricultural Experiment Station, and be also suggested for wheat seed. Please write for prices on for cattle a mixture of the following per acre: Bromus Inermis 10 lbs., Orchard Grass 6 lbs., Meadow Fescue 8 lbs., Red Clover 1 to 2 lbs. for this mixture. For work in pastures he advises to disc early in the spring, following with a harrow and sow Bromus Inermis on the land. Sow 20 to 30 lbs. per acre as soon as possible. **Price, Nebraska Standard Grade, lb. 30c; 3 lbs. 80c, postpaid; bu. (14 lbs.) $2.50; 100 lbs. $13.50.**

FANCY KENTUCKY BLUE GRASS. Very valuable and very popular as a permanent pasture grass. The seed may be sown in early spring or fall or during the winter on a light fall of snow. Sow 20 to 30 lbs. per acre for pasture or 60 to 100 lbs. for lawn. Our seed is government tested, first class in every particular and contains no Canada Blue Grass. **Price, Nebraska Standard Grade, lb. 30c; 3 lbs. 80c, postpaid; bu. (14 lbs.) $2.00; 100 lbs. $18.00.**

TIMOTHY. Unsurpassed for hay and greatly liked by all stock. Best suited to moist, rich and loamy soils. Timothy hay always commands a high market price. An excellent meadow can be made by sowing 3 pounds of clean Red Top and 1 or 2 pounds of Red Clover with about 8 pounds of Timothy per acre; 10 to 12 pounds are required when sown alone. Our seed is home grown purity, and contains extra nice qualities and large quantities. Our Nebraska Standard Grade, per lb. 30c; 3 lbs. 80c, postpaid, Pk. $1.10. bu. $4.00, not prepaid.

ORCHARD GRASS. A valuable grass for pasture or hay land, and on account of its hardiness very valuable for permanent pastures. It furnishes the first green bite in spring, and the last in the fall, and is quick to recover from close cropping. It is well suited to sandy places, such as orchards and groves. It is good practice to sow Red Clover with Orchard Grass, either for hay or pasture. According to chemical analysis Orchard Grass is equal, if not superior to Timothy. Orchard Grass is of great value for hay and late pasture, and in the South can be pastured nearly the entire year. Does well in our Western states. It is also quite valuable for binding soils. Sow 20 to 30 pounds per acre. **Price, Nebraska Standard Grade, lb. 30c; 3 lbs. $1.00, postpaid. By freight, bu. (14 lbs.) $3.00; 100 lbs. $18.00.**

SUDAN GRASS

This new grass was introduced into the U. S. in 1908. It has been thoroughly tested out by the U. S. Dept. of Agriculture, and they report that Sudan Grass will be of the greatest value in the Central states, and especially in parts of the states that are deficient in rainfall. Sudan Grass has all the good qualities of Johnson Grass, and yet it does not have the objectionable feature of Johnson Grass. That is, the root stalks by means of which Johnson Grass spreads out year to year and becomes a pest. Sudan Grass is strictly an annual and dies each year like Millet and must be resowed again each spring. It grows very tall, reaching a height of 6 to 8 feet. The stalks are very small and rarely thicker than a lead pencil. It can be cut two to four times a season and makes enormous yields. For feeding, the hay is equal to Timothy hay. It grows in spring as soon as ground has become warm and danger of frost is past. In drills, 2 to 6 lbs. per acre. Broadcast, 16 to 24 lbs. per acre. **Northern grown seed, free from Johnson Grass, lb. 30c; 2 lbs. $1.00, postpaid. By express or freight, 5 lbs. $1.50, 10 lbs. $2.50, not postpaid. Southern grown seed, lb. 25c; 5 lbs. $1.15, postpaid. By express, 5 lbs. $1.00, 16 lbs. $1.50, not prepaid.**

Orchard Grass

Sudan Grass

Kentucky Blue Grass
GRASS SEEDS—(Continued)

SHEEP'S FESCUE. This grass should form a large part of all mixtures intended for sheep grazing on high upland or dry pastures. It is very hardy and permanent, withstandning extremes of cold, heat and drought. It makes a fine lawn grass. Nebraska Standard Grade, per lb. 40c; 3 lbs. $1.10; postpaid. By freight, per bu. (14 lbs.) $3.00; 100 lbs. $20.00, sacks included.

HARD FESCUE. Very valuable pasture grass for dry lands, doing well on sandy, shallow, silicious soils. Exceedingly hard and permanent, grown well in shady places, and is valuable for lawns. Per lb. 50c; 3 lbs. $1.40, postpaid. By freight, bu. (14 lbs.) $4.50, sacks included.

BEST DOGSTAIL. For permanent pastures; especially on high land and dry soils and hills. Very hardy and but little affected by extreme drought or cold weather. Very hardy and grows 1 to 1½ ft. high. Grows well in shady places, and is valuable for lawns. Per lb. 50c; 3 lbs. $1.40, postpaid. By freight, bu. (14 lbs.) $4.50, sacks included.

WOOD MEADOW GRASS. It is invaluable for wood pastures and should be included in all mixtures, especially in shady places. Remarkable for its quick, successive growth. Nebraska Standard Grade, per lb. 75c; 3 lbs. $2.00, postpaid. By freight, bu. (14 lbs.) $10.00, sacks included.

RED TOP. Valuable for most soils. Good permanent grass. Stands our climate well; is adapted to our pastures. Has succeeded on alkali soils when other grasses failed. Fancy clean or husked seed, sow 8 to 10 lbs. to an acre. Nebraska Standard Grade, per lb. 45c; 3 lbs. $1.25, postpaid. By freight, per bu. (14 lbs.) $3.75.

BIRD SEEDS

IDEAL MIXED. Best grade of reclained seed in this mixture. For singing canaries and small birds. Per lb. 18c; 3 lbs. 25c. Postage 10c extra per lb.

GOOD MIXED. For ordinary canaries, etc. Not recommended for singing canaries. Per lb. 17c; 3 lbs. 20c; 15 lbs. 55c. Postage 10c extra per pound.

SICILY CANARY. The best grade imported Sicily canary. Per lb. 16c; 3 lbs. 25c. Postage 10c extra per pound.

RUSSIAN HEMP. Rich, oily seed, liked by all birds. Should be fed sparingly. Per lb. 90c; 3 lbs. 50c. Postage 10c extra per pound.

GERMAN SUMMER RAPE. Best for canaries. Best imported seed only. Per lb. 10c; 3 lbs. 25c. Postage 10c extra per pound. Not prepaid, 10 lbs. 75c.

RUSSIAN SUNFLOWER. Best food for parrots, red birds, etc. Per lb. 16c; 3 lbs. 40c; 10 lbs. $1.00. Postage 10c extra per pound.

FRENCH WHITE MILLET. For canaries and other small birds. Per lb. 20c; 3 lbs. 50c. Postage 10c extra per pound.

BLUE POPPY OR MAW. Small seed liked by all small birds. Used for feeding finches. Large packet 10c; lb. 40c postpaid.

LETTUCE SEED. Liked by all canaries. ½ lb. 10c; 1 lb. 40c postpaid.

BIRD Dainties. Composed of various kinds of seed relished by all birds. Large packet, 10c postpaid.

BEST PLANTS FOR BEE CULTURE

BOKHARA OR BEE CLOVER. (Melilotus Alba.) Will grow on any soil and is invaluable for bee food. It is greatly relished by bees, and makes superior honey. Also of great value as a fertilizing crop. Sow 10 lbs. per acre. Price, 1 lb. 35c; 3 lbs. $1.00, postpaid. By freight or express, 10 lbs. $2.50, not prepaid.

PHACELIA. (Tansy-leaved.) Best of all bee foods. Is much liked because of the mild honey it furnishes. Plants grow about 2 ft. high and bloom very quickly. For this reason can be had in bloom through the entire season if sown four times during the summer. Requires 4 lbs. of seed per acre. Seed is small and should be covered but little. Price, oz. 10c; ½ lb. 25c; lb. 50c postpaid.

SHERIAN DRAGONHEAD. This is one of the honey plants best liked by bees. The plants bloom from June till August, grow about 1½ inches high and are very ornamental besides being useful. Sow the seed thinly where the plants are to remain in April. In bloom from July until September. Price, oz. 10c; ½ lb. 25c; 1 lb. 75c postpaid.

BORAGINE. Excellent bee plant of quick growth and easiest culture. Price, oz. 15c; ½ lb. 50c.

CERINTHE OR WAX PLANT. Beautiful and easily grown annual flowers, furnishing excellent bee pasture, Price, oz. 15c; ½ lb. 50c; lb. $1.50 postpaid.

Hinsdale, Mont., June 28, 1915.

The goods shipped by you about April 25th were received in good condition and I wish to thank you sincerely for the extra sizes of the Delicious and Black Ben Davis apple trees. They are all growing fine.

MRS. L. A. BOYD.

257 E. 85th St., New York, Aug. 9, 1915.

The fruit April 25th were received in good condition to Eastport, L. I. are doing fine; they grew about 2 to 2½ feet, only a few died; expect to get some more this spring.

CHAS. MEYER.
SPECIAL CLOVER GRASS MIXTURES
FOR PERMANENT PASTURES AND MEADOWS

By sowing these Grass Mixtures a much larger yield per acre can be obtained than if only one or two varieties are sown. A pasture containing a variety of grasses and clover is again as productive and can be pastured earlier and longer than if but one kind of grass or clover was used. We have carefully studied the subject and our mixtures are prepared to suit the requirements of the different soils and the purposes for which they are to be used. Write us, giving full particulars as to soils, etc. In making up these grass mixtures we use our Nebraska Standard grade seed only and our prices rule accordingly. Please bear this in mind when comparing prices.

MIXTURES FOR SHEEP PASTURES.

For permanent pastures, dry soils. 25 lbs. per acre, or 15 lbs. for top seeding.

Price: 25 lbs. 25c; 50 lbs. 50c; 100 lbs. 100c.

SMALL QUANTITIES BY MAIL.

For trial we send any of the above mixtures, 3 lbs. for $1.00 postpaid.

LAWN GRASS SEEDS

This is a mixture of the best varieties of grass seeds suited for growing together, and make a beautiful, soft, velvety lawn and keep green from early spring all through the hot, dry summer weather, until late in the fall. It comes up quickly, and after once up it soon spreads to cover the ground and is ready for the lawn mower in six to eight weeks. It is permanent, maintaining its beauty for many years. This mixture is made by ourselves from new crop, recleaned pure seeds of the best varieties. One quart will cover about 500 square feet.

Price: 30c; 4 qts. $1.00 postpaid. By freight or express, not prepaid. 15 lbs. $3.75; 50 lbs. $12.90, sacks included.

TREE SEEDS

FOR FULL DESCRIPTION SEE PAGES 27 TO 33

The seed comes quickest and best when planted in rich, sandy loam. Plants should be naturally or artificially sheltered from heavy east and northeast winds.

ASH. (White.) Fraxinus Americana. Soak the seed for 24 hours in water before sowing.

Price: 5c; 20c; $1.25.

HONEY LOCUST. Gleditsia Triacanthos. Soak seed in water for 24 hours before sowing. 2 oz. in spring, covering about 2 oz. in fall. Plant 20 ft. apart. 5c; 25c; 1lb. 75c postpaid; 10 lbs. $6.00 not prepaid.

MOUNTAIN ASH. Sorbus Aucuparia. Sow the seed very early in the spring and cover 2 inches. Sometimes the seed will not germinate until the second year. 1 oz. 5c; 1 lb. 25c; 1 lb. 75c postpaid; 10 lbs. $6.00 not prepaid.

HACKBERRY. Celtis. Sow early in spring, covering about 2 in. Pkt. 5c; 1 lb. 25c; 1 lb. 75c postpaid.

MULBERRY, RUSSIAN. Morus nigra. Sow in the spring when ground has become warm, covering 1 inch. Pkt. 5c; oz. 25c; 1 lb. 60c; lb. $2.00 postpaid.

MIXTURES FOR TREE SEEDS.

NORWAY MAPLE. Acer Platanoides. Sow seed early in spring or fall, covering 2 inches. Pkt. 5c; 1/2 lb. 25c; 1 lb. 75c postpaid.

OASIS ORANGE. (Hedge Plant.) Maclura Aurantiaca. Before planting soak the seed in water for 6 or 7 days, changing the water every day. Cover 3 inches. Seeding time—spring. Pkt. 5c; 1/2 lb. 25c; 1 lb. 75c postpaid.

PERSMONDS. Diospyros. Sow seed in spring and cover 2 or 3 inches. Oz. 10c; 1/2 lb. 25c; 1 lb. 65c.

FRENCH CRAB APPLE. Best French Seed. Sow early in spring and cover 1 1/2 to 2 inches. If sown in late summer or early fall, soak the seed in water for 3 or 4 days, changing the water every day. Pkt. 5c; oz. 15c; 1/2 lb. 40c; lb. $1.25.

PEAR. Sow thickly in spring, in drills 18 inches apart. Soak the seeds in water, make the soil rich and deep; a moist, rich loam is best. Pkt. 10c; oz. 25c; 1/2 lb. 60c; lb. $2.25.

MAHALEB CHERRY. Sow seed thickly and cover 2 inches. If sown in spring they will come up the following spring. Fall seeding will make plants the next year. Oz. 10c; 1/2 lb. 20c; 1 lb. 65c postpaid.

RUSSIAN OLIVE. Elaeagnus. Sow seed in spring, after soaking same in Luke-warm water for several hours; cover about 2 inches. Pkt. 10c; 1/2 lb. 25c; 1 lb. 75c postpaid.

FOR DESCRIPTION OF VARIETIES, SEE PAGES 34 AND 35

Seed should be sown early in spring in a rich, sandy loam. Shelter the plants from heavy east and northeast winds. Most varieties grow easily from seed. Prices include postage.

CHOICE NORTHERN SEED POTATOES

Our seed potatoes are guaranteed strictly Northern grown; we get them grown on contract by potato specialists in the Northern Section of the Red River Valley, Minnesota. It is essential to change your seed potatoes every few years if you wish to get the largest yield, combined with the best quality. Price by the pound includes postage, larger quantities to go at buyer's expense. Prices subject to market changes late in season, should our stock be exhausted.

**RED RIVER BLISS EXTRA EARLY TRIUMPH.** This is considered the earliest of all potatoes and is the leading early potato of all Southern states. We are all familiar with it as sold at the grocery stores when the first NEW POTATOES are shipped in. It is at least a week earlier than the Early Rose and the Early Ohio. The tubers are of a very handsome appearance, being almost round and most uniform in shape and size, with slightly depressed eyes, which are mostly on the seed end. The skin is of a pretty light red color, while the flesh is of the purest white, both raw and when cooked. Its beautiful appearance, wonderful productiveness and superior table qualities make this potato a favorite for the early market. Price, $1.50; bu. $1.55; 5 bu. $7.25, bags included. Per bbl. $4.50.

**RED RIVER IRISH COBBLER.** An excellent extra early variety, maturing good sized tubers 7 weeks from the time of planting. It has also the remarkable characteristic of producing very few, if any, small potatoes, all the tubers being of marketable size. The vines are short, of upright growth, so that the blossoms are at a short distance apart. Skin is clean and smooth, flesh is pure white, and of excellent quality, always cooking dry and mealy. The Irish Cobbler is esteemed as being the only variety that is planted more extensively on Long Island (New York) than any other potato. Price, 3 lbs. 50c postpaid. By freight, when prepaid, pk. 50c; bu. $1.50; 5 bu. $7.25. Per bbl. $4.50.

**RED RIVER EXTRA EARLY OHIO.** This is without doubt the most popular early potato in the country. We have more calls for it than for any other early. Everyone knows what it is and knows that it can be relied upon for an early market variety in all seasons. They grow larger and more vigorous, maturing the crop in shorter time and yielding much more than home seed, so that there is little or no variation in plant size from year to year. Growers in the South will have their crop ready for market from ten days to two weeks earlier, if our Red River Ohio is planted, than if the same seed is purchased from a local grower. Price, $1.00; pk. 50c postpaid. By freight, when prepaid, pk. 50c; bu. $1.50; 5 bu. $7.25, bags included. Per bbl. $4.50.

**RED RIVER WHITE EARLY OHIO.** No potatoes have been introduced during recent years that deserve so much attention as the White Ohio. As the name indicates, the plants are identical in every way with the Red Early Ohio, the same form and type, but white in color, excepting the eyes, which are pink or red. It is a good yielder and strong healthy grower, and will not scab as easily as the old Early Ohio. As an early market potato the White Ohio is of the greatest value, for it is the only early White Potato so far introduced, that has any special merit. It is just as good in quality, will ripen as early and seems to yield even better than the Red Ohio. Price, 3 lbs. 50c postpaid. By freight, 50c; bu. $1.60; 5 bu. $7.50, bags included. Per bbl. $5.00.

**RED RIVER RURAL, NEW YORKER.** Well known the country over, and very largely planted for a profitable crop. "Dusty Ruralis" always brings the top price in Chicago markets. When Rurals first made their appearance in 1849, an entirely distinct class of potatoes were introduced, and unknown up to that time. The class is characterized by a long, rather spindling vine, with dark colored stalks, dark green leaves and purple blossoms, tubers nearly round, flattened, with very smooth, pure white skin, uniform in size, numerous in hill, very attractive, and of excellent flavor. Price, 3 lbs. 50c postpaid. By freight, pk. 50c; bu. $1.50; 5 bu. $7.50, sacks included. Bbl. $1.65.

**HYBRIDIZED POTATO SEED.** Potato seed from the flower boll (the true seed). It is from such that the choice new varieties of potatoes are originated. The result is interesting, and often very profitable, as you are just as apt to obtain a choice new variety as an experienced potato specialist. Pkt. 10c; 3, 25c.

**"ACME" HAND POTATO PLANTER.** This planter enables one man, going over his field hand plant two or more acres of potatoes in a day. And this almost as easily as he could walk the same distance in the same time. Price, $1.00 by express or freight, not prepaid.

The following report shows the results obtained by the Gage Co. Crop Impr. Association in their experiment in growing potatoes from Northern and home-grown seed. The 1914 season was very dry and many farmers who planted an equal amount of Northern and home-grown seed for experiment found that the potatoes from the home-grown seed were so small that they dug into the Northern grown stock and consequently there were only nine accurate reports received which showed an increase for the Northern grown seed of 28 bu. or 37 per cent per acre. 1915 was a very wet season and from 22 accurate reports the Northern grown seed showed an increase of 9.9 bu. or 1.7 per cent per acre. For both of the seasons there was a large difference in the quality of the yield which was also in favor of the Northern grown seed.

Red River White Ohio

Red River Extra Early Ohio
SPRAYERS

We List Both the Rochester and Brandt Sprayers. They are the best on the market.

BRANDT “PERFECTION” SPRAYER

Built on the best lines, of high grade material and with the idea of turning out a sprayer which has none of the faults and defects so common in some of the Knapsack sprayers heretofore on the market.

The tanks are made of heavier metal than has ever been used in sprayers of this kind, are lock seamed at the corners to convex heads of metal two gauges heavier than the sides, a single seam runs lengthwise of the tank. This seam is reinforced by rivets making the tank practically unbreakable. The pump is 1¼ inch seamless brass tubing with a brass valve, and is sealed into the top of the tank with heavy threads following the construction used in the best makes of fire extinguishers. The pump rod is 5-1/2 inch, and is fitted with anhydrous leather and our special metal expanders.

The hose is attached to the sprayer at an angle so that it will not kink and become cracked and broken. The shoulder strap is attached with snaps and can be quickly and easily removed. The hose is 5-1/2 inch 5-ply cloth inserted, equipped with our automatic shut-off nozzle.

This Sprayer will handle Whitewash, Water Paints, Bordeaux, etc.

For whitewash and all heavy mixtures it is necessary to use a “W. W.” Cap in nozzle, which is furnished with sprayers.

These sprayers are made in galvanized steel or brass as ordered. Weight, 9 pounds empty. All sprayers tested to 60 pounds before leaving factory.

Galvanized Steel .......................................................... $5.00
All Brass ................................................................. 4.50

NO. 5A BRANDT “KING” BARREL SPRAY PUMP

Made for orchards where the trees are large and a great quantity of liquid is to be handled. These pumps are built and so arranged that they may be mounted in any barrel and can be adjusted to varying heights. They have extremely large air chambers which insure a uniform pressure at the nozzle, large cylinders which give great capacity, and removable ball valves which enable the user to keep pump in good working condition without taking it down. These pumps have self-oiling plungers, and are constructed so that the packing may be tightened without taking the plunger out of the cylinder. No leather or rubber of any kind is used in the pumps, the packing is specially prepared and will withstand the action of spraying chemicals longer than any other material and can be replaced in a few minutes at a nominal cost. The pumps have following dimensions: No. 5A has 2-inch cylinder, 2¼-inch air chamber and fastens to end of barrel. Nos. 5 and 6 have door castings to cover filling hole, which make it unnecessary to cut more than one hole in the barrel head. The head castings carry a pattern for cutting the opening in barrel. These pumps have the twin type mechanical agitator, made of hard wood, extra long, with adjustable stroke so that it can be used in any form of tank or barrel. The pumps are sold plain or with the following equipment and at prices shown.

We do not furnish barrels. Price is as follows:

No. 5A “King” Pump, with 15-ft. pressure hose, 8-ft. pipe, nozzle, hose clamps, etc. ............................................ $14.25

“IMPERIAL” SPRAY OUTFIT

This outfit is complete and ready for operation. Holds 32 gallons. Is mounted on two 30-inch wheels with 2-inch oval face, balanced with sufficient weight on the handles to hold it steady on rough surfaces. Is fitted with our No. 5 “King” pump. The pump is held in place by two strong castings and may be raised or lowered down to suit the height of the operator. A mechanical agitator keeps the liquid well mixed. All valves and working parts are brass and the outfit has the following equipment:

Ten-foot 5-ply pressure hose; one brass shut-off cock; 8-ft. iron pipe extension; one single “IDEAL” Nozzle. Shipping weight about 130 lbs. Price, not prepaid, $29.00.

SCOLLEY PLANT SPRAYER

A necessary article for everyone who keeps house plants. With it you can, without injury to the plants or soaking the earth, quickly and effectively sprinkle them. Large size, $1.00; postpaid $1.10. Medium size, 75¢; postpaid 50¢.

BRASS LINED BAMBOO POLES

Bamboo brass lined spray poles, 8, 10 or 12 feet long. The tube is all in one piece, locked to the pole at both ends and works smoothly in the bamboo. It is fitted with drip shield and is furnished either with or without stop cock.

Price complete with cock, 8 ft. ...................................... $3.50
Price complete with cock, 10 ft. .................................... 3.75
Price complete with cock, 12 ft. .................................... 4.00
ROCHESTER BARREL SPRAYER

This Barrel Sprayer is intended for orchard or field spraying, and can be mounted on either the end or side of an ordinary barrel, or on a tank. When desired, two lengths of hose and two or four nozzles can be used by attaching a large Y to the screw spout of pump, so enabling you to spray from both sides of the wagon at the same time.

This pump has large air chamber and possesses great power and force. The churn dash agitator attached to piston thoroughly mixes the solution at every stroke of the pump handle.

We do not furnish barrels, as suitable ones on which pump is easily mounted can be secured in all localities.

At prices quoted below, each pump is fitted with five feet of hose, five feet of extension pipe and one "Kant-Klog" nozzle, making a splendid outfit, fully guaranteed, at a very low cost. No. 8 with all brass plunger, brass valve and valve seat ....................... $11.50

Large Y for attaching 2 hose to spout 80c; additional hose 14c per ft.

ROCHESTER "KANT-KLOG" SPRAYER

On the "KANT-KLOG" nozzle described below, the item of labor alone is three times what the ordinary nozzle can be furnished for. Hose is high grade—supported by collared spring to prevent breaking, couplings solid brass with standard cut threads. Air pump of heavy brass tubing two inches in diameter. The Sprayer body is made of heavy polished brass. Both top and bottom are dome shaped, joined to body under heavy prestressed a nut.

When completed this body is thoroughly tested at double the pressure ordinarily used, the result being that not one in a thousand give any of the troubles common with other constructions. A few seconds working of the air pump charges the sprayer with compressed air, a powerful and elastic force, which discharges the liquid in the form of either fine sprays or solid streams as desired. Each sprayer is fitted without extra charge with "KANT-KLOG" nozzle for making two rounds and one flat sprays, two solid streams, thumb pressure. Spring Hose-Cock, carrier strap and safety valve.

Price, with Polished Brass Body .................. $7.00

ROCHESTER "KANT-KLOG" NOZZLE

Throws Nine Different Sizes of Round Spray, Flat Spray and Solid Streams.

Three of each and all of different size, volume and fineness. A greater variety of sizes and shapes than the most exacting customer. Another most important feature is the device for removing any obstructions resulting from not having properly mixed or strained the liquid. This is accomplished by simply pressing the end of the nozzle against a limb, the cleaning pin and current doing the work without loss of time and patience. Notice there are no projecting parts to catch on limbs of trees. When spraying field crops, the cleaning is done by pressing the rim of nozzle with the thumb. Made of heavy polished brass with 1/2-inch cut threads. Price, $1.00.

ROCHESTER NEW SPRAY AND FORCE PUMP

We do away entirely with the objectionable foot-rest, clamps, leather suction, packing, etc., etc. This Pump requires no fastening of any kind, holds itself down and works anywhere and everywhere. All the operator need do is to press the plunger down. It rises of itself, the upward stroke being made by a brass spring forcing the cylinders apart. The all-brass suction working within a brass cylinder with all brass Valves, does away entirely with all leather, rubber, or other packing. It is practically impossible for any part to get out of order. Everything except handle and hose is Solid Brass. Is the Easiest, the Best, and will do more different kinds of work than any pump ever made. Will pump from a pail, barrel, tank, spring or creek. Without fastenings of any kind it stands firmly wherever placed. Weighs only 4 lbs. and is Ready for Instant Use Everywhere. Farmers with an ordinary amount of spraying put a barrel on their wagons, set this Pump in and spray their trees as effectively as their neighbor who uses an outfit weighing and costing five times as much. Will throw two solid continuous streams, one flat spray and one fine round spray. Has automatic mixer to keep solution stirred for everyday and will last a lifetime.

Price of Pump complete, as shown in cut .................. $3.50

BRANDT DAISY DOUBLE ACTION SPRAYER

Works both ways of stroke, giving twice the results with half the work. Will not turn over on its side and allow the liquid to run out. Made in brass. Holds one quart.

Price, $1.00 each; by paid parcel post $1.15.

BRANDT MIDGET SPRAYER

Capacity one pint. Tank 3 in. in diameter by 3 in. in length.

Made of heavy tin. Nice to spray house flowers with.

Price, each 25c; by paid parcel post, each 35c.

Monett, Mo., March 4, 1915.

I'm enclosing 50c for a small seed order. Should we need anything more later on, we will think of you, for we have found out long ago that your Seed House as well as your Nursery can be depended on.

John C. Fretz.
SPRAYING MATERIAL

Insecticides cannot be sent by mail. The prices quoted are net. Purchaser must pay all express or freight charges. For prices on larger quantities than quoted, write. Any information desired in relation to insecticides or fungicides will be given as far as data at hand will permit.

FRENCH BORDEAUX MIXTURE

In Fine Pulp (or Liquid) Form

The finest and best article of its kind made in America. Ready for use in the bushes. Works freely, without clotting, in any spraying machine. To be diluted 25 to 50 times with water and sprayed.

This article is so well made that it covers a very large leaf surface, the spray being 25 to 50 times better than the protective work. It sticks effectively. Price 1 quart can 4c; 1 gallon can $1.20, not prepaid.

HAMMOND'S SLUG SHOT

A combination of the most potent insecticides and soluble plant foods, it destroys all insects injurious to house or garden plants, shrubs, trees, vines, potatoes, melons, cabbage, currants and vegetables and fruits of all kinds. This preparation, though poisonous to insects, does not injure the foliage. Not on sale, 10c; 15 lbs. 80c. Cannot be sent by mail.

We also have Slug Shot in 1-lb. cartons each with perforated top, ready for use. Price, 1-lb. cartons 15c each.

TOBACCO DUST

Destroys rose bugs, lice, cut worms, vine bugs, tomato worms, currant worms, cabbage worms and larvae of all descriptions. Should be applied when foliage is wet. Will not burn or injure the plants. Price, lb. 10c; 5 lbs. 85c; 10 lbs. 60c, Cannot be sent by mail.

SULPHO TOBACCO SOAP

It quickly exterminates all insect life on plants and flowers in and out of doors. Destroys squash, melon and potato bugs. Makes a good wash for dogs and all animals. Prevents poultry lice. 3 oz. cake (for 1/2 gallon) 10c, or postpaid 15c; 8 oz. cake (for 4 gallons) 20c, or 25c postpaid.

BUG DEATH

This preparation we highly recommend. It is sure death to the potato bug and all other vegetable pests. It is used as a preventative and is given full testimonials by growers, and we feel much confidence in offering it with our endorsement to any of our customers who want a quick-acting non-poisonous bug killer. It can be used on all vegetable and fruit crops with excellent results. 1-lb. pkg., 15c; 2-lb. pkg., 35c; 5-lb. pkg., 50c.

WARNOCK'S TREE PAINT

I hope to interest my customers who are bothered with rabbits gnawing their fruit trees, with the trouble of pear burls, etc. In Warnock's Patent. Here is what the manufacturers claim for their paint:

RABBITS AND MICE. "One application of our paint protects trees from the attacks of Rabbits and Mice for three years. Some of our customers who did not believe the three-year claim, now say the product is more satisfactory than the patent. None used it dispute the three-year claim. The bark absorbs moisture. None evaporates or washes off. Even a goat or any domestic animal will not bite the painted bark."

PEAR AND APPLE BLIGHT. "Pear and Apple twig blight, canker blotches, etc., are caused by bacteria. Our paint will not get the disease. The remedy must be applied at the seat of the trouble. The sap must be treated. Warnock's Tree Paint penetrates the bark and taints the sap. Bacteria cannot live in the taint we put into the sap. Trees that have been infected by these and other diseases will find that painting the bodies and lower parts of the large limbs and canker blotches. Old trees which have rough, thick paint at least twice will find that painting the bodies and lower parts of the large limbs and canker blotches. Young trees that have smooth barks are usually cured by one painting. If trees are infested by San Jose scale or any kind of scale, the product should be applied them by contact. All those parasites are sap suckers. They will not feed on tainted sap. Or if they do, they are not parasites. They are not starved or poisoned. We know the tree is protected which is good enough for us. One of the principal ingredients in Warnock's Tree Paint is pine tar; from which we eliminate the astrangent properties that would injure trees (and yet it is not deodorized). To this we add oil, gum and acid in essential proportions or quantities. Our United States and Canadian patents cover the paint as a product, and the process by which it is made."

BORERS. "The moths that lay the borers' eggs will not deposit eggs on painted trees any more than they will on pine trees. This is true concerning all kinds of fruit trees, plants and flowers. We have used our paint admit this, without a single exception. When we are asked to do over a tree or go up a painted tree to lay her eggs on the foliage and twigs. She shuns a painted tree as she does a pine tree. Our painted trees are absolutely free from canker worms, and ants. Please understand: Trees that are painted to protect them from any of the troubles named above are protected from all of them. Our paint is, and always has been, sold with the manufacturer's guarantee of satisfaction or the money refunded."

Last spring I painted 15 different varieties of trees in my own garden, such as pear, apple, Mountain Ash, Birch, Tree Roses, 5 varieties of Maple, Chestnuts, etc., with this paint. I have had no borers in any of these trees, no blight in the pears and apple, and it has not injured any of the trees in the garden. I can now personally recommend this paint, if it is applied according to direction, paint the whole tree, as the paint will destroy the leaf buds if painted. Just paint the body of the tree to the fine branches. In cool weather warm the paint a little so it will flow easy, otherwise you might get it on too thick. If you will follow these instructions, the paint is absolutely safe and will do the work. The manufacturer will give my customers the same guarantee as the manufacturers; "Satisfaction or the money returned," if the paint is applied according to direction.

Price, one quart 80c; half gallon $1.25; gallon $2.25; 5 gallons or more $1.70 per gallon, not prepaid.

Dale, Ind., October 25th, 1915.

Inter. P. B. Cure Mfg. Co.

I bought a gallon of your Tree Paint last spring to try. I find it to do wonderfully on affected trees. I therefore, ask for the agency, as I shall be able to tell people of my own experience. In fact, I have several gardens engaged; so please send me circulars and also your price list at once. I am anxious to try to help my neighbors to rid their trees of blight. We find the paint excellent for other purposes also.

Yours for business.

HENRY C. MICHEL.

TAKEN FROM THE "KNOX COUNTY DEMOCRAT"

Edina, Mo. October 5th, 1915.

TO ALL FRUIT GROWERS:

We the undersigned have used Warnock's Tree Paint and advise every fruit grower to use it. One treatment lasts three years. See Mr. Warnock's guarantee in booklet.

ELASTIC PRUNING PAINT.

Saves girdled trees, heals cuts and wounds, prevents decay, stops bleeding in pruning and kills the borer. A positive and effectual remedy for the treatment of fruit and shade trees.

It is a positive and healthy stimulant to the growth of wood and bark. It is not poisonous, but no insect can abide it. It is applied like a varnish. After application, it never dries out, and is wholly impervious to air or water, and will keep for years without change or impairment. Its qualities are known and proved.

A tree may be almost completely girdled, and if, within a short time thereafter, the girdled surface be covered with Elastic Pruning Paint, the tree will suffer no substantial loss of growth, a new bark will form, by degrees, upon the girdled surface.

It is an effectual enemy of insects and vermin that attack trees and shrubs in the body, especially the "borer." This troublesome insect deposits its eggs in the bark near the ground in June; after being hatched, the larva saws its way into the tree, perforating it in all directions, sometimes completely girdling it. Elastic Pruning Paint is the only remedy that will absolutely destroy them in their burrow, as well as prevent a deposit of eggs. If applied for that purpose.

It is the result of long experiment. Apply this Paint same as house paint, using a stub or half worn paint brush and wood paddle. In cold weather, warm it up good. I can recommend this Paint.

I find this paint excellent for all wounds of trees and I use it in my own orchard and garden.

**Price,** for one pint can, 25c; one quart can, 55c, postpaid. By freight or express, one pint can, 30c; one quart can, 50c; one gallon can, $1.50, not prepaid.

TREE WAX

Some of my customers have been asking for a tree wax, used in budding or grafting trees, also in pruning them, so I offer same herewith. It is the same as we use in our Nurseries.

**Price,** 3½ lb. 15c; ½ lb. 25c; 1 lb. 50c, postpaid.

TREE PROTECTORS

Our Improved Tree Protectors are made from wood veneer, 10 inches wide by 20 inches long. Their advantages are: The prevention of injury from rabbits and mice; from borers, insect pests, hot blustering sun and winter blasts; from injury against the whiffle-tree when cultivating the orchard, against sun's rays. Trees thus protected will not become hide-bound; it will prevent the bark from bursting open on young trees in extreme cold weather. We will furnish this protector for 2c each, $1.50 per 100, not prepaid.

WARNCKE'S CUTWORM FOOD

This food is a dry, bulky powder, so that one pound is enough for 75 hills or plants. Put a teaspoonful on the ground around the plant. When the worm comes to the surface to feed, it is attracted to the food in preference to any plant, and one feed finishes him. We have never had a complaint that it did not do the work, while many have written that adjoining unprotected plants suffered 50 to 100 per cent loss.

**Price,** 1-lb. cans, 25c each, postpaid, 25c.

WALKER'S EXCELSIOR PLANT FOOD

A soluble food for house plants, containing all the elements necessary to nourish and make beautiful flowers and plants, and prolongs the period of blooming. Large box sufficient for 25 plants for one year 25c; postpaid 40c. Small package 15c; postpaid 25c.

KNOX LICE EXPPELLING NEST EGS

A scientific triumph! Lice killer and nest egg combined in one. Effective, lasting, not expensive, superior to others in form, size and appearance. Just the thing for the laying hens. Price, each 8c; 50c per dozen. Postpaid 12c each.

CULTIVATORS AND SEED DRILLS

"Iron King" Cultivators and Seed Drills have been manufactured for 25 years and are known for their durability, instant adjustment and ease in operation. They are real tools, not playthings, and are largely used by truck gardeners and farmers that will only use the best tools. We prefer them in our nurseries and farms to any other kind.

It is a light, strong tool that runs very easily and will do a great variety of work. The wheel can be set on one side, so the row can be straddled until the plants are six inches high, or two wheels can be used on it. Any of the tools that fit the double wheel cultivator can be used on this. We make a square scuffle hoe especially for this, which is one of the most useful tools we make. Many gardeners say that if they could have only one tool this would be the one they would take. With our knuckle joint it can be set at any angle to go deep or do shallow work. All attachaments on cut.

**PRICE OF SINGLE WHEEL CULTIVATOR**

| Single Wheel Cultivator (with hoes or scuffle hoe). | $3.00 |
| One Gang of five teeth (extra). | 75 |
| One Diamond Pointed Hoe (extra). | .50 |
| Shield or Hood to cover wheel. | 1.00 |
| Scuffle Hoe | 1.00 |

**IRON KING DOUBLE-WHEEL CULTIVATOR WITH DOUBLE DISC ATTACHMENT**

Our double disc attachment is the greatest tool yet made for new or roots ground. They can be set at any angle, and will throw the soil away from plants or be reversed and thrown toward the planting. Try them once and you will never be without. See illustration on next page.

Set of Double Discs with knuckle joints...$1.10
IRON KING DOUBLE WHEEL CULTIVATOR

This is the latest and most improved cultivator made. We have in this all of the good points that are in other good makes, and many good ones that are not in other makes. The wheels are sixteen inches in diameter, with a one-inch tire. The arches are steel and malleable iron, making it very strong and as light as desirable. The arches are sixteen inches high so that the plants can be worked with this until they are very high. The tools are all fastened with knuckle joint, so that they can be set at any angle, making the most complete adjustment possible. A change can be made into a single wheel cultivator or the wheels can be set on the inside of the arch so they will be only about five inches apart. An appliance has been very satisfactory on our Single Wheel Cultivator is a guard for the protection of plants. This is a shaped attachment, fitting the wheel closely and warding off from the spokes, any long branches that may be dropping from the machine.

PRICE OF DOUBLE WHEEL CULTIVATOR

Double Wheel Cultivator with Hoes only $2.50
Set Double Hoes .............................................. .80
Two gangs of five teeth each.......................... 1.00
Set of Double Discs (with knuckle joint)........ 1.00
Diamond Pointed Hoes ................................. 1.00
Onion Lifter .................................................. 1.25
Wire Wedger (four feet long) ......................... 2.00

STEEL FRAME DRILL

The Iron King Seed Drill is constructed of steel throughout. This means that it is indestructible, and will wear an ordinary lifetime. The V-shaped shoe is reinforced with us, making it possible to sow all seed in an exact line, and at a uniform depth. An even stand of plants is therefore assured, which means less work and less expense in cultivation of crop. The Iron King has a 13-inch rear wheel with a 2 1/2-inch tire, and is kept clean by a scraper as illustration shows. By means of this large wheel, the drill can be easily turned around and the seed ordinarily wasted at the end of rows is saved. The chain may be tightened by merely turning the boxes on the drive wheel. With each drill are two agitators, one our regular No. 11 and the other is a brush agitator which prevents any damage to the most delicate seed. The hopper may be easily removed by pushing the eccentric button that holds it to one side. For onions, we furnish a special seed plate, which sows from three pounds to eight pounds per acre, increasing about one-half pound per hole. For onion seed for sets, we make an attachment that makes a place of regular shoe and sows a wide row. The Iron King will sow any seed from tobacco seed to field crop and the desired crop is strengthened by our fertilizer attachment. These attachments are built for sowing commercial fertilizer from 400 to 800 pounds per acre. To put fertilizer attachment on, remove seed hopper and place fertilizer attachment in its stead.

DIRECTIONS FOR USING THE REGULAR SEED PLATE. No. 1 and 2-hole sow turnip, cabbage and small seed. No. 3 sows 3 lbs. of onion seed per acre. No. 4 sows 4 lbs. onion seed per acre Nos. 5 to 9 are for larger seed.

DIRECTIONS FOR SPECIAL ONION SEED PLATE. No. 1 sows 3 lbs. per acre and they increase about ½ lb. per hole.

STOCKING AT THE CULTIVATOR.

Prices of the Drills and Attachments are as follows:

Steel Frame Drill ................................................. $8.00
Fertilizer Attachment (extra) ......................... 2.00
Set Sowing Attachment (extra) ..................... 1.50

MASTERS' PLANT SETTER

In operation the plant roots are put down to proper depth below the surface where the soil is damp and cool enough. You never have to wait for a shower; plants are always ready to be safely set, regardless of weather. Every farmer, truck grower and gardener should have one or more. Any man with very little practice can set 12,000 plants each day. One man and his mule will set, with an assured fertilizer, more plants than three men can set by hand—and every plant is securely rooted by absorption, nature's way, so that it has a chance to grow. Two barrels of water with one of these Setters, will insure a perfect set, of onions and plants, and the better the soil, rain or no rain. The Setter is durably constructed, the invention of a practical man, sold on honor—your satisfaction guaranteed. Price is reasonable. There is no steelping when using. Sets all kinds of plants, such as Cabbage, Broccoli, Tobacco, Cauliflower, Strawberries, Sweet Potatoes, Sugar Beets, etc., and the plants are set in water and covered at one operation. Price, each $4.50.

Could I not replace, I would not exchange my Plant Setter for the best mule team in town. Price of mules ranging from $250.00 to $400.00.

J. WALTER KIGER, Germanton, N. C.

GARDEN TROWELS

An indispensable tool to everyone who has a vegetable or flower garden to look after. 8-inch trowels, 10c each. Extra strong 8-inch trowels 20c each. Postage 5c extra for each trowel.
CYCLONE BROADCAST HAND SEEDER
Warranted to give satisfaction. The Cyclone has a national reputation as a high-grade Seed Sower. It is built not for cheapness, but for durability and accurate work. It weighs less than 4 lbs., yet in size and weight so simple that a boy can operate it. Just the thing for sowing all kinds of clover, alfalfa and grass seed, millet, rye and even larger grains, also fertilizer. Price reduced, $1.50, not prepaid.

EXCELSIOR WEEDER
This is one of the best all around garden weeder and can be used to great advantage in any garden. Price, 10c each. Postpaid, 20c.

LANG’S HAND WEEDER
This is the best hand weeder for all purposes, and a first-class labor saver. We use a large number of these weeder in our nursery, and find them to give perfect satisfaction. Each 25c; 6 for $1.50. Postpaid, 30c each.

ACME POTATO PLANTER
This planter enables one man going over the field but once, to plant two or more acres in a day. And this almost as easily as he could walk the same distance in the same time. It makes the holes, drops and covers at the same time. It is important in planting that they be dropped in moist soil and covered before the soil dries out. This the Acme Planter does perfectly. Weights 2½ lbs. Price, $1.00 by freight or express, not prepaid.

FRUIT PICKER
The superiority of this fruit picker can be seen at a glance. Picking can be done from any angle by a gentle push or pull. Bag is 8 inches deep and 6 inches in diameter. Circle and ferrule are made of 18-gauge steel, strong and durable. Its price is so low that even those who have but little fruit to gather can well afford to buy it. Owning a large orchard will greatly increase the efficiency of their help by supplying each person with one of these pickers. Price, complete, as shown in cut, without pole, each, 75c by paid parcel post.

THE “LAWN PARK” COOP
This is a Parking Coop, made so as to telescope (see cut). It gives double the ranging space when fully extended and gives the picker the natural condition they need for healthy, vigorous growth, namely, sunshine, fresh air and grass. It absolutely protects from rats, cats, dogs, hawks and other enemies, also from dampness and vermin. It is sanitary and easily cleaned. In hot weather it is as cool as any place outdoors. If weather is cold or stormy or too damp, push the park in and the brood and hen are securely sheltered. The “Lawn Park” Coop makes an ideal place for setting a hen. Here, with park extended, she may have small range and access to food and water, and not be disturbed. Also excellent to break up the brood hen. Size extended, 18x48 inches, with park extended, 18x24 inches. Price, $2.50 each, not prepaid.

THE RENKEN SURE CATCH GOPHER TRAP
The trap is easy to set, all you have to do is to open the gopher hole to the main runway (no digging or covering up the trap) put the trap half length into the hole, then set the trap as shown in cut; trap set, the mouth of the trap is a little larger than the ordinary gopher hole, but if the ground is not too hard, the trap is easily set. If, however, the ground is very hard and dry, enlarge the hole a little. One trap is sufficient to catch all the gophers on an ordinary sized farm, but for two reasons you ought to have two or more traps, first if your meadow is any distance from your home it saves you time walking to and from setting traps; and, second, often when you open the gopher hole you get to the main runway, then you have two holes, and you don’t know which hole the gopher will set in, to close first, but if you have two traps you can put one in each hole and be sure of getting the gopher. Price, each 85c, or two for $1.50 by paid parcel post.

Williams, Ore., July 8, 1815.
Please send me one large cake of Sulpho Tobacco Soap. It is sure fine. I have a hedge, California Privet, they just had it stripped but the buds killed all bugs and this year it looks so nice and green. My Burbank and Wickson Plum trees are loaded with fruit. Also the other trees I got from you. I intended sending for some more this year, but was too busy, but have lots of fruit.
Wishing you success,
MRS. J. O. BROWN.
Box 32.
PRUNING KNIVES

No. 1. This pruner is used by most nurseries. The blade is riveted in the handle and cannot be closed. Blade is made of finest high tempered steel. A first-class pruning knife at a low price. Price of Knife No. 1, 50c each, by paid parcel post.

No. 2. This iron handled knife is our best medium sized pocket Pruner; handle is thin, so as to be light and easy in the pocket, the blade is strong enough for nearly all nursery work and fully equal to anything needed in a hot-house. The handle is light malleable iron, in imitation of stag; it is in demand for strength and cheapness; will drive in a nail or peg without damage; weighs only 4 ounces. Price of No. 2, 60c each, by paid parcel post.

No. 3. Same knife as No. 2, but with solid ebony handle. Price of No. 3, 75c each, by paid parcel post.

No. 4. A very good combination knife used extensively in nurseries, parks and by fruit growers. 2 1/4-inch handle. Cut gives exact size of handle and blades. Contains pruning blade, jack-knife blade and budding blade, so that it combines all the cutting tools needed in orchard or garden. Price of No. 4, $1.00 each, by paid parcel post.

All of the above knives have high tempered steel blades. I have used these knives in my nurseries for years. They are always even in quality. Manufactured by one of the best firms in the United States.

KEES CALF WEANERS

Weaners that fasten with split keys or buckles are hard to put on unless the calf holds very still, which it very seldom does. With this one all you have to do is to open it up and close it on the calf's nostrils. One arm is riveted solid to the plate. The other can be turned back to open. A small brass spring holds this arm. It's light—it won't catch on things—the balls are perfectly smooth—there's nothing about it to injure the calf's nose. Won't break, being made entirely of stamped steel, galvanized.

MADE IN TWO SIZES

Price, small, size of plate 3 inches by 4 1/4 inches, 20c each, by paid parcel post. Large, size of plate, 3 3/4 inches by 6 inches, 25c each, by paid parcel post.

BLATCHFORD'S CALF MEAL

THE PERFECT MILK SUBSTITUTE

Will raise or veal calves at from one-third to one-quarter the expense of feeding milk. Raises better calves and saves the milk. You can't afford not to use it. Used and indorsed by experimental stations and farmers all over the world. It is absolutely the only milk substitute that contains all the elements necessary for milk growth in the correct proportions. Pushes pigs, colts, lambs, etc., forward better and quicker than any other food. Prevents scours.

100 POUNDS MAKES 100 GALLONS OF PERFECT MILK SUBSTITUTE

A FREE BOOKLET IS YOURS SIMPLY FOR THE ASKING

It would take a real big book to tell you of all the accomplishments of Blatchford's Calf Meal, but this little booklet will show you in picture and in testimonial some proofs of country-wide results. The facts will give you a good idea of the profits you can reasonably expect through the use of Blatchford's Calf Meal.

Now what is to hinder you from selling all the milk you get and raising your calves at a good profit besides? You know what both beef and veal are worth.

Send in your name and address for a copy of the booklet.

Prices F. O. B. Beatrice, freight not prepaid, are as follows:

In 100 pound sacks each $3.75
In 50 pound sacks each 1.90
In 25 pound sacks each 1.00
500 pounds for 17.50

BLATCHFORD'S PIG MEAL

We want you to know also about Blatchford's Pig Meal, the complete milk-equal having all the elements of whole milk and costing you less than the value of skim milk. It comes in 25-, 50- and 100-pound bags and 100 pounds makes 100 gallons of complete milk-equal.

Now what is to hinder you from selling all the milk you get and raising your pigs at a good profit besides? You know what both beef and veal are worth.

Prices F. O. B. Beatrice, freight not prepaid, are as follows:

In 100 pound sacks each 3.75
In 50 pound sacks 1.90
In 25 pound sacks 1.00
500 pounds for 17.50

BLATCHFORD'S MILK MASH

FOR LITTLE CHICKS

Also read up on Blatchford's Milk Mash, for raising "baby" chicks without the old dread—bowel trouble; for raising milk-fed poultry without milk.

It can double your profits by using this (dry) milk-equal, because it contains all the ingredients found in whole milk and costs you less than half the value of skim milk. Doesn't that sound good?

Prices are F. O. B. Beatrice, freight not prepaid, as follows:

In 4 pound packages each 25c
In 20 pound sacks each 1.00
In 100 pound sacks each 3.50

Gentlemen: Blatchford's Calf Meal is the best calf food I have ever known. For raising calves it is just as good as cows' milk, and doesn't cost one-half as much. I can say that it will pay any one over 100 per cent that has calves to raise. I want another 100-pound bag today.

L. C. BEARD.
Good Farm and Garden Book

Asparagus. By F. M. Haxmer. Practical and reliable treatise on the raising of the plants, selection and preparation of the soil, planting, establishment, feeding, pruning, developing, disease, bunning, packing, marketing, canning, and drying, insect enemies, fungous diseases and every requirement for the successful asparagus grower. Illustrated.
174 pages. 5x7 inches. Cloth. $0.50

Popular fruit growing. By B. S. Green, Professor of Horticulture and Forestry in the University of Minnesota. This book gives full information in regard to planting and making care of all kinds of fruit trees, also a complete spraying calendar with necessary recipes. 233 pages. Price, well bound, cloth cover, $0.95; paper bound, $0.50.

Vegetable Gardening. By the same author as Popular Fruit Growing. 222 pages. Price, paper cover $0.50.

Weeds. By Professor Shaw. 236 pages. Price, paper cover $0.25.

Home floriculture. By Chas. N. Page. A complete guide for the growing of flowers in both house and garden. 157 pages. Paper cover $0.25.

The window flower garden. By Julius J. Heinrich. The author is a practical florist, and this enterprising volume embodies his personal experiences in window gardening during a long period. Illustrated. 211 pages. 5x7 inches. Cloth. $0.50.

Parsons on the rose. By Samuel B. Parsons, A treatise on the propagation of the rose. New and revised edition. A simple garden classification has been adopted, and the leading varieties under each class enumerated and described. Illustrated. 152 pages. 5x7 inches. Cloth. $0.75.

Poultry appliances and handicraft. Compiled by G. B. Pfeiffer. A description of a great variety and styles of the best home-made nests, roosts, windows, ventilators, incubators and breeding and watering appliances, etc., etc. Over 100 illustrations. 5x7 inches. Cloth. $0.50.
